This appropriation is responsible for facilitating and reviewing the Department of Transportation's (DOT) research, development, and technology portfolio, as well as enhancing the data collection and statistical analysis programs to support data-driven decision-making. The program activities are also responsible for Positioning, Navigation, and Timing (PNT) technology, PNT policy coordination, and spectrum management.

This appropriation oversees and provides direction to the following programs and activities:

The Bureau of Transportation Statistics (BTS) manages and shares statistical knowledge and information on the Nation's transportation systems, including statistics on freight movement, geospatial transportation information, and transportation economics. BTS is funded by an allocation from the Federal Highway Administration's Federal-Aid Highways account.

The University Transportation Centers (UTC) advance U.S. technology and expertise in many transportation-related disciplines through grants for transportation education, research, and technology transfer at university-based centers of excellence. The UTC Program funding is provided to the Office of the Assistant Secretary for Research and Technology through an allocation from the Federal Highway Administration.

The John A. Volpe National Transportation Systems Center (Cambridge, MA) provides expertise in research, analysis, technology deployment, and other technical knowledge to DOT and non-DOT customers on specific transportation system projects or issues on a fee-for-service basis.

The Transportation Safety Institute (Oklahoma City, OK) develops and conducts safety, security, and environmental training, products, and services for both the public and private sector on a fee-for-service and tuition basis.

**NATIONAL INFRASTRUCTURE INVESTMENTS**

For capital investments in surface transportation infrastructure, \$1,000,000,000, to remain available through September 30, 2023: Provided, That the Secretary of Transportation shall distribute funds provided under this heading as discretionary grants to be awarded to a State, local government, port authority, transit agency, or a collaboration among such entities on a competitive basis for projects that will have a significant impact on the Nation, a metropolitan area, or a region: Provided further, That projects eligible for funding provided under this heading shall include, but not be limited to, highway or bridge projects eligible under title 23, United States Code; public transportation projects eligible under chapter 53 of title 49, United States Code; passenger and freight rail transportation projects; and port infrastructure investments (including inland port infrastructure and land ports of entry): Provided further, That the Secretary may use up to 20 percent of the funds made available under this heading for the purpose of paying the subsidy and administrative costs of projects eligible for Federal credit assistance under chapter 6 of title 23, United States Code, or sections 501 through 504 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Public Law 94-210), as amended, if the Secretary finds that such use of the funds would advance the purposes of this paragraph: Provided further, That in distributing funds provided under this heading, the Secretary shall take such measures so as to ensure an equitable geographic distribution of funds, an appropriate balance in addressing the needs of urban and rural areas, and the investment in a variety of transportation modes: Provided further, That a grant funded under this heading shall be not less than \$5,000,000: Provided further, That not more than 20 percent of the funds made available under this heading may be awarded to projects in a single State: Provided further, That the Federal share of the costs for which an expenditure is made under this heading shall be up to 80 percent: Provided further, That the Secretary shall give priority to projects that maximize the use of non-Federal funds in order to complete an overall financing package: Provided further, That not less than 30 percent of the funds provided under this heading shall be for projects located in rural areas: Provided further, That for projects located in rural areas, the minimum grant size shall be \$1,000,000 and the

Secretary may increase the Federal share of costs above 80 percent: Provided further, That projects conducted using funds provided under this heading must comply with the requirements of subchapter IV of chapter 31 of title 40, United States Code: Provided further, That the Secretary shall conduct a new competition to select the grants and credit assistance awarded under this heading: Provided further, That the Secretary may retain up to \$25,000,000 of the funds provided under this heading, and may transfer portions of those funds to the Administrators of the Federal Highway Administration, the Federal Transit Administration, the Federal Railroad Administration, and the Maritime Administration to fund the award and oversight of grants and credit assistance made under the National Infrastructure Investments program.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115-245, as amended). This account provides \$1.035 billion in resources to support the Nationally Significant Freight and Highway Projects discretionary grant program, also known as the Infrastructure for Rebuilding America (INFRA) program. These resources supplement the \$1 billion in resources provided by the Highway Trust Fund for the INFRA program as authorized under 23 U.S.C. 117, for a total of \$2.035 billion for the program in 2020. The INFRA program provides financial assistance on a competitive basis to highway, freight rail, intermodal, and port infrastructure projects of national or regional significance. The goals of the program include reducing congestion and bottlenecks, and improving safety, on the Nation's freight networks.

The resources in this account are not subject to the limitation in 23 U.S.C. 117(d)(2)(A) for certain freight projects.

This appropriation finances research and studies concerned with planning, analysis, and information development needed to support the Secretary's responsibilities in the formulation of National transportation policies and the coordination of National level transportation planning. Funding also supports Departmental leadership in areas such as regulatory modernization, energy conservation, environmental and safety impacts of transportation, aviation economic policy, and international transportation issues. The program activities include contracts with other Federal agencies, educational institutions, non-profit research organizations, and private firms. This appropriation also finances the Interagency Infrastructure Permitting Improvement Center, including an online database Permitting Dashboard, to support permitting/environmental review reforms to improve interagency coordination, and make the process for Federal approval for major infrastructure projects more efficient.

The Federal Aviation Reauthorization Act of 1996 (P.L. 104-264) authorized the collection of user fees for services provided by the Federal Aviation Administration (FAA) to aircraft that neither take off nor land in the United States, commonly known as overflight fees. The Act permanently appropriated the first \$50 million of such fees for the Essential Air Service (EAS) program and rural airport improvements. In addition, the FAA Modernization and Reauthorization Act (P.L. 112-95) requires that, in any fiscal year, overflight fees collected in excess of \$50 million will be available to carry out the EAS program. The 2020 Budget proposes to reform the EAS program.

The Working Capital Fund finances common administrative, information technology, and other shared services that are centrally performed in the interest of economy and efficiency. The fund is financed through agreements with the Department of Transportation operating administrations and other customers. In 2020, the Working Capital Fund will likely obligate nearly \$725 million across the Department including \$219 million to continue the Department's move towards implementing Shared Services. The Department's shared services initiative will improve mission delivery in acquisition, human resources, and information technology by consolidating separate, overlapping, and duplicative processes and functions. In 2020, the Department will continue consolidating its commodity IT and begin to coordinate programmatic applications across operating administrations. Utilizing shared services will enable the Department to improve cybersecurity, increase efficiencies, and improve transparency in IT spending.

Through 1997, the Essential Air Service (EAS) program was funded from the Airport and Airway Trust Fund. Starting in 1998, the Federal Aviation Administration reauthorization funded it as a mandatory program supported by overflight fees under the EAS and Rural Airport Improvement Fund. In addition to mandatory funding supported by overflight fees, direct appropriations from the Airport and Airway Trust Fund to Payments to Air Carriers have been enacted every year beginning in 2002 to meet the needs of the essential air service program. The 2020 Budget proposes to reform the EAS program to ensure Federal funds are efficiently targeted at the communities most in need. The reforms include limits to eligibility (only those currently receiving subsidized EAS) and limitations to the waivers for per-passenger subsidies for communities that are within 210 miles of the nearest large/medium hub airport.

ADMINISTRATIVE PROVISIONS

SEC. 101. None of the funds made available in this Act to the Department of Transportation may be obligated for the Office of the Secretary of Transportation to approve assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations in this Act, except for activities underway on the date of enactment of this Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification.

SEC. 102. Notwithstanding section 3324 of title 31, United States Code, in addition to authority provided by section 327 of title 49, United States Code, the Department's Working Capital Fund is hereby authorized to provide payments in advance to vendors that are necessary to carry out the Federal transit pass transportation fringe benefit program under Executive Order 13150 and section 3049 of Public Law 109-59: Provided, That the Department shall include adequate safeguards in the contract with the vendors to ensure timely and high-quality performance under the contract.

SEC. 103. The Secretary shall post on the Web site of the Department of Transportation a schedule of all meetings of the Council on Credit and Finance, including the agenda for each meeting, and require the Council to record the decisions and actions of each meeting.

SEC. 104. In addition to authority provided by section 327 of title 49, United States Code, the Department's Working Capital Fund is hereby authorized to provide partial or full payments in advance and accept subsequent reimbursements from all Federal agencies for transit benefit distribution services that are necessary to carry out the Federal transit pass transportation fringe benefit program under Executive Order No. 13150 and section 3049 of Public Law 109-59: Provided, That the Department shall maintain a reasonable operating reserve in the Working Capital Fund, to be expended in advance to provide uninterrupted transit benefits to Government employees, provided that such reserve will not exceed one month of benefits payable: Provided further, that such reserve may be used only for the purpose of providing for the continuation of transit benefits, provided that the Working Capital Fund will be fully reimbursed by each customer agency for the actual cost of the transit benefit.

SEC. 105.

(a) Section 116 of title 49, United States Code, is amended—

(1) by adding at the end of subsection (d)(1) the following new subparagraph: "(E) The Federal ship financing program authorized under chapter 537 of title 46."; and

(2) in subsection (j)(6), by striking "or multimodal project" and inserting "multimodal project, or ship or ship facility construction, reconstruction, or reconditioning project".

(b) Section 117 of title 49, United States Code, is amended—

The 2020 Budget requests \$10.340 billion for Federal Aviation Administration (FAA) operations. These funds will be used to continue to promote aviation safety and efficiency. The Budget provides funding for the Air Traffic Organization (ATO) which is responsible for managing the air traffic control system. As a performance-based organization, the ATO is designed to provide cost-effective, efficient, and, above all, safe air traffic services. The Budget also funds the Aviation Safety Organization which ensures the safe operation of the airlines and certifies new aviation products. In addition, the request also funds regulation of the commercial space transportation industry, as well as FAA policy oversight and overall management functions.

The Federal Aviation Reauthorization Act of 1996 (P.L. 104-264) authorized the collection of user fees for air traffic control and related services provided by the Federal Aviation Administration to aircraft that neither take off nor land in the United States, commonly known as overflight fees. The Budget estimates that \$151 million in overflight fees will be collected in 2020.

The fund provides direct support for the aviation insurance program (chapter 443 of title 49, U.S. Code). In December 2014, the Congress sunset part of the aviation insurance program. Specifically, the Congress returned U.S. air carriers to the commercial aviation market for all of their war risk insurance coverage by ending the FAA's authority to provide war risk insurance for a premium. Pursuant to 49 U.S.C. 44305, the FAA may provide insurance without premium at the request of the Secretary of Defense, or the head of a department, agency, or instrumentality designated by the President, when the Secretary of Defense, or the designated head, agrees to indemnify the Secretary of Transportation against all losses covered by the insurance. The "non-premium" aviation insurance program is authorized through December 31, 2019.

In 1997, the Federal Aviation Administration (FAA) established a franchise fund to finance operations where the costs for goods and services provided are charged to the users on a fee-for-service basis. The fund improves organizational efficiency and provides better support to FAA's internal and external customers. The activities included in this franchise fund are: training, accounting, travel, duplicating services, multi-media services, information technology, material management (logistics), and aircraft maintenance.

Funding in this account provides for the deployment of communications, navigation, surveillance, and related capabilities within the National Air-space System (NAS). This includes funding for several activities of the Next Generation Air Transportation System, a joint effort between the Department of Transportation, the National Aeronautics and Space Administration, and the Departments of Defense, Homeland Security, and Commerce to improve the safety, capacity, security, and environmental performance of the NAS. The funding request supports the Federal Aviation Administration's comprehensive plan for modernizing, maintaining, and improving air traffic control and airway facilities services.

This account provides funding to conduct research, engineering, and development to improve the national airspace system's capacity and safety, as well as the ability to meet environmental needs. The proposed funding is allocated to the following performance goal areas of the Federal Aviation Administration: improve aviation safety, efficiency, and environmental sustainability. The request includes funding for several research and development activities of the Next Generation Air Transportation System (NextGen), as well as activities related to unmanned aircraft systems.

The 2020 Budget proposes \$10.340 billion for Federal Aviation Administration Operations, of which \$9.364 billion would be provided from the Airport and Airway Trust Fund.

**ADMINISTRATIVE PROVISIONS**

*SEC. 110. The Administrator of the Federal Aviation Administration may reimburse amounts made available to satisfy 49 U.S.C. 41742(a)(1) from fees credited under 49 U.S.C. 45303 and any amount remaining in such account at the close of that fiscal year may be made available to satisfy section 41742(a)(1) for the subsequent fiscal year.*

*SEC. 111. Amounts collected under section 40113(e) of title 49, United States Code, shall be credited to the appropriation current at the time of collection, to be merged with and available for the same purposes of such appropriation.*

*SEC. 112. None of the funds in this Act shall be available for paying premium pay under subsection 5546(a) of title 5, United States Code, to any Federal Aviation Administration employee unless such employee actually performed work during the time corresponding to such premium pay.*

*SEC. 113. None of the funds in this Act may be obligated or expended for an employee of the Federal Aviation Administration to purchase a store gift card or gift certificate through use of a Government-issued credit card.*

*SEC. 114. None of the funds in this Act may be obligated or expended for retention bonuses for an employee of the Federal Aviation Administration without the prior written approval of the Assistant Secretary for Administration of the Department of Transportation.*

*SEC. 115. Notwithstanding any other transfer restriction under this Act, not to exceed 10 percent of any appropriation made available for the current fiscal year for the Federal Aviation Administration by this Act or provided by previous appropriations Acts may be transferred between such appropriations for the Federal Aviation Administration, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfer: Provided, That funds transferred under this section shall be treated as a reprogramming of funds under section 404 of this Act and shall not be available for obligation unless the Committees on Appropriations of the Senate and the House of Representatives are notified 15 days in advance of such transfer: Provided further, That any transfer from an amount made available for obligation as discretionary grants-in-aid for airports pursuant to section 47117(f) of title 49, United States Code shall be deemed as obligated for grants-in-aid for airports under part B of subtitle VII of title 49, United States Code for the purposes of complying with the limitation on incurring obligations in this appropriations Act or any other appropriations Act under the heading "Grants-in-Aid for Airports."*

**FEDERAL HIGHWAY ADMINISTRATION**

The 2020 Budget, which reflects the fifth year of the five-year Fixing America's Surface Transportation (FAST) Act at \$47,104 million, provides the needed funding to: improve the safety, condition, and performance of our national transportation infrastructure; promote innovation to address current and emerging transportation issues; and accelerate project delivery while also protecting the environment.

The table below reflects the budget authority requested for all existing FHWA programs.

This consolidated schedule shows obligations and outlays of amounts appropriated from the General Fund for miscellaneous programs. The schedule reflects a Transportation Infrastructure Finance and Innovation Act (TIFIA) program upward re-estimate, and interest on the re-estimate of \$251 million for 2018 and \$135 million for 2019. The Moving Ahead for Progress in the 21st Century Act (MAP-21), enacted July 6, 2012, and the Fixing America's Surface Transportation (FAST) Act included the TIFIA program upward subsidy re-estimate with this account. No further discretionary appropriations are requested for 2020. A cancellation of \$117 million of unobligated balances is proposed in 2020.

This account includes General Fund discretionary resources appropriated as needed for FHWA's Emergency Relief program, as authorized under 23 U.S.C. 125. In 2012, \$1,662 million was enacted to remain available until expended; in 2013, \$2,022 million was enacted to remain available until expended; in 2017, \$1,532 million was enacted to remain available until expended; and in 2018 \$1,374 million was enacted to remain available until expended, all for necessary expenses for repairing or reconstructing

highways seriously damaged as a result of major disasters declared pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.). These appropriations have been provided to supplement the \$100 million authorized annually under 23 U.S.C. 125 for the Emergency Relief program and included in the Federal-Aid Highways account.

No further appropriations are requested for this account in 2020.

The Office of the Secretary of Transportation (OST) received appropriations totaling \$1,127 million for TIGER discretionary grants as part of the 2010 and 2011 Department of Transportation (DOT) appropriations acts. The appropriations authorized DOT to pay subsidy and administrative costs, not to exceed \$300 million, of projects eligible for Federal credit assistance under Chapter 6 of Title 23 United States Code. In 2012, \$45 million was provided for TIGER discretionary grants as part of the 2012 DOT appropriation act to pay subsidy and administrative costs under the Transportation Infrastructure Finance and Innovation Act program.

In 2010, the Congress appropriated \$650 million for the restoration, repair, and construction of highway infrastructure, and other activities eligible under paragraph (b) of section 133 of title 23, United States Code. The authority for this appropriation is Division A, Title I of P.L. 111-117 (Consolidated Appropriations Act, 2010), Section 122 and was available through 2012. In 2018, the Congress appropriated from the General Fund \$2,525 million, of which \$1,980 million was appropriated for the construction of highways, bridges, and tunnels eligible under section 133(b)(1)(A) of title 23, United States Code; \$15.8 million was appropriated for activities eligible under the Puerto Rico Highway Program as described in section 165(b)((2)(C) of title 23, United States Code; \$4.2 million was appropriated for activities eligible under the Territorial Highway Program as described in section 165(c)(6) of title 23, United States Code; \$300 million was appropriated for the Nationally Significant Federal Lands and Tribal Projects program under section 1123 of the Fixing America's Surface Transportation Act, P.L. 114-94; and \$225 million was appropriated for a competitive highway bridge program for States that have a population density of less than 100 individuals per square mile. The authority for this appropriation is Division L, Title I of P.L. 115-141 (Consolidated Appropriations Act, 2018), and is available through 2021, except for the \$300 million for the Nationally Significant Federal Lands and Tribal Projects program which is available until expended.

FHWA is requesting \$300 million in 2020 for a competitive highway bridge program.

The Federal-Aid Highway Act of 1968 authorized the establishment of a right-of-way revolving fund. This fund was used to make cash advances to States for the purpose of purchasing right-of-way parcels in advance of highway construction and thereby preventing the inflation of land prices from significantly increasing construction costs. The purchase of right-of-way is an eligible expense of the Federal-Aid Highway program.

This program was terminated by the Transportation Equity Act for the 21st Century of 1998, but will continue to be shown for reporting purposes

as loan balances remain outstanding. No new budgetary resources are requested in 2020.

The Highway Revenue Act of 1956, as amended, provides for the transfer from the General Fund to the Highway Trust Fund of revenue from the motor fuel tax, and certain other taxes paid by highway users. The Secretary of the Treasury estimates the amounts to be transferred. In turn, appropriations are authorized from this fund to meet expenditures for Federal-aid highways and other programs as specified by law. To reflect the Highway Trust Fund's structural insolvency, the Budget presents an adjusted baseline that reflects the outlays that can be supported by available revenues, reducing outlays by \$146 billion over the 10-year window. Per the Cash Management Improvement Act of 1990, this account reflects the net of State interest liability and adjusted Federal interest liability payments to or from States.

The following is the status of Highway Trust Fund.

**Cash balances.**—The Status of Funds table begins with the unexpended balance on a "cash basis" at the start of the year. The table shows the amount of cash invested in Federal securities at par value and the amount of cash on hand (i.e., uninvested balance). Next, the table provides the amounts of cash income and cash outlays during each year to show the cash balance at the end of each year.

**Revenues.**—The Budget presentation includes estimated receipts from existing Highway Trust Fund excise taxes, which would continue to be deposited into the Highway and Mass Transit Accounts of the Highway Trust Fund in the same manner as current law.

**General Fund Transfers.**—The Fixing America's Surface Transportation (FAST) Act (Public Law 114-94) authorized the transfer into the Highway Trust Fund of \$70.0 billion from the General Fund of the Treasury in 2016. This transfer was not subject to sequestration. The FAST Act authorized the transfer of \$100 million into the Highway Trust Fund from the Leaking Underground Storage Tank (LUST) Trust Fund in both 2017 and 2018. The 2017 and 2018 LUST Trust Fund transfers were subject to sequestration.

*Funds available for the implementation or execution of Federal-aid highway and highway safety construction programs authorized under titles 23 and 49, United States Code, and the provisions of the Fixing America's Surface Transportation Act shall not exceed total obligations of \$46,365,092,000 for fiscal year 2020: Provided, That the Secretary may collect and spend fees, as authorized by title 23, United States Code, to cover the costs of services of expert firms, including counsel, in the field of municipal and project finance to assist in the underwriting and servicing of Federal credit instruments and all or a portion of the costs to the Federal Government of servicing such credit instruments: Provided further, That such fees are available until expended to pay for such costs: Provided further, That such amounts are in addition to administrative expenses that are also available for such purpose, and are not subject to any obligation limitation or the limitation on administrative expenses under section 608 of title 23, United States Code.*

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(HIGHWAY TRUST FUND)

*For the payment of obligations incurred in carrying out Federal-aid highway and highway safety construction programs authorized under title 23, United States Code, \$47,104,092,000 derived from the Highway Trust Fund (other than the Mass Transit Account), to remain available until expended.*

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115-245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

The Federal-aid Highways (FAH) program is designed to aid in the development, operations, and management of an intermodal transportation system that is economically efficient, environmentally sound, provides the foundation for the Nation to compete in the global economy, and moves people and goods safely. All programs included within the FAH program are proposed to be financed from the Highway Account of the Highway Trust Fund, and most are distributed via apportionments and allocations to States. Liquidating cash appropriations are subsequently requested to fund outlays resulting from obligations incurred under contract authority.

The Federal Highway Administration's (FHWA) 2020 budget consists of the following programs: Highway Safety Improvement Program; National Highway Freight Program; National Highway Performance Program; Surface Transportation Block Grant Program; Congestion Mitigation and Air Quality Improvement Program; Metropolitan Transportation Planning Program; Federal Lands and Tribal Transportation Programs; Nationally Significant Freight and Highway Projects; Transportation Infrastructure Finance and Innovation Act (TIFIA) Program; Research, Technology and Education Program; and Federal Allocation Programs.

*Highway Safety Improvement Program.*—The Highway Safety Improvement Program (\$2.7 billion) provides funding to significantly reduce traffic fatalities and serious injuries on all public roads, including non-State-owned

public roads and roads on Tribal lands. FHWA, through national leadership and innovation, focuses on improving the safety of roadway infrastructure on all public roads. The program provides a data- and performance-driven strategic approach to improving traffic safety to reduce fatalities and serious injuries. It strengthens coordination among all highway safety modes, including the National Highway Traffic Safety Administration and Federal Motor Carrier Safety Administration, in conjunction with all Department safety initiatives. It continues the requirement that each State utilize a Strategic Highway Safety Plan. This statewide, coordinated safety plan provides a comprehensive framework for establishing statewide goals, objectives, and performance targets while ensuring the effective use of safety-focused funding. The Highway Safety Improvement Program includes a \$245 million targeted set-aside for the Railway-Highway Crossings Program to reduce the number of fatalities, injuries, and crashes at public grade crossings.

*National Highway Freight Program.*—The National Highway Freight Program (\$1.5 billion) is a formula program established by the FAST Act that provides States with necessary funds for vital projects that will improve the movement of freight on the National Highway Freight Network, which comprises the 41,500-mile Primary Highway Freight System (PHFS), all other Interstates not on the PHFS, and other State-identified critical rural and urban corridors. The FAST Act requires all States using formula dollars to complete a multimodal State Freight Plan.

*National Highway Performance Program.*—The National Highway Performance Program (\$24.2 billion) is a formula-based program that focuses significant Federal resources to support the condition and performance of the National Highway System (NHS), to support the construction of new facilities on the NHS, and to ensure that investments of Federal-aid funds in highway construction support progress toward the achievement of performance targets for the NHS. The program includes performance management features, holds States accountable for achieving performance targets, and provides flexibility to States for making transportation investment decisions. The 220,000-mile NHS comprises rural and urban roads serving major population centers, international border crossings, intermodal transportation facilities, and major travel destinations. The NHS includes the Interstate System, all principal arterials, intermodal connectors, and other roads important to mobility, commerce, national defense, and intermodal connectivity. The NHS provides mobility to the vast majority of the Nation's population and almost all of its commerce, supports national defense, and promotes intermodal connectivity.

*Surface Transportation Block Grant Program.*—The Surface Transportation Block Grant Program (\$12.1 billion) provides flexible funding that may be used by States and localities for projects to preserve and improve the condition and performance on any Federal-aid highway, bridge and safety projects on any public road, and facilities for non-motorized transportation. The flexible nature of this program allows States to direct funding to areas of greatest need while also fostering innovation. This program gives State transportation agencies the ability to target funding to State and local priorities. States will identify projects for funding in consultation with local transportation officials in rural areas and in cooperation with the Metropolitan Planning Organization (MPO) in metropolitan areas.

*Congestion Mitigation and Air Quality Improvement Program.*—The Congestion Mitigation and Air Quality (CMAQ) Improvement Program (\$2.5 billion) will help States, local governments, and private-sector sponsors reduce highway congestion and harmful emissions, and assist many areas in reaching attainment of the National Ambient Air Quality Standards (NAAQS). The CMAQ program provides a flexible funding source for State and local governments to fund transportation projects and programs that are designed to help localities meet the requirements of the Clean Air Act and its amendments, and help reduce regional congestion on transportation networks. CMAQ investments support transportation projects that are designed to reduce the emissions from mobile sources in areas that have been designated as in nonattainment or in maintenance of the NAAQS by the Environmental Protection Agency.

*Metropolitan Transportation Planning Program.*—The Metropolitan Transportation Planning Program (\$359 million) provides funds for use by Metropolitan Planning Organizations for multimodal transportation planning and programming in metropolitan areas. Metropolitan planning activities include: the collection and analysis of data on demographics, trends, and system performance; travel demand and system performance forecasting; identification and prioritization of transportation system improvement needs; and coordination of the planning process and decision-making with the public, elected officials, and stakeholder groups. The planning process will provide consideration for projects that increase safety, support economic vitality, increase accessibility, mobility, and connectivity, protect and enhance the environment, emphasize the preservation of existing infrastructure, and increase security of the transportation system.

*Federal Lands and Tribal Transportation Programs.*—The Federal Lands and Tribal Transportation Programs (\$1.2 billion) provide funding for transportation construction and engineering projects on Federal and tribal lands that will: provide multi-modal access to basic community services including safer all-weather access to schools and healthcare facilities for 567 federally-recognized sovereign tribal governments; improve multi-modal access to recreational areas on federal lands; and expand economic development in and around federal and tribal lands while preserving the environment and reducing congestion.

*Nationally Significant Freight and Highway Projects.*—The Nationally Significant Freight and Highway Projects (\$1.0 billion) program is a discretionary grant program, established by the FAST Act, for major freight and highway projects that will improve the safety, efficiency, and reliability of the movement of freight and people. Through the advancement of construction-ready projects, this program will enhance the Nation's freight movement.

*Transportation Infrastructure Finance and Innovation Act (TIFIA) Program.*—The TIFIA Program (\$300 million) provides contract authority to cover the subsidy cost of providing credit assistance for nationally or regionally significant transportation projects. The TIFIA Program leverages Federal dollars in a time of scarce budgetary resources, facilitating private participation in transportation projects and encouraging innovative financing mechanisms that help advance projects sooner. This program offers flexible repayment terms and attracts private capital to facilitate transportation projects that would otherwise go unfunded.

*Research, Technology, and Education Program.*—The Research, Technology, and Education (RT&E) Program (\$420 million) provides for a comprehensive, nationally-coordinated research, technology, and education program that will advance the Department of Transportation's goals, while accelerating innovation delivery and technology implementation. FHWA research, development and technology activities include: a highway research and development program; a technology and innovation deployment program; an intelligent transportation systems program; and a training and education program. The RT&E Program supports activities in the areas of safety, infrastructure, and innovation. FHWA is in a unique leadership position to identify and address issues that require high-risk, long-term research, and research on emerging issues of national significance. FHWA's leadership role is necessary to build effective partnerships to maximize the investment in the transportation system. The entire innovation lifecycle is covered under the RT&E Program umbrella from agenda setting to the deployment of technologies and innovations.

*Federal Allocation Programs.*—This categorization consists of funding (\$404 million) for several important programs: Emergency Relief; Territorial and Puerto Rico Highway Program; Construction of Ferry Boats and Ferry Terminal Facilities; On-the-Job Training; Disadvantaged Business Enterprise; and Highway Use Tax Evasion Projects. The Emergency Relief Program has been funded through a recurring annual authorization of \$100 million since 1972. Emergency Relief funding assists Federal, State, tribal, and local governments with the expense of repairing serious damage to Federal-aid, Tribal, and Federal Lands highways resulting from natural disasters or catastrophic failures. The Territorial and Puerto Rico Highway

FEDERAL-AID HIGHWAYS—Continued

Program provides funding for critical highway programs in Puerto Rico and the four territories of American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, and the United States Virgin Islands. The Construction of Ferry Boats and Ferry Terminal Facilities program provides funding for the construction of ferry boats and ferry terminal facilities which will improve connectivity between NHS segments, reduce congestion, and in many cases, provide the only reasonable form of transportation, particularly on coastal islands with year-round residents. The On-the-Job Training program provides funding for developing, conducting, and administering surface transportation and technology training, including skill improvement programs and job readiness. The Disadvantaged Business Enterprise program provides funding for developing, conducting, and administering training and assistance programs to increase the proficiency of minority businesses to compete, on an equal basis, for contracts and subcontracts. The Highway Use Tax Evasion Projects program provides funding to the Internal Revenue Service, other Federal agencies, and the States to carry out intergovernmental enforcement efforts along with training and research to reduce evasion of payment of motor fuel and other highway use taxes, which are the principal sources for Federal and State highway funding.

The Miscellaneous Trust Funds account reflects work performed by the Federal Highway Administration (FHWA) on behalf of other entities.

*Advances from State cooperating agencies and foreign governments.*—Contributions are received from other entities in connection with cooperative engineering, survey, maintenance, and construction projects.

*Contributions for highway research programs.*—Contributions are received from various sources in support of FHWA transportation research programs. The funds are used primarily in support of pooled-funds projects.

The Budget estimates that \$21 million of new authority will be available from non-FHWA sources in 2020.

This account contains miscellaneous appropriations from the Highway Trust Fund. Obligations and outlays result from prior year appropriations. No new budget authority is requested for 2020. A cancellation of \$52 million of unobligated balances is proposed in 2020.

**ADMINISTRATIVE PROVISIONS**

**SEC. 120.** (a) For fiscal year 2020, the Secretary of Transportation shall—  
 (1) not distribute from the obligation limitation for Federal-aid highways—  
 (A) amounts authorized for administrative expenses and programs by section 104(a) of title 23, United States Code; and  
 (B) amounts authorized for the Bureau of Transportation Statistics;  
 (2) not distribute an amount from the obligation limitation for Federal-aid highways that is equal to the unobligated balance of amounts—  
 (A) made available from the Highway Trust Fund (other than the Mass Transit Account) for Federal-aid highway and highway safety construction programs for previous fiscal years the funds for which are allocated by the Secretary (or apportioned by the Secretary under sections 202 or 204 of title 23, United States Code); and  
 (B) for which obligation limitation was provided in a previous fiscal year;  
 (3) determine the proportion that—

(A) the obligation limitation for Federal-aid highways, less the aggregate of amounts not distributed under paragraphs (1) and (2) of this subsection; bears to

(B) the total of the sums authorized to be appropriated for the Federal-aid highway and highway safety construction programs (other than sums authorized to be appropriated for provisions of law described in paragraphs (1) through (11) of subsection (b) and sums authorized to be appropriated for section 119 of title 23, United States Code, equal to the amount referred to in subsection (b)(12) for such fiscal year), less the aggregate of the amounts not distributed under paragraphs (1) and (2) of this subsection;

(4) distribute the obligation limitation for Federal-aid highways, less the aggregate amounts not distributed under paragraphs (1) and (2), for each of the programs (other than programs to which paragraph (1) applies) that are allocated by the Secretary under the Fixing America's Surface Transportation Act and title 23, United States Code, or apportioned by the Secretary under sections 202 or 204 of that title, by multiplying—

(A) the proportion determined under paragraph (3); by

(B) the amounts authorized to be appropriated for each such program for such fiscal year; and

(5) distribute the obligation limitation for Federal-aid highways, less the aggregate amounts not distributed under paragraphs (1) and (2) and the amounts distributed under paragraph (4), for Federal-aid highway and highway safety construction programs that are apportioned by the Secretary under title 23, United States Code (other than the amounts apportioned for the National Highway Performance Program in section 119 of title 23, United States Code, that are exempt from the limitation under subsection (b)(12) and the amounts apportioned under sections 202 and 204 of that title) in the proportion that—

(A) amounts authorized to be appropriated for the programs that are apportioned under title 23, United States Code, to each State for such fiscal year; bears to

(B) the total of the amounts authorized to be appropriated for the programs that are apportioned under title 23, United States Code, to all States for such fiscal year.

(b) **EXCEPTIONS FROM OBLIGATION LIMITATION.**—The obligation limitation for Federal-aid highways shall not apply to obligations under or for—

(1) section 125 of title 23, United States Code;

(2) section 147 of the Surface Transportation Assistance Act of 1978 (23 U.S.C. 144 note; 92 Stat. 2714);

(3) section 9 of the Federal-Aid Highway Act of 1981 (95 Stat. 1701);

(4) subsections (b) and (j) of section 131 of the Surface Transportation Assistance Act of 1982 (96 Stat. 2119);

(5) subsections (b) and (c) of section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (101 Stat. 198);

(6) sections 1103 through 1108 of the Intermodal Surface Transportation Efficiency Act of 1991 (105 Stat. 2027);

(7) section 157 of title 23, United States Code (as in effect on June 8, 1998);

(8) section 105 of title 23, United States Code (as in effect for fiscal years 1998 through 2004, but only in an amount equal to \$639,000,000 for each of those fiscal years);

(9) Federal-aid highway programs for which obligation authority was made available under the Transportation Equity Act for the 21st Century (112 Stat. 107) or subsequent Acts for multiple years or to remain available until expended, but only to the extent that the obligation authority has not lapsed or been used;

(10) section 105 of title 23, United States Code (as in effect for fiscal years 2005 through 2012, but only in an amount equal to \$639,000,000 for each of those fiscal years);

(11) section 1603 of SAFETEA-LU (23 U.S.C. 118 note; 119 Stat. 1248), to the extent that funds obligated in accordance with that section were not subject to a limitation on obligations at the time at which the funds were initially made available for obligation; and

(12) section 119 of title 23, United States Code (but, for each of fiscal years 2013 through 2020, only in an amount equal to \$639,000,000).

(c) **REDISTRIBUTION OF UNUSED OBLIGATION AUTHORITY.**—Notwithstanding subsection (a), the Secretary shall, after August 1 of such fiscal year—

(1) revise a distribution of the obligation limitation made available under subsection (a) if an amount distributed cannot be obligated during that fiscal year; and

(2) redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during that fiscal year, giving priority to those States having large unobligated balances of funds apportioned under sections 144 (as in effect on the day before the date of enactment of Public Law 112-141) and 104 of title 23, United States Code.

**(d) APPLICABILITY OF OBLIGATION LIMITATIONS TO TRANSPORTATION RESEARCH PROGRAMS.—**

(1) **IN GENERAL.**—Except as provided in paragraph (2), the obligation limitation for Federal-aid highways shall apply to contract authority for transportation research programs carried out under—

(A) chapter 5 of title 23, United States Code; and

(B) title VI of the Fixing America's Surface Transportation Act.

(2) **EXCEPTION.**—Obligation authority made available under paragraph (1) shall—

(A) remain available for a period of 4 fiscal years; and

(B) be in addition to the amount of any limitation imposed on obligations for Federal-aid highway and highway safety construction programs for future fiscal years.

**(e) REDISTRIBUTION OF CERTAIN AUTHORIZED FUNDS.—**

(1) **IN GENERAL.**—Not later than 30 days after the date of distribution of obligation limitation under subsection (a), the Secretary shall distribute to the States any funds (excluding funds authorized for the program under section 202 of title 23, United States Code) that—

(A) are authorized to be appropriated for such fiscal year for Federal-aid highway programs; and

(B) the Secretary determines will not be allocated to the States (or will not be apportioned to the States under section 204 of title 23, United States Code), and will not be available for obligation, for such fiscal year because of the imposition of any obligation limitation for such fiscal year.

(2) **RATIO.**—Funds shall be distributed under paragraph (1) in the same proportion as the distribution of obligation authority under subsection (a)(5).

(3) **AVAILABILITY.**—Funds distributed to each State under paragraph (1) shall be available for any purpose described in section 133(b) of title 23, United States Code.

SEC. 121. Notwithstanding 31 U.S.C. 3302, funds received by the Bureau of Transportation Statistics from the sale of data products, for necessary expenses incurred pursuant to chapter 63 of title 49, United States Code, may be credited to the Federal-aid highways account for the purpose of reimbursing the Bureau for such expenses: Provided, That such funds shall be subject to the obligation limitation for Federal-aid highway and highway safety construction programs.

SEC. 122. Not less than 15 days prior to waiving, under his or her statutory authority, any Buy America requirement for Federal-aid highways projects, the Secretary of Transportation shall make an informal public notice and comment opportunity on the intent to issue such waiver and the reasons therefor: Provided, That the Secretary shall provide an annual report to the House and Senate Committees on Appropriations on any waivers granted under the Buy America requirements.

SEC. 123. None of the funds made available in this Act to the Department of Transportation may be used to provide credit assistance unless not less than 1 day before any application approval to provide credit assistance under sections 603 and 604 of title 23, United States Code, the Secretary of Transportation provides notification in writing to the following committees: the House and Senate Committees on Appropriations; the Committee on Environment and Public Works and the Committee on Banking, Housing and Urban Affairs of the Senate; and the Committee on Transportation and Infrastructure of the House of Representatives: Provided, That such notification shall include, but not be limited to, the name of the project sponsor; a description of the project; whether credit assistance will be provided as a direct loan, loan guarantee, or line of credit; and the amount of credit assistance.

SEC. 124. (a) A State or territory, as defined in section 165 of title 23, United States Code, may use for any project eligible under section 133(b) of title 23 or section 165 of title 23 and located within the boundary of the State or territory any earmarked amount, and any associated obligation limitation, provided that the Department of Transportation for the State or territory for which the earmarked amount was originally designated or directed notifies the Secretary of Transportation of its intent to use its authority under this section and submits a quarterly report to the Secretary identifying the projects to which the funding would be applied. Notwithstanding the original period of availability of funds to be obligated under this section, such funds and associated obligation limitation shall remain available for obligation for a period of 3 fiscal years after the fiscal year in which the Secretary of Transportation is notified. The Federal share of the cost of a project carried out with funds made available under this section shall be the same as associated with the earmark.

(b) In this section, the term "earmarked amount" means—

(1) congressionally directed spending, as defined in rule XLIV of the Standing Rules of the Senate, identified in a prior law, report, or joint explanatory statement and administered by the Federal Highway Administration; or

(2) a congressional earmark, as defined in rule XXI of the Rules of the House of Representatives identified in a prior law, report, or joint explanatory statement and administered by the Federal Highway Administration.

(c) The authority under subsection (a) may be exercised only for those projects or activities that have obligated less than 10 percent of the amount made available for obligation as of October 1 of the current fiscal year, and shall be applied to projects within the same general geographic area within 100 miles for which the funding was designated, except that a State or territory may apply such authority to unexpended balances of funds from projects or activities the State or territory certifies have been closed and for which payments have been made under a final voucher.

(d) The Secretary shall submit consolidated reports of the information provided by the States and territories annually to the House and Senate Committees on Appropriations.

SEC. 125. Section 119(e)(5) of title 23, United States Code, is amended to read as follows—

"(5) Requirement for Plan.—Notwithstanding section 120, beginning on October 1, 2019, and each fiscal year thereafter, if the Secretary determines that a State has not developed and implemented a State asset management plan consistent with this section, the Federal share payable on account of any project or activity for which funds are obligated by the State in that fiscal year under this section shall be 65 percent. The Secretary shall make the determination no later than the day before the beginning of each fiscal year."

SEC. 126. Section 133(f) of title 23, United States Code, is amended to read as follows:

"(f) Bridges Not on Federal-aid Highways.—Notwithstanding any other provision of law, with respect to any project not on a Federal-aid highway for the replacement of a bridge or rehabilitation of a bridge that is wholly funded from State and local sources, is eligible for Federal funds under this section, is noncontroversial, is certified by the State to have been carried out in accordance with all standards applicable to such projects under this section, and is determined by the Secretary upon completion to be no longer a deficient bridge—

(1) any amount expended after the date of enactment of this subsection from State and local sources for the project in excess of 20 percent of the cost of construction of the project may be credited to the non-Federal share of the cost of other bridge projects in the State that are eligible for Federal funds under this section; and

(2) that crediting shall be conducted in accordance with procedures established by the Secretary."

**FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION**

The Federal Motor Carrier Safety Administration (FMCSA) was established within the Department of Transportation by the Motor Carrier Safety Improvement Act of 1999 (P.L. 106-159). Prior to this legislation, motor carrier safety responsibilities were under the jurisdiction of the Federal Highway Administration.

FMCSA's mission is to promote safe commercial motor vehicle operation, and reduce truck and bus crashes. The Agency accomplishes this mission by reducing fatalities and property losses associated with commercial motor vehicles through education, regulation, enforcement, research, and innovative technology, thereby achieving a safer and more secure transportation environment. FMCSA is also responsible for enforcing Federal motor carrier safety and hazardous materials regulations for all commercial vehicles entering the United States along its southern and northern borders.

Motor Carrier Safety Grants provide funding to eligible States to conduct compliance reviews; identify and apprehend traffic violators; conduct roadside inspections; and support safety audits on new entrant carriers. The Federal Motor Carrier Safety Administration (FMCSA) also supports States by conducting training for State agency personnel to accomplish motor carrier safety objectives. In addition, FMCSA reviews State commercial driver's license (CDL) oversight activities to prevent unqualified drivers from being issued CDLs, and actively engages with industry and other stakeholders through Innovative Technology programs to improve the safety and productivity of commercial vehicles and drivers.

The Operations and Programs account provides the necessary resources to support program and administrative activities for motor carrier safety. The Federal Motor Carrier Safety Administration (FMCSA) will continue to improve safety and reduce severe and fatal commercial motor vehicles crashes by requiring operators to maintain standards to remain in the industry, and by removing high-risk carriers, vehicles, drivers and service providers from operation. Funding supports Nation-wide motor carrier safety and consumer enforcement efforts, including the continuation of the Compliance, Safety and Accountability Program; regulation and enforcement of movers of household goods; and Federal safety enforcement activities at the borders to ensure that foreign-domiciled carriers entering the U.S. are in compliance with FMCSA regulations. Resources are also provided to fund regulatory development and implementation, investment in research and technology with a focus on research regarding highly automated vehicles and related technology, and information technology's information management, safety outreach and education. The 2020 Budget funds critical safety and operational facility improvements at border and domestic posts, and important safety and safety mission support training for FMCSA staff and to State partners.

**NATIONAL HIGHWAY TRAFFIC SAFETY  
ADMINISTRATION**

The National Highway Traffic Safety Administration (NHTSA) is responsible for motor vehicle safety, highway safety behavioral programs, motor vehicle information, and automobile fuel economy programs. NHTSA is charged with reducing traffic crashes and deaths and injuries resulting from traffic crashes; establishing motor vehicle safety standards for motor vehicles and motor vehicle equipment in interstate commerce; carrying out needed safety research and development; and the operation of the National Driver Register.

The Vehicle Safety programs support activities to reduce highway fatalities, prevent injuries, and reduce their associated economic toll by research into, and implementation of, Federal Motor Vehicle Safety Standards. NHTSA supports ongoing research into complex safety-critical electronic control systems; vehicle cybersecurity; and new and emerging technologies. Additional research areas include safety systems; biomechanics; heavy vehicles safety technologies; and vehicle safety issues related to fuel efficiency and alternative fuels. The Operation and Research programs fund a broad range of initiatives, including promulgation of Federal Motor Vehicle Safety Standards for motor vehicles and safety related equipment; automotive fuel economy standards required by the Energy Policy and Conservation Act, as amended by the Energy Independence and Security Act of 2007; international harmonization of vehicle standards; and consumer information on motor vehicle safety. NHTSA conducts compliance programs for motor vehicle safety and automotive fuel economy standards; investigations of safety-related motor vehicle defects; enforcement of Federal odometer law; support of enforcement of State odometer law; and safety recalls when warranted. Motor vehicle safety research and development supports NHTSA programs through the collection and analysis of crash data to identify safety problems, development of alternative solutions, and assessments of costs, benefits, and effectiveness. Research continues on standards and technologies to improve vehicle crashworthiness and crash avoidance, with emphasis on reducing crashes through active safety and advanced testing of emerging technologies.

The Highway Safety Research and Development programs support research, demonstrations, technical assistance, and national leadership activities for behavioral safety programs conducted by State and local

governments, as well as various safety associations and organizations. These programs emphasize impaired and drug-impaired driving, alcohol and drug countermeasures, driver and passenger occupant protection, driver distraction, traffic enforcement and justice services, emergency medical and trauma care systems, traffic records and licensing, State and community evaluation, motorcycle rider safety, pedestrian and bicycle safety, pupil transportation, young and older driver safety, and development of improved accident investigation procedures. NHTSA will continue to operate the National Driver Register's Problem Driver Pointer System, which helps to identify drivers who have been suspended for or convicted of serious traffic offenses, such as driving under the influence of alcohol or other drugs. Finally, NHTSA will improve its vital data collection and analysis, which form the basis of its research, rulemaking, and performance measurement activities.

NHTSA provides grants to States for activities related to the promotion of highway traffic safety. The Fixing America's Surface Transportation (FAST) Act provided multi-year surface transportation authorization legislation. Under Section 402, the Agency supports State highway safety programs, approved by the Secretary, which are designed to reduce traffic accidents and the resulting deaths, injuries, and property damage. The Agency will continue to implement and promote the use of performance measures and targets as a condition of approval in these programs and to

ensure efficient and effective use of funds. NHTSA also will use dedicated funds from the program to support high visibility enforcement campaigns in the States that promote the use of seat belts and the reduction of drunk driving. Under Section 405, the Agency will make grant awards to States that focus on specific national priority traffic safety areas aimed at reducing highway deaths and injuries. The Agency will make grants to States that develop qualifying plans and complying laws in accordance with the statutory criteria. The focus areas under the Section 405 grant programs include occupant protection, State traffic safety information system improvements, impaired driving countermeasures, distracted driving, motorcyclist safety, State graduated driving licensing, and non-motorized safety programs.

ADMINISTRATIVE PROVISIONS

Sec. 140. An additional \$130,000 shall be made available to the National Highway Traffic Safety Administration, out of the amount limited for section 402 of title 23, United States Code, to pay for travel and related expenses for State management reviews and to pay for core competency development training and related expenses for highway safety staff.

Sec. 141. The limitations on obligations for the programs of the National Highway Traffic Safety Administration set in this Act shall not apply to obligations for which obligation authority was made available in previous public laws but only to the extent that the obligation authority has not lapsed or been used.

Sec. 142. None of the funds made available by this Act may be used to mandate global positioning system (GPS) tracking in private passenger motor vehicles without providing full and appropriate consideration of privacy concerns under 5 U.S.C. chapter 5, subchapter II.

**Federal Funds**

**SAFETY AND OPERATIONS**

For necessary expenses of the Federal Railroad Administration, not otherwise provided for, \$213,134,000, of which \$15,900,000 derived from the general fund shall remain available until expended: Provided, That railroad safety fees collected in fiscal year 2020 as provided in section 152 of this Act, of which \$25,000,000 shall remain available until expended for railroad safety activities, shall be credited as offsetting collections to this account: Provided further, That the one-year portion of the sum herein appropriated from the general fund shall be reduced on a dollar-for-dollar basis as such offsetting collections are received during fiscal year 2020, so as to result in a final appropriation from the general fund estimated at \$163,134,000.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115–245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

Funds requested in the Safety and Operations account support the Federal Railroad Administration's (FRA) personnel and administrative expenses, the cost of rail safety inspectors, and other program activities including contracts. Resources are also provided to fund information management, technology, safety education, and outreach. The Budget includes language in FRA's Administrative Provisions to implement a rail safety user fee to partially offset the cost of rail safety inspectors and activities.

In 2016, \$50 million was appropriated under the Railroad Safety Grants heading to be equally distributed to Railroad Safety Infrastructure Improvement Grants and Railroad Safety Technology Grants. The Fixing America's Surface Transportation (FAST) Act of 2015 (P.L. 114-94) repealed the Railroad Safety Infrastructure Improvement Grants program and did not authorize new funding for the Railroad Safety Technology Grants program. No new funds are requested for this account for 2020.

Funding requested in the Railroad Research and Development Program is focused on improving railroad safety. It provides scientific and engineering support for the Federal Railroad Administration's rail safety enforcement and rulemaking efforts. It also identifies and develops emerging technologies for the rail industry to adopt voluntarily. The outcomes of the research and development reduce accidents and incidents. In addition to improving safety, the program contributes significantly towards activities to achieve and maintain a state of good repair and promote job creation and economic growth.

The program focuses on the following areas of research:

- Track Program.*—Reducing derailments due to track related causes.
- Rolling Stock Program.*—Reducing derailments due to equipment failures, to minimize the consequences of derailments, and to minimize hazardous material releases.
- Train Control and Communication.*—Reducing train to train collisions and train collisions with objects on the line and at grade crossings.
- Human Factors Program.*—Reducing accidents caused by human error.
- Railroad System Issues Program.*—Prioritizing Research and Development projects on the basis of relevance to safety risk reduction and other DOT goals.

Restoration and Enhancement Grants provide operating assistance to initiate, restore, or enhance intercity passenger rail transportation. The program limits assistance to three years per route and no more than six grants may be simultaneously active. Eligible recipients include States; local governments; Amtrak or other rail carriers that provide intercity passenger rail service; and any rail carrier in partnership with another eligible public-sector applicant. The Budget includes \$550 million for operating subsidy as the Department, Amtrak, states and stakeholders begin the process to restructure long distance routes of the National Railroad Passenger Corporation. For 2020 funds provided for purposes of the long distance restructuring proposal, the Budget proposes to remove the authorized limit on the number of simultaneously active grants, extend the authorized maximum grant duration from 3 to 4 years, and permit 100 percent of net operating costs to be funded in the first year of service.

Funds are used to redevelop the Pennsylvania Station in New York City, which involves renovating the James A. Farley Post Office building as Moynihan Station. Funding for this project was included in the Grants to the National Railroad Passenger Corporation appropriation in 1995 through 1997, and the Northeast Corridor Improvement Program in 1998. In 2000, FRA received an advance appropriation of \$20 million for 2001, 2002, and 2003. In 2001, the Congress specified that the \$20 million advance appropriation for the Farley Building be used exclusively for fire and life safety initiatives. In 2016, \$40 million was transferred from the Federal Transit Administration's Hurricane Sandy funding into this account for risk reduction projects at Moynihan Station. No new funds are requested for this account in 2020.

GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION—Continued of the U.S. Government, although, since the railroad's creation FRA has provided annual grants for operating, capital, and debt service costs.

Prior to 2006, FRA received annual appropriations in this account for grants to Amtrak. Since then, several one-time appropriations or funding transfers have been directed to this account, including \$1.3 billion in funds under the American Recovery and Reinvestment Act of 2009; \$112 million from the Disaster Relief Appropriations Act of 2013 (P.L. 113–2) for recovery efforts from super storm Sandy; \$185 million transfer from the Federal Transit Administration for the Hudson Yards disaster resiliency project in New York City; and a \$13 million transfer from the Federal Transit Administration for the Metropolitan Transportation Authority/Long Island Rail Road's River to River Rail Resiliency project in New York City. No new funds are requested for this account in 2020.

NATIONAL NETWORK GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

To enable the Secretary of Transportation to make grants to the National Railroad Passenger Corporation for activities associated with the National Network as authorized by section 11101(b) of the Fixing America's Surface Transportation Act (division A of Public Law 114–94), \$611,000,000, to remain available until expended: Provided, That the Secretary may retain up to an additional \$2,000,000 of the funds provided under this heading to fund expenses associated with the State-Supported Route Committee established under section 24712 of title 49, United States Code.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115–245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

From 2006 to 2016, the Federal Railroad Administration received appropriations to this account to make grants to the National Railroad Passenger Corporation (Amtrak) for capital investments and debt service assistance. The FAST Act authorized two new appropriations accounts for Amtrak—Northeast Corridor grants and National Network grants—which first received funding in 2017. The Administration proposes to continue funding Amtrak under the FAST Act account structure. No new funds are requested for this account in 2020.

This competitive grant program encourages State participation in passenger rail service. Under this program, a State or States may apply for grants for up to 50 percent of the cost of capital investments necessary to support improved intercity passenger rail service that either requires no operating subsidy or for which the State or States agree to provide any needed operating subsidy. To qualify for funding, States must include intercity passenger rail service as an integral part of statewide transportation planning as required under 23 U.S.C. 135. Additionally, the specific project must be on the Statewide Transportation Improvement Plan at the time of application.

No new funds are requested for this account for 2020.

The Railroad Safety Technology Program is a competitive grant program for the deployment of train control technologies to passenger and freight

rail carriers, railroad suppliers, and State and local governments. Projects may include the deployment of train control technologies, train control component technologies, processor-based technologies, electronically controlled pneumatic brakes, rail integrity inspection systems, rail integrity warning systems, switch position indicators and monitors, remote control power switch technologies, track integrity circuit technologies, and other new technologies that improve the safety of railroad systems.

FRA has given priority to projects that make technologies interoperable between railroad systems; accelerate the deployment of train control technology on high risk corridors, such as those that have high volumes of hazardous materials shipments, or over which commuter or passenger trains operate; or benefit both passenger and freight safety and efficiency.

No new funds are requested for this account for 2020. The FAST Act did not authorize new funding for the Railroad Safety Technology Grants program.

Funding requested in the Federal-State Partnership for State of Good Repair account are intended to reduce the state of good repair backlog on publicly-owned or Amtrak-owned infrastructure, equipment and facilities. Eligible activities include capital projects to 1) replace existing assets in-kind or with assets that increase capacity or service levels; 2) ensure that service can be maintained while existing assets are brought into a state of good repair; and 3) bring existing assets into a state of good repair. Eligible recipients include states, local governments and Amtrak. The program was authorized in 2015 by the Fixing America's Surface Transportation Act.

Consolidated Rail Infrastructure and Safety Improvements are intended to improve the safety, efficiency, and reliability of passenger and freight rail systems. Eligible activities include a wide range of freight and passenger rail capital, planning, environmental analyses, research, workforce development and training projects. Eligible recipients include States; local governments; Class II and Class III railroads; Amtrak and other intercity passenger rail operators; rail carriers and equipment manufacturers that partner with an eligible public-sector applicant, the Transportation Research Board, University Transportation Centers, and non-profit rail labor organizations. The program was authorized in 2015 by the Fixing America's Surface

Transportation Act. The Budget includes \$330 million for this account for 2020.

The Transportation Equity Act of the 21st Century of 1998 established the Railroad Rehabilitation and Improvement Financing (RRIF) loan and loan guarantee program. The Safe, Accountable, Flexible, Efficient Transportation Equity Act of 2005: A Legacy for Users, changed the program to allow FRA to issue direct loan and loan guarantees up to \$35 billion, and it required that no less than \$7 billion be reserved for projects primarily benefiting freight railroads other than Class I carriers. The program was expanded by the Rail Safety Improvement Act of 2008 and again by the Fixing America's Surface Transportation Act in 2015. The funding may be used: 1) to acquire, improve, or rehabilitate intermodal or rail equipment or facilities, including track, components of track, bridges, yards, buildings, or shops; 2) to refinance debt; 3) to develop and establish new intermodal or railroad facilities; 4) to reimburse related planning and design expenses; 5) and to finance (by December 2019) certain economic development related to passenger rail stations. In 2016, \$1.96 million was made available to assist Class II and Class III railroads in covering RRIF loan application expenses. In 2018, \$25 million was made available for the subsidy costs of new loans, or the cost of loan modifications, with an additional \$17 million being appropriated in 2019 for a similar purpose. No new funds are requested for this account in 2020.

**ADMINISTRATIVE PROVISIONS**

SEC. 150. None of the funds provided to the National Railroad Passenger Corporation may be used to fund any overtime costs in excess of \$35,000 for any individual

employee: Provided, That the President of Amtrak may waive the cap set in the previous proviso for specific employees when the President of Amtrak determines such a cap poses a risk to the safety and operational efficiency of the system: Provided further, That the President of Amtrak shall report to the House and Senate Committees on Appropriations each quarter of the calendar year on waivers granted to employees and amounts paid above the cap for each month within such quarter and delineate the reasons each waiver was granted: Provided further, That the President of Amtrak shall report to the House and Senate Committees on Appropriations within 60 days of enactment of this Act, a summary of all overtime payments incurred by the Corporation for 2019 and the three prior calendar years: Provided further, That such summary shall include the total number of employees that received waivers and the total overtime payments the Corporation paid to those employees receiving waivers for each month for 2019 and for the three prior calendar years.

SEC. 151. Notwithstanding section 1302 of title 40, United States Code, the Federal Railroad Administration may lease to others or enter into contracts, for such consideration, and subject to such terms and conditions, as it determines to be in the best interests of the government, for a term of up to 20 years for the continued operation and maintenance and capital reinvestment of the Transportation Technology Center near Pueblo, Colorado.

SEC. 152. RAILROAD SAFETY USER FEES.

(a) SCHEDULE OF RAILROAD SAFETY USER FEES. The Secretary of Transportation shall prescribe by regulation, for application in fiscal year 2020 and in subsequent fiscal years, a schedule of rail safety fees for railroad carriers subject to Part A of Subtitle V of title 49, United States Code. The fees shall be imposed fairly on railroad carriers, in reasonable relationship to appropriate criteria to be developed by the Secretary.

(b) COLLECTION PROCEDURES. The Secretary shall prescribe procedures to collect the fees. The Secretary may use the services of a department, agency, or instrumentality of the United States Government or a State or local authority to collect the fees, and may reimburse the department, agency, instrumentality, or authority a reasonable amount for its services.

(c) COLLECTION, DEPOSIT, AND USE.—

(1) Fees collected under this section shall be deposited in the Federal Railroad Administrations Safety and Operations account as offsetting collections.

(2) Such fees shall be collected and available to the extent provided in appropriations acts.

SEC. 153. Of the unobligated balances of funds remaining from—

(1) Public Law 111–117 appropriated to "Capital Assistance for High Speed Rail Corridors and Intercity Passenger Rail Service", a total of \$53,404,128.31 is hereby permanently cancelled;

(2) Public Law 110–161 appropriated to "Rail Line Relocation and Improvement Program", a total of \$340,861.51 is hereby permanently cancelled;

(3) Public Law 111–8 appropriated to "Rail Line Relocation and Improvement Program", a total of \$485,764.84 is hereby permanently cancelled; and

(4) Public Law 111–117 appropriated to "Rail Line Relocation and Improvement Program", a total of \$1,495,398 is hereby permanently cancelled.

FEDERAL TRANSIT ADMINISTRATION

The Federal Transit Administration (FTA) provides grant funding to State and local governments, public and private transit operators, and other recipients to enhance public transportation across the United States. FTA programs fund the construction of new public transit systems, purchase and maintain transit vehicles and equipment, subsidize limited public transit operations, support regional transportation planning efforts, and improve technology and service methods critical to the delivery of public transportation. In 2015, a new five year surface transportation authorization law was enacted—Fixing America's Surface Transportation Act or the FAST Act. The FAST Act provides steady and predictable funding for five years and a renewed focus on reinvesting in and modernizing transit assets to help bring transit systems throughout the country into a state of good repair.

The Administration proposes \$12.4 billion for FTA in 2020. This proposal includes \$10.2 billion to support FTA's base formula programs that provide assistance to transit agencies in both urban and rural areas, with an additional investment in programs improving the state of good repair of rail transit and recapitalizing bus and bus facilities through a new discretionary grant program. The Administration proposes \$1.5 billion in new budget authority for Capital Investment Grants to support new fixed guideway

investments as well as projects aimed at improving or restoring the core capacity of existing fixed guideway systems.

The table below presents actual funding for 2018, the annualized CR for 2019, and the request for 2020. Additional detail is provided in the program budget schedules that follow.

The Federal Rail Safety Improvements Act, 2008, (P.L. 110-432, Title VI, Sec. 601), provided authorization for capital and preventive maintenance projects for the Washington Metropolitan Area Transit Authority (WMATA). Funding will help WMATA address its reinvestment and maintenance backlog to improve the safety and reliability of service and to expand existing system capacity to meet growing demand. The Secretary of Transportation shall approve grants for capital and preventive maintenance expenditures for WMATA only after receiving and reviewing a request for each specific project. The Secretary shall determine that WMATA has placed the highest priority on those investments that will improve the safety of the system before approving such grants. The Secretary, in order to ensure safety throughout the rail system, may waive the requirements of section 601(e) (1) of title VI of Public Law 110-432 (112 Stat. 4968).

Initiated within the American Recovery & Reinvestment Act (ARRA) of 2009, this program provided grants to public transit agencies for capital investments to reduce the energy consumption or greenhouse gas emissions of their public transportation operations. Activities have not been funded in this account since 2011. This schedule shows the obligations and outlays of funding made available for this program in fiscal years prior to 2012. In 2020, projects to increase energy efficiency and decrease greenhouse gas emissions can be funded with Urbanized Area Formula grants and Rural Area Formula grants.

CAPITAL INVESTMENT GRANTS

For necessary expenses to carry out fixed guideway capital investment grants under section 5309 of title 49, United States Code, \$1,505,190,000, to remain available until expended.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115-245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

The 2020 Budget request includes \$1.505 billion for the Capital Investment Grants account to increase the capacity of transit networks in communities across the nation. The program supports the construction of new fixed guideway systems or extensions to fixed guideways including, corridor-based bus rapid transit systems, and core capacity improvement projects. These projects include heavy rail, light rail, commuter rail, bus rapid transit, and streetcar systems. The law outlines a multi-year, multi-step competitive process that projects must complete to be eligible for CIG funding. At various points during these steps, and prior to any grant award, FTA must evaluate and rate each project. To obtain funding, projects must obtain a medium or better rating under the statutorily defined criteria that examine project merit and local financial commitment.

The Public Transportation Emergency Relief Program helps transit agencies restore needed transportation services immediately following disaster events. Both capital and operating costs are eligible for funding following an emergency; however, this program does not replace the Federal Emergency Management Agency's capital assistance program. FTA administers the \$10.9 billion supplemental appropriation (adjusted to \$10.2 billion after sequestration and the transfer of funds to the Office of the Inspector General and the Federal Railroad Administration) provided by the Disaster Relief Appropriations Act, 2013 (Public Law 113-2) following Hurricane Sandy through this account. The Bipartisan Budget Account of 2018 (Public Law 115-123) also provided \$330 million for eligible capital and operating costs for areas affected by Hurricanes Harvey, Irma, and Maria.

Beginning in Fiscal Year 2016 activities under this account are carried out under the Transit Formula Grants account of the Highway Trust Fund. The Technical Assistance and Standard Development program enables FTA to provide technical assistance to the public transportation industry and to develop standards for transit service provision, with an emphasis on improving access for all individuals and transportation equity. Through this program, FTA is able to assist grantees to more effectively and efficiently provide public transportation and administer Federal funding in compliance with the law.

The Consolidated Appropriations Act of 2018 created the Transit Infrastructure Grants program to provide additional funding for FTA's core capital assistance programs. Funds are allocated through existing State of Good Repair and Buses and Bus Facilities formula and competitive grants.

Transit Infrastructure Grants reinvest in existing transit assets including rail fixed guideway systems. These funds also help replace, rehabilitate, and purchase new buses, and construct bus-related facilities.

The 2020 Budget includes \$250 million for Buses and Bus Facilities grants and \$250 million for State of Good Repair grants.

Transit Formula Grants funds are primarily used for transit capital purposes including bus and rail car purchases, facility repair, construction and maintenance. In certain instances Transit Formula Grant funds are eligible to be used for planning expenses as well. Some funds are also used for research, development, and demonstration to improve transit safety and innovation.

The 2020 Budget request includes \$10.2 billion for Transit Formula Grants, as authorized in the FAST Act. The 2020 formula grant program structure includes:

**Urbanized Area Formula.**—\$4.929 billion. For formula grants to urbanized areas with populations of 50,000 or more. Funds may be used for any transit capital purpose. Operating costs continue to be eligible expenses for all urban areas under 200,000 in population; and, in certain circumstances, operating costs may be eligible expenses in urban areas with populations over 200,000. Additionally, Urbanized Area grants may be used to support Job Access and Reverse Commute activities.

**State of Good Repair Grants.**—\$2.684 billion. For a formula-based capital maintenance program to restore and replace aging transportation infrastructure through reinvestment in existing fixed guideway systems and buses on high occupancy vehicle (HOV) lanes.

**Rural Area Formula.**—\$673 million. For formula grants to provide funds for capital, planning and operating assistance grants for transit service implemented by States in rural areas with populations of less than 50,000.

TRANSIT FORMULA GRANTS—Continued

Funding may also be used to support intercity bus service. Additionally, Rural Area grants may be used to support Job Access and Reverse Commute activities. Within this amount, \$30 million in formula funds and \$5 million in discretionary grant funds will support the Public Transportation on Indian Reservations program and \$20 million will support the Appalachian Development Public Transportation Assistance Formula Program.

*Growing States and High Density States.*—\$570 million. For funds that are divided between the Urban and Rural Area programs based on the legislative funding formula for this program.

*Enhanced Mobility of Seniors and Individuals with Disabilities.*—\$286 million. Supports local governments and public and private transportation providers that serve special needs of these specific transit-dependent populations beyond traditional public transportation services, including complementary paratransit service.

*Bus and Bus Facilities Grants.*—\$809 million. For formula funding and discretionary funding to replace, rehabilitate, and purchase buses and related equipment, and to construct bus-related facilities States may use these funds to supplement Urbanized Area and Rural Area formula grant programs. Funding also supports low and zero emission bus and bus facilities.

*Bus Testing Facility.*—\$3 million. Funding supports a facility where all new bus models purchased using FTA capital assistance will be tested for compliance with performance standards for safety, structural integrity, reliability, performance (including braking performance) maintainability, emissions, noise and fuel economy. FTA must develop a Pass/Fail rating system for buses. FTA grantees will not be able use Federal funds to purchase buses that do not receive a "pass" rating.

*Planning Programs.*—\$142 million. Funding supports cooperative, continuous, and comprehensive transportation infrastructure investment planning. The program requires that all Metropolitan Planning Organizations (MPOs), and States, develop performance-driven, outcome-based transportation plans.

*Transit Oriented Development Pilot.*—\$10 million. This pilot program funds planning for projects that support transit-oriented development associated with new fixed-guideway and core capacity improvement projects.

*National Transit Data Base (NTD).*—\$4 million. For operation and maintenance of the NTD, a database of nationwide statistics on the transit industry, which FTA is legally required to maintain under 49 U.S.C. 5335(a)(1)(2). NTD data serves as the basis for FTA formula grant apportionments and is used to track the condition and performance of our Nation's transit infrastructure.

*Public Transportation Innovation.*—\$28 million. This program provides assistance for projects and activities to advance innovative public transportation research, demonstration, deployment and development and testing, evaluating and analyzing low or no emission vehicle components intended for use in low or no emission vehicles.

*Technical Assistance and Workforce Development.*—\$9 million. This program enables FTA to provide technical assistance to the public transportation industry and to develop standards for transit service, with an emphasis on improving access for all individuals. Through this program, FTA is able to assist grantees to more effectively and efficiently provide public transportation and administer federal funding in compliance with the law. Funds are also used to address public transportation workforce needs through the National Transit Institute.

*Pilot Program for Enhanced Mobility.*—\$3.5 million. This pilot program assists in financing innovative projects for the transportation disadvantaged that improve the coordination of transportation services and non-emergency medical transportation services.

The Saint Lawrence Seaway Development Corporation (SLSDC) is a wholly-owned U.S. Government corporation responsible for the operation, maintenance, and development of the U.S. portion of the St. Lawrence Seaway between Montreal and mid-Lake Erie. The SLSDC is also responsible for regional trade and economic development. The St. Lawrence Seaway is a binational waterway and lock transportation system for the efficient and economic movement of commercial cargoes to and from the Great Lakes Region of North America. The SLSDC works with its Canadian counterpart agency (the St. Lawrence Seaway Management Corporation) to ensure the safety and reliability of the locks and waterway and the uninterrupted flow of maritime commerce through the system.

Appropriations from the Harbor Maintenance Trust Fund, and revenues from other non-Federal sources, are used to finance operational and capital asset renewal needs for the U.S. portion of the St. Lawrence Seaway.

PHMSA is responsible for overseeing the safe transportation of energy products and hazardous materials to market. PHMSA's Pipeline Safety program covers a large network of more than 2.7 million miles of gas and hazardous liquid pipelines within the United States. PHMSA and its State partners set pipeline safety standards and conduct pipeline safety inspections to make sure pipelines are working safely and at capacity .

The Pipeline Safety program is funded by fees collected from pipeline operators and underground natural gas storage facility operators and a share of the Oil Spill Liability Trust Fund.

Federal hazardous materials law (49 U.S.C. 5101 et seq.) established a national registration program for shippers and carriers of hazardous materials. The law established the collection of a fee from each registrant with the fees being used for emergency preparedness planning and training grants; publication and distribution of the *Emergency Response Guidebook*; development of training curriculum guidelines for emergency responders and technical assistance to states, political subdivisions, and Native American Tribes; and administrative costs for operating the program.

The Oil Pollution Act of 1990 requires the preparation of spill response plans by operators that store, handle, or transport oil to minimize the environmental impact of oil spills and to improve public and private sector response. PHMSA reviews response plans submitted by operators of onshore oil pipelines to ensure the plans comply with PHMSA regulations. These plans also must be regularly updated by the operator and submitted for review by PHMSA. PHMSA also seeks to improve oil spill preparedness and response through data analysis, spill monitoring, mapping pipelines in areas unusually sensitive to environmental damage, and advanced technologies to detect and prevent leaks from hazardous liquid pipelines. These and related activities are funded in part by the Oil Spill Liability Trust Fund.

The appropriation for Operations and Training funds staff to administer and direct Maritime Administration operations and programs. Maritime Administration operations includes planning for coordination of U.S. maritime industry activities under emergency conditions; technology assessments calculated to achieve advancements in ship design, construction and operation; and port and intermodal development to increase capacity and mitigate congestion in freight movements.

Maritime training programs include the operation of the U.S. Merchant Marine Academy and financial assistance to the six State Maritime Academies. The Operations and Training budget request of \$377.5 million includes \$81.9 million for the United States Merchant Marine Academy, \$242.3 million for the State Maritime Academies, and \$53.3 million for Maritime Operations and Programs.

The National Defense Authorization Act of 2006 authorized the Maritime Administration to make grants for capital and related improvements at eligible shipyard facilities that will foster efficiency, competitive operations, and quality ship construction, repair, and reconfiguration. Grant funds may also be used for maritime training programs to enhance technical skills and operational productivity in communities whose economies are related to or dependent upon the maritime industry.

No new funds are requested for 2020.

The Ship Disposal program provides resources to properly dispose of obsolete Government-owned merchant ships maintained by the Maritime Administration in the National Defense Reserve Fleet. The Maritime Administration contracts with domestic shipbreaking firms to dismantle these vessels in accordance with guidelines set forth by the U.S. Environmental Protection Agency. In 2020, the Ship Disposal program requests \$5 million for obsolete vessel disposal and maintaining the Nuclear Ship Savannah in protective storage.

The Maritime Security Program provides direct payments to U.S. flag ship operators engaged in foreign commerce to partially offset the higher operating costs of U.S. registry. The purpose of the program is to establish and sustain a fleet of active ships that are privately owned, commercially viable, and militarily useful to meet national defense and other emergency sealift requirements. Participating operators are required to make their ships and commercial transportation resources available upon request by the Secretary of Defense during times of war or national emergency. Commercial transportation resources include ships, logistics management services, port terminal facilities, and U.S. citizen merchant mariners to crew both commercial and Government-owned merchant ships. The Maritime Administration requests \$300 million for the Maritime Security Program.

The Maritime Guaranteed Loan (Title XI) program provides for a full faith and credit guarantee of debt obligations issued by U.S or foreign ship owners to finance or refinance the construction, reconstruction, or reconditioning of U.S.-flag vessels or eligible export vessels in U.S. shipyards; or for a full faith and credit guarantee of debt obligations issued by U.S. shipyard owners to finance the modernization of shipbuilding technology at shipyards located in the United States.

As required by the Federal Credit Reform Act of 1990, this account also includes the subsidy costs associated with loan guarantee commitments made in 1992 and subsequent years which are estimated on a present value basis.

In 2020, the Maritime Guaranteed Loan (Title XI) program is proposed for elimination and the management of the existing loan guarantee portfolio and program would be administered by the Office of the Secretary's National Surface Transportation and Innovative Finance Bureau.

**GENERAL PROVISIONS—DEPARTMENT OF TRANSPORTATION**

SEC. 180. (a) During the current fiscal year, applicable appropriations to the Department of Transportation shall be available for maintenance and operation of aircraft; hire of passenger motor vehicles and aircraft; purchase of liability insurance for motor vehicles operating in foreign countries on official department business; and uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901-5902).

(b) During the current fiscal year, applicable appropriations to the Department and its operating administrations shall be available for the purchase, acquisition, maintenance, operation, and deployment of unmanned aircraft systems that advance the Department's or its operating administrations' mission.

(c) Any unmanned aircraft system purchased, procured, or contracted for by the Department prior to the enactment of this Act shall be deemed authorized by Congress as if this provision was in effect when the system was purchased, procured or contracted for.

SEC. 181. Appropriations contained in this Act for the Department of Transportation shall be available for services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the rate for an Executive Level IV.

SEC. 182. (a) No recipient of funds made available in this Act shall disseminate personal information (as defined in 18 U.S.C. 2725(3)) obtained by a State department of motor vehicles in connection with a motor vehicle record as defined in 18 U.S.C. 2725(1), except as provided in 18 U.S.C. 2721 for a use permitted under 18 U.S.C. 2721.

(b) Notwithstanding subsection (a), the Secretary shall not withhold funds provided in this Act for any grantee if a State is in noncompliance with this provision.

SEC. 183. Funds received by the Federal Highway Administration and Federal Railroad Administration from States, counties, municipalities, other public authorities, and private sources for expenses incurred for training may be credited respectively to the Federal Highway Administration's "Federal-Aid Highways" account and to the Federal Railroad Administration's "Safety and Operations" account, except for State rail safety inspectors participating in training pursuant to 49 U.S.C. 20105.

SEC. 184. None of the funds made available in this Act to the Department of Transportation may be used to make a loan, loan guarantee, line of credit, or grant unless the Secretary of Transportation notifies the House and Senate Committees on Appropriations not less than 1 full business day before any project competitively selected to receive any discretionary grant award, letter of intent, loan commitment, loan guarantee commitment, line of credit commitment, or full funding grant agreement totaling \$1,000,000 or more is announced by the Department or its modal administrations from—

- (1) any discretionary grant or federal credit program of the Federal Highway Administration including the emergency relief program;
- (2) the airport improvement program of the Federal Aviation Administration;
- (3) any program of the Federal Railroad Administration;
- (4) any program of the Federal Transit Administration other than the formula grants and fixed guideway modernization programs;
- (5) any program of the Maritime Administration; or
- (6) any funding provided under the headings "National Infrastructure Investments" in this Act:

Provided, That the Secretary gives concurrent notification to the House and Senate Committees on Appropriations for any "quick release" of funds from the emergency relief program: Provided further, That no notification shall involve funds that are not available for obligation.

SEC. 185. Rebates, refunds, incentive payments, minor fees and other funds received by the Department of Transportation from travel management centers, charge card programs, the subleasing of building space, and miscellaneous sources are to be credited to appropriations of the Department of Transportation and allocated to elements of the Department of Transportation using fair and equitable criteria and such funds shall be available until expended.

SEC. 186. Notwithstanding any other provision of law, if any funds provided in or limited by this Act are subject to a reprogramming action that requires notice to be provided to the House and Senate Committees on Appropriations, transmission of said reprogramming notice shall be provided solely to the House and Senate Committees on Appropriations: Provided, That the Secretary of Transportation may provide notice to other congressional committees of the action of the House and Senate Committees on Appropriations on such reprogramming but not sooner than 30 days following the date on which the reprogramming action has been transmitted to the House and Senate Committees on Appropriations.

SEC. 187. Funds appropriated in this Act to the modal administrations may be obligated for the Office of the Secretary for the costs related to assessments or reimbursable agreements only when such amounts are for the costs of goods and services that are purchased to provide a direct benefit to the applicable modal administration or administrations.

SEC. 188. The Secretary of Transportation is authorized to carry out a program that establishes uniform standards for developing and supporting agency transit pass and transit benefits authorized under section 7905 of title 5, United States Code, including distribution of transit benefits by various paper and electronic media.

SEC. 189. Not to exceed 5 percent of any discretionary account (pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985) appropriated for the current fiscal year to the Operating Administrations of the Department of Transportation in this Act may be transferred from that account to any other account of the Department, but no such account shall be increased by more than 10 percent by any such transfers: Provided, That the transfer authority granted by this section

shall not be used to create any new program or to fund any project or activity for which no funds are provided in this Act: Provided further, That the Secretary shall notify the Committees on Appropriations of the House of Representatives and the Senate at least 15 days in advance of any such transfer.

## GENERAL PROVISIONS—THIS ACT

SEC. 401. None of the funds in this Act shall be used for the planning or execution of any program to pay the expenses of, or otherwise compensate, non-Federal parties intervening in regulatory or adjudicatory proceedings funded in this Act.

SEC. 402. None of the funds appropriated in this Act shall remain available for obligation beyond the current fiscal year, nor may any be transferred to other appropriations, unless expressly so provided herein.

SEC. 403. The expenditure of any appropriation under this Act for any consulting service through a procurement contract pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 404. Except as otherwise provided in this Act, none of the funds provided in this Act, provided by previous appropriations Acts to the agencies or entities funded in this Act that remain available for obligation or expenditure in fiscal year 2020, or provided from any accounts in the Treasury derived by the collection of fees and available to the agencies funded by this Act, shall be available for obligation or expenditure through a reprogramming of funds that—

- (a) creates a new program;
- (b) eliminates a program, project, or activity;
- (c) increases funds or personnel for any program, project, or activity for which funds have been denied or restricted by the Congress;
- (d) proposes to use funds directed for a specific activity in an appropriations law for a different purpose;
- (e) augments existing programs, projects, or activities in excess of \$5,000,000 or 10 percent, whichever is less;
- (f) reduces existing programs, projects, or activities by \$5,000,000 or 10 percent, whichever is less; or

(g) creates, reorganizes, or restructures a branch, division, office, bureau, board, commission, agency, administration, or department different from the budget justifications submitted to the Committees on Appropriations or the table accompanying the explanatory statement accompanying this Act, whichever is more detailed, unless notification is transmitted to the House and Senate Committees on Appropriations: Provided, That not later than 60 days after the date of enactment of this Act, each agency funded by this Act shall submit a report to the Committees on Appropriations of the Senate and of the House of Representatives to establish the baseline for application of reprogramming and transfer authorities for the current fiscal year: Provided further, That the report shall include—

- (1) a table for each appropriation with a separate column to display the prior year enacted level, the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level;
- (2) a delineation in the table for each appropriation and its respective prior year enacted level by object class and program, project, and activity as detailed in the budget appendix for the respective appropriation; and
- (3) an identification of items of special congressional interest.

SEC. 405. Except as otherwise specifically provided by law, not to exceed 50 percent of unobligated balances remaining available at the end of fiscal year 2020 from appropriations made available for salaries and expenses for fiscal year 2020 in this Act, shall remain available through September 30, 2021, for each such account for the purposes authorized: Provided, That a notification shall be submitted to the House and Senate Committees on Appropriations prior to the expenditure of such funds: Provided further, That these notifications shall be made in compliance with reprogramming guidelines under section 404 of this Act.

SEC. 406. No funds in this Act may be used to support any Federal, State, or local projects that seek to use the power of eminent domain, unless eminent domain is employed only for a public use: Provided, That for purposes of this section, public use shall not be construed to include economic development that primarily benefits private entities: Provided further, That any use of funds for mass transit, railroad, airport, seaport or highway projects, as well as utility projects which benefit or serve the general public (including energy-related, communication-related, water-related and wastewater-related infrastructure), other structures designated for use by the general public or which have other common-carrier or public-utility functions that serve the general public and are subject to regulation and oversight by the government, and projects for the removal of an immediate threat to public health

and safety or brownfields as defined in the Small Business Liability Relief and Brownfields Revitalization Act (Public Law 107-118) shall be considered a public use for purposes of eminent domain.

SEC. 407. No funds appropriated pursuant to this Act may be expended by an entity unless the entity agrees that in expending the assistance the entity will comply with sections 2 through 4 of the Act of March 3, 1933 (41 U.S.C. 10a-10c, popularly known as the "Buy American Act").

SEC. 408. No funds appropriated or otherwise made available under this Act shall be made available to any person or entity that has been convicted of violating the Buy American Act (41 U.S.C. 10a-10c).

SEC. 409. None of the funds made available in this Act may be used for first-class airline accommodations in contravention of sections 301-10.122 and 301-10.123 of title 41, Code of Federal Regulations.

SEC. 410. None of the funds made available in this Act may be used to send or otherwise pay for the attendance of more than 50 employees of a single agency or department of the United States Government, who are stationed in the United States, at any single international conference unless the relevant Secretary reports to the House and Senate Committees on Appropriations at least 5 days in advance that such attendance is important to the national interest: Provided, That for purposes of this section the term "international conference" shall mean a conference occurring outside of the United States attended by representatives of the United States Government and of foreign governments, international organizations, or nongovernmental organizations.

#### SALARIES AND EXPENSES

For necessary expenses of the Departmental Offices including operation and maintenance of the Treasury Building and Freedman's Bank Building; hire of passenger motor vehicles; maintenance, repairs, and improvements of, and purchase of commercial insurance policies for, real properties leased or owned overseas, when necessary for the performance of official business; executive direction program activities; international affairs and economic policy activities; domestic finance and tax policy activities, including technical assistance to state and local entities; and Treasury-wide management policies and programs activities, \$235,973,000: Provided, That of the amount appropriated under this heading—

- (1) not to exceed \$350,000 is for official reception and representation expenses;
- (2) not to exceed \$258,000 is for unforeseen emergencies of a confidential nature to be allocated and expended under the direction of the Secretary of the Treasury and to be accounted for solely on the Secretary's certificate; and
- (3) not to exceed \$24,000,000 shall remain available until September 30, 2021, for—

- (A) the Treasury-wide Financial Statement Audit and Internal Control Program;
- (B) information technology modernization requirements;
- (C) the audit, oversight, and administration of the Gulf Coast Restoration Trust Fund;
- (D) the development and implementation of programs within the Office of Critical Infrastructure Protection and Compliance Policy, including entering into cooperative agreements;
- (E) operations and maintenance of facilities; and
- (F) international operations.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115–245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

Trillions of dollars are accounted for and processed by the Department of the Treasury's information technology (IT) systems and therefore these systems are a constant target for sophisticated threat actors. The Cybersecurity Enhancement Account allows Treasury to more proactively and strategically protect Treasury systems against cybersecurity threats. The account supports Department-wide and Bureau-specific investments for critical IT improvements including the systems identified as High Value Assets. Furthermore, the centralization of funds allows Treasury to more nimbly respond in the event of a cybersecurity incident as well as leverage enterprise-wide services and capabilities across the components of the Department.

The Office of Inspector General (OIG) conducts audits and investigations designed to promote integrity, efficiency, and effectiveness in programs and operations within the Department and across the OIG's jurisdiction, as well as to keep the Secretary and the Congress fully and currently informed of problems and deficiencies in the administration of such programs

and operations. The OIG conducts audits and investigations of Treasury programs and operations except those under jurisdictional oversight of the Treasury Inspector General for Tax Administration and the Special Inspector General for the Troubled Asset Relief Program. In addition, the Treasury Inspector General functions as Chair of the Council of Inspectors General on Financial Oversight. The Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act (RESTORE Act) tasked the OIG with oversight of all projects, programs, and operations of the Gulf Coast Restoration Trust Fund (Trust Fund), which extends to the Gulf Coast Ecosystem Restoration Council.

The Budget request for the OIG will be used to fund audit, investigative, and mission support activities to meet the requirements of the Inspector General Act, as well as other statutes relating to: 1) Cyber Threats; 2) Anti-Money Laundering/Terrorist Financing and Bank Secrecy Act Enforcement; and 3) Spending Transparency and Improper Payments; and 4) Administration of the Gulf Coast Restoration Trust Fund. Specific mandates include audits of the Department's: financial statements, compliance with FISMA and actions in implementing cybersecurity information sharing. In its oversight of the Office of the Comptroller of the Currency, OIG conducts material loss reviews of failed Federal Deposit Insurance Corporation insured national banks and trusts. With resources available after mandated requirements are met, the OIG will conduct audits and reviews of the Department's highest risk programs and operations. The OIG will also respond to stakeholder requests.

The Office of Audit expects to complete 100 percent of statutory audits by the required deadline and to complete 74 audit products in 2020. The Office will provide oversight, on a reimbursable basis, of the Small Business Lending Fund created by the Small Business Jobs Act of 2010.

In 2020, the OIG Office of Investigations will continue to investigate all reports of fraud, waste, abuse, and criminal activity impacting Treasury programs and operations. The Office of Investigations will continue proactive efforts to detect, investigate, and deter electronic crimes and other threats to Treasury's physical and IT critical infrastructure and will continue current efforts to aggressively investigate, close, and refer cases for criminal prosecution, civil litigation, or corrective administrative action in a timely manner.

The Committee on Foreign Investment in the United States (CFIUS) is an interagency committee chaired by the Secretary of the Treasury that is authorized to review certain transactions involving foreign investment in the United States in order to determine the effect of such transactions on the national security of the United States and to address any identified national security risks. The Foreign Investment Risk Review Modernization Act of 2018 authorizes the establishment of a CFIUS Fund. This account funds investments necessary to perform the functions of the Committee and allows the transfer of a portion of such funds to CFIUS agencies to address emerging needs.

TREASURY INSPECTOR GENERAL FOR TAX ADMINISTRATION

SALARIES AND EXPENSES  
(Enacted/requested)

For necessary expenses of the Treasury Inspector General for Tax Administration in carrying out the Inspector General Act of 1978, as amended, including purchase and hire of passenger motor vehicles (31 U.S.C. 1343(b)); and services authorized by 5 U.S.C. 3109, at such rates as may be determined by the Inspector General for Tax Administration; \$166,000,000, of which \$5,000,000 shall remain available until September 30, 2021; of which not to exceed \$6,000,000 shall be available for official travel expenses; of which not to exceed \$500,000 shall be available for unforeseen emergencies of a confidential nature, to be allocated and expended under the direction of the Inspector General for Tax Administration; and of which not to exceed \$1,500 shall be available for official reception and representation expenses.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115-245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

The Treasury Inspector General for Tax Administration (TIGTA), an independent office within the Department of the Treasury, is charged with providing oversight of the Internal Revenue Service (IRS), the IRS Chief Counsel, and the IRS Oversight Board. TIGTA conducts audit, investigative, and inspection and evaluation services that promote economy, efficiency, and integrity in the administration of the Internal Revenue laws. TIGTA protects the public's confidence in the tax system by conducting investigations of allegations of IRS employee misconduct, protecting IRS facilities and data, and investigating allegations of bribery or impersonation of the IRS. TIGTA is also responsible for identifying and recommending strategies to address IRS management challenges and implementing the Department's priorities.

In 2020, TIGTA's Office of Investigations (OI) will concentrate on three core areas: 1) employee integrity; 2) employee and infrastructure security; and 3) external attempts to corrupt tax administration. The OI investigative program protects the IRS's ability to process approximately 253 million tax returns and other forms and collect over \$3.5 trillion in annual revenue for the Federal Government.

TREASURY INSPECTOR GENERAL FOR TAX ADMINISTRATION—Continued

In 2020, TIGTA's Office of Audit (OA) will focus on the major management and performance challenges confronting the IRS by prioritizing statutory audit coverage and high-risk audit work. The statutory coverage will include audits mandated by the IRS Restructuring and Reform Act of 1998 and other statutory authorities and standards involving cybersecurity, taxpayer privacy and rights, and financial management. Audits also will be conducted to assess the IRS's implementation of the Tax Cuts and Jobs Act of 2017. The core of TIGTA's audit work will continue to focus on high-risk tax administration areas such as: 1) improving enforcement of tax laws to increase revenue and implementing tax law changes; 2) minimizing identity theft and other fraud and enhancing the efficiency of the IRS; and 3) monitoring the IRS's progress in achieving its strategic goals. Audits will address areas of concern to the Congress, the Secretary of the Treasury, and the Commissioner of the Internal Revenue Service. The 2018 highlights of OA include issuing 102 audit reports and identifying approximately \$9.9 billion in potential financial benefits.

In 2020, TIGTA's Office of Inspections and Evaluations (I&E) will identify opportunities for improvement in IRS and TIGTA programs by performing inspections and evaluations that report timely, useful and reliable information to decisionmakers and stakeholders. The oversight activities of I&E include inspecting the IRS's compliance with established system controls and operating procedures and evaluating IRS operations for high-risk systemic inefficiencies.

The Terrorism Risk Insurance Program Reauthorization Act of 2015 (P.L. 114-1) reauthorized and revised the program established by the Terrorism Risk Insurance Act of 2002 (P.L. 107-297). The 2015 Act extended the Terrorism Risk Insurance Program (TRIP) for six years, through December 31, 2020, and made several program changes to reduce the Federal liability associated with Federal payments of terrorism risk insurance losses. The Budget baseline includes the estimated Federal cost of providing payments in connection with terrorism risk insurance losses. There have been no prior payments under the Program. While the Budget does not forecast any specific payment triggering events, the Budget includes estimates representing the weighted average of payments over a full range of possible scenarios, most of which include no notional payment triggering events and some of which include notional triggering events of varying magnitude. Relying upon this methodology, the Budget baseline projects net spending associated with the current reauthorization period of \$66 million for 2020, \$29 million over the 2020-2024 period, and \$133 million over the 2020-2029 period.

Treasury is evaluating reforms, to be included in any legislation extending TRIP beyond its current sunset date of December 31, 2020, to further decrease taxpayer exposure.

The mission of the Treasury Forfeiture Fund (Fund) is to affirmatively influence the consistent and strategic use of asset forfeiture by law enforcement bureaus that participate in the Fund to disrupt and dismantle criminal enterprises. The Fund supports Federal, state, and local law enforcement's use of asset forfeiture to disrupt and deter criminal activity. Proceeds from non-tax forfeitures made by participating bureaus of the Department of the Treasury and the Department of Homeland Security are deposited into the Fund. Such proceeds are available to pay or reimburse certain costs and expenses related to seizures and forfeitures that occur pursuant to laws enforced by the bureaus and other expenses authorized by 31 U.S.C. 9705. Forfeiture proceeds can also be used to fund Federal law enforcement-related activities based on requests from Federal agencies and evaluation by the Secretary of the Treasury.

The Office of Financial Research (OFR) and the Financial Stability Oversight Council (Council), whose expenses are paid for out of the Financial Research Fund, were established under the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111-203).

The OFR was established to serve the Council, its member agencies, and the public by improving the quality, transparency, and accessibility of financial data and information, by conducting and sponsoring research related to financial stability, and by promoting best practices in risk management. The OFR is an office within the Department of the Treasury.

The Council is comprised of 10 voting members, including the heads of all Federal financial regulators, and five non-voting members. The Secretary of the Treasury serves as Chairperson of the Council. The Council's purpose is to identify risks to the financial stability of the United States, promote market discipline, and respond to emerging threats to the stability of the U.S. financial system.

As required under Section 210(n)(10) of the Act, the Council's expenses also include reimbursement of certain reasonable expenses incurred by the Federal Deposit Insurance Corporation in implementing Orderly Liquidation Authority, provided by Title II of the Act. These expenses are treated as expenses of the Council.

The OFR and the Council were funded through transfers from the Board of Governors of the Federal Reserve System until July 20, 2012. Sub-

sequently, the OFR and the Council have been funded through assessments on certain bank holding companies and nonbank financial companies supervised by the Board of Governors. Expenses of the Council are considered expenses of, and are paid by, the OFR. Projected fees and assessments are estimates and may change.

The Budget proposes to impose appropriate congressional oversight of these functions by subjecting OFR and Council activities to the annual appropriations process. The Budget reflects a near-term steady-state level of OFR spending commensurate with the renewed fiscal discipline being applied across the Federal Government. Treasury is also working to increase the transparency of Council decision-making procedures and to implement more rigorous cost-benefit analysis standards.

Individual Federal income tax returns include an optional Federal income tax designation of \$3 that an individual may elect to be paid to the Presidential Election Campaign Fund (PECF). In recent years, fewer than 5 percent of individuals have elected to make this designation, resulting in less than \$30 million being paid into the PECF annually.

The Department of the Treasury collects the income tax designations and makes distributions from the PECF to qualified presidential candidates and to the 10-Year Pediatric Research Initiative Fund. Money for the public funding of presidential election campaigns can only come from the PECF; if the PECF were to exhaust its fund balances, no other public funding could be used.

The Federal Election Commission administers the public funding program, determines which candidates are eligible, the amount to which they are entitled, and audits their use of the funds. Current uses of the PECF are provided below.

**Matching Funds for Presidential Primary Candidates.**—Upon certification by the Federal Election Commission and based on a demonstration of broad national support, adherence to spending limits, and other qualifications, every eligible presidential primary candidate is entitled to receive \$250 in Federal matching funds for the first eligible \$250 of private contributions received from an individual. The private contributions must be received after the beginning of the calendar year immediately preceding the election year through the end of the calendar year of the election. For the 2016 Presidential election, \$1,679,865 was paid out to two eligible candidates (\$1,544,965 in 2016 and \$134,900 in 2017).

**Candidates for General Elections.**—By statute, eligible candidates of each major party in a presidential election are entitled to equal payments in an amount that may not exceed \$20 million (adjusted for inflation since 1974) per party. In 2016, this amounted to \$96.1 million for each candidate, but neither major party candidate accepted general election funding. Eligibility for this funding depends on meeting several criteria, such as agreeing to limit spending to amounts specified by campaign finance laws. In addition, candidates from new parties, minor parties, and non-major parties who receive in excess of 5 percent of the popular vote may be entitled to a pro rata portion of the major party amount in the general election.

**10-Year Pediatric Research Initiative Fund.**—On April 3, 2014, the Gabriella Miller Kids First Research Act (Public Law 113–94) was enacted. The Act established the 10-Year Pediatric Research Initiative Fund and directs that certain PECF moneys be transferred to that Fund.

Under the law creating the Exchange Stabilization Fund (ESF), section 10 of the Gold Reserve Act of 1934, as amended, codified at 31 U.S.C. 5302, the Secretary of the Treasury, with the approval of the President, is authorized to deal in gold, foreign exchange, and other instruments of credit and securities, as the Secretary considers necessary, consistent with U.S. obligations in the International Monetary Fund regarding orderly exchange arrangements and a stable system of exchange rates. All earnings and interest accruing to the ESF are available for the purposes thereof. Transactions in Special Drawing Rights (SDRs) and U.S. holdings of SDRs are administered by the fund. By law, the fund is not available to pay administrative expenses.

Since 1934, the principal sources of the fund's income have been earnings on investments held by the fund, including interest earned on fund holdings of U.S. Government securities.

The amounts reflected in estimates entail only projected net interest earnings on ESF assets. The estimates are subject to considerable variance, depending on changes in the amount and composition of assets and the

interest rates applied to investments. In addition, these estimates make no attempt to forecast gains or losses on SDR valuation or foreign currency valuation.

The Treasury Franchise Fund (the Fund) was established by P.L. 104-208, made permanent by P.L. 108-447, and codified as 31 U.S.C. 322, note. The Fund is revolving in nature and provides financial management, procurement, travel, human resources, and information technology services through its four business lines: the Administrative Resource Center (ARC) Administrative Services, ARC Information Technology Services, Shared Services Programs, and Centralized Treasury Administrative Services (CTAS). The CTAS business line was added in 2019. Services are provided to Federal customers on a reimbursable, fee-for-service basis.

Section 1603 of the American Recovery and Reinvestment Act of 2009 required the Secretary of the Treasury to make payments in lieu of tax credits to entities that placed in service specified energy property. In the Tax Relief, Unemployment Insurance Reauthorization and Job Creation Act of 2010 (P.L. 111–312), section 707(a) extended for one year, through 2011, the time within which certain eligible property must have been placed in service or started construction. Final disbursements occurred in 2018.

**COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS FUND PROGRAM ACCOUNT**

unions, loan funds, and venture capital funds) to expand the availability of financial services and affordable credit for underserved populations including distressed urban, rural, Native American, Native Hawaiian, and Alaska Native communities.

The 2020 Budget eliminates program funding for discretionary programs including the Bank Enterprise Award (BEA) Program, CDFI Program, the Native American CDFI Assistance Program, and the Healthy Food Financing Initiative. The 2020 Budget requests \$14 million in administrative funding for oversight of existing commitments and administration of the CDFI Fund's other programs.

The CDFI Fund's Bond Guarantee Program (BGP) was originally authorized in the Small Business Jobs Act of 2010 (P.L. 111-240) for a period of four years to provide a source of long-term capital in low-income and underserved communities. The Budget continues to propose reforms such as reducing the minimum bond size to increase participation. The Administration encourages the Congress to adopt these and other necessary reforms to promote further private sector participation in BGP financing and support the growth of a self-sustaining CDFI industry.

As authorized by the Emergency Economic Stabilization Act of 2008 (EESA) (P.L. 110-343) and required by the Federal Credit Reform Act of 1990, as amended, this account records the subsidy costs associated with Troubled Asset Relief Program (TARP) direct loans obligated and loan guarantees including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year. The subsidy amounts are estimated on a present value basis using a risk-adjusted discount rate, as required by EESA.

The authority to make new financial commitments via TARP expired on October 3, 2010, under the terms of EESA. However, Treasury can continue to execute commitments entered into before October 3, 2010. For more details, please see the Budgetary Effects of the Troubled Asset Relief Program chapter in the *Analytical Perspectives* volume.

The Emergency Economic Stabilization Act of 2008 (EESA) (P.L. 110-343) authorized the establishment of the Troubled Asset Relief Program (TARP) and the Office of Financial Stability (OFS) to purchase and insure certain types of troubled assets for the purpose of providing stability to and preventing disruption in the economy and financial system and protecting taxpayers. The Act gave the Secretary of the Treasury broad and flexible authority to purchase and insure mortgages and other troubled assets, as well as inject capital by taking limited equity positions, as needed to stabilize the financial markets. This account provides for the administrative costs of OFS, which oversees and manages TARP.

Treasury's Home Affordable Modification Program (HAMP) offered mortgage modifications to homeowners at risk of foreclosure under the authority of sections 101 and 109 of the Emergency Economic Stabilization Act of 2008, as amended (EESA) (P.L. 110-343). HAMP closed to new applications on December 30, 2016, but incentive payments continue to be made on modifications entered into on or before December 1, 2017. Additionally, the Hardest Hit Fund has allocated \$9.6 billion under EESA to state housing finance agencies in 18 States and the District of Columbia for foreclosure prevention programs. Funds under EESA also support a Federal Housing Administration (FHA) refinance program that helps

homeowners refinance into a new FHA-insured loan if their existing mortgage holders agree to write down principal. For more details, please see the Budgetary Effects of the Troubled Asset Relief Program chapter in the Analytical Perspectives volume.

The Office of the Special Inspector General for the Troubled Asset Relief Program (SIGTARP) was established by section 121 of the Emergency Economic Stabilization Act of 2008 (EESA) (P.L. 110-343). SIGTARP is both a Federal law enforcement agency and independent audit watchdog that targets financial institution crime, and other fraud, waste, and abuse related to the Troubled Asset Relief Program. Protecting taxpayer dollars and TARP programs drives SIGTARP's mission.

SIGTARP received an initial appropriation of \$50 million in permanent, indefinite budget authority in EESA. The Public-Private Investment Program Improvement and Oversight Act of 2009 (12 U.S.C. 5231a) provided \$15 million in supplemental funding. Since 2010, SIGTARP has received annual appropriations to fund its operations.

The 2020 Budget requests \$17.5 million for SIGTARP, a reduction of 49 percent from the 2018 enacted level. Although less than \$100 million in TARP investments remains outstanding, TARP foreclosure prevention programs will continue until 2023.

The Small Business Lending Fund (SBLF) was established by the Small Business Jobs Act of 2010 (P.L. 111–240) and is a dedicated investment fund that encourages lending to small businesses by providing capital to qualified community banks and community development loan funds (CDLFs). In total, the SBLF provided \$4.0 billion to 281 community banks and 51 CDLFs in 2011. As of September 30, 2018, 277 institutions with aggregate investments of \$3.8 billion have fully redeemed their SBLF investments and exited the program. For institutions that still participate in the program, CDLF securities expire by 2021 and community bank participants are generally expected to end their participation by 2021.

The Small Business Jobs Act of 2010 (P.L. 111–240) created the State Small Business Credit Initiative (SSBCI), which was funded with \$1.5 billion, inclusive of administrative costs, to support State programs that leverage private lending and investing to help finance small businesses and manufacturers.

SSBCI expired on September 27, 2017, at which time States retained any funds transferred by Treasury.

The Social Impact Partnerships to Pay for Results Act (SIPPPRA) was included as part of the Bipartisan Budget Act of 2018 (P.L. 115-123). SIPPPRA created a ten year \$100 million fund to support social impact partnership projects by state and local governments to support new and innovative ways to solve entrenched social problems. The program funds social programs at the state or local level that achieve demonstrable, measurable, and scalable results, by making payment of funds contingent on positive outcomes.

In 2008, under temporary authority granted by section 1117 of the Housing and Economic Recovery Act of 2008 (P.L. 110-289), Treasury entered into agreements with Fannie Mae and Freddie Mac (the GSEs) to purchase senior preferred stock of each GSE and to provide up to \$100 billion when needed to ensure that each company maintains a positive net worth. In May 2009, Treasury increased the Senior Preferred Stock Purchase Agreement (PSPA) funding commitment caps to \$200 billion for each GSE, and in December 2009 Treasury modified the funding commitment caps in the PSPAs to be the greater of \$200 billion or \$200 billion plus cumulative net worth deficits experienced during 2010-2012, less any surplus remaining as of December 31, 2012. Based on the financial results reported by each GSE as of December 31, 2012, and under the terms of the PSPAs, the combined cumulative funding commitment cap for Fannie Mae and Freddie Mac was set at \$445.5 billion. Treasury's authority to purchase obligations or other securities of the GSEs or to increase the funding commitment expired on December 31, 2009. Under the PSPAs, Treasury has maintained the solvency of the GSEs by providing \$191.5 billion of investment to the GSEs. The PSPAs also require the GSEs to pay dividends to Treasury that are recorded as offsetting receipts and are not reflected in this expenditure account. Through December 31, 2018, the GSEs have paid \$292.3 billion in dividend payments to Treasury on the senior preferred stock.

The authority for the three programs displayed in this account: Fannie Mae and Freddie Mac's mortgage-backed securities purchase program, which purchased and then liquidated mortgage backed securities; the Temporary Credit and Liquidity Program, which provided liquidity to state housing financing agencies (HFAs); and the New Issue Bond Program, which purchased securities backed by new HFA housing bonds was provided in section 1117 of the Housing and Economic Recovery Act of 2008 (P.L. 110-289). As required by the Federal Credit Reform Act of 1990 as amended, this account records the subsidy costs associated with these programs, which are treated as direct loans for budget execution. The subsidy amounts are estimated on a present value basis.

The Capital Magnet Fund (CMF) provides financial assistance grants to Community Development Financial Institutions and qualified nonprofit housing providers that would be leveraged to attract other financing sources for affordable housing and related economic development activities. The CMF was established by the Housing and Economic Recovery Act of 2008 (HERA) (P.L. 110-289), which directed the program to be funded from assessments on Fannie Mae and Freddie Mac (the GSEs). The 2020 Budget includes a proposal to eliminate new funding for CMF effective in 2020.

The mission of the Fiscal Service is to promote the financial integrity and operational efficiency of the U.S. Government through exceptional accounting, financing, collections, payments, and shared services. In addition to supporting the National Critical Financial Infrastructure of the Federal Government, the Fiscal Service plays a key role in achieving Treasury's goals to transform government-wide financial stewardship and achieve operational excellence. Specifically, Fiscal Service is responsible for disbursing Federal Government payments; collecting receipts and delinquent debt; providing government-wide accounting and reporting services; borrowing the money needed to operate the Federal Government; accounting for the debt; and providing accounting and other reimbursable services to Government agencies.

The Budget provides resources to support the core operational activities of the Fiscal Service, with a focus on converting disbursement checks to electronic payments; centralizing Federal disbursing; reducing improper payments; expanding electronic invoicing; reducing collections lockboxes while increasing digitization; improving the effectiveness of debt collection activities; developing new solutions for streamlining government-wide accounting; and expanding mobile processes to allow the public to interact with the Government how they want. This Budget supports the President's Management Agenda as it relates to driving transformation through the following three key tools: IT modernization efforts critical to securing data and transforming business processes; data accountability and transparency development; and workforce investments to ensure Fiscal Service has the right people in the right place with the right skills as Fiscal Service engages in transformation efforts.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (the Act) authorized and appropriated to the Secretary of the Treasury such sums as may be necessary to cover interest payments on obligations issued by the Resolution Funding Corporation (REFCORP). REFCORP was established under the Act to raise \$31.2 billion for the Resolution Trust Corporation (RTC) in order to resolve savings institution insolvencies.

Sources of payment for interest due on REFCORP obligations have included REFCORP investment income, proceeds from the sale of assets or warrants acquired by the RTC, and annual contributions by the Federal Home Loan Banks. If these payment sources are insufficient to cover all interest costs, indefinite, mandatory funds appropriated to the Treasury shall be used to meet the shortfall.

This permanent, indefinite appropriation was established to reimburse financial institutions for the services they provide as depositaries and financial agents of the Federal Government. The services include the acceptance and processing of deposits of public money, as well as services essential to the disbursement of, and accounting for, public monies. The services provided are authorized under numerous statutes including, but not limited to, 12 U.S.C. 90 and 265. This permanent, indefinite appropriation is authorized by P.L. 108-100, the "Check Clearing for the 21st Century Act," and permanently appropriated by P.L. 108-199, the "Consolidated Appropriations Act of 2004." Additionally, financial agent administrative and financial analysis costs for the Government Sponsored Enterprise Mortgage Backed Securities Purchase Program and State Housing Finance Agency program are reimbursed from this account.

This account pays interest on the invested balances of guaranteed and direct loan financing accounts. For guaranteed loan financing accounts, balances result when the accounts receive up-front payments and fees to be held in reserve to make payments on defaults. Direct loan financing accounts normally borrow from Treasury to disburse loans and receive interest and principal payments and other payments from borrowers. Because direct loan financing accounts generally repay borrowing from Treasury at the end of the year, they can build up balances of payments received during the year. Interest on invested balances is paid to the financing accounts from the general fund of the Treasury, in accordance with section 505(c) of the Federal Credit Reform Act of 1990.

This account provides funds for the payment of interest on investments in Treasury securities that the Secretary of the Treasury has suspended or redeemed. The Secretary is permitted to take such action when Treasury is constrained by the statutory debt limit and must take extraordinary measures to avoid defaulting. Treasury is required to restore all due interest and principal to the respective investments.

The Bureau of Customs and Border Protection, Department of Homeland Security (CBP), collects duties assessed pursuant to a countervailing duty

order, an antidumping duty order, or a finding under the Antidumping Act of 1921. Under a provision enacted in 2000 CBP, through the Treasury, distributes certain of these duties to affected domestic producers. These distributions provide an additional subsidy to producers that already gain protection from the increased import prices, including tariffs. The authority to distribute assessments on entries made after October 1, 2007, has been repealed. Assessments on entries made before October 1, 2007, will be disbursed as if the authority had not been repealed. Assessments collected on eligible entries are to be disbursed within 60 days of the end of the fiscal year in which they were collected.

This Fund was established as a permanent, indefinite appropriation in order to maintain adequate funding of the Check Forgery Insurance Fund. The Fund facilitates timely payments for replacement Treasury checks necessitated due to a claim of forgery. The Fund recoups disbursements through reclamations made against banks negotiating forged checks.

To reduce hardships sustained by payees of Government checks that have been stolen and forged, settlement is made in advance of the receipt of funds from the endorser of the checks. If the U.S. Treasury is unable to recover funds through reclamation procedures, the Fund sustains the loss.

Public Law 108-447 expanded the use of the Fund to include payments made via electronic funds transfer. A technical correction to the Fund's statutes to ensure and clarify that the Fund can be utilized as a funding source for relief of administrative disbursing errors was enacted by P.L. 110-161, Division D, section 119.

This schedule reflects the payments made to the Cheyenne River Sioux Tribe Terrestrial Wildlife Restoration Trust Fund and the Lower Brule Sioux Tribe Terrestrial Wildlife Restoration Trust Fund. Pursuant to section 604(b) of the Water Resources Development Act of 1999 (P.L. 106-53), after the funds were fully capitalized by deposits from the General Fund of the Treasury, interest earned became available to the Tribes to carry out the purposes of the funds. Full capitalization occurred in 2010; therefore no additional deposits will be provided by the General Fund of the Treasury. The Tribes are only able to draw down on interest earned investments.

This fund was established by the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act of 2012 (RESTORE Act). It will receive 80 percent of the civil and administrative penalties collected after July 6, 2012, from parties responsible

for the *Deepwater Horizon* oil spill. Funding will be used by Federal, state, and local governments for activities to restore and protect the ecosystems and economy of the Gulf Coast region, research and monitoring, and related oversight and management responsibilities. The current estimates represent known settlement amounts; additional funds may become available through future court judgments or settlements.

The Federal Financing Bank (FFB) was created in 1973 to reduce the costs of certain Federal and federally-assisted borrowing and to ensure the coordination of such borrowing from the public in a manner least disruptive to private financial markets and institutions. Prior to that time, many agencies borrowed directly from the private market to finance credit programs involving lending to the public at higher rates than on comparable Treasury securities. With the implementation of the Federal Credit Reform

Act of 1990 agencies finance such loan programs through direct loan financing accounts that borrow directly from the Treasury. The FFB finances these Federal direct loans to the public which are fully guaranteed by a Federal agency. FFB loans are also used to finance activities of the U.S. Postal Service.

Lending by the FFB may take one of three forms, depending on the authorizing statutes pertaining to a particular agency or program: 1) the FFB may purchase agency financial assets; 2) the FFB may acquire debt securities that the agency is otherwise authorized to issue to the public; and 3) the FFB may originate direct loans on behalf of an agency by disbursing loans directly to private borrowers and receiving repayments from the private borrower on behalf of the agency. Because the law requires that transactions by the FFB be treated as a means of financing agency obligations, the budgetary effect of the third type of transaction is reflected in the Budget in the following sequence: a loan by the FFB to the agency, a loan by the agency to a private borrower, a repayment by a private borrower to the agency, and a repayment by the agency to the FFB.

In 2018, FFB's net inflows were \$333 million. In addition to its authority to borrow from the Treasury, the FFB has the statutory authority to borrow up to \$15 billion from other sources. Any such borrowing is exempt from the statutory ceiling on Federal debt. The FFB used this authority most recently in October 2015.

The following table shows the annual net lending by the FFB by agency and program and the amount outstanding at the end of each year.

The Alcohol and Tobacco Tax and Trade Bureau (TTB) enforces various Federal laws and regulations relating to alcohol and tobacco by working directly and in cooperation with other agencies to: 1) provide the most effective and efficient system for the collection of all revenue that is rightfully due, and eliminate or prevent tax evasion and other criminal conduct, 2) prevent consumer deception relating to alcohol beverages, ensure that regulated alcohol and tobacco products comply with various Federal commodity, product integrity, and distribution requirements, and 3) provide high quality customer service while imposing the least regulatory burden. Additionally, the Budget proposes legislation to transfer primary jurisdiction over federal tobacco and alcohol anti-smuggling laws from the Department of Justice and the Bureau of Alcohol, Tobacco, Firearms and Explosives to the Department of the Treasury and TTB. Under the proposal, TTB would be responsible for the administration and enforcement of the Jenkins Act of 1949 (as amended by the Prevent All Cigarette Trafficking Act of 2009), 15 U.S.C. Chapter 10A, the Contraband Cigarette Trafficking Act of 1978, 18 U.S.C. Chapter 114, and the criminal statutes involving Liquor Trafficking, 18 U.S.C. Chapter 59. The Budget request for TTB includes an initial investment for start-up costs to initiate this transfer.

Excise taxes collected under the Internal Revenue laws of the United States on articles produced in Puerto Rico and transported to the United States are covered-over (paid) to Puerto Rico. (26 U.S.C. 7652(a)). Excise taxes collected on articles produced in the U.S. Virgin Islands and transported to the United States are covered-over to the U.S. Virgin Islands. (26 U.S.C. 7652(b)). Excise taxes collected on rum imported from everywhere other than Puerto Rico or the U.S. Virgin Islands are also covered-over to the treasuries of Puerto Rico and the U.S. Virgin Islands under a formula determined by the Alcohol and Tobacco Tax and Trade Bureau. (26 U.S.C. 7652(e)).

Excise taxes are imposed on rum at the applicable distilled spirits rate. (26 U.S.C. 5001(a)(1) and (c)(1)). Excise tax collections on imported rum are covered-over to Puerto Rico and the U.S. Virgin Islands at the lesser of the rate of \$10.50 (\$13.25 in the case of distilled spirits brought into the United States after June 30, 1999, and before January 1, 2017), or the tax imposed under section 5001(a)(1) (determined as if subsection (c)(1) of such section did not apply), on each proof gallon. (26 U.S.C. 7652(f)). After December 31, 2017, and before January 1, 2020, the cover-over payment associated with any particular proof gallon of rum may exceed the taxes collected on such proof gallon, depending on the applicable distilled spirits rate.

The Bureau of Engraving and Printing (BEP) produces and delivers U.S. currency notes for the Federal Reserve System ordered by the Board of Governors of the Federal Reserve and other security products for the Federal Government. BEP began printing currency in 1862 and operates on the basis of authority conferred upon the Secretary of the Treasury by 31 U.S.C. 321(a) (4) to engrave and print currency and other security documents. Operations are financed through a revolving fund established in 1950 in accordance with Public Law 81-656. The fund is reimbursed for direct and indirect costs of operations, including administrative expenses, through product sales. In 1977, Public Law 95-81 authorized BEP to include an amount sufficient to fund capital investment and to meet working

capital requirements in the prices charged for products, eliminating the need for appropriations from Congress.

The Bureau has three strategic goals: to safely and timely deliver quality products to stakeholders in a cost-effective and environmentally responsible manner; to create innovative designs, processes, and products that exceed stakeholders' expectations and to achieve overall excellence by balanced investment in people, processes, facilities, and technology. Other activities at BEP include engraving plates and dies; manufacturing inks used to print security products; purchasing materials, supplies, equipment; and storing and delivering products in accordance with customer requirements. In addition, BEP provides technical assistance, advice, and production services to other Federal agencies in the development of security documents that require counterfeit deterrent features due to their innate value or other characteristics. BEP supports the Treasury goals to Boost U.S. Economic Growth and Achieve Operational Excellence.

BEP's 2020 priorities include: (1) achieving BEP's strategic goals; (2) producing and delivering currency notes ordered by the Federal Reserve Board (FRB) that consistently meet high quality standards; (3) conducting research and development, and collaborating with key stakeholders in order to deter counterfeiting and maintain public trust in the security and reliability of U.S. currency notes; (4) assisting users of U.S. currency, including the blind and visually impaired, with the use and denomination of currency; (5) continuing efforts to implement designated talent management initiatives while filling personnel gaps in needed STEM and cybersecurity skill sets; and (6) modernizing production facilities and equipment by creating state-of-the-art manufacturing systems to support 21st century manufacturing capabilities that will allow for the continued delivery of secure and accessible currency for all. During 2020, BEP expects to produce and deliver 7.3 billion notes to the FRB to meet currency demand. The 2020 Budget includes a proposal that would give BEP the authority to purchase land and construct a new, smaller, and more efficient currency production facility. Constructing a new facility would save an estimated \$549 million over 10 years over the cost of renovating the existing facility.

## UNITED STATES MINT

## Federal Funds

## UNITED STATES MINT PUBLIC ENTERPRISE FUND

Pursuant to section 5136 of title 31, United States Code, the United States Mint is provided funding through the United States Mint Public Enterprise Fund for costs associated with the production of circulating coins, numismatic coins, and protective services, including both operating expenses and capital investments: Provided, That the aggregate amount of new liabilities and obligations incurred during fiscal year 2020 under such section 5136 for circulating coinage and protective service capital investments of the United States Mint shall not exceed \$30,000,000.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115–245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

The United States Mint mints and issues circulating coins, produces and distributes numismatic items, and provides security and asset protection. Since 1996, the Mint's operations have been funded through the Public Enterprise Fund (PEF) established by section 522 of Public Law 104–52 (31 U.S.C. 5136). The operations of the Mint are divided into two major components, circulating coinage and numismatic products. Finances for the two components are accounted for separately; Receipts from circulating coinage operations are not used to fund numismatic operations and receipts

from numismatic operations are not used to fund circulating coinage operations. The Mint generates revenue through the issuance of circulating coins to the Federal Reserve Banks (FRBs) and the sale of numismatic products to the public and bullion coins to authorized purchasers. The Mint submits annual audited financial statements to the Secretary of the Treasury and to the Congress in support of the operations of the PEF. In 2018, the Mint transferred \$265 million to the General Fund.

**Circulating Coinage.** This activity funds the minting and issuance of circulating coins to the FRBs in amounts that the Secretary of the Treasury determines are necessary to meet the needs of the United States. The 2020 Budget reflects production volumes that correspond to expected demand and raw materials costs, which are driven by commodity prices and volumes. The Mint receives funds from the Federal Reserve equal to the face value of the circulating coins shipped to the FRB. The Mint is credited with the full cost of producing and distributing the coins that are put into circulation, including the depreciation of manufacturing facilities and equipment. The difference between the face value of the coins and the full cost of producing the coins is called seigniorage, which is a means of financing the deficit and transferred periodically to the General Fund. The annual appropriations bill includes a statutory cap on Mint expenditures on circulating and protection capital investments. The cap for 2020 is \$30 million.

**Numismatic Items.** This activity funds the manufacturing of numismatic items, which include collectible coins and sets, medals, bullion coins, and other products for sale to collectors and other members of the public who desire high-quality or investment-grade versions of the Nation's coinage. These products include annual proof and uncirculated sets; investment-grade silver and gold bullion coins; uncirculated silver and gold coins; proof silver, gold, platinum and palladium coins; and commemorative coins and medals that are authorized to commemorate events, individuals, places, or other subjects. Prices for numismatic products are based on the estimated product cost plus a reasonable margin to assure that the numismatic program operates at no net cost to the taxpayer. Similarly, bullion coins are priced based on the market price of the precious metals plus a premium to cover manufacturing, marketing, and distribution costs. Making numismatic products accessible, available, and affordable to Americans who choose to purchase them is the highest priority of the Mint's numismatic operations.

**INTERNAL REVENUE SERVICE**

The Internal Revenue Service (IRS) collects the revenue that funds the Government and administers the Nation's tax laws. During 2018, the IRS processed 253 million tax forms and collected \$3.5 trillion in taxes (gross receipts before tax refunds), totaling 95 percent of Federal Government receipts. The IRS taxpayer service program assists millions of taxpayers in understanding and meeting their tax obligations. The IRS tax enforcement and compliance program deters taxpayers inclined to evade their responsibilities while pursuing those who violate tax laws.

The 2020 Budget provides \$11.5 billion for the IRS to administer the tax code and implement key strategic priorities. In addition, the Budget proposes to establish and fund a new adjustment to the discretionary caps for program integrity activities starting in 2020, including a \$362 million cap adjustment in 2020. The activities through 2029 are estimated to generate \$47 billion in additional revenue over 10 years and cost approximately \$15 billion resulting in an estimated net savings of \$33 billion. Once these investments are fully operational, these initiatives are expected to generate roughly \$3 in additional revenue for every \$1 in IRS expenses.

**Taxpayer Service Account.** The Budget includes funding for Taxpayer Services that will allow the IRS to continue delivering services to taxpayers using a variety of in-person, telephone, and web-based methods. These tools help taxpayers understand their obligations, correctly file their returns, and pay taxes due in a timely manner. The IRS is committed to increasing the service options available through the IRS website and mobile application, allowing more taxpayers to reach the IRS through the Internet. Notably, in 2018, there were more than 609 million visits to *www.IRS.gov*, and taxpayers checked their refund status more than 309 million times by accessing *Where's My Refund?* on the IRS website in English or Spanish. Taxpayers can also use automated features on the IRS toll-free phone system. Additionally, the IRS2Go mobile application had 8.5 million active users and processed 118 million refund queries in 2018.

**Enforcement Account.** The Enforcement account funds activities that protect revenue by identifying fraud and preventing issuance of questionable refunds including those related to identity theft; increase compliance by addressing offshore tax evasion; strengthen examination and collection programs, including return preparer; and address compliance issues in the tax-exempt sector. In addition to the base resources, this account also includes \$200 million for activities for additional tax enforcement and compliance activities.

**Operations Support Account.** The Budget includes funding for the overall planning, direction, operations and critical infrastructure activities, including the IT and cybersecurity that keep tax systems running and protect taxpayer data, the financial management activities that ensure effective stewardship of the Nation's revenues, and the physical infrastructure and security of IRS facilities. In addition to the base resources, this account also includes \$162 million to support additional tax enforcement and compliance activities.

**Modernization Account.** IRS modernization efforts focus on building and deploying advanced information technology systems, processes, and tools to improve efficiency and enhance productivity.

**Federal Funds**

**TAXPAYER SERVICES**

For necessary expenses of the Internal Revenue Service to provide taxpayer services, including pre-filing assistance and education, filing and account services, taxpayer advocacy services, and other services as authorized by 5 U.S.C. 3109, at

such rates as may be determined by the Commissioner, \$2,402,000,000; of which not less than \$8,890,000 shall be for the Tax Counseling for the Elderly Program; of which not less than \$12,000,000 shall be available for low-income taxpayer clinic grants; of which not less than \$15,000,000, to remain available until September 30, 2021, shall be available for a Community Volunteer Income Tax Assistance matching grants program for tax return preparation assistance; and of which not less than \$206,000,000 shall be available for operating expenses of the Taxpayer Advocate Service: Provided, That of the amounts made available for the Taxpayer Advocate Service, not less than \$5,000,000 shall be for identity theft casework.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115-245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

This appropriation provides resources for overall planning, direction, operations, and critical infrastructure activities for the IRS. These activities include IT and cybersecurity that keep tax systems running and protect taxpayer data, the financial management activities that ensure effective stewardship of the nation's revenues, and the physical infrastructure and security that help IRS employees serve customers in office, campus, and Taxpayer Assistance Center sites. Telecommunications, human resource, and communications infrastructure are also critical components of this appropriation and are vital to maintaining adequate levels of customer service and the post-filing processes necessary for the tax system to function. In addition to the base resources, the Budget proposes \$162 million in a cap adjustment to support additional tax enforcement and compliance activities.

This appropriation provides resources for the planning and capital asset acquisition of information technology to modernize key tax administration systems. Since 2012, the IRS has processed individual taxpayer returns on a daily processing cycle that has enhanced IRS tax administration and im-

proved customer service by allowing faster refunds for more taxpayers, more timely account updates, and faster issuance of taxpayer notices. This account provides funding to support: the Customer Account Data Engine (CADE2); the taxpayer's online experience and secure digital communications and capabilities; and fraud detection, resolution, and prevention through the Return Review Program. The Budget includes funding for a multi-year plan to transform the taxpayer experience and modernize the core tax processing systems while enhancing information technology and taxpayer protections.

The American Recovery and Reinvestment Act of 2009 (P.L. 111–5), section 1531, allows state and local governments to issue Build America Bonds through December 31, 2010. These tax credit bonds, which include Recovery Zone Bonds, differ from tax-exempt governmental obligation bonds in two principal ways: 1) interest paid on tax credit bonds is taxable; and 2) a portion of the interest paid on tax credit bonds takes the form of a Federal tax credit. The bond issuer may elect to receive a direct payment

in the amount of the tax credit for obligations issued before January 1, 2011. This account reflects the continuing interest payments over time.

As provided by law, there are instances where the earned income tax credit (EITC) exceeds the amount of tax liability owed through the individual income tax system, resulting in an additional payment to the taxpayer. Congress originally authorized the EITC in the Tax Reduction Act of 1975 (P.L. 94–12) and made it permanent in the Revenue Adjustment Act of 1978 (P.L. 95–600). The Tax Reform Act of 1986 and the Omnibus Budget Reconciliation Acts of 1990 and 1993 increased the credit amount and expanded eligibility for the EITC.

The Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) (P.L. 107–16) increased the income level at which the credit begins to phase out for married taxpayers filing joint returns, and made other changes to simplify the credit and improve compliance.

The American Recovery and Reinvestment Act of 2009 (ARRA) (P.L. 111–5), section 1002, temporarily increased the EITC for working families with three or more children, and increased the threshold for the phase-out range for all married couples filing a joint return for 2009 and 2010 tax returns. The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (P.L. 111–312), section 103(c), extended the EGTRRA and ARRA benefits through tax year 2012.

The American Taxpayer Relief Act of 2012 (P.L. 112–240), section 103(c), extended the EGTRRA and ARRA benefits through tax year 2017 (a five-year extension). The Protecting Americans From Tax Hikes Act of

The Budget includes several proposals that impact the Earned Income Tax Credit. Proposals include: require a Social Security number valid for work in order to qualify for the credit; provide the Internal Revenue Service (IRS) with greater flexibility to address correctable errors; improve and expand access to Health Savings Accounts; lower the employee threshold for mandatory electronic reporting of Form W-2, Wage and Tax Statement, data by employers; improve clarity in worker classification and information reporting requirements; provide explicit authority for the IRS to oversee paid tax return preparers; and reform medical liability.

As provided by law, there are instances where a taxpayer is entitled to an additional payment because the child tax credit to which the taxpayer is entitled exceeds the amount of tax liability owed through the individual income tax system.

The Congress originally authorized the child tax credit in the Taxpayer Relief Act of 1997 (P.L. 105–34). The credit amount and extent to which the credit was refundable were increased by the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) (P.L. 107–16) which made the credit refundable at a rate of 15% of an individual's earned income in excess of \$10,000 (indexed), up to the amount of any unclaimed credit. The American Recovery and Reinvestment Act of 2009 (ARRA) (P.L. 111–5), section 1003, further expanded the extent to which the credit was refundable by decreasing the earnings floor to \$3,000 for 2009 and 2010. The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (P.L. 111–312), section 103(b), extended this temporary benefit for 2011 and 2012. The American Taxpayer Relief Act of 2012 (P.L. 112–240), section 103(b), extended the ARRA benefits through tax year 2017 (a five-year extension). The Protecting Americans from Tax Hikes Act of 2015 (P.L. 114–113), permanently extended the EGTRRA and ARRA benefits. The Tax Cuts and Jobs Act (P.L. 115–97) increases the child tax credit to \$2,000 (\$1,400 refundable) for tax years 2018–2025. The Act also provides that, in order to receive the child tax credit (both the refundable and non-refundable portion), a taxpayer must include a Social Security Number for each qualifying child for whom the credit is claimed on the tax return.

The Trade Act of 2002 established the Health Coverage Tax Credit (HCTC), a refundable tax credit for a portion of the cost of qualified insurance, which may be paid in advance. This credit is available to certain recipients of Trade Adjustment Assistance (TAA) and Pension Benefit Guaranty Corporation pension beneficiaries who are aged 55–64.

The Congress expanded the HCTC program in the American Recovery and Reinvestment Act of 2009 (P.L. 111–5), sections 1899A–1899J. These increased benefits for certain HCTC eligible individuals include payment of 80 percent (up from 65 percent) of health insurance premiums, up to 24 months of coverage for qualified family members, and extension of COBRA benefits. The Omnibus Trade Act of 2010 (P.L. 111–344), sections 111–118, extended these benefits until February 13, 2011. The bill to extend the Generalization System of Preference (P.L. 112–040), section 241, extended the credit through December 31, 2013, and reduced the credit percentage to 72.5 percent, and eliminated the credit entirely as of January 1, 2014.

The Trade Preferences Extension Act of 2015 (P.L. 114–27), section 407, retroactively reinstated the HCTC to January 1, 2014, through December 31, 2019. The Act also provided that an eligible individual could not claim both the HCTC and the premium tax credit provided under the Affordable Care Act for the same coverage for the same month and that individual health insurance coverage purchased through the Health Insurance Marketplace is qualified coverage for coverage months in 2014 and 2015. Lastly, the Act reinstated the advance payment of the HCTC.

The Patient Protection and Affordable Care Act of 2010 (P.L. 111–148), section 1421, allows certain small employers (including small tax-exempt employers) to claim a credit when they pay at least half of the health care premiums for single health insurance coverage for their employees. Small employers can claim the credit for 2010 through 2013 and after that for the first two consecutive years of having coverage purchased through the small business health options program. Generally, employers that have fewer than 25 full-time equivalent employees and pay wages averaging less than \$50,000 per employee per year may qualify for the credit.

This account includes state innovation waiver pass-through payments in lieu of the Small Business Health Insurance Tax Credit to qualifying states under section 1332(a)(3) of the PPACA.

PAYMENT WHERE CERTAIN TAX CREDITS EXCEED LIABILITY FOR CORPORATE TAX—Continued

This account shows the outlays for the provision that allows certain businesses to accelerate the recognition of a portion of certain other credits in lieu of taking bonus depreciation. The Housing and Economic Recovery Act of 2008 (P.L. 110–289), section 3081, allowed certain businesses to accelerate the recognition of a portion of their unused pre–2006 alternative minimum tax (AMT) or research and development (R&D) credits in lieu of taking bonus depreciation. The maximum increase amount is capped at the lesser of \$30 million or 6 percent of eligible AMT and R&D credits. The accelerated credit amount is refundable. The American Recovery and Reinvestment Act of 2009 (P.L. 111–5), section 1201(b), extended this temporary benefit through 2009. The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (P.L. 111–312), section 401(c), extended this temporary benefit through the end of 2012, but only with respect to AMT credits. The American Taxpayer Relief Act of 2012 (P.L. 112–240), section 331(c), extended this temporary benefit through 2013 only with respect to AMT credits. The Tax Increase Prevention Act, Title I—Certain Expiring Provisions (P.L. 113–295), section 125(c), extended this temporary benefit through 2014 only with respect to AMT credits. The Protecting Americans from Tax Hikes (PATH) Act of 2015 (P.L. 114–113), extended this provision through 2015. The PATH Act also extended and modified this provision for 2016 through 2019.

The Tax Cuts and Jobs Act (P.L. 115–97) (TCJA) repealed the corporate alternative minimum tax. To conform to this repeal, the election to accelerate AMT credits in lieu of taking bonus depreciation was repealed, effective for property placed in service after September 27, 2017. P.L. 115–97 allows prior year AMT credits to offset regular tax liability for any taxable year. In addition, AMT credits are refundable for any taxable year beginning after 2017 and before 2022 in an amount equal to 50 percent (100 percent in the case of taxable years beginning in 2021) of the excess of the minimum tax credit for the taxable year over the amount of the credit allowable for the year against regular tax liability. For presentation, the amount of the credit paid in excess of tax liability is shown as spending in the Budget within the same account used for prior AMT refund provisions. However, amounts refunded under the TCJA are not direct spending under the Balanced Budget and Deficit Control Act, as amended, and thus are not subject to sequestration.

The American Opportunity Tax Credit allows certain taxpayers to claim a partially refundable American Opportunity Tax Credit (AOTC) for qualifying higher education expenses. Up to 40 percent of the credit is refundable. The credit applies dollar-for-dollar to the first \$2,000 of qualified tuition, fees and course materials paid by the taxpayer, and applies at a rate of 25 percent to the next \$2,000 in qualified tuition, fees and course materials for a total credit of up to \$2,500. The credit was originally created in the American Recovery and Reinvestment Act of 2009 (P.L. 111–5), section 1004 for tax years 2009 and 2010. The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (P.L. 111–312), section 103(a), extended the credit to tax years 2011 and 2012. The American Taxpayer Relief Act of 2012 (P.L. 112–240), section 103(a), extended the credit through tax year 2017 (a five-year extension). The Protecting Americans From Tax Hikes Act of 2015 (P.L. 114–113), permanently extended the ARRA benefits.

Under certain circumstances, as provided in 26 U.S.C. 6611, interest is paid on Internal Revenue collections that must be refunded. The Tax Equity and Fiscal Responsibility Act of 1982 (P.L. 97-248) provides for daily compounding of interest. Under the Tax Reform Act of 1986 (P.L. 99-514), interest paid on Internal Revenue collections will equal the Federal short-term rate plus three percentage points (two percentage points in the case of a corporation), with such rate to be adjusted quarterly.

The Patient Protection and Affordable Care Act (PPACA) of 2010 (P.L. 111-148) established the Refundable Premium Tax Credit. This credit is an advanceable, refundable tax credit designed to help eligible individuals and families with low or moderate income afford health insurance purchased through the Health Insurance Marketplace, also known as the Exchange, beginning in 2014. The credit can be paid in advance to the taxpayer's insurance company to lower the monthly premiums, or it can be claimed when a taxpayer files their income tax return for the year. If the credit is paid in advance, the taxpayer must reconcile the advance credit payments with the actual credit computed on the tax return, subject to certain caps.

Section 1412 of PPACA provides for advance payments of the premium tax credit.

This account includes state innovation waiver pass-through payments in lieu of the Premium Tax Credit to qualifying states under section 1332(a)(3) of the PPACA, as well as payments to states under the Basic Health Program established under section 1331 of PPACA.

This account reflects the funds that the IRS is allowed to retain and expend for qualified tax collection contracts with private collection agents and the special compliance personnel program. The American Jobs Creation Act of 2004 (P.L. 108-357) allowed the IRS to use private collection contractors to supplement its own collection staff efforts to ensure that all taxpayers pay what they owe.

qualified tax collection contract for payments to private collection agents, and an amount not in excess of 25 percent of the amount collected for enforcement activities of the IRS (26 USC 6306). The IRS used this authority to contract with several private debt collection agencies starting in 2006. In March 2009, the IRS allowed its private debt collection contracts to expire, thereby administratively terminating the program in accordance with Omnibus Appropriations Act, 2009 Administrative Provisions - Internal Revenue Service, Section 106 (P.L. 111-8). This provision stated that none of the funds made available in this Act maybe used to enter into, renew, extend, administer, implement, enforce, or provide oversight of any qualified tax collection contract as defined in section 6306 of the Internal Revenue Code of 1986.

Section 32102(a) of the Fixing America's Surface Transportation Act of 2015 (P.L. 114-94), amended section 6306 of the Internal Revenue Code (IRC) and requires the Secretary of the Treasury to enter into one or more qualified tax collection contracts for the collection of all outstanding inactive tax receivables. These agreements are applicable to tax receivables as identified by the Secretary after December 4, 2015. Section 6306 of the IRC prohibits the payment of fees for all services in excess of 25 percent of the amount collected under a tax collection contract for payments to private collection agents. In addition, up to 25 percent of the amount collected may be used to fund the special compliance personnel program account under section 6307.

Inactive tax receivables are defined as any tax receivable: 1) removed from the active inventory for lack of resources or inability to locate the taxpayer; 2) for which more than one-third of the applicable limitations period has lapsed and no IRS employee has been assigned to collect the receivable; or 3) for which a receivable has been assigned for collection but more than 365 days have passed without interaction with the taxpayer or a third party for purposes of furthering the collection. Tax receivables are defined as any outstanding assessment that the IRS includes in potentially collectible inventory.

As provided by law (26 U.S.C. 7623), the Secretary of the Treasury may make payments to individuals who provide information that leads to the collection of Internal Revenue taxes. The Taxpayer Bill of Rights of 1996 (P.L. 104-168) provides for payments of such sums to individuals from the proceeds of amounts collected by reason of the information provided, and any amount collected shall be available for such payments. This information must lead to the detection of underpayments of taxes, or detection and bringing to trial and punishment of persons guilty of violating the Internal Revenue laws. This provision was further amended by the Tax Relief and Health Care Act of 2006 (P.L. 109-432) to provide for mandatory payments in certain circumstances and to encourage use of the program. A reward payment typically ranges between 15 and 30 percent of the collected proceeds for cases where the amount of collected proceeds exceeds \$2 million. Lower payments are allowed in certain circumstances, including cases in which information is provided that was already available from another source. Section 41108 of the Bipartisan Budget Act of 2018 (P.L. 115-123) expanded the definition of proceeds to include proceeds arising from the laws for which the Internal Revenue Service is authorized to administer, enforce or investigate. Section 41108 further provides that the expanded definition of proceeds shall be used to determine eligibility for a mandatory award under section 7623(b)(5) and states that the amount of proceeds are to be determined without regard to whether such proceeds are available to the Secretary.

This revolving fund was established pursuant to section 112(a) of the Federal Tax Lien Act of 1966, to serve as the source of financing the re-

FEDERAL TAX LIEN REVOLVING FUND—Continued

demption of real property by the United States. During the process of collecting unpaid taxes, the Government may place a tax lien on real estate in order to protect the Government's interest and this account provides the resources to administer the program.

INTERNAL REVENUE SERVICE OVERSIGHT BOARD

The Internal Revenue Service Restructuring and Reform Act of 1998 (Section 7802(d) 26 U.S.C.) directs the IRS Oversight Board to provide an annual budget request for the IRS. The Oversight Board's request shall be submitted to the President by the Secretary without revision, and the President shall submit the request, without revision, to Congress together with the President's Budget request for the IRS. The Board did not make a recommendation for 2020 as it currently lacks a quorum. The Board will reconvene once it has enough Senate-confirmed members to make a quorum.

ADMINISTRATIVE PROVISIONS—INTERNAL REVENUE SERVICE

(INCLUDING TRANSFER OF FUNDS)

SEC. 101. Not to exceed 5 percent of any appropriation made available in this Act to the Internal Revenue Service may be transferred to any other Internal Revenue Service appropriation upon the advance notification of the Committees on Appropriations.

SEC. 102. The Internal Revenue Service shall maintain an employee training program, which shall include the following topics: taxpayers' rights, dealing courteously with taxpayers, cross-cultural relations, ethics, and the impartial application of tax law.

SEC. 103. The Internal Revenue Service shall institute and enforce policies and procedures that will safeguard the confidentiality of taxpayer information and protect taxpayers against identity theft.

SEC. 104. Funds made available by this or any other Act to the Internal Revenue Service shall be available for improved facilities and increased staffing to provide sufficient and effective 1–800 help line service for taxpayers. The Commissioner shall continue to make improvements to the Internal Revenue Service 1–800 help line service a priority and allocate resources necessary to enhance the response time to taxpayer communications, particularly with regard to victims of tax-related crimes.

SEC. 105. The Internal Revenue Service shall issue a notice of confirmation of any address change relating to an employer making employment tax payments, and such notice shall be sent to both the employer's former and new address and an officer or employee of the Internal Revenue Service shall give special consideration to an offer-in-compromise from a taxpayer who has been the victim of fraud by a third party payroll tax preparer.

SEC. 106. None of the funds made available under this Act may be used by the Internal Revenue Service to target citizens of the United States for exercising any right guaranteed under the First Amendment to the Constitution of the United States.

SEC. 107. None of the funds made available in this Act may be used by the Internal Revenue Service to target groups for regulatory scrutiny based on their ideological beliefs.

SEC. 108. Section 9503(a) of title 5, United States Code, is amended by striking the clause "Before September 30, 2013" and inserting "Before September 30, 2023".

SEC. 109. Section 9503(a)(5) of title 5, United States Code, is amended by inserting before the semicolon the following: ", but are renewable for an additional two years, based on a critical organizational need".

SEC. 110. Notwithstanding any Congressional notification requirements for a reprogramming of funds in this Act, funds provided in this Act for the Internal Revenue Service shall be available for obligation and expenditure through a reprogramming of funds that augments or reduces existing programs, projects, or activities up to \$10,000,000 without prior Congressional notification of such action.

The Office of the Comptroller of the Currency (OCC) was created by Congress to charter national banks; oversee a nationwide system of banking institutions; and ensure national banks are safe and sound, competitive and profitable, and capable of serving in the best possible manner the banking needs of their customers. The National Currency Act of 1863 (12 U.S.C. 1 et seq., 12 Stat. 665), rewritten and reenacted as the National Bank Act of 1864, provided for the chartering and supervising functions of the OCC. Income of the OCC is derived principally from assessments paid by national banks and interest on investments in U.S. Government securities. The OCC receives no appropriated funds from Congress.

Effective on July 21, 2011, Title III of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111–203) transferred to the OCC the responsibility for supervision and rulemaking authority for all Federal savings associations. The prior regulator, the Office of Thrift Supervision, was integrated into OCC at this time.

As of September 30, 2018, the OCC supervised 891 national bank charters, 57 Federal branches of foreign banks, and 316 Federal savings

associations. In total, the OCC supervises approximately \$12.5 trillion in financial institution assets.

At September 30, 2018, the net position of the OCC was \$1.39 billion. The OCC sets aside funds for ongoing operations to cover undelivered orders and capital investments. The OCC also allocates a significant portion of the net position to its financial reserves. In 2018, the OCC established a new receivership contingency fund of \$86.6 million within its financial reserves to facilitate the conduct of receiverships of uninsured federal branches or agencies of a foreign banking organization. Since 2017, the OCC has also maintained a contingency of \$100 million within its reserves to act as receiver of those national trust banks which are not FDIC-insured.

ADMINISTRATIVE PROVISIONS—DEPARTMENT OF THE TREASURY

(INCLUDING TRANSFERS OF FUNDS)

Sec. 114. Appropriations to the Department of the Treasury in this Act shall be available for uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901), including maintenance, repairs, and cleaning; purchase of insurance for official motor vehicles operated in foreign countries; purchase of motor vehicles without

regard to the general purchase price limitations for vehicles purchased and used overseas for the current fiscal year; entering into contracts with the Department of State for the furnishing of health and medical services to employees and their dependents serving in foreign countries; and services authorized by 5 U.S.C. 3109.

SEC. 115. Not to exceed 2 percent of any appropriations in this title made available under the headings "Departmental Offices—Salaries and Expenses", "Community Development Financial Institutions Fund", "Office of Terrorism and Financial Intelligence", "Office of Inspector General", "Special Inspector General for the Troubled Asset Relief Program", "Financial Crimes Enforcement Network", "Bureau of the Fiscal Service", and "Alcohol and Tobacco Tax and Trade Bureau" may be transferred between such appropriations upon the advance notification of the Committees on Appropriations of the House of Representatives and the Senate: Provided, That no transfer under this section may increase or decrease any such appropriation by more than 2 percent.

SEC. 116. Not to exceed 2 percent of any appropriation made available in this Act to the Internal Revenue Service may be transferred to the Treasury Inspector General for Tax Administration's appropriation upon the advance notification of the Committees on Appropriations of the House of Representatives and the Senate: Provided, That no transfer may increase or decrease any such appropriation by more than 2 percent.

SEC. 117. None of the funds appropriated in this Act or otherwise available to the Department of the Treasury or the Bureau of Engraving and Printing may be used to redesign the \$1 Federal Reserve note.

SEC. 118. The Secretary of the Treasury may transfer funds from the "Bureau of the Fiscal Service—Salaries and Expenses" to the Debt Collection Fund as necessary to cover the costs of debt collection: Provided, That such amounts shall be reimbursed to such salaries and expenses account from debt collections received in the Debt Collection Fund.

SEC. 119. None of the funds appropriated or otherwise made available by this or any other Act may be used by the United States Mint to construct or operate any museum without the prior notification of the Committees on Appropriations of the House of Representatives and the Senate, the House Committee on Financial Services, and the Senate Committee on Banking, Housing, and Urban Affairs.

SEC. 120. None of the funds appropriated or otherwise made available by this or any other Act or source to the Department of the Treasury, the Bureau of Engraving and Printing, and the United States Mint, individually or collectively, may be used to consolidate any or all functions of the Bureau of Engraving and Printing and the United States Mint without the advance notification of the House Committee on Financial Services; the Senate Committee on Banking, Housing, and Urban Affairs; and the Committees on Appropriations of the House of Representatives and the Senate.

SEC. 121. Funds appropriated by this Act, or made available by the transfer of funds in this Act, for the Department of the Treasury's intelligence or intelligence related activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 2020 until the enactment of the Intelligence Authorization Act for Fiscal Year 2020.

SEC. 122. Not to exceed \$5,000 shall be made available from the Bureau of Engraving and Printing's Industrial Revolving Fund for necessary official reception and representation expenses.

SEC. 123. The Secretary of the Treasury shall submit a Capital Investment Plan to the Committees on Appropriations of the Senate and the House of Representatives not later than 30 days following the submission of the annual budget submitted by the President: Provided, That such Capital Investment Plan shall include capital investment spending from all accounts within the Department of the Treasury, including but not limited to the Department-wide Systems and Capital Investment Programs account, Treasury Franchise Fund account, and the Treasury Forfeiture Fund account: Provided further, That such Capital Investment Plan shall include expenditures occurring in previous fiscal years for each capital investment project that has not been fully completed.

SEC. 124. (a) Not later than 60 days after the end of each quarter, the Office of Financial Research shall submit reports on its activities to the Committees on Appropriations of the House of Representatives and the Senate, the Committee on Financial Services of the House of Representatives and the Senate Committee on Banking, Housing, and Urban Affairs.

(b) The reports required under subsection (a) shall include—

- (1) the obligations made during the previous quarter by object class, office, and activity;
- (2) the estimated obligations for the remainder of the fiscal year by object class, office, and activity;
- (3) the number of full-time equivalents within each office during the previous quarter;

(4) the estimated number of full-time equivalents within each office for the remainder of the fiscal year; and

(5) actions taken to achieve the goals, objectives, and performance measures of each office.

(c) At the request of any such Committees specified in subsection (a), the Office of Financial Research shall make officials available to testify on the contents of the reports required under subsection (a).

SEC. 125. Within 45 days after the date of enactment of this Act, the Secretary of the Treasury shall submit an itemized report to the Committees on Appropriations of the House of Representatives and the Senate on the amount of total funds charged to each office by the Franchise Fund including the amount charged for each service provided by the Franchise Fund to each office, a detailed description of the services, a detailed explanation of how each charge for each service is calculated, and a description of the role customers have in governing in the Franchise Fund.

SEC. 126. During fiscal year 2020—

(1) none of the funds made available in this or any other Act may be used by the Department of the Treasury, including the Internal Revenue Service, to issue, revise, or finalize any regulation, revenue ruling, or other guidance not limited to a particular taxpayer relating to the standard which is used to determine whether an organization is operated exclusively for the promotion of social welfare for purposes of section 501(c)(4) of the Internal Revenue Code of 1986 (including the proposed regulations published at 78 Fed. Reg. 71535 (November 29, 2013)); and

(2) the standard and definitions as in effect on January 1, 2010, which are used to make such determinations shall apply after the date of the enactment of this Act for purposes of determining status under section 501(c)(4) of such Code of organizations created on, before, or after such date.

SEC. 127. Amendments to Community Development Financial Institutions Bond Program.— Section 114A of the Riegle Community Development and Regulatory Improvement Act of 1994 (12 U.S.C. 4713a) is amended—

(a) in subsection (c)(2) by striking ", multiplied by an amount equal to the outstanding principal balance of issued notes or bonds"; and

(b) in subsection (e)(2)(B) by striking "\$100,000,000" and inserting "\$50,000,000".

SEC. 128. Notwithstanding paragraph (2) of section 402(c) of the Helping Families Save Their Homes Act of 2009, in utilizing funds made available by paragraph (1) of section 402(c) of such Act, the Special Inspector General for the Troubled Asset Relief Program shall prioritize the performance of audits or investigations of any program that is funded in whole or in part by funds appropriated under the Emergency Economic Stabilization Act of 2008, to the extent that such priority is consistent with other aspects of the mission of the Special Inspector General.

**TITLE VI—GENERAL PROVISIONS**

(INCLUDING TRANSFER OF FUNDS)

SEC. 601. None of the funds in this Act shall be used for the planning or execution of any program to pay the expenses of, or otherwise compensate, non-Federal parties intervening in regulatory or adjudicatory proceedings funded in this Act.

SEC. 602. None of the funds appropriated in this Act shall remain available for obligation beyond the current fiscal year, nor may any be transferred to other appropriations, unless expressly so provided herein.

SEC. 603. The expenditure of any appropriation under this Act for any consulting service through procurement contract pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 604. None of the funds made available by this Act shall be available for any activity or for paying the salary of any Government employee where funding an activity or paying a salary to a Government employee would result in a decision, determination, rule, regulation, or policy that would prohibit the enforcement of section 307 of the Tariff Act of 1930 (19 U.S.C. 1307).

SEC. 605. No funds appropriated pursuant to this Act may be expended by an entity unless the entity agrees that in expending the assistance the entity will comply with chapter 83 of title 41, United States Code.

SEC. 606. No funds appropriated or otherwise made available under this Act shall be made available to any person or entity that has been convicted of violating chapter 83 of title 41, United States Code.

SEC. 607. Except as otherwise specifically provided by law, not to exceed 50 percent of unobligated balances remaining available at the end of fiscal year 2020 from appropriations made available for salaries and expenses for fiscal year 2020 in this Act, shall remain available through September 30, 2021, for each such account for the purposes authorized: Provided, That notice thereof shall be submitted to the Committees on Appropriations of the House of Representatives and the Senate prior to the expenditure of such funds.

SEC. 608. (a) None of the funds made available in this Act may be used by the Executive Office of the President to request—

(1) any official background investigation report on any individual from the Federal Bureau of Investigation; or

(2) a determination with respect to the treatment of an organization as described in section 501(c) of the Internal Revenue Code of 1986 and exempt from taxation under section 501(a) of such Code from the Department of the Treasury or the Internal Revenue Service.

(b) Subsection (a) shall not apply—

(1) in the case of an official background investigation report, if such individual has given express written consent for such request not more than 6 months prior to the date of such request and during the same presidential administration; or

(2) if such request is required due to extraordinary circumstances involving national security.

SEC. 609. The cost accounting standards promulgated under chapter 15 of title 41, United States Code, shall not apply with respect to a contract under the Federal Employees Health Benefits Program established under chapter 89 of title 5, United States Code.

SEC. 610. For the purpose of resolving litigation and implementing any settlement agreements regarding the nonforeign area cost-of-living allowance program, the Office of Personnel Management may accept and utilize (without regard to any restriction on unanticipated travel expenses imposed in an Appropriations Act) funds made available to the Office of Personnel Management pursuant to court approval.

SEC. 611. No funds appropriated by this Act shall be available to pay for an abortion, or the administrative expenses in connection with any health plan under the Federal employees health benefits program which provides any benefits or coverage for abortions.

SEC. 612. The provision of section 611 shall not apply where the life of the mother would be endangered if the fetus were carried to term, or the pregnancy is the result of an act of rape or incest.

SEC. 613. In order to promote Government access to commercial information technology, the restriction on purchasing nondomestic articles, materials, and supplies set forth in chapter 83 of title 41, United States Code (popularly known as the Buy American Act), shall not apply to the acquisition by the Federal Government

of information technology (as defined in section 11101 of title 40, United States Code), that is a commercial item (as defined in section 103 of title 41, United States Code).

SEC. 614. Notwithstanding section 1353 of title 31, United States Code, no officer or employee of any regulatory agency or commission funded by this Act may accept on behalf of that agency, nor may such agency or commission accept, payment or reimbursement from a non-Federal entity for travel, subsistence, or related expenses for the purpose of enabling an officer or employee to attend and participate in any meeting or similar function relating to the official duties of the officer or employee when the entity offering payment or reimbursement is a person or entity subject to regulation by such agency or commission, or represents a person or entity subject to regulation by such agency or commission, unless the person or entity is an organization described in section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such Code.

SEC. 615. Notwithstanding section 708 of this Act, funds made available to the Commodity Futures Trading Commission and the Securities and Exchange Commission by this or any other Act may be used for the interagency funding and sponsorship of a joint advisory committee to advise on emerging regulatory issues.

SEC. 616. (a)(1) Notwithstanding any other provision of law, an Executive agency covered by this Act otherwise authorized to enter into contracts for either leases or the construction or alteration of real property for office, meeting, storage, or other space must consult with the General Services Administration before issuing a solicitation for offers of new leases or construction contracts, and in the case of succeeding leases, before entering into negotiations with the current lessor.

(2) Any such agency with authority to enter into an emergency lease may do so during any period declared by the President to require emergency leasing authority with respect to such agency.

(b) For purposes of this section, the term "Executive agency covered by this Act" means any Executive agency provided funds by this Act, but does not include the General Services Administration or the United States Postal Service.

SEC. 617. (a) There are appropriated for the following activities the amounts required under current law:

(1) Compensation of the President (3 U.S.C. 102).

(2) Payments to—

(A) the Judicial Officers' Retirement Fund (28 U.S.C. 377(o));

(B) the Judicial Survivors' Annuities Fund (28 U.S.C. 376(c)); and

(C) the United States Court of Federal Claims Judges' Retirement Fund (28 U.S.C. 178(l)).

(3) Payment of Government contributions—

(A) with respect to the health benefits of retired employees, as authorized by chapter 89 of title 5, United States Code, and the Retired Federal Employees Health Benefits Act (74 Stat. 849); and

(B) with respect to the life insurance benefits for employees retiring after December 31, 1989 (5 U.S.C. ch. 87).

(4) Payment to finance the unfunded liability of new and increased annuity benefits under the Civil Service Retirement and Disability Fund (5 U.S.C. 8348).

(5) Payment of annuities authorized to be paid from the Civil Service Retirement and Disability Fund by statutory provisions other than subchapter III of chapter 83 or chapter 84 of title 5, United States Code.

(b) Nothing in this section may be construed to exempt any amount appropriated by this section from any otherwise applicable limitation on the use of funds contained in this Act.

SEC. 618. None of the funds made available in this Act may be used by the Federal Trade Commission to complete the draft report entitled "Interagency Working Group on Food Marketed to Children: Preliminary Proposed Nutrition Principles to Guide Industry Self-Regulatory Efforts" unless the Interagency Working Group on Food Marketed to Children complies with Executive Order No. 13563.

SEC. 619. None of the funds in this Act may be used for the Director of the Office of Personnel Management to award a contract, enter an extension of, or exercise an option on a contract to a contractor conducting the final quality review processes for background investigation fieldwork services or background investigation support services that, as of the date of the award of the contract, are being conducted by that contractor.

SEC. 620. (a) The head of each executive branch agency funded by this Act shall ensure that the Chief Information Officer of the agency has the authority to participate in decisions regarding the budget planning process related to information technology.

(b) Amounts appropriated for any executive branch agency funded by this Act that are available for information technology shall be allocated within the agency, consistent with the provisions of appropriations Acts and budget guidelines and recommendations from the Director of the Office of Management and Budget, in such manner as specified by, or approved by, the Chief Information Officer of the agency in consultation with the Chief Financial Officer of the agency and budget officials.

SEC. 621. Title 44, United States Code, is amended as follows—

(a) in subsection (a)(2) of section 2107, strike "the head of such agency has certified in writing to the Archivist" and substitute "the Archivist determines, after consulting with the head of such agency,";

(b) in subsection (d) of section 2904, strike the first instance of "digital or electronic";

(c) in subsection (e) of section 3303a, strike "the written consent of" and substitute "advance notice to"; and

(d) in section 3308, strike "empower" and substitute "direct".

SEC. 622. Upon enactment, the unobligated balances appropriated in prior appropriations Acts for the Public Company Accounting Oversight Board merit scholarship program, as authorized by 15 U.S.C. 7219(c)(2), shall be transferred to the general fund of the Treasury.

In 2020, the Administration requests an additional \$4.6 billion over the 2020 advance appropriation of \$75.6 billion for the Department of Veterans Affairs (VA) Medical Care program, consisting of four appropriations: Medical Services, Medical Community Care, Medical Support and Compliance, and Medical Facilities. Each year, VA updates its budget estimates to incorporate the most recent data on health care utilization rates, actual program experience, and other factors, such as economic trends in unemployment and inflation. As a result of these updates, the adjusted budget estimates more accurately reflect the projected medical demands of veterans enrolled in the VA health care system. In 2020, the Budget supports implementation of the VA Maintaining Internal Systems and Strengthening Integrated Outside Networks (MISSION) Act of 2018 (P.L. 115-182) and provides veterans greater choice on where they receive their healthcare—whether at VA or through a private healthcare provider. The Budget consolidates all veterans' community care programs into a single program, reducing bureaucracy and making it easier for veterans to navigate their healthcare needs. As part of the MISSION Act, the Budget supports VA's brand new urgent care benefit and expansion of the Caregivers program to include eligible veterans who incurred or aggravated a serious injury in the line of duty before September 11, 2001. Expansion of the Caregivers program would coincide with new information technology (IT) updates necessary to effectively manage the program.

For 2021, the Budget requests \$87.6 billion in advance appropriations for VA Medical Care. This request for advance appropriations fulfills the Administration's commitment to provide reliable and timely resources to support the delivery of accessible and high-quality medical services for veterans.

With the resources requested for 2020 and 2021, VA will provide the highest quality health care services for veterans. VA estimates it will treat 7.1 million patients in 2020 and 7.1 million patients in 2021. Operation Enduring Freedom, Operation Iraqi Freedom, and Operation New Dawn (OEF/OIF/OND) veterans are expected to be 1,102,752 in 2020 (15.6 percent of the total) and 1,174,404 in 2021 (16.5 percent of the total).

*Medical Care Collections Fund (MCCF).*—VA estimates collections of nearly \$3.6 billion in 2019 and \$3.9 billion in 2020, representing about

five percent of available Medical Care resources in both years. VA has the authority to collect inpatient and outpatient co-payments, medication co-payments, and nursing home co-payments; authority for certain income verification; authority to recover third-party insurance payments from veterans for nonservice-connected conditions; and authority to collect revenue from enhanced use leases. These collections also include those collected from the Compensated Work Therapy Program, Compensation and Living Expenses Program, and the Parking Program.

*Medical Services.*—For Medical Services, the Budget reflects the following discretionary appropriation funding: the 2019 enacted advance appropriation of \$49.2 billion, together with \$750 million provided by the Energy and Water, Legislative Branch, and Military Construction and Veterans Affairs Appropriations Act, 2019 (P.L. 115-244); the 2020 advance appropriation of \$51.4 billion; and the 2021 advance appropriation request of \$56.2 billion. This appropriation provides for a comprehensive, integrated health care delivery system that addresses the needs of eligible veterans and beneficiaries in VA facilities and through non-VA, or community care, providers, including medical centers, outpatient clinic facilities, contract hospitals, State homes, and outpatient programs on a fee basis. Hospital and outpatient care is also provided by the private sector for certain dependents and survivors of veterans under the Civilian Health and Medical Programs for the Department of Veterans Affairs (CHAMPVA). In addition to this funding, the Budget reflects balances from mandatory funding provided in section 801 of the Veterans Choice Act (P.L. 113-146): \$47 million in unobligated balances remained available at the start of 2019.

**WORKLOAD**

Estimated obligations and workload for seven categories of health care services are shown below: outpatient care, inpatient care, mental health care, long term services and supports, prosthetics care, dental care, and rehabilitation care. In addition, estimated obligations and workload are also shown for six programs: CHAMPVA and other dependent programs, readjustment counseling, Caregivers, pharmacy, the Camp Lejeune Family Member program, and State Home programs.

*Outpatient care.*—Obligations for 2020 are estimated to be \$21,342 million in the Medical Services account and \$6,629 million in the Medical Community Care account for this health service category, which includes funding for ambulatory care in VA hospital-based and community-based clinics.

Estimated operating levels are:

*Mental health care.*—Obligations for 2020 are estimated to be \$7,279 million in the Medical Services account and \$249 million in the Medical Community Care account for the inpatient, residential, and outpatient care of veterans with conditions related to mental illness, including alcohol and drug problems. Mental health services and operations ensure the availability of a range of services, from treatment of a variety of common mental health conditions in primary care to more intensive interventions in specialty mental health programs for more severe and persisting mental health conditions. Specialty services such as evidence-based psychotherapies, intensive outpatient programs, residential rehabilitation treatment, and inpatient care are available to meet the range of veterans' needs.

**Long term services and supports (LTSS).**—Obligations for 2020 are estimated to be \$3,872 million in the Medical Services account and \$2,724 million in the Medical Community Care account for the care of veteran residents in VA- and community-operated long-term care programs. VA offers a spectrum of geriatric and extended care services to veterans enrolled in its health care system. The spectrum of long-term care services includes non-institutional and institutional services. All VA medical centers provide home- and community-based long-term care programs. The patient-focused approach supports veterans who wish to live safely at home in their own communities for as long as possible.

**Prosthetics care.**—Obligations in the Medical Services account for 2020 are estimated to be \$3,901 million for veterans. Prosthetic and Sensory Aids Service is an integrated delivery system designed to provide medically prescribed prosthetic and sensory aids, medical devices, assistive aids, repairs and services to eligible disabled veterans to maximize their independence and enhance their quality of life. This includes, but is not limited to, artificial limbs, hearing aids, and home oxygen; items that improve accessibility such as ramps and vehicle modifications, wheelchairs and mobility aids; and devices surgically placed in the veteran, such as stents.

**Dental care.**—Obligations for 2020 are estimated to be \$782 million in the Medical Services account and \$248 million in the Medical Community Care account for the treatment of veterans who require dental care. Dental care services are provided to eligible veterans with a "medical condition negatively impacted by poor dentition." These patients may include poorly controlled diabetic patients, patients with head or neck cancer, organ transplant patients, and others. Veterans with a 100-percent service-connected disability are eligible for comprehensive dental care as needed. In addition, homeless veterans enrolled in certain residential treatment programs are also eligible for dental treatment.

**Rehabilitation.**—Obligations for 2020 are estimated to be \$782 million in the Medical Services account and \$248 million in the Medical Community Care account for the provision of rehabilitative care, including Blind Rehabilitation and Spinal Cord Injury programs. These services include inpatient and outpatient blind and vision rehabilitation programs, adjustment to blindness counseling, patient and family education, and assistive technology. The mission of Spinal Cord Injury and Disorders (SCI/D) services is to promote the health, independence, quality of life and productivity of individuals with spinal cord injury and disorders through

efficient delivery of acute rehabilitation, psychological, social, vocational, medical and surgical care, professional training, as well as patient and family education.

**Readjustment Counseling.**—Obligations in the Medical Services account for 2020 are estimated to be \$230 million. This program provides readjustment counseling services at VA Vet Centers. Vet Centers are community-based counseling centers that provide a wide range of social and psychological services to include: professional readjustment counseling to veterans who have served in a combat zone, military sexual trauma counseling, bereavement counseling for families who experience an active duty death, substance abuse assessments and referral, medical referral, Veterans Benefits Administration (VBA) benefits explanation and referral, and employment counseling. Services are also extended to the family members of eligible veterans for issues related to military service and the readjustment of those veterans.

**Caregivers (Title I) Programs.**—Obligations in the Medical Services account for 2020 are estimated to be \$700 million. The Caregivers and Veterans Omnibus Health Services Act of 2010 (P.L. 111–163), authorized VA to provide assistance and support services for Caregivers of eligible veterans. This program provides a wide range of services for primary caregivers to include: a monthly personal caregiver stipend, respite care, access to mental health services, beneficiary travel, and health care benefits through the existing CHAMPVA Program.

**Pharmacy.**—Obligations in the Medical Services account for 2020 are estimated to be \$7,987 million for pharmacy costs. VA's use of medication therapies is a fundamental underpinning of how VA delivers health care today. VA's primary focus is on diagnosis and treatment in an ambulatory environment and home environment basis with institutional care as the modality of last resort.

**Camp Lejeune Family Member Program.**—Obligations in the Medical Community Care account for 2020 are estimated to be \$1 million for the Camp Lejeune Family Member program. The Honoring America's Veterans and Caring for Camp Lejeune Families Act of 2012 (P.L. 112–154) extended eligibility for VA hospital care and medical services to certain veterans who were stationed at Camp Lejeune, North Carolina, for at least 30 days between 1957 and 1987. Family members of such veterans who resided,

MEDICAL SERVICES—Continued

or were in utero, at Camp Lejeune for at least 30 days during that period are eligible for reimbursement of hospital care and medical services for 15 specified illnesses and conditions, and VA is the payer of last resort.

**State Home Programs.**—Obligations in the Medical Community Care account for 2020 are estimated to be \$1,514 million for State Home Programs. State Veterans Homes are facilities approved by VA that a State has established primarily for the care of Veterans disabled by age, disease, or otherwise, who, because of such disability, are incapable of earning a living. VA pays a per diem to States for the care of eligible veterans, but the per diem rates are different for each of the three levels of care offered: Nursing Home Care, Domiciliary Care, or Adult Day Health Care (ADHC).

**Public Law 113–146, Veterans Choice Act, Section 801.**— The Veterans Access, Choice, and Accountability Act of 2014 (P.L. 113–146) ("Veterans Choice Act") was enacted on August 7, 2014. The 2020 Budget supports continued implementation of the Veterans Choice Act and the Administration's goal of providing timely, high-quality health care for our Nation's veterans. The Veterans Choice Act provided \$5 billion in mandatory funding in section 801 to increase veterans' access to health care by hiring more physicians and staff and improving the VA's physical infrastructure. Obligations in the Medical Services account for 2020 are estimated to be \$14 million for section 301 activities.

The Medical Community Care appropriation provides funding for community care services to eligible veterans, which has been an essential part of the Department of Veterans Affairs (VA) health care system for decades.

The Budget reflects the following discretionary appropriation funding from 2019 through 2021: the 2019 enacted advance appropriation of \$8.4 billion, together with an additional \$1.0 billion as provided by the Energy and Water, Legislative Branch, and Military Construction and Veterans Affairs Appropriations Act, 2019 (Public Law 115–244); the 2020 advance appropriation request of \$10.8 billion and additional funding of \$4.5 billion in support of the VA Maintaining Internal Systems and Strengthening Integrated Outside Networks (MISSION) Act of 2018 (Public Law 115–182); and the 2021 advance appropriation request of \$17.1 billion. The VA MISSION Act of 2018 provides eligible veterans greater choice in where they receive their care.

The 2021 request for advance appropriation fulfills the Administration's commitment to provide reliable and timely resources to support the delivery of accessible and high-quality medical services for veterans.

Medical Support and Compliance finances the expenses of management, security, and administration of the Department of Veterans Affairs (VA) healthcare system through the operation of VA medical centers, other facilities, Veterans Integrated Service Network offices and facility director

MEDICAL SUPPORT AND COMPLIANCE—Continued

offices, chief of staff operations, quality of care oversight, legal services, billing and coding activities, procurement, financial management, and human resource management.

For Medical Support and Compliance, the Budget reflects the following discretionary appropriation funding from 2019 through 2021: the 2019 enacted advance appropriation of \$7.2 billion, together with a reduction of \$211 million to reflect the rescission of funds provided by the Energy and Water, Legislative Branch, and Military Construction and Veterans Affairs Appropriations Act, 2019 (Public Law 115–244); the 2020 advance appropriation request of \$7.2 billion and additional funding of \$98.8 million in support of the VA Maintaining Internal Systems and Strengthening Integrated Outside Networks (MISSION) Act of 2018 (Public Law 115–182); and the 2021 advance appropriation request of \$7.9 billion. In addition to this funding, the Budget reflects balances from mandatory funding provided in section 801 of the Veterans Access, Choice, and Accountability Act of 2014 (Public Law 113–146): \$16 million in unobligated balances remained available at the start of 2019.

The 2021 advance appropriations request fulfills the Administration's commitment to provide reliable and timely resources to support the delivery of accessible and high-quality medical services for veterans.

The purpose of the Department of Defense-Veterans Affairs Health Care Sharing Incentive Fund, often referred to as the Joint Incentive Fund (JIF), is to enable the Departments to carry out a program to identify and provide incentives to implement creative sharing initiatives at the facility, intra-regional and nationwide levels. The JIF promotes collaboration and new approaches to problem solving to enable the Departments to improve the coordination of health care services. The Departments have established the fund and developed processes and criteria to solicit and select projects. Section 721 of the National Defense Authorization Act for Fiscal Year 2003, Public Law 107–314, established the fund and requires the Departments to establish a joint incentive program. In 2020, each Secretary shall contribute a minimum of \$15 million to the fund after the appropriation is enacted.

Medical Facilities provides for the operations and maintenance of the capital infrastructure required to provide healthcare to the Nation's veterans. These costs include utilities, engineering, capital planning, leases, laundry services, grounds maintenance, trash removal, housekeeping, fire protection, pest management, facility repair and maintenance, and property disposition and acquisition.

For Medical Facilities, the Budget reflects the following discretionary appropriation funding from 2019 through 2021: the 2019 advance appropriation of \$5.9 billion and an annual appropriation of \$890 million provided in the Energy and Water, Legislative Branch, and Military Construction and Veterans Affairs Appropriations Act, 2019 (P.L. 115-244); the 2020 advance appropriation of \$6.1 billion; and the 2021 advance appropriation request of \$6.4 billion. In addition to this funding, the Budget reflects balances from mandatory funding provided in section 801 of the Veterans Access, Choice, and Accountability Act of 2014 (P.L. 113-146): \$21 million in unobligated balances remained available at the start of 2019.

The 2021 advance appropriation request fulfills the Administration's commitment to provide reliable and timely resources to support the delivery of accessible and high-quality medical services for veterans.

For 2020, the total budgetary resources of over \$2 billion is comprised of \$762 million in direct appropriations, \$648 million in medical care support such as physicians' pay, utilities and other overhead, \$570 million in Federal grants and other non-Federal resources, and \$55 million in reimbursements. The Department of Veterans Affairs' (VA) research program will support 3,165 full time equivalents through direct appropriations and reimbursable resources. These combined resources will support 2,200 research projects.

This account is an intramural research program with outstanding success leading to critical clinical achievements that improve the health and quality of life for veterans and the Nation. As a health research program focused exclusively on the needs of veterans, VA research continues to play a vital role in the care and rehabilitation of our men and women who have served in uniform. Building on more than 90 years of discovery and innovation engaging veterans as research volunteers, VA research has a proud track record of transforming VA healthcare by bringing new evidence-based treatments and technologies into everyday clinical care. In 2020, VA will continue to invest in several cross-cutting clinical priorities, including suicide prevention, opioid safety and pain management, post-traumatic stress disorder (PTSD), traumatic brain injury (TBI), mental health, and Gulf War Illness. VA research has led the way in developing effective treatments, behavioral interventions, and devices in clinical trials. These investments support VA's strong track record of facilitating the implementation of research findings directly into clinical practice.

The Department of Veterans Affairs (VA) and the Department of Defense (DOD) will each contribute funding to the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund, established by section 1704 of Public Law 111-84, the National Defense Authorization Act for Fiscal Year 2010. This funding will support the continuing operations of the Captain James A. Lovell Federal Health Care Center (FHCC), which opened on December 20, 2010. In 2019 and 2020, VA expects to transfer funds from the Medical Services, Medical Community Care, Medical Support and Compliance, Medical Facilities, and Information Technology Systems accounts, while DOD expects to transfer funds from the Defense Health Program account.

The Department of Veterans Affairs has the authority to collect co-payments, which are deposited into the Medical Care Collections Fund (MCCF) account. As allowed by the provisions of the appropriations Act, these receipts are transferred to Medical Services, Medical Community Care, and the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund (Joint Demonstration Fund) where they remain available until expended for the purposes of the account. In 2018, over \$3.5 billion was collected in the MCCF account and transferred to Medical

The Veterans Access, Choice, and Accountability Act of 2014 ("Veterans Choice Act"), Public Law 113–146, provided \$10 billion in mandatory funding through 2017 to establish a temporary program ("Veterans Choice Program") improving veterans' access to health care by allowing eligible veterans who meet certain wait-time or distance standards to use eligible health care providers outside the Department of Veterans Affairs (VA) system. The law directed that this funding be deposited in the Veterans Choice Fund. In July 2015, the Congress provided emergency funding for Hepatitis C (\$500,000,000) and Care in the Community (\$2,848,500,000) by passing Public Law 114–41, the Surface Transportation and Veterans Health Care Choice Improvement Act of 2015, which gave VA temporary authority to use Veterans Choice Fund dollars on other programs. This authority ended on October 1, 2015 and did not extend into 2016.

Public Law 115–26 amended the Veterans Choice Act to eliminate the August 7, 2017 sunset date for the Veterans Choice Program, thus allowing the program to operate until all of the money in the Veterans Choice Fund is expended.

Public Law 115–46, the VA Choice and Quality Employment Act of 2017, provided \$2.1 billion in mandatory funding for the Veterans Choice Fund, to remain available until expended. In 2018, Public Law 115–96 provided \$2.1 billion more in mandatory funding, to remain available until expended; and Public Law 115–182, the MISSION Act, provided an additional \$5.2 billion in mandatory funding, to remain available without fiscal year limitation. The MISSION Act provides flexibility of Veterans Choice Fund dollars beginning on March 1, 2019, authorizing permanent authority for other uses. In addition, the MISSION Act sunset the Choice Program in June 2019 and established the new Veterans Community Care Program.

This fund consists of gifts, bequests, and proceeds from the sale of property left in the care of the facilities by former beneficiaries; patients' fund balances; and proceeds from the sale of effects of beneficiaries who die leaving no heirs or without having otherwise disposed of their estate. Such funds are used to promote the comfort and welfare of veterans at hospitals, nursing homes, and domiciliaries where no general appropriation is available. Public Law 102–54 authorizes compensation work therapy and therapeutic transitional housing and loan programs to be funded from the General Post Fund (38 U.S.C. chapters 83 and 85).

For 2021, the Budget requests \$116,801,316,000 in advance appropriations for Compensation and Pensions. This request satisfies the requirement created by the Consolidated and Further Continuing Appropriations Act, 2015 (P.L. 113-235) and prevents our Nation's veterans from being adversely affected by budget delays.

This appropriation provides for the payment of compensation, pension, and burial benefits to veterans and survivors.

Compensation is paid to veterans for disabilities incurred in or aggravated during active military service. Dependency and Indemnity Compensation is paid to survivors of servicepersons or veterans whose death occurred while on active duty or as a result of service-connected disabilities. Compensation and vocational rehabilitation is provided to the children of Vietnam veterans who were born with certain birth defects. The Secretary may pay a clothing allowance to each veteran who uses a prescribed medication for a service-connected skin condition or wears a prosthetic or orthopedic appliance (including a wheelchair) which, in the judgment of the Secretary, tends to damage or tear the clothing of such veteran.

Miscellaneous benefits provided for are:

(a) payments for claims made pursuant to the provision of the World War Adjusted Compensation Act of 1924, as amended;

(b) a special allowance (38 U.S.C. 1312) to dependents of certain veterans who died after December 31, 1956, but who were not fully and currently insured under the Social Security Act; and

(c) payments authorized by the Equal Access to Justice Act.

The appropriation also provides for a program to allow the Department of Veterans Affairs (VA) to perform income matches for certain compensation recipients.

In accordance with Public Law 97–377, the Reinstated Entitlement Program for Survivors (REPS) program restores Social Security benefits to certain surviving spouses or children of veterans who died of service-connected causes.

Legislation is proposed to provide a cost-of-living adjustment comparable to the annual Social Security increase to recipients of disability compensation, dependency and indemnity compensation, and clothing allowances. The increase, effective with payments made on January 1, 2020, is expected to be 2.2 percent.

Pension benefits may be paid to veterans or their survivors. A veteran's entitlement is based on active duty service of a specific length (normally 90 days or more) during a designated war period, disabilities considered permanent and total, and countable income below established levels. There is no disability requirement for survivor cases or veterans age 65 or older. Income support is provided at established benefit levels.

An automatic annual cost-of-living increase comparable to the annual social security increase is provided for those pensioners in the improved program and to parents receiving dependency and indemnity compensation. The increase, effective with payments made on January 1, 2020, is expected to be 2.2 percent.

Burial benefits in 2019 provided for: (a) the payment of an allowance of \$780 (plus transportation charges where death occurs under VA care) to reimburse, in part, the burial and funeral expense of an eligible deceased

veteran; (b) the payment of \$780 for a plot allowance where an eligible veteran is not buried in a national cemetery or other cemetery under the jurisdiction of the United States; (c) the payment of a burial allowance of up to \$2,000 when a veteran dies as a result of a service-connected disability; (d) furnishing a flag to drape the casket of each deceased veteran entitled thereto; (e) furnishing a headstone or marker for the grave of a veteran and, in certain cases, eligible dependents; and (f) authority to provide outer burial receptacles in the National Cemetery Administration.

*Prohibition of Entitlement to VA's Individual Unemployability Benefit for Individuals Serving in the Reserve Components.* VA seeks to amend 38 U.S.C. section 1163 to prohibit entitlement to total disability ratings for compensation based on individual unemployability if the individual is concurrently performing duties in the reserve components and receiving active service pay from such duty. Benefit savings are estimated to be \$6.7 million in 2020, \$81.8 million over five years, and \$302.7 million over ten years.

*Allow for Electronic Decision Notification, and Other Communications.* VA seeks to amend provisions in 38 U.S.C. sections 7105 and 5104 to specifically allow for electronic notification of result of initial benefits review/determinations. VA also seeks to amend 38 U.S.C. section 101, updating definitions to allow for electronic communication between VA,

## COMPENSATION AND PENSIONS—Continued

veterans, claimants, and other entities, where practicable, in the course of adjudicating claims. These changes are necessary to allow VA, veterans, and claimants to utilize modern electronic methods of communication to deliver timely and efficient decisions on claims. No benefits costs are associated with this proposal.

*VA Schedule for Rating Disability (VASRD) Effective Dates.* VA seeks to amend 38 U.S.C. section 1155 so that, when VASRD is readjusted, such changes would apply to any new or pending claims and may include action to decrease an existing evaluation. VA's current practice is that, when there are changes to VASRD, an increased evaluation for a disability cannot be granted under the old rating criteria; in addition, a disability evaluation cannot be decreased under the new rating criteria unless there has been a demonstrated improvement in the condition. This proposal would reduce the administrative burden of having adjudicators apply the old and new sets of criteria to claims and make VASRD easier to understand and apply for veterans and their representatives. VA would not adjust veterans' ratings downward on its own initiative, but would adjust ratings accordingly upon the veteran's request. This proposal would result in savings; however, insufficient data are available to estimate if savings would be significant.

*Modernize VA's Records Management Program.* VA seeks to amend title 38, U.S.C. by creating a new section 5707 to codify VBA's procedures with respect to imaged source paper files, input records, reports, or other documents under the Records Control Schedule required by title 44, U.S.C. No benefit costs are associated with this proposal.

*Clarify Evidentiary Threshold for Ordering VA Examinations.* VA seeks to amend 38 U.S.C. section 5103A(d)(2) to clarify the evidentiary threshold at which VA, under its duty to assist obligation in section 5103A, is required to request a medical examination for compensation claims. This proposal aims to eliminate delays in claims processing by establishing a more reasonable policy in determining when a VA examination is warranted in connection with a claim for compensation. In recent years, the courts have held that evidence necessary to satisfy the requirements of 38 U.S.C. section 5103A(d)(2) is much lower than VA or Congress contemplated. This proposed change would require, in general, the existence of objective evidence of an in-service event, injury, or disease to trigger VA's duty to request an examination under 38 U.S.C. section 5103A(d)(2). Benefit savings are estimated to be \$233.1 million in 2020, \$1.3 billion over five years, and \$2.8 billion over ten years.

*Elimination of Payment of Benefits to the Estates of Deceased Nehmer Class Members and to the Survivors of Certain Class Members.* VA seeks to amend 38 U.S.C. section 1116 to eliminate payment of benefits to the estates of deceased Nehmer class members and to survivors of certain class members when such benefits are the result of presumptions of service connection established pursuant to section 1116 for diseases associated with exposure to certain herbicide agents. This proposal would prevent the allocation of extensive resources to claims not contemplated by Congress and avoids potential for creating or substantially adding to VA's backlog. No benefits costs are associated with this proposal.

*Attendance at Transition Assistant Program (TAP) or Access to eBenefits Meets the Requirements to Notify Veterans by Letter of VA Benefits and Services.* VA seeks to amend 38 U.S.C. section 6303(b) to authorize VA to use TAP and eBenefits to notify each transitioning veteran by the most effective means available, including electronic communication or notification in writing, of all VA benefits and services for which they may be eligible. Currently, statute requires VA to send each veteran a letter with benefits information and to contact in-person or by telephone veterans who do not have a high school education or equivalent at the time of discharge or release. For those Veterans discharged or separated without a high-school diploma, this proposal would also eliminate the requirement for VA to make in-person or telephone contact regarding their eligibility for benefits, except in instances where they did not attend a TAP briefing or were not receiving information through eBenefits. No benefit costs are associated with this proposal.

*Automatic Annual Cost-of-Living Adjustments (COLA) for Disability Compensation and Dependency and Indemnity Compensation (DIC).* VA seeks to amend 38 U.S.C. sections 1104, 1303, and 5312 to provide for the annual COLA to be made automatically by law each year in the rates of disability compensation and DIC. The amendment would also provide for automatic COLA for clothing allowance and the additional compensation for dependents. No benefits costs are associated with this proposal.

*Extend the Authority for Operations of the Manila VA Regional Office.* VA seeks to extend the authority currently provided by 38 U.S.C. section 315(b) to maintain the operations of the Manila Regional Office to December 31, 2023. No benefit costs are associated with this proposal.

*Round-Down of the Computation of the Cost of Living Adjustment (COLA) for Service-Connected Compensation and Dependency and Indemnity Compensation (DIC) for Five Years.* VA seeks to amend 38 U.S.C. sections 1104(a) and 1303(a) to round-down COLA computations from 2020 to 2024. Savings are estimated to be \$34.3 million in 2020 and \$637.6 million over five years. This proposal would reinstate the round-down for five years; however, the cumulative effect of rounding-down COLAs for five years will total \$2.0 billion in savings over ten years.

*Reimbursement of Credentialing Costs.* VA seeks to amend 38 U.S.C. section 5729 to collect a reasonable fee necessary to offset the costs of performing background and other investigations needed for credentialing accredited attorneys and claims agents before they can access the automated VBA records of claimants whom they represent. No benefit costs are associated with this proposal.

*Reissue VA Benefit Payments to all Victims of Fiduciary Misuse.* VA seeks to amend 38 U.S.C. section 6107, which authorizes VA to reissue benefits to a beneficiary if the beneficiary's VA-appointed fiduciary misuses the beneficiary's benefits. This proposal would ensure equal treatment of all beneficiaries who are victims of misuse regardless of the nature and scope of the fiduciary's business or the fiduciary's relationship with the beneficiary. Benefit costs are estimated to be \$6.2 million in 2020, \$34.0 million over five years, and \$77.0 million over ten years.

*Allow VA Contractors and Vendors Access to Federal Tax Return Information for Purposes of Assisting in the Administration of Certain VA Benefit Programs and Maintaining the Systems that VA uses to Administer these Programs.* VA seeks to amend 26 U.S.C. 6103(l)(7)(A) and (B) in order to allow VA contractors and vendors access to tax return information that is disclosed to VA. Under this proposal, VA personnel would continue to make determinations of entitlement for income-based programs and other discretionary decisions based upon the Federal tax information. However, VA could rely on contractors and vendors to help develop and maintain the information technology systems VA uses to administer needs-based programs. This proposal would eliminate the need for VA to create a complex information technology solution to mitigate contractor access to VA systems and benefits-related documents that contain tax information. No benefits costs are associated with this proposal.

*Remove Annual Income from Net Worth Calculation.* VA seeks to amend 38 U.S.C. sections 1522 and 1543 to remove the requirement that VA consider annual income in its net worth determinations. VA's intent with this proposal is to allow more fair and consistent net-worth calculations and to promote pension automation with respect to net worth calculations. Benefit costs are estimated to be insignificant.

*Authorize VA to Rely on Unearned and Earned Income Information Supplied by the IRS and Earned Income Information Available from the SSA for Purposes of Determining Eligibility for its Needs-Based Pension Program, and Eliminate the Need for VA to Independently Verify the Information.* VA seeks to amend 38 U.S.C. 5317(b) and (e) to authorize VA to rely on information it obtains from the Internal Revenue Service (IRS) and Social Security Administration (SSA) when making initial pension eligibility determinations. VA also proposes to remove the requirement that VA independently verify the information. No benefits costs are associated with this proposal.

Authorize VA to Pay a Flat Rate for the Costs of Domestic Transportation of a Deceased Veteran to a National Cemetery. VA seeks to amend 38 U.S.C. section 2308 to authorize VA to pay a one-time, inflation-indexed, flat-rate benefit for the domestic transportation of a deceased veteran to a national cemetery. This would allow VA to automate adjudication and payment of these claims, providing more timely benefits to survivors without requiring them to prove their actual expenses during a difficult and vulnerable period of transition. No benefit costs are associated with this proposal.

Extension of Reduced Pension for Certain Veterans and Survivors Covered by Medicaid Plans for Services. VA seeks to amend 38 U.S.C. section 5503(d) to extend through September 30, 2029, the limit to \$90 in pension payable to certain recipients of Medicaid-covered nursing home care. This authority protects pension payments from being applied to the cost of the recipient's nursing home care. Public Law 115–182, section 509, last extended this authority to September 30, 2028. Benefit savings would not occur until 2029; therefore, savings would be \$0 over the first five years. Estimated savings over ten years are \$245.1 million.

Spousal and Dependent Inscriptions on Veteran Headstones and Markers. VA seeks to amend 38 U.S.C. section 2306 to allow VA to inscribe, if feasible and upon request, on a Government-furnished headstone or marker for placement on a gravesite in a non-VA cemetery information about the veteran's spouse or dependent child. The proposed applicability date would be to add such an inscription for the headstones and markers of veterans whose date of death is on or after January 1, 2015. Benefit costs are estimated to be \$868 thousand in 2020, \$4.0 million over five years, and \$7.8 million over ten years.

Authorization to Provide Outer Burial Receptacles (OBR) for State and Tribal Organization Cemeteries. VA proposes to amend 38 U.S.C. 2306 to provide an outer burial receptacle (OBR) benefit for any casketed gravesite for eligible veterans and their family members interred in State and tribal veterans cemeteries that received grant funding through VA's Veterans Cemetery Grants Program. This would ensure parity for the OBR benefit for eligible individuals in any cemetery that has a mission to provide burial for veterans and their eligible dependents, and would alleviate the additional financial burden on the families of veterans to purchase an OBR if they choose to bury the veteran or an eligible family member in a State or tribal veterans cemetery. Mandatory costs are estimated to be \$1.9 million in 2020, \$13.5 million over five years, and \$36.2 million over ten years.

Authorization to Pay Cost of Transporting Unclaimed Remains of Veterans to a VA-funded State or Tribal Organization Cemetery. VA seeks to amend title 38 U.S.C. section 2308 to expand the provision of the transportation allowance to cover those unclaimed remains of veterans transported to a VA-funded veterans cemetery owned by a State or Tribal organization. Currently, VA is only authorized to provide an allowance for the cost of transporting the remains to the nearest VA national cemetery. Benefit costs are estimated to be insignificant.

Burial Benefit Eligibility Requirement for Other-Than-Dishonorable Service for Deaths in Active Service. VA seeks to amend title 38 U.S.C. section 2402(a)(1) to require that a servicemember who dies in active service must have been serving under conditions other than dishonorable to be eligible for burial in a national cemetery. This proposal would also amend title 38 U.S.C. section 2306(b)(4)(A) and (g)(2) to impose the same requirement for eligibility for a memorial headstone or marker and amend title 38 U.S.C. section 2301(d) to do the same for eligibility for a burial flag. No benefit costs are associated with this proposal.

Expansion of Eligibility for Government-Furnished Headstone, Marker or Medallion for Medal of Honor Recipients. VA seeks to amend 38 U.S.C. section 2306 to allow VA to furnish or replace a headstone, marker, or medallion for the grave of an eligible Medal of Honor recipient, regardless of the recipient's dates of service, date of death, or location. Benefit costs are estimated to be insignificant.

READJUSTMENT BENEFITS

For the payment of readjustment and rehabilitation benefits to or on behalf of veterans as authorized by chapters 21, 30, 31, 33, 34, 35, 36, 39, 41, 51, 53, 55, and 61 of title 38, United States Code, **[\$14,065,282,000]** \$12,578,965,000, to remain available until expended and to become available on October 1, **[2019]** 2020: *Provided*, That expenses for rehabilitation program services and assistance which the Secretary is authorized to provide under subsection (a) of section 3104 of title 38, United States Code, other than under paragraphs (1), (2), (5), and (11) of that subsection, shall be charged to this account. For 2021, the Budget requests \$12,578,965,000 in advance appropriations for Readjustment Benefits. This request satisfies the requirement created by the Consolidated and Further Continuing Appropriations Act, 2015 (P.L. 113-235) and prevents our Nation's veterans from being adversely affected by budget delays.

This appropriation finances educational assistance allowances for certain servicemembers, veterans, and for eligible dependents of those: (a) veterans who died from service-connected causes or have a total and permanent rated service-connected disability; and (b) servicemembers who were captured or missing in action. In addition, certain disabled veterans are provided with vocational rehabilitation, specially adapted housing grants, and automobile grants with the associated approved adaptive equipment. Voluntary contributions by eligible servicemembers and matching contributions provided by the Department of Defense are included in the Post-Vietnam Era Veterans Education Account.

*The Post-9/11 GI Bill (Chapter 33).*—Public Law 110-252 greatly expanded education benefits beginning on August 1, 2009. Based on length of active duty service and training rate, trainees may be entitled to benefits including: tuition and fees, housing allowance, books and supplies stipend, kickers, and Yellow Ribbon matching payments. Certain active duty members of the Armed Forces may transfer benefits to a spouse or children.

*All volunteer force educational assistance (Montgomery GI Bill).*—Public Law 98-525, enacted October 19, 1984, established two new educational programs: an assistance program for veterans who enter active duty during the period beginning July 1, 1985; and an assistance program for certain

members of the Selected Reserve. Public Law 108-375 established a program to provide educational assistance to members of the reserve components called or ordered to active service in response to a war or national emergency declared by the President or the Congress, in recognition of the sacrifices that those members make in answering the call to duty. The Readjustment Benefit appropriation pays the basic benefit allowance for veterans, except for certain Post-Vietnam Era Veterans Education participants who transferred to the Montgomery GI Bill program. Supplementary educational assistance, Post-Vietnam Era Veterans Education converters, re-servists, and the National Call to Service Program are financed by payments from the Department of Defense.

*Survivors and Dependents Educational Assistance (Chapter 35).*—Benefits are provided to children and spouses of veterans who died of a service-connected disability or whose service-connected disability is rated permanent and total. In addition, dependents of servicemembers missing in action or interred by a hostile foreign government for more than 90 days are also eligible. The following table provides a comparison of trainees and costs for the Dependents Educational Assistance.

*The Veterans Retraining Assistance Program.*—Established under Public Law 112-56, is a program that, from July 1, 2012 through March 31, 2014, provides up to 12 months of retraining assistance to veterans at least 35 years of age but not more than 60 years of age, who are unemployed, received an honorable discharge and have no eligibility remaining for other education benefits. Veterans participating in this program would receive monthly payments equal to the three-year payment rate under the Montgomery GI Bill (MGIB) chapter 30. Although veterans are no longer training under this program, the Department of Veterans Affairs (VA) is still required to issue equitable relief payments when approved by the Secretary.

The following table shows a caseload and cost comparison for these beneficiaries under existing legislation.

*Vocational Rehabilitation and Employment (Chapter 31).*—Servicemembers and veterans with service-connected disabilities receive the assistance necessary to help them prepare for, obtain, and maintain suitable employment. Comprehensive assessments may include interest and aptitude testing as well as specialized assessments such as functional capacity examinations. During the training phase of the program, eligible servicemembers and veterans are provided assistance for necessary training such as tuition, fees, books and supplies at colleges, technical schools and other training programs. A veteran enrolled in training receives a monthly subsistence allowance. Eligible veterans may also receive specialized or adaptive equipment to help them overcome a disability or enable them to compete with non-disabled individuals. At the completion of training, veterans are provided with employment and placement services, including supplies and equipment needed to enter employment, adaptive equipment and workplace accommodations, incentives to employers to reimburse them for hiring and training veterans with disabilities, and two final months of subsistence allowance.

*Specially Adapted Housing Grants.*—Specially adapted housing grants are provided to certain severely disabled veterans. In 2019, the maximum grant amount is \$85,645. Veterans who suffer service-connected blindness or who have lost the use of both upper extremities can receive up to \$17,130.

*Specially Adapted Housing Assistive Technology Grants.*—Under the Veterans Benefits Act of 2010 (P.L. 111–275), VA may provide grants of up to \$200,000 per fiscal year to individuals or entities for the development of specially adapted housing assistive technologies and limits to \$1 million the aggregate amount of such grants VA may award in any fiscal year.

*Automobile Grants and Adaptive Equipment.*—Certain disabled veterans are provided with automobile grants with the associated approved adaptive equipment. An allowance is provided to certain service-disabled veterans and servicemembers toward the purchase price of an automobile. The maximum allowance increased to \$21,058.69 in 2019 under The Veterans Benefits Act of 2010 (P.L. 111–275) and will continue to increase based on the CPI-U. Adaptive equipment and the maintenance and replacement of such equipment is also provided.

*Tuition Assistance.*—Public Law 106–398, enacted October 30, 2000, allows the military services to pay up to 100 percent of tuition and expenses charged by a school for servicemembers. If a service department pays less than 100 percent, a servicemember eligible for the Montgomery GI Bill Active-duty (MGIB) or the Post–9/11 GI Bill (Chapter 33) can elect to receive VA benefits for all or a portion of the remaining expenses. Public Law 108–454 established a program that provides availability of education benefits for payment for national admissions exams and national exams for credit at institutions of higher education.

*The National Exams.*—The benefit allows VA to reimburse for the fee charged for national tests for admission to institutions of higher learning and national tests providing an opportunity for course credit at institutions of higher learning.

*Licensing and Certification Test Payments.*—Under Public Law 106–419, veterans and other eligible persons may receive up to \$2,000 to pay fees required for civilian occupational licensing and certification examinations needed to enter, maintain, or advance in employment in a vocation or profession, effective March 1, 2001.

*National Call to Service.*—The 2003 National Defense Authorization Act directs the Department of Defense to offer an active duty enlistment option of 15 months plus training time to facilitate interest in National Service. Program participants will be given the opportunity to select one of the following incentives: a \$5,000 enlistment bonus, repayment of student loans up to \$18,000, or one of two education allowances.

*Work-Study.*—Certain veterans, reservists, and dependents pursuing a program of rehabilitation, education or training, who are enrolled as full-time students, can work up to 250 hours per semester, receiving the Federal (\$7.25 as of July 24, 2009) or State minimum wage rate, whichever is higher.

*Payments to States.*—State approving agencies are reimbursed for the costs of inspecting, approving, and supervising programs of education and training offered by educational institutions and training establishments in which veterans, dependents, and reservists are enrolled or are about to enter.

*Reporting Fees.*—Reporting fees are paid to education and training institutions to help defray the costs of certifying education enrollment for veterans enrolled in training during a calendar year.

*Require an Individual to Make an Election to Receive Educational Assistance under the Montgomery GI Bill Active Duty (MGIB-AD) Program.* VA seeks to amend 38 U.S.C. section 3011(c)(1) to require an individual to make an election to receive MGIB-AD educational assistance before the Department of Defense (DoD) can begin the \$100 pay reduction. Although this proposal would not directly impact VA's mandatory Readjustment Benefits account, it would decrease the amount withheld from basic pay of servicemembers and deposited into the general fund of the Treasury as a miscellaneous/proprietary receipt. Treasury's receipts are counted as a negative outlay; therefore, reduced collections results in an increase in Federal outlays. VA estimates this proposal would increase Federal outlays by \$50.7 million in 2020, \$196.8 million over five years, and \$300.3 million over ten years.

*Prevent VA from Providing Unlimited Amounts of Payment for Flight Training at Public Schools.* VA seeks to amend 38 U.S.C. section 3313(c) to add a new section (j) to impose tuition and fee payment caps at institutions of higher learning with flight training programs and establish a maximum allowable fee structure for all VA-funded flight programs. Benefit savings are estimated to be \$27.9 million in 2020, \$148.6 million over five years, and \$326.9 million over ten years.

*Approve Preparatory Courses of Licensing and Certification Exams for GI Bill Benefits.* VA seeks to amend 38 U.S.C. section 3002(3)(B) to add a preparatory course for a test that is required to enter into, maintain, or advance in a given vocation or profession. Benefit costs are estimated to be \$1.2 million in 2020, \$5.8 million over five years, and \$11.4 million over ten years.

*Round-Down of the Computation of the Cost-of-Living Adjustment (COLA) for Certain Education Programs for Ten Years.* VA seeks to amend 38 U.S.C. sections 3015(h) and 3564 to round-down COLA computations from 2020 to 2029. This proposal would require that such increases be rounded down to the next lower whole dollar. Benefit savings are estimated to be \$1.3 million in 2020, \$13.2 million over five years, and \$54.3 million over ten years.

*Allow for Extension of a Period of Employment Services under Chapter 31.* VA seeks to amend 38 U.S.C. section 3105(b)(1) to allow a period of employment services to be extended for up to six months for a total of 24 months, if needed, to accomplish rehabilitation. The extended period of service would increase the veteran's marketability and employment options. No benefit costs are associated with this proposal.

*Restoration of Entitlement to Chapter 31 Assistance for Veterans Affected by School Closure or Disapproval.* VA seeks to amend 38 U.S.C. 3699 to extend the restoration of entitlement to educational assistance for veterans affected by school closure or disapproval, implemented by section 109 of the Howard W. Colmery Veterans Educational Assistance Act of 2017 (Forever GI Bill), to apply to vocational rehabilitation programs provided under chapter 31. Benefit costs are estimated to be \$571 thousand in 2020, \$1.8 million over five years, and \$3.6 million over ten years.

*Eliminate Certain Provisions that Limit the Amount of Specially Adapted Housing (SAH) Assistance to Pay for Construction of an Adapted Home.* VA seeks to amend 38 U.S.C. section 2102(a) to eliminate an element of the statutory formula that reduces the amount of grant funds otherwise available to an eligible veteran to construct an adapted housing unit. Benefit costs are estimated to be insignificant.

*Authorize the Secretary to Collect Overpayments of Grant Funds Made under Chapter 21.* VA seeks to amend 38 U.S.C. section 2102 to explicitly authorize the Secretary to collect overpayments made to any veteran or other entity in connection with the acquisition or delivery of Specially Adapted Housing (SAH). This proposed authority is consistent with VA's authority under 38 U.S.C. section 3685 to collect overpayments made in connection with its education programs. Benefit savings are estimated to be insignificant.

*Extension of Authority for Specially Adapted Housing Assistive Technology (SAH-AT) Grant Program.* VA seeks to amend 38 U.S.C. section 2108(g) to extend the authority of the Secretary to administer the SAH Assistive Technology (SAH-AT) grant program through September 30, 2024. Section 203 of Public Law 111-275 (Veterans Benefits Act of 2010) established the SAH-AT grant program with a sunset date of September 30, 2016. Section 122 of Public Law 115-251 last extended this authority through September 30, 2020. Benefit costs associated with this proposal are \$0 in 2020, \$4 million over five years, and \$4 million over ten years.

For 2021, the Budget requests \$129,224,000 in advance appropriations for Veterans Insurance and Indemnities. This request satisfies the requirement created by the Consolidated and Further Continuing Appropriations Act, 2015 (P.L. 113–235) and prevents our Nation's veterans from being adversely affected by budget delays.

*Note.*—Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

The insurance business line administers six life insurance programs, including two trust funds, two public enterprise funds, a trust revolving fund, and Veterans' Mortgage Life Insurance (VMLI), and supervises four additional programs for the benefit of servicepersons, veterans, and their beneficiaries through contracts with a commercial company. All programs are operated on a commercial basis, to the extent possible, consistent with all applicable statutes. The insurance appropriation is the supplemental funding mechanism for the following Government life insurance activities: National Service Life Insurance (NSLI); Service-Disabled Veterans Insurance Fund (S-DVI); and Veterans' Mortgage Life Insurance.

*National Service Life Insurance (NSLI).*—Payments are made to the NSLI fund for certain World War II veterans for: (a) extra hazards of service; (b) gratuitous insurance granted to certain persons unable to apply for National Service Life Insurance; and (c) death claims on policies under the waiver of a premium while the insured was on active duty.

*Payment to Service-Disabled Veterans Insurance Fund (S-DVI).*—Payments are made to the S-DVI fund to supplement the premiums and other receipts of the fund in amounts necessary to pay claims on insurance policies issued to veterans with service-connected disabilities.

*Veterans' Mortgage Life Insurance.*—Payments are made to mortgage holders under this program, which provides mortgage protection life insurance to veterans who have received a grant for specially adapted housing due to severe disabilities. The trend in the number and amount of insurance policies in force appears in the following table.

This fund was established under the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act of 2009 (P.L. 110–329), to make payments to eligible persons who served in the Philippines during

World War II. Payments were subsequently authorized by the Congress in the American Recovery and Reinvestment Act of 2009 (P.L. 111–5). Original funding of \$198,000,000 was supplemented by a transfer of \$67,000,000 authorized by Public Law 111–212 that remains available until expended. Payments to citizens of the United States are \$15,000. Payments to non-U.S. citizens are \$9,000.

General Operating Expenses, Veterans Benefits Administration.—The total cost of administering veterans insurance programs is funded through direct appropriations to this account and through reimbursements from the insurance trust fund. This appropriation provides for the Department's top management direction and administrative support, including fiscal, personnel, and legal services, as well as for the administration of veteran benefits.

Note.—Reflects FTE treated as reimbursements in all years and the effects of Credit Reform, per Public Law 101-508.

The Insurance Act of 1951 established the Service-Disabled Veterans Insurance (S-DVI) program for veterans with service-connected disabilities. S-DVI is open to veterans who separated from the service on or after April 25, 1951. This fund finances the payment of claims on existing life insurance policies and remains open for new issues at standard rates to veterans having service-connected disabilities.

OPERATING COSTS

Death claims.—Represents payments to designated beneficiaries.

All other.—Represents payments to policyholders who surrender their policies for their cash value and hold endowment policies which have matured.

Capital investment.—A policyholder may borrow up to 94 percent of the value of his or her policy.

Administration.—Represents the administrative costs of claims processing and account maintenance.

The trend in the number and amount of policies in force is indicated in the following table.

POLICIES AND INSURANCE IN FORCE

	2018 actual	2019 est.	2020 est.
Number of policies (EOY) .....	277,063	277,881	278,159
Insurance in force (dollars in millions) (EOY) .....	\$2,911	\$2,946	\$2,967

Financing.—Operations are financed from premiums and other receipts. Additional funds are received by transfer from the Veterans Insurance and Indemnities appropriation, instead of direct appropriations to this fund.

Operating results and financial condition.—Since premium and other receipts are insufficient to cover operations, the fund continues to project liabilities in excess of assets. The deficit is expected to reach an estimated \$1,450 million by September 30, 2019. The expected deficit is financed by additional funds from the above-mentioned Veterans Insurance and Indemnities appropriations.

*Note.*—Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

This fund pays claims and administrative costs on participating life insurance policies issued during the period May 1, 1965, through May 2, 1966, under three life insurance programs: 1) service-disabled standard insurance; 2) service-disabled rated insurance; and 3) nonservice-disabled insurance availing disabled World War II and Korean conflict veterans an opportunity to acquire life insurance coverage who were no longer eligible for other government insurance.

*Budget program:*

*Death claims.*—Represents payments to designated beneficiaries.

*Dividends.*—Policyholders participate in the distribution of annual dividends.

*All other.*—This represents resources for the administrative costs of processing claims and maintaining the accounts, and to those policyholders who: (a) surrender their policies for cash value; (b) hold endowment policies which have matured; and (c) have purchased total disability income coverage and subsequently become disabled.

*Policy loans made.*—A policyholder may borrow up to 94 percent of the cash value of his policy at an interest rate adjusted to reflect private sector borrowing costs.

The following table reflects the decrease in the number of policies and the amount of insurance in force:

This fund finances the payment of group life insurance premiums to private insurance companies under the Servicemembers' Group Life Insurance (SGLI) Act of 1965, as amended. SGLI is a program for servicemembers on active duty, ready reservists, members of the National Guard, members of the Commissioned Corps of the National Oceanic and Atmospheric Administration and the Public Health Service, cadets and midshipmen of the four service academies, and members of the Reserve Officer Training Corps. SGLI coverage is available in \$50,000 increments up to the maximum of \$400,000. Veterans' Group Life Insurance (VGLI) is a program of post-separation insurance which allows servicemembers to convert their SGLI coverage to renewable term insurance. Family Servicemembers' Group Life Insurance (FSGLI) is a program extended to the spouses and dependent children of members insured under the SGLI program. FSGLI provides up to a maximum of \$100,000 of insurance coverage for spouses, not to exceed the amount of SGLI the insured member has in force, and \$10,000 of free coverage for dependent children. Spousal coverage is issued in increments of \$10,000.

The Servicemembers' Group Life Insurance Traumatic Injury Protection Program (TSGLI) became effective December 1, 2005. TSGLI provides for payment between \$25,000 and \$100,000 (depending on the type of injury) to any member of the uniformed services covered by SGLI who sustains a traumatic injury that results in certain serious losses.

VETERANS HOUSING BENEFIT PROGRAM FUND

For the cost of direct and guaranteed loans, such sums as may be necessary to carry out the program, as authorized by subchapters I through III of chapter 37 of title 38, United States Code: *Provided*, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: *Provided further*, That, during fiscal year [2019] 2020, within the resources available, not to exceed \$500,000 in gross obligations for direct loans are authorized for specially adapted housing loans.

In addition, for administrative expenses to carry out the direct and guaranteed loan programs, **\$200,612,000** \$200,377,391. (*Military Construction, Veterans Affairs, and Related Agencies Appropriations Act, 2019.*)

*Veterans Affairs (VA) Housing Program Account.*—The housing program helps eligible veterans, active duty personnel, surviving spouses, and members of the Reserves and National Guard purchase, retain, and adapt homes in recognition of their service to the Nation. When a borrower pur-

chases a home, the program operates by substituting the Federal Government's guaranty for a down payment that might otherwise be required.

Under 38 U.S.C. 3703, the guaranty amount for a borrower with full entitlement (first-time users of the program or users whose entitlement is fully restored) is as follows:

- (a) 50 percent for loans of \$45,000 or less;
  - (b) \$22,500 for loans greater than \$45,000, but no more than \$56,250;
  - (c) the lesser of \$36,000 or 40 percent of the loan amount for loans greater than \$56,250, but not more than \$144,000;
  - (d) 25 percent of the loan amount for loans of \$144,001 to \$453,100;
- or

(e) for certain loans in excess of \$453,100, the guaranty will be the lesser of: 25 percent of the county loan limit, or 25 percent of the loan.

This appropriation provides for the corporate leadership and operational support to VA's Housing business line. The Housing Program facilitates the extension of private capital, on more liberal terms than generally available to nonveterans, to assist veterans and servicemembers in obtaining housing credit, and assist veterans in retaining their homes during periods of temporary economic difficulty through intensive supplemental mortgage loan servicing.

*Guaranteed transitional housing loans for homeless veterans.*—Established as a pilot project by the Veterans Benefits Improvement Act of 1998 (Public Law 105–368), this program does not require any new loan subsidy funding. The program has originated no new loans since 2009. The program was canceled in 2012. The existing loan will continue to be serviced within the program's financing account.

**VETERANS HOUSING BENEFIT PROGRAM FUND**

(Legislative proposal, subject to PAYGO)

*Expansion of the Assets Included in the Veterans Housing Benefit Program Fund.* This proposal would revise 38 U.S.C. 3722 to authorize the Department of Veterans Affairs (VA) to deposit into the Veterans Housing Benefit Program Fund fees collected from lenders that use VA's automated underwriting system (AUS). Revised section 3722 would further allow those collected fees to be used to help offset VA's AUS maintenance and enhancement cost. The proposal would increase Federal fee collections from lenders by \$22.5 million in 2020 and \$224.7 million over 10 years. The fee collections are based on a new \$50 fee per loan and 449,461 new loan guarantees annually. No benefit costs are associated with this proposal.

*Extend Vendee Loan Program and Change Mandatory Vendee Thresholds to Discretionary Targets.* This proposal would extend through September 30, 2024, the Secretary's requirement to sell properties VA acquires through foreclosure with vendee financing and change the current mandatory financing thresholds to non-mandatory performance targets. Public Law 115–251, Section 125, extended VA's mandatory requirement to sell between 50 to 85 percent of its VA-owned foreclosed homes with vendee lending through September 30, 2019. VA seeks to extend its authority to sell optionally between 50 and 85 percent of VA-owned foreclosed homes with vendee lending by changing the current mandatory vendee lending thresholds to non-mandatory performance targets. The proposal would not affect market

demand for vendee loan financing and no loan subsidy costs are associated with this proposal.

The Native American Veteran Housing Loan program provides direct loans to veterans living on trust lands under 38 U.S.C. chapter 37, section 3761. These loans are available to purchase, construct, or improve homes to be occupied as the veteran's residence. This program began as a pilot in 1993 and was made permanent on June 15, 2006, through Public Law 109-233.

The Vocational Rehabilitation Loan Program provides temporary loans to cover the costs of subsistence, tuition, books, supplies, and equipment in conjunction with service-connected disability benefits provided to veterans participating in the Department of Veterans Affairs' Vocational Rehabilitation and Counseling Program as authorized by chapter 31 of title 38, United States Code. Repayment of these loans is made in monthly installments, without interest, through deductions from future payments of compensation, pension, subsistence allowance, educational assistance allowance, or retired pay.

This account was established under Public Law 94-502, Veterans' Education and Employment Assistance Act, 1976. This program consists of voluntary contributions by eligible servicemembers and matching contributions provided by the Department of Defense and provides educational assistance payments to participants who entered the service after December

31, 1976. Chapter 32, title 38, U.S.C. Section 901 is a non-contributory program with educational assistance provided by the Department of Defense. Public Law 99-576, enacted October 28, 1986, closed the program permanently for new enrollments effective March 31, 1987. The estimated activity in the fund follows:

Note.—Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

This fund was established in 1940. It is for the World War II servicemembers' and veterans' insurance program. Over 22 million policies were issued under this program. Activity of the fund reflects a declining claim workload. The trend in the number and amount of policies in force is shown as follows:

**POLICIES AND INSURANCE IN FORCE**

	2018 actual	2019 est.	2020 est.
Number of policies .....	203,807	163,997	127,397
Insurance in force (dollars in millions) .....	\$2,598	\$2,077	\$1,604

This fund is operated on a commercial basis to the extent possible. The income of the fund is derived from premium receipts, interest on investments, and payments which are made to the fund from the Veterans Insurance and Indemnities appropriation.

Assets of the fund, which are largely invested in special interest-bearing Treasury securities and in policy loans, are expected to decrease from an estimated \$2,531 million as of September 30, 2019 to \$2,012 million as of September 30, 2020. The actuarial estimate of policy obligations as of September 30, 2020, totals \$1,948 million, leaving a balance of \$64 million for contingency reserves.

UNITED STATES GOVERNMENT LIFE INSURANCE FUND—Continued

Note.—Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

This fund was established in 1919 to receive premiums and pay claims on insurance issued under the provisions of the War Risk Insurance Act. The general decline in the activity of the fund is indicated in the following table:

**POLICIES AND INSURANCE IN FORCE**

	2018 actual	2019 est.	2020 est.
Number of policies .....	20	0	0
Insurance in force (dollars in millions) .....	\$1	\$016	\$0

The fund is operated on a commercial basis to the extent possible. The income of the fund is derived from interest on investments. Effective January 1, 1983, premiums were discontinued because reserves held in the fund were adequate to meet future liabilities of the program.

Assets of the fund, which are largely invested in interest-bearing securities and policy loans, are estimated to decrease from \$2.0 million as of September 30, 2019, to \$1.7 million as of September 30, 2020, as an increasing number of policies mature through death or disability. The actuarial evaluation of policy obligations as of September 30, 2020, totals \$1.2 million, leaving a balance of \$.4 million for contingency reserves.

Note.—Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

This fund finances the payment of claims on life insurance policies issued before January 3, 1957, to veterans who served in the Armed Forces subsequent to April 1, 1951. No new policies can be issued.

**Benefit program:**

**Death claims.**—Represents payments to designated beneficiaries.

**Cash surrenders.**—A policyholder may terminate his or her insurance by cashing in the policy for its cash value.

**Dividends.**—Policyholders participate in the distribution of annual dividends.

**All other.**—Classified in this category are payments to policyholders who: (a) hold endowment policies which have matured; (b) have purchased total disability income coverage and subsequently become disabled; and (c) are paid interest on dividend credits and deposits.

The Construction, Major Projects appropriation funds construction projects currently costing more than \$20 million. Funding is requested to complete seven previously funded projects in San Juan, PR; Bay Pines, FL; Manhattan, NY; Louisville, KY; Riverside, CA; Western New York; and Bayamon, PR and four ongoing projects in Alameda, CA; San Diego, CA; West Los Angeles, CA; and Reno, NV. In addition, three expansions at existing national cemeteries in Dallas, TX; Houston, TX; and Bourne, MA will be funded. Funds are also requested for salaries and associated expenses for staff for the Office of Construction and Facilities Management and to support advance planning and design activities, seismic correction, and asbestos abatement.

\$244 million of funds appropriated in 2016 and \$117.3 million of funds appropriated in 2018 are not reflected in the available balance in the tables. These funds will become available for use once the Department of Veterans Affairs meets the specific conditions required by law (P.L. 114-113 and 115-141) and the funds are made available by the Treasury.

The mission of the Board of Veterans' Appeals (Board or BVA), as set forth in 38 U.S.C. 7101(a) is to conduct hearings and consider and dispose of appeals properly before the Board in a timely manner. The Board's goal is to issue quality decisions in compliance with the requirements of the law, including the precedential decisions of the United States Court of Appeals for Veterans Claims and other federal courts. The Board makes

final decisions on behalf of the Secretary on appeals from decisions of the agencies of original jurisdiction with the Department of Veterans Affairs offices. The Board reviews all appeals for entitlement to veterans' benefits, including claims for service connection, increased disability ratings, total disability ratings, pension, insurance benefits, educational benefits, home loan guaranties, vocational rehabilitation, dependency and indemnity compensation, and healthcare delivery. The Veterans Appeals Improvement and Modernization Act of 2017, enacted on August 23, 2017, became effective on February 19, 2019. This law reformed the current appeals process and replaced it with a new, simpler process that uses easy to understand language and gives veterans choice and control of their appeal.

This appropriation provides for carrying out the independent oversight responsibilities of the Inspector General Act of 1978. This oversight includes Department of Veterans Affairs (VA)-wide audit, investigation, health care inspection, and management support functions to identify and report weaknesses and deficiencies that create conditions for actual or potential fraud and other criminal activity, mismanagement, and waste in VA programs and operations. The audit function plans and conducts internal programmatic and financial audits and evaluations of all facets of VA operations. The health care inspection function performs legislatively mandated medical care quality assurance reviews and oversight of VA health care programs. The investigative function performs criminal and administrative investigations of improper and illegal activities involving VA operations, personnel, beneficiaries, and other parties.

The Information Technology (IT) Systems appropriation funds IT services such as systems development and performance, operations and maintenance, information security, and customer support. This appropriation enables the effective and efficient delivery of services to the Nation's largest healthcare network, as well as the veterans benefits and corporate business lines within the Department of Veterans Affairs (VA).

**Development.**—The Office of Information & Technology invests in projects designed to improve the delivery of VA services and benefits for veterans and their families. This account also supports improvements in the Community Care Program, modernizations to veterans benefits and appeals processing, as well as the divestiture of legacy IT systems.

**Operations and Maintenance.**—The Office of Information & Technology purchases, maintains, manages, and supports all the computer, phone, telecommunication, and data systems equipment and infrastructure for all VA facilities.

The Veterans Electronic Health Care Record appropriation funds necessary expenses related to the development and deployment of a new veterans electronic health record (EHR) system. This new EHR will allow the Department of Veterans Affairs (VA) to move toward a single common health record that has full integration between the Department of Defense and VA, as well as community providers. From the veteran perspective, the new system will provide a single, accurate, lifetime health record while improving patient care and safety.

The mission of the National Cemetery Administration is to honor veterans with final resting places in national shrines and with lasting tributes that commemorate their service to our Nation. The National Cemetery Administration's vision is to serve all veterans and their families with the utmost dignity, respect, and compassion. Every national cemetery will be a place that inspires visitors to understand and appreciate the service and sacrifice of our Nation's veterans. There are a number of related programs managed by the National Cemetery Administration including: 1) burying eligible veterans and their family members in national cemeteries and maintaining the graves and their environs as national shrines; 2) administering grants to States and Tribal organizations in establishing, expanding, improving, or operating veterans cemeteries; 3) providing headstones and markers for the graves of eligible veterans; 4) providing medallions commemorating the veterans's service that may be affixed to the privately purchased headstones or markers for veterans interred in private cemeteries; 5) providing presidential memorial certificates to family and friends of deceased veterans, recognizing the veterans' contribution and service to the Nation; 6) providing graveliners or partial reimbursement for a privately purchased outer burial receptacle for each new grave in open national cemeteries administered by the National Cemetery Administration; 7) providing reimbursement caskets and urns for veterans' remains when there are no next of kin and insufficient resources; and 8) recording First Notice of Veteran Deaths into the Department of Veterans Affairs electronic files to ensure timely termination of benefits and next-of-kin notification of possible entitlement to survivor benefits.

The National Cemetery Administration also reflects budget information for the National Cemetery Gift Fund and the National Cemetery Administration Facilities Operation Fund. Through the Gift Fund, the Secretary is authorized to accept gifts and bequests which are made for the purpose of beautifying national cemeteries or are determined to be beneficial to such cemeteries, or are made for the purpose of the operation, maintenance, or improvement of the National Memorial Cemetery of Arizona.

Under the provisions of 38 U.S.C. 8121, the Supply Fund is responsible for the operation and maintenance of a supply system for the Department of Veterans Affairs (VA). In this capacity, it provides policy and oversight to VA's acquisition and logistics programs, and provides best value acquisition of goods and services through its National Acquisition Center, Denver Acquisition and Logistics Center, Service and Distribution Center, Technology Acquisition Center and Strategic Acquisition Center. Operating as an intra-governmental revolving fund without fiscal year limitations, the Supply Fund is financed by revenue from fees on acquisitions of supplies, equipment, and services for both VA and other Government agency customers.

The Department of Veterans Affairs (VA) Franchise Fund was established under the authority of the Government Management Reform Act of 1994 and the VA and Housing and Urban Development and Independent Agencies Act of 1997. VA was selected by the Office of Management and Budget in 1996 as one of the six executive branch agencies to establish a franchise fund pilot program. Created as a revolving fund, the VA Franchise Fund began providing common administrative support services to the VA and

other Government agencies in 1997 on a fee-for-service basis. In 2006, under the Military Quality of Life and Veterans Affairs Appropriations Act (Public Law 109–114), permanent status was conferred upon the VA Franchise Fund. The Franchise Fund concept is intended to increase competition for Government administrative services, resulting in lower costs and higher quality.

(INCLUDING TRANSFER OF FUNDS)

SEC. 222. Of the amounts available in this title for "Medical Services", "Medical Community Care", "Medical Support and Compliance", and "Medical Facilities", a minimum of \$15,000,000 shall be transferred to the DOD-VA Health Care Sharing Incentive Fund, as authorized by section 8111(d) of title 38, United States Code, to remain available until expended, for any purpose authorized by section 8111 of title 38, United States Code.

[SEC. 223. None of the funds available to the Department of Veterans Affairs, in this or any other Act, may be used to replace the current system by which the Veterans Integrated Service Networks select and contract for diabetes monitoring supplies and equipment.]

[SEC. 224. The Secretary of Veterans Affairs shall notify the Committees on Appropriations of both Houses of Congress of all bid savings in a major construction project that total at least \$5,000,000, or 5 percent of the programmed amount of the project, whichever is less: *Provided*, That such notification shall occur within 14 days of a contract identifying the programmed amount: *Provided further*, That the Secretary shall notify the Committees on Appropriations of both Houses of Congress 14 days prior to the obligation of such bid savings and shall describe the anticipated use of such savings.]

[SEC. 225. None of the funds made available for "Construction, Major Projects" may be used for a project in excess of the scope specified for that project in the original justification data provided to the Congress as part of the request for appropriations unless the Secretary of Veterans Affairs receives approval from the Committees on Appropriations of both Houses of Congress.]

[SEC. 226. Not later than 30 days after the end of each fiscal quarter, the Secretary of Veterans Affairs shall submit to the Committees on Appropriations of both Houses of Congress a quarterly report containing performance measures and data from each Veterans Benefits Administration Regional Office: *Provided*, That, at a minimum, the report shall include the direction contained in the section entitled "Disability claims backlog", under the heading "General Operating Expenses, Veterans Benefits Administration" in the joint explanatory statement accompanying Public Law 114–223: *Provided further*, That the report shall also include information on the number of appeals pending at the Veterans Benefits Administration as well as the Board of Veterans Appeals on a quarterly basis.]

[SEC. 227. The Secretary of Veterans Affairs shall provide written notification to the Committees on Appropriations of both Houses of Congress 15 days prior to organizational changes which result in the transfer of 25 or more full-time equivalents from one organizational unit of the Department of Veterans Affairs to another.]

[SEC. 228. The Secretary of Veterans Affairs shall provide on a quarterly basis to the Committees on Appropriations of both Houses of Congress notification of any single national outreach and awareness marketing campaign in which obligations exceed \$2,000,000.]

(INCLUDING TRANSFER OF FUNDS)

SEC. [229] 223. The Secretary of Veterans Affairs, upon determination that such action is necessary to address needs of the Veterans Health Administration, may transfer to the "Medical Services" account any discretionary appropriations made available for fiscal year [2019] 2020 in this title (except appropriations made to the "General Operating Expenses, Veterans Benefits Administration" account) or any discretionary unobligated balances within the Department of Veterans Affairs, including those appropriated for fiscal year [2019] 2020, that were provided in advance by appropriations Acts: *Provided*, That transfers shall be made only with the approval of the Office of Management and Budget: *Provided further*, That the transfer authority provided in this section is in addition to any other transfer authority provided by law: *Provided further*, That no amounts may be transferred from amounts that were designated by Congress as an emergency requirement pursuant to a concurrent resolution on the budget or the Balanced Budget and Emergency Deficit

Control Act of 1985: *Provided further*, That such authority to transfer may not be used unless for higher priority items, based on emergent healthcare requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied by Congress: *Provided further*, That, upon determination that all or part of the funds transferred from an appropriation are not necessary, such amounts may be transferred back to that appropriation and shall be available for the same purposes as originally appropriated: *Provided further*, That before a transfer may take place, the Secretary of Veterans Affairs shall **request from** *submit notice thereof* to the Committees on Appropriations of both Houses of Congress **the authority to make the transfer and receive approval of that request**.

(INCLUDING TRANSFER OF FUNDS)

**SEC. 224.** Amounts made available for the Department of Veterans Affairs for fiscal year **2019** *2020*, under the "Board of Veterans Appeals" and the "General Operating Expenses, Veterans Benefits Administration" accounts may be transferred between such accounts: *Provided*, That before a transfer may take place, the Secretary of Veterans Affairs shall **request from** *submit notice thereof* to the Committees on Appropriations of both Houses of Congress **the authority to make the transfer and receive approval of that request**.

**SEC. 231.** The Secretary of Veterans Affairs may not reprogram funds among major construction projects or programs if such instance of reprogramming will exceed \$7,000,000, unless such reprogramming is approved by the Committees on Appropriations of both Houses of Congress.

**SEC. 232.** (a) The Secretary of Veterans Affairs shall ensure that the toll-free suicide hotline under section 1720F(h) of title 38, United States Code—

(1) provides to individuals who contact the hotline immediate assistance from a trained professional; and

(2) adheres to all requirements of the American Association of Suicidology.

(b)(1) None of the funds made available by this Act may be used to enforce or otherwise carry out any Executive action that prohibits the Secretary of Veterans Affairs from appointing an individual to occupy a vacant civil service position, or establishing a new civil service position, at the Department of Veterans Affairs with respect to such a position relating to the hotline specified in subsection (a).

(2) In this subsection—

(A) the term "civil service" has the meaning given such term in section 2101(1) of title 5, United States Code; and

(B) the term "Executive action" includes—

(i) any Executive order, presidential memorandum, or other action by the President; and

(ii) any agency policy, order, or other directive.

(c)(1) The Secretary of Veterans Affairs shall conduct a study on the effectiveness of the hotline specified in subsection (a) during the five-year period beginning on January 1, 2016, based on an analysis of national suicide data and data collected from such hotline.

(2) At a minimum, the study required by paragraph (1) shall—

(A) determine the number of veterans who contact the hotline specified in subsection (a) and who receive follow up services from the hotline or mental health services from the Department of Veterans Affairs thereafter;

(B) determine the number of veterans who contact the hotline who are not referred to, or do not continue receiving, mental health care who commit suicide; and

(C) determine the number of veterans described in subparagraph (A) who commit or attempt suicide.

**SEC. 233.** None of the funds in this or any other Act may be used to close Department of Veterans Affairs (VA) hospitals, domiciliaries, or clinics, conduct an environmental assessment, or to diminish healthcare services at existing Veterans Health Administration medical facilities located in Veterans Integrated Service Network 23 as part of a planned realignment of VA services until the Secretary provides to the Committees on Appropriations of both Houses of Congress a report including the following elements:

(1) a national realignment strategy that includes a detailed description of realignment plans within each Veterans Integrated Services Network (VISN), including an updated Long Range Capital Plan to implement realignment requirements;

(2) an explanation of the process by which those plans were developed and coordinated within each VISN;

(3) a cost versus benefit analysis of each planned realignment, including the cost of replacing Veterans Health Administration services with contract care or other outsourced services;

(4) an analysis of how any such planned realignment of services will impact access to care for veterans living in rural or highly rural areas, including travel distances and transportation costs to access a VA medical facility and availability of local specialty and primary care;

(5) an inventory of VA buildings with historic designation and the methodology used to determine the buildings' condition and utilization;

(6) a description of how any realignment will be consistent with requirements under the National Historic Preservation Act; and

(7) consideration given for reuse of historic buildings within newly identified realignment requirements: *Provided*, That, this provision shall not apply to capital projects in VISN 23, or any other VISN, which have been authorized or approved by Congress.

**SEC. 234.** Effective during the period beginning on October 1, 2018 and ending on January 1, 2024, none of the funds made available to the Secretary of Veterans Affairs by this or any other Act may be obligated or expended in contravention of the "Veterans Health Administration Clinical Preventive Services Guidance Statement on the Veterans Health Administration's Screening for Breast Cancer Guidance" published on May 10, 2017, as issued by the Veterans Health Administration National Center for Health Promotion and Disease Prevention.

**SEC. 225.** (a) Notwithstanding any other provision of law, the amounts appropriated or otherwise made available to the Department of Veterans Affairs for the "Medical Services" account may be used to provide—

(1) fertility counseling and treatment using assisted reproductive technology to a covered veteran or the spouse of a covered veteran; or

(2) adoption reimbursement to a covered veteran.

(b) In this section:

(1) The term "service-connected" has the meaning given such term in section 101 of title 38, United States Code.

(2) The term "covered veteran" means a veteran, as such term is defined in section 101 of title 38, United States Code, who has a service-connected disability that results in the inability of the veteran to procreate without the use of fertility treatment.

(3) The term "assisted reproductive technology" means benefits relating to reproductive assistance provided to a member of the Armed Forces who incurs a serious injury or illness on active duty pursuant to section 1074(c)(4)(A) of title 10, United States Code, as described in the memorandum on the subject of "Policy for Assisted Reproductive Services for the Benefit of Seriously or Severely Ill/Injured (Category II or III) Active Duty Service Members" issued by the Assistant Secretary of Defense for Health Affairs on April 3, 2012, and the guidance issued to implement such policy, including any limitations on the amount of such benefits available to such a member except that—

(A) the time periods regarding embryo cryopreservation and storage set forth in part III(G) and in part IV(H) of such memorandum shall not apply; and

(B) such term includes embryo cryopreservation and storage without limitation on the duration of such cryopreservation and storage.

(4) The term "adoption reimbursement" means reimbursement for the adoption-related expenses for an adoption that is finalized after the date of the enactment of this Act under the same terms as apply under the adoption reimbursement program of the Department of Defense, as authorized in Department of Defense Instruction 1341.09, including the reimbursement limits and requirements set forth in such instruction.

(c) Amounts made available for the purposes specified in subsection (a) of this section are subject to the requirements for funds contained in section 508 of division H of the Consolidated Appropriations Act, 2018 (Public Law 115–141).

**[(RESCISSION OF FUNDS)]**

**SEC. 236.** Of the funds made available for fiscal year 2019 under the heading "Department of Veterans Affairs—Veterans Health Administration—Medical Support and Compliance" in title II of division J of the Consolidated Appropriations Act, 2018 (Public Law 115–141), \$211,000,000 is hereby rescinded.

**SEC. 237.** None of the funds appropriated or otherwise made available by this Act or any other Act for the Department of Veterans Affairs may be used in a manner that is inconsistent with: (1) section 842 of the Transportation, Treasury, Housing and Urban Development, the Judiciary, the District of Columbia, and Independent Agencies Appropriations Act, 2006 (Public Law 109–115; 119 Stat. 2506); or (2) section 8110(a)(5) of title 38, United States Code.

**SEC. 238.** Section 842 of Public Law 109–115 shall not apply to conversion of an activity or function of the Veterans Health Administration, Veterans Benefits Administration, or National Cemetery Administration to contractor performance by a business concern that is at least 51 percent owned by one or more Indian tribes as defined in section 5304(e) of title 25, United States Code, or one or more Native Hawaiian Organizations as defined in section 637(a)(15) of title 15, United States Code.

**SEC. 239.** (a) Except as provided in subsection (b), the Secretary of Veterans Affairs, in consultation with the Secretary of Defense and the Secretary of Labor, shall discontinue using Social Security account numbers to identify individuals in all information systems of the Department of Veterans Affairs as follows:

(1) For all veterans submitting to the Secretary of Veterans Affairs new claims for benefits under laws administered by the Secretary, not later than 5 years after the date of the enactment of this Act.

(2) For all individuals not described in paragraph (1), not later than 8 years after the date of the enactment of this Act.

(b) The Secretary of Veterans Affairs may use a Social Security account number to identify an individual in an information system of the Department of Veterans Affairs if and only if the use of such number is required to obtain information the Secretary requires from an information system that is not under the jurisdiction of the Secretary.】

【SEC. 240. For funds provided to the Department of Veterans Affairs for each of fiscal year 2019 and 2020 for "Medical Services", section 239 of Division A of Public Law 114–223 shall apply.】

【SEC. 241. None of the funds appropriated in this or prior appropriations Acts or otherwise made available to the Department of Veterans Affairs may be used to transfer any amounts from the Filipino Veterans Equity Compensation Fund to any other account within the Department of Veterans Affairs.】

SEC. 【242】226. Of the funds provided to the Department of Veterans Affairs for each of fiscal year 【2019】2020 and fiscal year 【2020】2021 for "Medical Services", funds may be used in each year to carry out and expand the child care program authorized by section 205 of Public Law 111–163, notwithstanding subsection (e) of such section.

【SEC. 243. For funds provided to the Department of Veterans Affairs for each of fiscal year 2019 and 2020, section of Division A of Public Law 114–223 shall apply.】

【SEC. 244. (a) The Secretary of Veterans Affairs may use amounts appropriated or otherwise made available in this title to ensure that the ratio of veterans to full-time employment equivalents within any program of rehabilitation conducted under chapter 31 of title 38, United States Code, does not exceed 125 veterans to one full-time employment equivalent.

(b) Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to Congress a report on the programs of rehabilitation conducted under chapter 31 of title 38, United States Code, including—

(1) an assessment of the veteran-to-staff ratio for each such program; and

(2) recommendations for such action as the Secretary considers necessary to reduce the veteran-to-staff ratio for each such program.】

【SEC. 245. None of the funds appropriated or otherwise made available in this title may be used by the Secretary of Veterans Affairs to enter into an agreement related to resolving a dispute or claim with an individual that would restrict in any way the individual from speaking to members of Congress or their staff on any topic not otherwise prohibited from disclosure by Federal law or required by Executive Order to be kept secret in the interest of national defense or the conduct of foreign affairs.】

【SEC. 246. For funds provided to the Department of Veterans Affairs for each of fiscal year 2019 and 2020, section 258 of Division A of Public Law 114–223 shall apply.】

【SEC. 247. None of the funds appropriated or otherwise made available by this Act may be used to conduct research using canines unless: the scientific objectives of the study can only be met by research with canines; the study has been directly approved by the Secretary; and the study is consistent with the revised Department of Veterans Affairs canine research policy document released on December 18, 2017: *Provided*, That not later than 180 days after enactment of this Act, the Secretary shall submit to the Committees on Appropriations of both Houses of Congress a detailed report outlining under what circumstances canine research may be needed if there are no other alternatives, how often it was used during that time period, and what protocols are in place to determine both the safety and efficacy of the research.】

【SEC. 248. For an additional amount for the Department of Veterans Affairs, \$2,000,000,000 to remain available until expended, for infrastructure improvements, including new construction, and in addition to amounts otherwise made available in this Act for such purpose, of which:

(1) \$750,000,000 shall be available for seismic improvement projects and seismic program management activities, including projects that would otherwise be funded by the Construction, Major Projects, the Construction, Minor Projects, Medical Facilities, or National Cemetery Administration accounts;

(2) \$300,000,000 shall be for "Departmental Administration—Construction, Major Projects";

(3) \$800,000,000 shall be for "Veterans Health Administration—Medical Facilities" to be used for non-recurring maintenance; and

(4) \$150,000,000 shall be for "Departmental Administration—Construction, Minor Projects":.】

【*Provided*, That the additional amounts appropriated for the purposes of non-recurring maintenance and minor construction may be used to carry out critical life-safety projects identified in the Department's annual facility condition assessments;

sustainment projects; modernization projects; infrastructure repair; renovations at existing Veterans Health Administration medical centers and outpatient clinics; and projects included in the Strategic Capital Investment Process plan: *Provided further*, That funds made available under this section for "Construction, Major Projects" shall be available for previously authorized and partially funded major construction projects: *Provided further*, That notwithstanding the requirements of section 8104(a) of title 38, United States Code, amounts made available under this heading for seismic improvement projects and seismic program management activities shall be available for the completion of both new and existing projects of the Department: *Provided further*, That the additional amounts appropriated under this section may not be obligated or expended until the Secretary of Veterans Affairs submits to the Committees on Appropriations of both Houses of Congress, and such Committees approve, a detailed expenditure plan, including project descriptions and costs, for any non-recurring maintenance, minor construction, major construction, or seismic improvement project being funded with the additional amounts made available in this administrative provision.】

【SEC. 249. (a) PROHIBITION ON USE OF FUNDS.—None of the funds appropriated or otherwise made available by this Act may be used to deny an Inspector General funded under this Act timely access to any records, documents, or other materials available to the department or agency of the United States Government over which such Inspector General has responsibilities under the Inspector General Act of 1978 (5 U.S.C. App.), or to prevent or impede the access of such Inspector General to such records, documents, or other materials, under any provision of law, except a provision of law that expressly refers to such Inspector General and expressly limits the right of access of such Inspector General.

(b) TIMELY ACCESS.—A department or agency covered by this section shall provide its Inspector General access to all records, documents, and other materials in a timely manner.

(c) COMPLIANCE.—Each Inspector General covered by this section shall ensure compliance with statutory limitations on disclosure relevant to the information provided by the department or agency over which that Inspector General has responsibilities under the Inspector General Act of 1978 (5 U.S.C. App.).

(d) REPORT.—Each Inspector General covered by this section shall report to the Committee on Appropriations of the Senate and the Committee on Appropriations of the House of Representatives within 5 calendar days of any failure by any department or agency covered by this section to comply with this section.】

【SEC. 250. (a) PLAN REQUIRED.—Not later than 90 days after the date of the enactment of this Act, the Secretary of Veterans Affairs shall submit to the appropriate committees of Congress a plan to reduce the chances that clinical mistakes by employees of the Department of Veterans Affairs will result in adverse events that require institutional or clinical disclosures and to prevent any unnecessary hardship for patients and families impacted by such adverse events.

(b) ELEMENTS.—The plan required by subsection (a) shall include the following:

(1) A description of a process for the timely identification of individuals impacted by disclosures described in subsection (a) and the process for contacting those individuals or their next of kin.

(2) A description of procedures for expediting any remedial or follow-up care required for those individuals.

(3) A detailed outline of proposed changes to the process of the Department for clinical quality checks and oversight.

(4) A communication plan to ensure all facilities of the Department are made aware of any requirements updated pursuant to the plan.

(5) A timeline detailing the implementation of the plan.

(6) An identification of the senior executive of the Department responsible for ensuring compliance with the plan.

(7) An identification of potential impacts of the plan on timely diagnoses for patients.

(8) An identification of the processes and procedures for employees of the Department to make leadership at the facility and the Department aware of adverse events that are concerning and that result in disclosures and to ensure that the medical impact on veterans of such disclosures is minimized.

(c) APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this section, the term "appropriate committees of Congress" means—

(1) the Committee on Veterans' Affairs and the Subcommittee on Military Construction, Veterans Affairs, and Related Agencies of the Committee on Appropriations of the Senate; and

(2) the Committee on Veterans' Affairs and the Subcommittee on Military Construction, Veterans Affairs, and Related Agencies of the Committee on Appropriations of the House of Representatives.】

【SEC. 251. None of the funds made available in this Act may be used in a manner that would increase wait times for veterans who seek care at medical facilities of the Department of Veterans Affairs.】

【SEC. 252. None of the funds appropriated or otherwise made available by this Act to the Veterans Health Administration may be used in fiscal year 2019 to convert any program which received specific purpose funds in fiscal year 2018 to a general purpose funded program unless the Secretary of Veterans Affairs submits written notification of any such proposal to the Committees on Appropriations of both Houses of Congress at least thirty days prior to any such action and an approval is issued by the Committees.】 (*Military Construction, Veterans Affairs, and Related Agencies Appropriations Act, 2019.*)

## TITLE IV—GENERAL PROVISIONS

### GENERAL PROVISIONS

SEC. 501. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 502. None of the funds made available in this Act may be used for any program, project, or activity, when it is made known to the Federal entity or official to which the funds are made available that the program, project, or activity is not in compliance with any Federal law relating to risk assessment, the protection of private property rights, or unfunded mandates.

【SEC. 503. All departments and agencies funded under this Act are encouraged, within the limits of the existing statutory authorities and funding, to expand their use of "E-Commerce" technologies and procedures in the conduct of their business practices and public service activities.】

SEC. 【504】503. Unless stated otherwise, all reports and notifications required by this Act shall be submitted to the Subcommittee on Military Construction and Veterans Affairs, and Related Agencies of the Committee on Appropriations of the House of Representatives and the Subcommittee on Military Construction and Veterans Affairs, and Related Agencies of the Committee on Appropriations of the Senate.

SEC. 【505】504. None of the funds made available in this Act may be transferred to any department, agency, or instrumentality of the United States Government except

pursuant to a transfer made by, or transfer authority provided in, this or any other appropriations Act.

SEC. 【506】505. None of the funds made available in this Act may be used for a project or program named for an individual serving as a Member, Delegate, or Resident Commissioner of the United States House of Representatives.

【SEC. 507. (a) Any agency receiving funds made available in this Act, shall, subject to subsections (b) and (c), post on the public Web site of that agency any report required to be submitted by the Congress in this or any other Act, upon the determination by the head of the agency that it shall serve the national interest.

(b) Subsection (a) shall not apply to a report if—

- (1) the public posting of the report compromises national security; or
- (2) the report contains confidential or proprietary information.

(c) The head of the agency posting such report shall do so only after such report has been made available to the requesting Committee or Committees of Congress for no less than 45 days.】

SEC. 【508】506. (a) None of the funds made available in this Act may be used to maintain or establish a computer network unless such network blocks the viewing, downloading, and exchanging of pornography.

(b) Nothing in subsection (a) shall limit the use of funds necessary for any Federal, State, tribal, or local law enforcement agency or any other entity carrying out criminal investigations, prosecution, or adjudication activities.

SEC. 【509】507. None of the funds made available in this Act may be used by an agency of the executive branch to pay for first-class travel by an employee of the agency in contravention of sections 301-10.122 through 301-10.124 of title 41, Code of Federal Regulations.

SEC. 【510】508. None of the funds made available in this Act may be used to execute a contract for goods or services, including construction services, where the contractor has not complied with Executive Order No. 12989.

【SEC. 511. None of the funds made available by this Act may be used by the Department of Defense or the Department of Veterans Affairs to lease or purchase new light duty vehicles for any executive fleet, or for an agency's fleet inventory, except in accordance with Presidential Memorandum—Federal Fleet Performance, dated May 24, 2011.】

【SEC. 512. (a) IN GENERAL.—None of the funds appropriated or otherwise made available to the Department of Defense in this Act may be used to construct, renovate, or expand any facility in the United States, its territories, or possessions to house any individual detained at United States Naval Station, Guantanamo Bay, Cuba, for the purposes of detention or imprisonment in the custody or under the control of the Department of Defense.

(b) The prohibition in subsection (a) shall not apply to any modification of facilities at United States Naval Station, Guantanamo Bay, Cuba.

(c) An individual described in this subsection is any individual who, as of June 24, 2009, is located at United States Naval Station, Guantanamo Bay, Cuba, and who—

- (1) is not a citizen of the United States or a member of the Armed Forces of the United States; and
- (2) is—
  - (A) in the custody or under the effective control of the Department of Defense; or
  - (B) otherwise under detention at United States Naval Station, Guantanamo Bay, Cuba.】

This appropriation funds the construction, replacement, rehabilitation, and expansion of water resources projects whose principal purpose is to provide commercial navigation, flood and storm damage reduction, or aquatic ecosystem restoration benefits to the Nation, and related efforts.

This account allocates funds on a performance basis to high-performing projects. The Budget funds those investments within the three main mission areas of the Corps civil works program—commercial navigation, flood and storm damage reduction, and aquatic ecosystem restoration—as well as related efforts (such as hydropower at multi-purpose dams) that provide the best economic, environmental, and public safety returns to the Nation. The Budget accelerates the completion of projects, reduces costs to taxpayers and promotes greater non-Federal control of water resources projects by funding two new innovative programs. It includes \$150 million for a program under which the Corps would transfer appropriated funds to non-Federal sponsors who decide to construct a project on their own under section 1043 of the Water Resources Reform and Development Act of 2014, as amended. The Budget proposes to extend section 1043 which, under current law, expires in 2019. It also includes \$150 million that the Corps would allocate to projects whose non-Federal sponsors have agreed to contribute more funding towards the cost of construction than is statutorily required.

This account includes \$62.1 million for work under the Comprehensive Everglades Restoration Plan (CERP), which represents approximately 5.3 percent of the total amount in this account and approximately 1.3 percent of the total amount in the civil works program. Funding CERP at this level would not have a significant impact on the overall civil works program in 2020. Construction account funding for CERP in future years will depend on the availability of funds, so the impact of such future funding on the overall civil works program cannot be determined at this time. Funding for the Department of the Interior (DOI) includes an additional \$7.83 million for work under CERP. This account also includes approximately \$1.2 million for other ecosystem restoration work by the Corps in South Florida, including the Everglades ecosystem. Funding for DOI includes \$48.2 million for such non-CERP work. The Budget for the two agencies includes a total of \$119.2 million for ecosystem restoration work in South Florida,

of which \$69.9 million is for CERP and \$49.3 million is for non-CERP work. (P.L. 106-541 section 601)

This appropriation also funds the Corps continuing authorities programs, which involve the planning, design, and construction of smaller projects that do not require specific authorizing legislation.

This appropriation funds inspection, operation, maintenance, and related activities for water resources projects operated and maintained by the Corps. These projects include navigation channels, navigation locks and dams, structures to reduce the risk of flood and storm damage (e.g., levees), and multi-purpose projects, as authorized in River and Harbor, Flood Control, and Water Resources Development Acts and other laws. Key infrastructure that is of central importance to the Nation and the continued safety of the public is given the highest priority for funding in this account.

This appropriation funds all of the costs associated with protecting Corps facilities from potential security threats. It also funds the national emergency preparedness program under Executive Order 11490.

Pursuant to the requirements of 16 U.S.C. 460d-3, the Corps deposits certain recreation use fees collected at Corps projects into this account. Types of fees include daily user fees, camping fees, recreational fees, annual pass fees, and other permit type fees. Pursuant to appropriations acts, funding in the Operation and Maintenance appropriation is derived in part from this account for resource protection, research, interpretation, and maintenance activities related to resource protection at Corps projects where outdoor recreation is available.

The Budget funds the clean-up of certain low-level radioactive materials and mixed wastes, located mostly at sites contaminated as a result of the Nation's early efforts to develop atomic weapons, within the Department of Energy's Other Defense Activities account. These sites were previously funded within the Formerly Utilized Sites Remedial Action Program (FUSRAP) at the Corps of Engineers. The Budget proposes to return responsibility for the management of FUSRAP to the Department of Energy. The Corps of Engineers will continue to conduct cleanup of FUSRAP sites on a reimbursable basis with the Department of Energy.

This appropriation funds the command and control, policy and guidance, program management, national and regional coordination, and quality assurance for the civil works program. These activities are carried out by Corps headquarters and eight division offices:

*Corps Headquarters.*—This office provides executive direction and management for the civil works program.

*Division Offices.*—Eight of the nine Corps division offices provide quality assurance for and supervise work of the 38 district offices that have civil works responsibilities. This appropriation also funds certain costs allocable to the civil works program of these Corps-wide support facilities:

*Institute for Water Resources.*—This institute performs studies and analyses on a wide range of water resources issues and develops project planning techniques.

*Engineer Research and Development Center.*—This center operates seven labs and conducts research and development for the Corps and other agencies.

*Finance Center.*—This center supports all Corps finance and accounting activities.

*Humphreys Engineer Center.*—This field operating activity of the Corps provides day-to-day operational support services to the Corps.

The Washington Aqueduct supplies drinking water to customers in four jurisdictions: the District of Columbia; Arlington County, Virginia; the City of Falls Church, Virginia; and part of Fairfax County, Virginia. Although the Aqueduct is owned and operated by the Corps, the customers finance the operation, maintenance, and certain capital improvements of Aqueduct facilities. The Aqueduct's customers also pay in advance the full cost of those capital improvements.

WASHINGTON AQUEDUCT

(Legislative proposal, subject to PAYGO)

This proposal would authorize the Federal Government to sell the Washington Aqueduct, which is the wholesale water supply system for the District of Columbia; Arlington County, Virginia; the City of Falls Church, Virginia; and part of Fairfax County, Virginia.

This account covers three permanent appropriations:

*Hydraulic mining debris reservoir.*—The Corps uses fees collected from Pacific Gas and Electric Company to help maintain the Englebright Dam, Yuba River, California, mine debris restraining works and associated hydropower generation facilities. (33 U.S.C. 683)

*Maintenance and operation of dams and other improvements of navigable waters.*—The Corps uses its share of certain fees levied by the Federal Energy Regulatory Commission (on the private use of Federal property, including facilities and land; private construction and operation of water management and appurtenant facilities; and private benefit from headwater

improvement by others) for construction, operation, and maintenance of Federal water management facilities. (16 U.S.C. 810(a))

*Payments to States.*—In lieu of taxes, the Corps pays to States three-fourths of the rent received from the leasing of lands acquired for flood control, navigation, and allied purposes, including the development of hydroelectric power. (33 U.S.C. 701c-3)

This revolving fund provides for the acquisition, operation, and maintenance of plant and equipment used by the civil works program and for temporary financing of services chargeable to the civil works program. The fund also initially finances Corps district office operating expenses, which the districts later reimburse with project-specific funds. In addition, payments are made into the fund when other agencies or entities use plant and equipment acquired by the fund.

The Harbor Maintenance Trust Fund is authorized under the Harbor Maintenance Revenue Act of 1986 (P.L. 99–662, Title XIV), as amended. Under current law, revenue is derived from a 0.125 percent ad valorem tax imposed upon commercial users of specified U.S. ports, Saint Lawrence Seaway tolls, and investment interest. The Budget proposes to execute these appropriations within the Harbor Maintenance Trust Fund rather than to transfer and execute them in the Construction, Operation and Maintenance, and Mississippi River and Tributaries accounts.

The Harbor Maintenance Revenue Act authorizes expenditures from this fund to finance up to 100 percent of eligible Corps harbor operation and maintenance costs, including the operation and maintenance of Great Lakes navigation projects. The fund fully finances eligible operation and maintenance costs of the Saint Lawrence Seaway Development Corporation. The Water Resources Development Act of 1996 (P.L. 104–303, section 201) authorizes the fund to pay the Federal share of the costs for the construction of dredged material disposal facilities that are necessary for the operation and maintenance of coastal or inland harbors, the dredging and disposal of contaminated sediments that are in or affect the operation and maintenance of Federal navigation channels, the mitigation of impacts resulting from Federal navigation operation and maintenance activities, and the operation and maintenance of dredged material disposal facilities.

The North American Free Trade Agreement Implementation Act (26 U.S.C. 9505(c)(3)) authorizes the fund to pay all expenses of administration incurred by the Department of the Treasury, the Corps, and the Department of Commerce related to the administration of the harbor maintenance tax (under 26 U.S.C. 4461 et seq.), but not in excess of \$5 million for any fiscal year.

In 1998, the U.S. Supreme Court excluded all U.S. exports from the harbor maintenance tax. The Court found that the tax violated Article I, section 9, clause 5 of the constitution because the value of the cargo, which is the basis for calculating this tax, does not fairly match the use of port services and facilities by exporters.

The proposed appropriations language for eligible operation and maintenance costs for inland harbors on the lower Mississippi River is intended to only apply to: Helena Harbor, Phillips County, AR; Mississippi River, Baton Rouge to the Gulf of Mexico; barge channel through Devils Swamp, LA; Greenville Harbor, MS; Vicksburg Harbor, MS; and Memphis Harbor, McKellar Lake, Memphis, TN.

The Inland Waterways Trust Fund is authorized under the Inland Waterways Revenue Act of 1978 (P.L. 95-502), as amended by the Water Resources Development Act of 1986 (P.L. 99-662). The fund is used to pay one-half of the costs associated with the construction, replacement, rehabilitation, and expansion of Federal inland waterways projects, except as otherwise specifically provided for in law. Under current law, revenue is derived from an excise tax imposed on diesel fuel for commercial vessels on most of the inland waterways, plus investment interest. The Budget proposes to execute these appropriations within the Inland Waterways

Trust Fund rather than to transfer and execute them in the Construction account.

**INLAND WATERWAYS TRUST FUND**  
(Legislative proposal, subject to PAYGO)

The proposal would establish a new user fee to supplement existing revenue from the \$0.29 per gallon diesel fuel tax to help finance the users' share of anticipated capital investment projects as well as 10 percent of the cost of operation and maintenance activities on the inland waterways. This proposal would raise about \$1.8 billion over the 10-year window.

This fund, authorized in the Omnibus Appropriations Act of 1999 (P.L. 105-277), as amended by the Water Resources Development Act of 1999 (P.L. 106-53), supports wildlife habitat restoration efforts undertaken by the State of South Dakota. The establishment of this fund satisfies the Federal obligation under the Fish and Wildlife Coordination Act (16 U.S.C. 1661 et seq.) to mitigate for the loss of habitat due to flooding from the Oahe and Big Bend projects, which the Corps constructed under the Pick-Sloan Missouri River Basin program.

GENERAL PROVISIONS CORPS OF ENGINEERS—CIVIL

GENERAL PROVISIONS—CORPS OF ENGINEERS—CIVIL  
(INCLUDING TRANSFER OF FUNDS)

SEC. 101. (a) None of the funds provided in title I of this Act [ ], or provided by previous appropriations Acts to the agencies or entities funded in title I of this Act that remain available for obligation or expenditure in fiscal year 2019, [ ] shall be available for obligation or expenditure through a reprogramming of funds that:

- (1) creates or initiates a new program, project, or activity;
- (2) eliminates a program, project, or activity;

(3) increases funds or personnel for any program, project, or activity for which funds have been denied or restricted by this Act, unless [ ] prior approval is received from [ ] notice has been transmitted to the House and Senate Committees on Appropriations;

(4) proposes to use funds directed for a specific activity for a different purpose, unless [ ] prior approval is received from [ ] notice has been transmitted to the House and Senate Committees on Appropriations;

(5) augments or reduces existing programs, projects, or activities in excess of the amounts contained in paragraphs (6) through (10), unless [ ] prior approval is received from [ ] notice has been transmitted to the House and Senate Committees on Appropriations;

(6) INVESTIGATIONS.—For a base level over \$100,000, reprogramming of 25 percent of the base amount up to a limit of \$150,000 per project, study or activity is allowed: *Provided*, That for a base level less than \$100,000, the reprogramming limit is \$25,000: *Provided further*, That up to \$25,000 may be reprogrammed into any continuing study or activity that did not receive an appropriation for existing obligations and concomitant administrative expenses;

(7) CONSTRUCTION.—For a base level over \$2,000,000, reprogramming of 15 percent of the base amount up to a limit of \$3,000,000 per project, study or activity is allowed: *Provided*, That for a base level less than \$2,000,000, the reprogramming limit is \$300,000: *Provided further*, That up to \$3,000,000 may be reprogrammed for settled contractor claims, changed conditions, or real estate deficiency judgments: *Provided further*, That up to \$300,000 may be reprogrammed into any continuing study or activity that did not receive an appropriation for existing obligations and concomitant administrative expenses;

(8) OPERATION AND MAINTENANCE.—Unlimited reprogramming authority is granted for the Corps to be able to respond to emergencies: *Provided*, That the Chief of Engineers shall notify the House and Senate Committees on Appropriations of these emergency actions as soon thereafter as practicable: *Provided further*, That for a base level over \$1,000,000, reprogramming of 15 percent of the base amount up to a limit of \$5,000,000 per project, study, or activity is allowed: *Provided further*, That for a base level less than \$1,000,000, the reprogramming limit is \$150,000: *Provided further*, That \$150,000 may be reprogrammed into any continuing study or activity that did not receive an appropriation;

(9) MISSISSIPPI RIVER AND TRIBUTARIES.—The reprogramming guidelines in paragraphs (6), (7), and (8) shall apply to the Investigations, Construction, and Operation and Maintenance portions of the Mississippi River and Tributaries Account, respectively; and

(10) FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM.—Reprogramming of up to 15 percent of the base of the receiving project is permitted.

(b) DE MINIMUS REPROGRAMMINGS.—In no case should a reprogramming for less than \$50,000 be submitted to the House and Senate Committees on Appropriations.

(c) CONTINUING AUTHORITIES PROGRAM.—Subsection (a)(1) shall not apply to any project or activity funded under the continuing authorities program.

(d) Not later than 60 days after the date of enactment of this Act, the Secretary shall submit a report to the House and Senate Committees on Appropriations to establish the baseline for application of reprogramming and transfer authorities for the current fiscal year which shall include:

(1) A table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if applicable, and the fiscal year enacted level; and

(2) A delineation in the table for each appropriation both by object class and program, project and activity as detailed in the budget appendix for the respective appropriations. [ ]; and [ ]

[ (3) An identification of items of special congressional interest. ]

[ SEC. 102. The Secretary shall allocate funds made available in this Act solely in accordance with the provisions of this Act and the joint explanatory statement accompanying this Act, including the determination and designation of new starts. ]

SEC. [ 103 ] 102. None of the funds made available in this title may be used to award or modify any contract that commits funds beyond the amounts appropriated for that program, project, or activity that remain unobligated, except that such amounts may include any funds that have been made available through reprogramming pursuant to section 101.

SEC. [ 104 ] 103. The Secretary of the Army may transfer to the Fish and Wildlife Service, and the Fish and Wildlife Service may accept and expend [ ], up to \$5,400,000 of [ such funds as the Secretary of the Army and the Director of the Fish and Wildlife Service determine, through consultation, are appropriate, from the funds provided in this title under the heading "Operation and Maintenance" to mitigate for fisheries lost due to Army Corps of Engineers civil works projects.

*SEC. 104. Section 1043 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2201 note; Public Law 113–121) is amended in subsection (b)(7) by striking "5 years" and inserting "10 years".*

**【SEC. 105.** None of the funds in this Act shall be used for an open lake placement alternative for dredged material, after evaluating the least costly, environmentally acceptable manner for the disposal or management of dredged material originating from Lake Erie or tributaries thereto, unless it is approved under a State water quality certification pursuant to section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341): *Provided*, That until an open lake placement alternative for dredged material is approved under a State water quality certification, the Corps of Engineers shall continue upland placement of such dredged material consistent with the requirements of section 101 of the Water Resources Development Act of 1986 (33 U.S.C. 2211). **】**

**【SEC. 106.** None of the funds made available in this title may be used for any acquisition of buoy chain that is not consistent with 48 CFR 225.7007, subsections (a)(1) and (a)(2). **】**

**【SEC. 107.** None of the funds made available by this Act may be used to carry out any water supply reallocation study under the Wolf Creek Dam, Lake Cumberland, Kentucky, project authorized under the Act of July 24, 1946 (60 Stat. 636, ch. 595). **】**

**【SEC. 108.** None of the funds made available by this Act may be used to require a permit for the discharge of dredged or fill material under the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) for the activities identified in subparagraphs (A) and (C) of section 404(f)(1) of the Act (33 U.S.C. 1344(f)(1)(A), (C)). **】**

**【SEC. 109.** For fiscal year 2019, none of the funds provided in this Act or available in the revolving fund established by the Civil Functions Appropriations Act of 1954 (33 U.S.C. 576(a)) may be obligated or expended on a new hopper dredge. **】**

**【SEC. 110.** None of the funds made available by this Act or any other Act may be used to reorganize or to transfer the Civil Works functions or authority of the Corps of Engineers or the Secretary of the Army to another department or agency. **】** (*Energy and Water Development and Related Agencies Appropriations Act, 2019.*)

The 2020 payment to the Military Retirement Fund includes funds for the amortization of the unfunded liability for all retirement benefits earned by military personnel for service prior to 1985. The amortization schedule for the unfunded liability is determined by the Department of Defense Retirement Board of Actuaries. Included in the unfunded liability are the consolidated requirements of the military departments to cover retired officers and enlisted personnel of the Army, Navy, Marine Corps, and Air Force; retainer pay of enlisted personnel of the Fleet Reserve of the Navy and Marine Corps; and survivors' benefits.

The 2004 National Defense Authorization Act (P.L. 108-136) created additional benefits for certain retirees who receive disability compensation from the Department of Veterans Affairs and moved the responsibility for payments under the Combat-Related Special Compensation program to the Military Retirement Fund. Any additional funding requirements for retirees with service prior to 1985 will be included in this payment.

The 2016 National Defense Authorization Act (P.L. 114-92) enacted substantial changes to the current military retirement system. The new retirement system, which took effect January 1, 2018, is a blend of several components, including a defined retired pay benefit, a defined contribution to the Thrift Savings Plan, and a bonus (continuation pay) paid to the member to maintain Service retention requirements. Currently serving members will remain grandfathered under the legacy retirement system.

Public Law 98-94 provided for accrual funding of the military retirement system and for the establishment of a Department of Defense Military Retirement Fund in 1985. The fund has three sources of income. The first is payments from the military personnel accounts, which cover the accruing costs of the future retirement benefits being earned by today's service members. The second source is interest on investments of the fund. The third source is made up of two payments from the general fund of the Treasury. The first Treasury payment covers a portion of the accrued unfunded liability for all the retirees and current members who had earned benefits before the accrual funding system was set up. The second Treasury payment covers the liability for concurrent receipt of military retired pay and disability compensation paid by the Department of Veterans Affairs. This benefit was added in the 2004 National Defense Authorization Act.

MILITARY RETIREMENT FUND—Continued

The 2016 National Defense Authorization Act (P.L. 114–92) enacted substantial changes to the current military retirement system. The new retirement system, which took effect January 1, 2018 is a blend of several components, including a defined retired pay benefit, a defined contribution to the Thrift Savings Plan, and a bonus (continuation pay) paid to the member to maintain Service retention requirements. Currently serving members will remain grandfathered under the legacy retirement system.

The status of the fund is as follows:

Public Law 106-398 provides for accrual funding for health care to Medicare-eligible retirees. The statute establishes an accrual health care fund which has three sources of funding. The first is contributions from employing agencies, which cover the liability for future benefits accruing to current service members. The second is an annual payment from the general fund of the Treasury on the accrued unfunded liability, and the third source is income from the investment of fund balances.

The 1985 Department of Defense Authorization Act, Public Law 98-525, as amended by Public Laws 100-48 and 108-375, and the Post 9/11 Veterans Educational Assistance Improvements Act of 2010, Public Law 111-377, provide for the accrual funding of certain education benefits for active duty military personnel under the authority of Chapters 30 and 33, Title 38 U.S.C., and to selected Reserve personnel under the authority of Chapters 1606 and 1607, Title 10 U.S.C. Chapter 1607 was sunset by Public Law 114-92, although the statute allows members who were receiving Chapter 1607 benefits before the statute was enacted to continue to receive these education benefits through November 2019. The fund is financed through actuarially determined Government contributions from the Department of Defense military personnel appropriations and interest on investments. Funds are transferred to the Department of Veterans Affairs to make benefit payments to eligible personnel. The status of the fund is as follows:

The agency has a currency fluctuation account that insulates its appropriation's buying power from changes in exchange rates. Under "such sums as may be necessary" language, the Commission will reprogram prior year available funds to address exchange rate imbalances in 2020. The Commission will continue to estimate and report its Foreign Currency Fluctuations Account requirements.

Public Law 101-510 created an Armed Forces Retirement Home (AFRH) Trust Fund to finance the AFRH—Gulfport and the AFRH—Washington Homes. The Homes are financed by appropriations drawn from the Trust Fund. AFRH provides residences and related services for certain retired and former members of the Armed Forces and the Coast Guard. The members receiving domiciliary and hospital care are:

Domiciliary care .....	595	679	838
Hospital care .....	157	165	175
Totals .....	752	844	1013

Both AFRH facilities (Gulfport, MS and Washington, DC) are accredited in all areas by The Joint Commission (TJC) and Commission on Accreditation of Rehabilitation Facilities (CARF). AFRH is accredited with TJC

for the Wellness Clinic (Ambulatory Care) and four nursing care (Assisted Living, Memory Support, Long Term Care, and Independent Living Plus (Home Health Care)). CARF renewed accreditation for AFRH's Independent Living Services, our largest resident population. For FY 2018, AFRH earned its 14th consecutive unmodified financial audit opinion with no weaknesses or deficiencies identified in the management letter. AFRH identified and implemented several revenue generation and cost saving initiatives without significant impact on services provided to residents. Such initiatives include implementing a resident fee structure that will ultimately be tied to cost of care, development of a fundraising and partnership capacity, and strategic investments in property and infrastructure which will yield additional income to the Trust Fund or improve the living conditions and services provided to resident veterans. The FY 2018 National Defense Authorization Act updated AFRH's leasing authority to allow AFRH to proceed with leasing underutilized buildings/land to generate additional revenue. In May 2018, AFRH issued a request for proposals to develop an 80-acre parcel of underutilized land and buildings on its Washington, DC campus and proposals were received in September 2018. AFRH is reviewing the proposals with the goal of making a selection in 2019. AFRH expanded its lease with a District of Columbia charter school to generate additional revenue and provide an accessible intergenerational partnership for AFRH—Washington residents.

These appropriations provide for development and conservation of fish and wildlife and recreational facilities on military installations. Proceeds from the sale of fishing and hunting permits are used for these programs at Army, Navy, Marine Corps, and Air Force installations charging such user fees. These programs are carried out through cooperative plans agreed upon by the local representatives of the Secretary of Defense, the Secretary of the Interior, and the appropriate agency of the State in which the installation is located.

The Selective Service System (SSS) continues to register men as they reach age 18, as required by law, and maintain an active database of registrant records. Should the Nation return to conscription for a national emergency, the agency would have the first draftees at military processing centers according to the mobilization plan. The agency also manages a program for the Nation's conscientious objectors in cooperation with the Department of Defense. All Reserve Force Officers participating in the

Selective Service System program will remain at 175 in 2019 and 2020 to reflect requirements.

SSS will continue to strengthen its partnership with the Armed Services. The Agency will continue its national initiative to offer every young man that receives a registration acknowledgment, almost two million annually, the opportunity to volunteer for the military services.

SSS will maintain a modernized information technology system to improve business processes, while helping to sustain an all volunteer military by aiding recruiting with its agency mailings. Relevant technology will ensure faster, more accurate registration processing, as well as more secure storage of personally identifiable information. It will also foster better customer service via the internet.

This appropriation supports the Environmental Protection Agency's (EPA) core programs by providing funds for independent Office of Inspector General (OIG) audit, evaluation, and investigative products and advisory services. These products and services consistently provide significant

positive monetary return on investment and contribute substantially to risk reduction, improved environmental quality and human health, as well as improved business practices, operational efficiency, and accountability. Specifically, the OIG performs contract audits and investigations that focus on costs claimed by contractors and assess the effectiveness of contract management. Assistance agreement audits and investigations evaluate the award, administration, and costs of assistance agreements. Program audits, evaluations, and investigations determine the extent to which the desired results or benefits envisioned by the Administration and the Congress are being achieved, and identify activities that could undermine the integrity, efficiency, and effectiveness of EPA programs. Financial statement audits review financial systems and statements to ensure that adequate controls are in place and EPA's accounting information is timely, accurate, reliable and useful, and complies with applicable laws and regulations. Efficiency, risk assessment, and program performance audits review the economy, efficiency, and effectiveness of operations by examining EPA's structure and processes for achieving environmental goals, including assessing risk, setting priorities, developing implementation strategies, and measuring performance. Information resource management audits review EPA information technology and systems to test the integrity of data and systems controls, as well as compliance with a variety of Federal information security laws and requirements. Investigations prevent, detect, and seek prosecution for criminal activity and serious misconduct in EPA programs and operations. Major areas of investigative focus include: financial fraud; infrastructure/terrorist threat; program integrity; employee integrity; cyber-crimes; and theft of intellectual or sensitive data. In addition, the EPA Inspector General serves as the IG for the U.S. Chemical Safety and Hazard Investigation Board, providing the full range of audit, evaluation, and investigative services specified by the Inspector General Act, as amended. Additional funds for audit, evaluation, and investigative activities associated with the Hazardous Substance Superfund are appropriated under that account and transferred to the Inspector General account. This appropriation also supports activities under the Working Capital Fund.

This appropriation finances salary, travel, science, technology, environmental monitoring, research, and development activities including laboratory and center supplies, certain operating expenses (including activities under the Working Capital Fund), contracts, grants, intergovernmental agreements, and purchases of scientific equipment. In addition, the Administrator will employ persons in the Office of Research and Development under the authority provided in 42 U.S.C. 209. These activities prioritize robust science, refocusing the Environmental Protection Agency's (EPA) research and scientific analysis to inform EPA policy and regulatory development actions, and creating consistency and certainty that outlines exactly what is expected of the regulated community to ensure good stewardship and positive environmental outcomes. This appropriation supports core Agency programs and each of the Agency's three goals. Specifically in 2020, EPA will place emphasis on the following:

The Air and Energy program (A-E) will conduct a range of science and technology activities to develop and implement strategies to improve air quality. These include: research to inform the review of the national ambient air quality standards to improve understanding of ozone, particulate matter, lead, sulfur dioxide, carbon monoxide, and nitrogen dioxide; system research and life cycle analysis to understand the production, operation, and impacts of energy systems on health and the environment; research on the generation, fate, transport, and chemical transformation of air emissions to identify individual and population health risks to inform clean air management decisions; and development and evaluation of new approaches for monitoring levels of air pollutants (including air toxics). EPA further develops tools to provide technical assistance to State and local governments and Tribes to use in developing clean air plans to achieve air quality standards. EPA will continue to implement the renewable fuels provisions of the Energy Policy Act of 2005 (P.L. 109–58) and the Energy Independence and Security Act of 2007 (P.L. 110–140), and will develop, implement, and ensure compliance with regulatory programs that will significantly reduce emissions from highway and non-road sources.

The Safe and Sustainable Water Resources research program (SSWR) conducts research to meet the science needs in EPA's water program, including: evaluating groups of contaminants for the protection of human health and the environment; developing innovative tools, technologies, and strategies for managing water resources (including stormwater); and supporting a systems approach for protecting and restoring aquatic systems. The systems approach includes: research to inform setting water quality criteria; establishing measures to assess and manage watersheds; and developing effective source control and management methods, especially for urban uses. A major component of the research program is working to support EPA's Drinking Water Strategy.

Within the SSWR program, research will assess, develop, and compile scientifically rigorous tools and models that will be used by the Agency, States, Tribes, and municipalities.

The Sustainable and Healthy Communities (SHC) research program, including Superfund research, implements system-based research to develop a new generation of smart technologies to address environmental conditions in a community. Superfund research costs are appropriated to the Hazardous Substance Superfund Trust Fund appropriation and transferred to this account to allow for proper accounting. The SHC research program develops decision support tools to enable communities' decision makers to solve complex human health and environmental problems. The program will identify health risks and stressors, especially those that disproportionately impact vulnerable populations such as children and the elderly.

The decision support tools support critical policy, regulatory, and non-regulatory needs related to contaminated site remediation, children's health protection, waste management, and our economy's reliance on quality ecosystem goods and services. These tools account for the interrelationships

between social, economic, health, ecological, and environmental factors with the aim to minimize unintended consequences that can result from decisions about land use, transportation, and solid waste management, as well as promote more robust and efficient infrastructure.

The Human Health Risk Assessment (HHRA) program develops assessments and scientific products that are used extensively by EPA's Program and Regional offices, and other parties, to estimate the potential risk to public health from exposure to environmental contaminants, to develop regulatory standards, and to manage environmental clean-ups. The HHRA research program provides the scientific foundation for Agency actions to protect public health and the environment.

The Homeland Security Research Program (HSRP) will continue to support research efforts on evaluating chemical, biological, and radiological (CBR) analytical methods. The HSRP will conduct research on decontamination and methods to manage potential public health consequences and develop methods to protect water infrastructures and assess threats and consequences. In 2020, decontamination research will continue to address existing scientific knowledge gaps in responding to and recovering from wide-area CBR attacks on urban centers and public areas. Water Infrastructure Protection Research will focus on developing and testing decontamination approaches for water infrastructure and on treating CBR contaminated water caused by terrorist attacks, natural disasters, and/or accidents. Research on real-time distribution system models and methods to isolate and treat contaminated water, clean distribution systems, redirect water, and return water systems to service quickly and affordably is in progress. EPA also will continue to support water sector-specific agency responsibilities to protect the Nation's critical water infrastructure.

EPA's Chemical Safety for Sustainability research program (CSS) is designed to strengthen the Agency's ability to evaluate and predict the potential environmental and human health impacts from use of manufactured chemicals throughout their lifecycle. The CSS program supports the development and application of improved and new computational systems, models of pathways and tissues; rapid cost-efficient exposure models; and user-friendly web based tools for analysis and decision support. The CSS program will continue to develop approaches for using toxicity and exposure data to inform screening and prioritization of the over 40,000 chemicals currently on the TSCA Active List, and will continue to inform the Agency's implementation of key environmental regulations and to address contaminants of emerging concern, such as Per- and Polyfluoroalkyl Substances (PFAS).

As it relates to the Science and Technology account and the overall mission of EPA, the protection of human health includes: ensuring the availability of appropriate analytical methods for detecting pesticide residues in food and feed; ensuring suitability for monitoring pesticide residues; and enforcing tolerances. The program accomplishes this by developing and validating multi-residue pesticide analytical methods for food, feed, and water for use by other Federal and State laboratories and EPA's programs and regions. Laboratories further support the estimation of human health risks from pesticide use by operating the National Pesticide Standard Repository (NPSR).

EPA's Forensics Support program provides expert scientific and technical support for criminal and civil environmental enforcement cases, as well as technical support for the Agency's compliance efforts. EPA's National Enforcement Investigations Center (NEIC) is an environmental forensic center accredited for both laboratory and field sampling operations that generate environmental data for law enforcement purposes. It is fully accredited under International Standards Organization 17025, the main standard used by testing and calibration laboratories, as recommended by the National Academy of Sciences (see Strengthening Forensic Science in the United States: A Path Forward, National Academy of Sciences, 2009). The NEIC maintains a sophisticated chemistry laboratory and a corps of highly trained inspectors and scientists with expertise across media. The NEIC works closely with EPA's Criminal Investigation Division to provide technical support (e.g., sampling, analysis, consultation, and testimony) to

criminal investigations. The NEIC also works closely with EPA's Program and Regional Offices to provide technical support, consultation, on-site inspection, investigation, and case resolution services in support of the Agency's Civil Enforcement program.

EPA's internal operations programs provide centralized management services to ensure that EPA is fulfilling its mission. The office and the functions it performs is: Office of Mission Support (facilities infrastructure and operations and information technology/data management).

This appropriation includes funds for salaries, travel, contracts, grants, and cooperative agreements for pollution abatement, control, and compliance activities and administrative activities of the operating programs, including activities under the Working Capital Fund. This appropriation supports core agency programs implementing environmental statutes.

To protect and improve air quality, the Environmental Protection Agency (EPA) applies a variety of approaches and tools. These include: developing and implementing strategies to attain ambient air quality standards for the six criteria pollutants; reducing regional haze through regional approaches where significant transport of pollutants occurs; and developing control measures for sources that are appropriately regulated at the Federal level. EPA develops and issues national technology-based and risk-based standards using a sector-based approach to reduce the quantity of toxic air pollutants emitted from industrial and manufacturing processes, as well as from urban sources. The Acid Rain program will continue its market-based approach to achieving reduced emissions of sulfur dioxide, primarily from electric utilities. The market-based approach also will be used in other programs, where permitted under the Clean Air Act, to reduce emissions of air pollutants. EPA will work with States and sources to implement the Greenhouse Gas Reporting Rule to obtain high quality data in a cost-effective manner. In addition, EPA will develop and use public information and training to reduce public exposure to radiation. EPA will focus its domestic efforts to ensure that ozone-depleting substance production and import caps under the Montreal Protocol and Clean Air Act continue to be met. The Budget includes a proposal to authorize EPA to administer the ENERGY STAR program through the collection of user fees, which would be collected and obligated out of the Environmental Programs and Management Account. By administering the ENERGY STAR program through the collection of user fees, the EPA would continue to provide a trusted resource for consumers and businesses who want to purchase products that save them money and help protect the environment.

EPA works to protect and restore our waters to ensure that drinking water is safe, and that aquatic ecosystems sustain fish, plants and wildlife, as well as support economic, recreational, and subsistence activities. EPA will focus on core statutory requirements and water infrastructure. EPA will support the following Clean Water Act program components: water quality criteria, standards and technology; National Pollutant Discharge Elimination System (NPDES); water monitoring; Total Maximum Daily Loads (TMDLs); watershed management; water infrastructure and grants management; core wetlands programs and Clean Water Act section 106 program management. EPA also will work with States and Tribes to reduce risks to drinking water contaminants, for example, through revisions to the Lead and Copper Rule. In addition, EPA will continue work with States to transition to the next generation management and reporting tool, the Safe Drinking Water Information System (SDWIS) Prime used by the majority of state drinking water programs. The new SDWIS Prime management and reporting tool will provide improvements in program efficiency and data quality, greater public access to drinking water data, facilitation of electronic reporting, reductions in reporting burdens on laboratories and water utilities, reductions in data management burdens, and ultimately reduction in public health risk.

EPA's programs work to preserve land by ensuring proper management of waste under multiple environmental statutes. EPA will continue to assist States in putting in place and maintaining permits at facilities that treat, store, or dispose of hazardous waste. Although States are the primary implementers of the Corrective Action program, which requires facilities managing hazardous waste to clean up past releases, EPA directly implements the program in six States and provides technical support and oversight for State activities. EPA also works with Tribes to maintain tribal underground storage tank (UST) programs. EPA also supports the operations and management of the Brownfields program, including training and

technical support to assist communities to address issues associated with redevelopment or reuse of properties that may be complicated by the presence of contamination. EPA works with State, local, and tribal partners to help protect the public and the environment from releases of hazardous substances from chemical handling facilities by helping them develop area-wide emergency response and contingency plans. EPA conducts audits and inspections of those facilities handling more than a threshold quantity of certain extremely hazardous chemicals and that are required to implement a Risk Management Program to prevent releases. The Budget proposes to institute a voluntary fee whereby owners and/or operators of chemical facilities can choose to pay EPA for on-site compliance assistance with the Risk Management Program. The collected fees will be deposited in the Environmental Programs and Management Account and used by EPA to pay for this service.

In collaboration with our tribal government partners, EPA works to strengthen human health and environmental protection in Indian Country. EPA works to ensure that its environmental protection programs are implemented in Indian Country either by EPA or by the Tribes. EPA will continue the direct implementation assessment to better understand EPA direct implementation responsibilities and activities on a program-by-program basis in Indian Country. Also, EPA provides resources and technical assistance for federally recognized Tribes to create and maintain effective environmental programs by collaborating with Tribes to develop long-term EPA-Tribal Environmental Plans (ETEP) for all federally recognized Tribes.

To ensure that food will be free from unsafe levels of pesticide residues, EPA applies strict health-based standards in establishing and reevaluating tolerances for residues in food or animal feed. EPA also works to expedite the registration of reduced risk pesticides when possible, and to ensure that older pesticides meet current health and environmental standards. To respond to emerging health issues, EPA develops methods to evaluate the efficacy of products intended to combat public health pests. EPA intends to reduce potential human and environmental risks from commercial and residential exposure to pesticides through programs that focus on farm worker protection, pollinator health and protection, endangered species protection, environmental stewardship, and integrated pest management. EPA's toxics program will continue to make substantial progress in protecting public health and the environment from potentially harmful industrial chemicals by assessing the safety of new and existing chemicals, reducing gaps in the availability of chemical data, strengthening management of chemical information, and providing easier and more complete public access to non-confidential chemical data. EPA will conduct existing chemical prioritization and evaluations under the provisions of the Toxic Substances Control Act (TSCA) as amended by the Frank R. Lautenberg Chemical Safety for the Twenty-First Century Act, and address any unreasonable risks identified through such evaluations.

EPA will engage both bilaterally and through multilateral institutions to improve international cooperation to prevent and address the transboundary movement of pollution and coordinate with other nations to protect the environment and human health.

Combined with public demand for information, unprecedented changes in information technology are altering the way EPA, States, and Tribes collect, manage, analyze, use, secure, and provide access to quality environmental information. EPA is working with the States and Tribes to strengthen our information quality, leverage information maintained by other government organizations, and develop new tools that provide the public with simultaneous access to multiple data sets, allowing users to understand local, tribal, State, regional, and national environmental conditions. Key to achieving information quality will be the further development of the National Environmental Information Exchange Network, which is primarily an affiliation between EPA and the States and Tribes. EPA will continue to reduce reporting burdens, improve data quality, and accelerate data publications by accelerating the replacement of paper-based submissions with electronic reporting under the Toxic Release Inventory and other programs.

EPA works in partnership with State and tribal agencies to enforce and build compliance with Federal environmental laws passed by the Congress that ensure our communities have clean air, water, and land. EPA will enforce environmental laws to correct noncompliance and promote cleanup of contaminated sites. To improve compliance with environmental laws, EPA works to provide easy access to tools that help regulated entities, Federal agencies, and the public understand these laws and find efficient, cost-effective means for putting them into practice. EPA's enforcement program targets inspections and other compliance monitoring activities according to the degree of health and environmental risk. The program collaborates with the Department of Justice, States, local government agencies, and tribal governments to ensure consistent and fair enforcement of all environmental laws and regulations. The program seeks to aggressively pursue violations that threaten communities, ensure a level economic playing field by ensuring that violators do not realize an economic benefit from noncompliance, and deter future violations. The Civil Enforcement program develops, litigates, and settles administrative and civil judicial cases against serious violators of environmental laws. The Criminal Enforcement program enforces the nation's environmental laws through targeted investigations of criminal conduct, committed by individual and corporate defendants, that threatens public health and the environment. Bringing criminal cases sends a strong deterrence message to potential violators, enhances aggregate compliance with laws and regulations and protects our communities. In 2020, to maximize compliance, the Agency will refocus efforts towards areas with significant noncompliance issues and where enforcement can address the most substantial impacts to human health and the environment.

EPA's internal operations programs provide centralized management services and leadership to ensure that EPA is fulfilling its mission. The offices and the functions they perform within the Environmental Programs and Management appropriation are: the Office of Mission Support (facilities, infrastructure and operations; acquisition management; human resources management services; grants and interagency agreements; suspension and debarment; administrative law exchange network; information security; information technology/data management); the Office of the Administrator (civil rights/Title VII compliance; congressional, intergovernmental and external relations; Science Advisory Board; children's health; Small Business Ombudsman; and regulatory and economic management and analysis work); the Office of the Chief Financial Officer (strategic planning, annual planning and budgeting, financial services, financial management, analysis, and accountability); and the Office of the General Counsel (FOIA management, civil rights/Title VI compliance, and legal advice). Since these centralized services provide support across EPA, many of these programs are funded across EPA's appropriations.

This appropriation provides for the construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities of, or for use by the Environmental Protection Agency (EPA). This appropriation supports providing centralized management services to ensure that EPA is fulfilling its mission. EPA's management infrastructure will set and implement the highest quality standards for effective internal management

and fiscal responsibility. The facilities funded by this account will provide quality work environments and state-of-the-art laboratories that address employee safety and security and pollution prevention. The appropriation includes costs associated with the consolidation and optimization of EPA's laboratory enterprise, reducing its overall footprint and facility costs.

STATE AND TRIBAL ASSISTANCE GRANTS

For environmental programs and infrastructure assistance, including capitalization grants for State revolving funds and performance partnership grants, \$2,774,602,000, to remain available until expended, of which—

(1) \$1,119,772,000 shall be for making capitalization grants for the Clean Water State Revolving Funds under title VI of the Federal Water Pollution Control Act; and of which \$863,233,000 shall be for making capitalization grants for the Drinking Water State Revolving Funds under section 1452 of the Safe Drinking Water Act: Provided, That notwithstanding section 603(d)(7) of the Federal Water Pollution Control Act, the limitation on the amounts in a State water pollution control revolving fund that may be used by a State to administer the fund shall not apply to amounts included as principal in loans made by such fund in fiscal year 2020 and prior years where such amounts represent costs of administering the fund to the extent that such amounts are or were deemed reasonable by the Administrator, accounted for separately from other assets in the fund, and used for eligible purposes of the fund, including administration: Provided further, That for fiscal year 2020, notwithstanding the provisions of subsections (g)(1), (h), and (l) of section 201 of the Federal Water Pollution Control Act, grants made under title II of such Act for American Samoa, Guam, the commonwealth of the Northern Marianas, the United States Virgin Islands, and the District of Columbia may also be made for the purpose of providing assistance: (1) solely for facility plans, design activities, or plans, specifications, and estimates for any proposed project for the construction of treatment works; and (2) for the construction, repair, or replacement of privately owned treatment works serving one or more principal residences or small commercial establishments: Provided further, That for fiscal year 2020, notwithstanding the provisions of such subsections (g)(1), (h), and (l) of section 201 and section 518(c) of the Federal Water Pollution Control Act, funds reserved by the Administrator for grants under section 518(c) of the Federal Water Pollution Control Act may also be used to provide assistance: (1) solely for facility plans, design activities, or plans, specifications, and estimates for any proposed project for the construction of treatment works; and (2) for the construction, repair, or replacement of privately owned treatment works serving one or more principal residences or small commercial establishments: Provided further, That for fiscal year 2020, notwithstanding any provision of the Federal Water Pollution Control Act and regulations issued pursuant thereof, up to a total of \$2,000,000 of the funds reserved by the Administrator for grants under section 518(c) of such Act may also be used for grants for training, technical assistance, and educational programs relating to the operation and management of the treatment works specified in section 518(c) of such Act: Provided further, That for fiscal year 2020, funds reserved under section 518(c) of such Act shall be available for grants only to Indian tribes, as defined in section 518(h) of such Act, and former Indian reservations in Oklahoma (as determined by the Secretary of the Interior) and Native Villages as defined in Public Law 92-203: Provided further, That for fiscal year 2020, notwithstanding the limitation on amounts in section 518(c) of the Federal Water Pollution Control Act, up to a total of 2 percent of the funds appropriated, or \$30,000,000, whichever is greater, and notwithstanding the limitation on amounts in section 1452(i) of the Safe Drinking Water Act, up to a total of 2 percent of the funds appropriated, or \$20,000,000, whichever is greater, for State Revolving Funds under such Acts may be reserved by the Administrator for grants under section 518(c) and section 1452(i) of such Acts: Provided further, That for fiscal year 2020, notwithstanding the amounts specified in section 205(c) of the Federal Water Pollution Control Act, up to 1.5 percent of the aggregate funds appropriated for the Clean Water State Revolving Fund program under the Act less any sums reserved under section 518(c) of the Act, may be reserved by the Administrator

for grants made under title II of the Federal Water Pollution Control Act for American Samoa, Guam, the Commonwealth of the Northern Marianas, and United States Virgin Islands: Provided further, That for fiscal year 2020, notwithstanding the limitations on amounts specified in section 1452(j) of the Safe Drinking Water Act, up to 1.5 percent of the funds appropriated for the Drinking Water State Revolving Fund programs under the Safe Drinking Water Act may be reserved by the Administrator for grants made under section 1452(j) of the Safe Drinking Water Act: Provided further, That notwithstanding 22 U.S.C. 1383(i)(3)(A), not less than 10 percent but not more than 20 percent of the funds made available under this title to each State for Clean Water State Revolving Fund capitalization grants and not less than 20 percent but not more than 30 percent of the funds made available under this title to each State for Drinking Water State Revolving Fund capitalization grants shall be used by the State to provide additional subsidy to eligible recipients in the form of forgiveness of principal, negative interest loans, or grants (or any combination of these), and shall be so used by the State only where such funds are provided as initial financing for an eligible recipient or to buy, refinance, or restructure the debt obligations of eligible recipients only where such debt was incurred on or after the date of enactment of this Act;

(2) \$3,000,000 shall be for grants to the State of Alaska to address drinking water and wastewater infrastructure of rural and Alaska Native Villages: Provided, That of these funds: (A) the State of Alaska shall provide a match of 25 percent; (B) no more than 5 percent of the funds may be used for administrative and overhead expenses; and (C) the State of Alaska shall make awards consistent with the Statewide priority list established in conjunction with the Agency and the U.S. Department of Agriculture for all water, sewer, waste disposal, and similar projects carried out by the State of Alaska that are funded under section 221 of the Federal Water Pollution Control Act (33 U.S.C. 1301) or the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.) which shall allocate not less than 25 percent of the funds provided for projects in regional hub communities;

(3) \$62,000,000 shall be to carry out section 104(k) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), including grants, interagency agreements, and associated program support costs;

(4) \$10,000,000 shall be for grants under title VII, subtitle G of the Energy Policy Act of 2005;

(5) \$580,347,000 shall be for grants, including associated program support costs, to States, federally recognized tribes, interstate agencies, tribal consortia, and air pollution control agencies for multi-media or single media pollution prevention, control and abatement and related activities, including activities pursuant to the provisions set forth under this heading in Public Law 104-134, and for making grants under sections 103 and 105 of the Clean Air Act for particulate matter monitoring and data collection activities subject to terms and conditions specified by the Administrator, of which: \$31,791,000 shall be for carrying out section 128 of CERCLA; \$6,422,000 shall be for Environmental Information Exchange Network grants, including associated program support costs; \$11,884,000 of the funds available for grants under section 106 of the Federal Water Pollution Control Act shall be for State participation in national- and State-level statistical surveys of water resources and enhancements to State monitoring programs; and \$10,000,000 shall be for Multipurpose Grants to States and federally recognized Indian tribes for the implementation of mandatory statutory duties in delegated environmental programs;

(6) \$50,000,000 shall be for grants to States, federally recognized Indian tribes, public pre-schools, local educational agencies as defined in 20 U.S.C. 7801(30), and non-profit organizations, for detection, assessment, prevention, control, or abatement of pollution and other environmental hazards in school buildings as defined in 20 U.S.C. 3610(6), and related activities: Provided, That the Federal share of the costs of such activities shall not exceed 75%: Provided further, That the Administrator may waive such cost share requirement in the case of schools located in economically distressed communities;

(7) \$2,000,000 shall be for grants under section 1459A(l) of the Safe Drinking Water Act (42 U.S.C. 300j-19a(l)), as amended by section 2005 of the America's Water Infrastructure Act of 2018 (Public Law 115-270);

(8) \$5,000,000 shall be for grants under section 1465 of the Safe Drinking Water Act (42 U.S.C. 300j-25), as added by section 2006(b) of the America's Water Infrastructure Act of 2018 (Public Law 115-270);

(9) \$7,500,000 shall be for grants under section 104(b)(8) of the Federal Water Pollution Control Act (33 U.S.C. § 1254(b)(8)), as added by section 4103 of the America's Water Infrastructure Act of 2018 (Public Law 115-270);

(10) \$61,450,000 shall be for grants under section 221 of the Federal Water Pollution Control Act (33 U.S.C. 1301), as amended by section 4106 of the America's Water Infrastructure Act of 2018 (Public Law 115-270);

(11) \$300,000 shall be for grants authorized in section 4304 of the America's Water Infrastructure Act of 2018 (Public Law 115-270); and

(12) \$10,000,000 shall be for grants under section 1464(d) of the Safe Drinking Water Act (42 U.S.C. 300j-24(d)), as amended by section 2107 of the Water Infrastructure Improvements for the Nation Act (Public Law 114-322) and section 2006(a) of the America's Water Infrastructure Act of 2018 (Public Law 115-270).

This appropriation supports core Environmental Protection Agency (EPA) programs through grants to States, Tribes and U.S. districts and Territories. Funding is provided to assist State and tribal partners in implementing their environmental programs to protect human health and the environment. EPA is using common elements for State and tribal grant agreements, including Performance Partnership Grants.

The EPA will provide financial and technical assistance to assist States and Tribes in the development and management of their clean air plans and support solutions that address their local air quality management needs. EPA also will provide funds to States and Tribes using section 105 authority of the Clean Air Act to operate and maintain air monitoring networks to obtain data on emissions of criteria pollutants and air toxics. EPA has funded State and local fine particulate monitoring using the requirements of section 103 of the Clean Air Act, as authorized in annual appropriation bills. EPA also is committed to transitioning funding for fine particulate monitoring into the funding authorized by section 105 of the Clear Air Act. Section 103 provides full funding for pilot programs, demonstrations, research, and other one-time activities, whereas section 105 requires States and local agencies to provide matching funds of at least 40 percent of the

STATE AND TRIBAL ASSISTANCE GRANTS—Continued

amount required for the entire continuing State or local clean air program. Using funds provided by EPA under Clean Air Act sections 103 and 105, States and Tribes will prepare State Implementation Plans and Tribal Implementation Plans to achieve the National Ambient Air Quality Standards, implement monitoring requirements, and support the National Air Toxics Trends Stations monitoring network. Additionally, States may utilize funding to support States' collection, review, and use of greenhouse gas (GHG) emissions data and permitting of large sources of GHG's. EPA also will implement the Diesel Emissions Reduction Act Grant Program by providing funding through grants and rebates to continue to reduce diesel emissions in priority areas and areas of highly concentrated diesel pollution.

EPA also will support its partnerships with States, Tribes, and U.S. Territories through water grants and Performance Partnership grants to carry out core statutory requirements of the Clean Water Act and the Safe Drinking Water Act. Funding supports work to reduce human exposure to contaminants in drinking water, fish and shellfish, and recreational waters and to protect and restore watersheds and aquatic ecosystems. Funding is provided through the Drinking Water State Revolving Fund (SRF) for States and Tribes to make low interest loans to public water systems to upgrade drinking water infrastructure to help them provide safe drinking water. In addition, Clean Water SRF funding provides low interest loans to communities and includes a set-aside for Tribes and U.S. Territories to construct wastewater treatment infrastructure, in addition to other projects that enhance water quality. In sum, the Federal Government has invested over \$60 billion in grants to help capitalize the SRFs. With the required State match, additional State contributions, and funds from program leveraging, funds made available for loans total over \$163.5 billion since their inception. EPA will continue to work with its partners to enhance the capacity of communities, States, and private investors to plan and finance drinking water and wastewater infrastructure improvements.

Direct grants also are provided to help address the significant water and wastewater infrastructure needs of Alaska Native Villages. EPA has implemented a management plan that optimizes the pace of the program. EPA will continue to strengthen State core water quality protection and water enforcement programs.

The Budget proposes funds for the America's Water Infrastructure Act grant programs that will assist in lead testing and drinking water fountain replacement in schools, sewer overflow control, and water infrastructure workforce investment. These resources would complement State and local drinking water and wastewater infrastructure investments as well as funding provided through other Federal channels.

The Healthy Schools grant program will provide support to States, local governments, Tribes and non-profit organizations to address environmental health concerns found in schools. Funding supports efforts to identify and help prevent, reduce and resolve environmental hazards, prevent childhood lead exposure, reduce asthma triggers, promote integrated pest management and reduce or eliminate childhood exposure to toxics in schools.

EPA's Brownfields program supports land revitalization by providing grants to States, Tribes, and local communities to assess and clean up real property which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. EPA Brownfields assessment and clean-up projects assist local communities in paving the way for the productive reuse of contaminated properties and abandoned sites.

Hazardous and non-hazardous wastes on the land can migrate to the air, groundwater, and surface water, contaminating drinking water supplies, causing acute illnesses or chronic diseases, and threatening healthy ecosystems in urban, rural, and suburban areas. Under the Resource Conservation and Recovery Act of 1976, as amended, EPA provides grants to States to strengthen their ability to implement hazardous waste programs. When appropriate, EPA also may provide financial and technical assistance to eligible tribal governments and inter-tribal consortia to conduct hazardous waste work in Indian Country.

In addition, EPA provides grants to assist States, Tribes, and other partners with worker safety activities, protection of endangered species and water sources, and promotion of environmental stewardship. To protect, sustain or restore the health of people, communities and ecosystems, EPA focuses on the geographic areas with human and ecological communities at most risk. EPA is working to protect, sustain, and restore the health of natural habitats and ecosystems by identifying and evaluating problem areas, developing tools, and improving community capacity to address problems.

Under Federal environmental statutes, EPA is responsible for protecting human health and the environment in Indian Country. EPA works with over 560 federally recognized Tribes located across the United States to improve environmental and human health outcomes. Indian Country totals more than 70 million acres, with reservations ranging from less than 10 acres to more than 14 million acres. EPA will provide funding to build and enhance the capacity of Tribes to address environmental and public health challenges in Indian Country, including lack of access to safe drinking water, sanitation, adequate waste facilities, and other environmental safeguards taken for granted elsewhere.

EPA will provide funding to States, U.S. Territories, Tribes, and inter-tribal consortia to help them develop their information management and technology capabilities. The purpose of this support is two-fold: to assist the Agency in providing ready access to real-time environmental information; and to allow States and Tribes to better integrate and share their environmental information.

To promote compliance with laws intended to protect human health and the environment, EPA will continue to award State and tribal grants to assist in the implementation of compliance and enforcement provisions of environmental laws. EPA provides funding to States and Tribes for compliance assurance activities including inspections and enforcement case support activities. EPA programs will provide Pesticide Program State and Tribal Assistance Grants that support pesticide product and user compliance with provisions of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) through cooperative agreements with States and Tribes. The cooperative agreements support State and tribal compliance and enforcement activities under FIFRA.

Toxic Substance Compliance Grants are provided to States and Tribes to prevent or eliminate unreasonable risks to human health or the environment and to ensure compliance with toxic substance regulations. The grants support inspection programs associated with the Asbestos Hazard Emergency Response Act (AHERA), lead-based paint (§402(a), §406(b), and the Renovation, Repair and Painting rule [RRP]), and polychlorinated biphenyls (PCBs). The compliance monitoring activities conducted by the States will be a cooperative endeavor addressing the priorities of the Federal Toxic Substances Control Act program and State toxics program issues.

WATER INFRASTRUCTURE FINANCE AND INNOVATION PROGRAM ACCOUNT

For the cost of direct loans and for the cost of guaranteed loans, as authorized by the Water Infrastructure Finance and Innovation Act of 2014, \$20,000,000, to remain available until expended: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That these funds are available to subsidize gross obligations for the principal amount of direct loans, including capitalized interest, and total loan principal, including capitalized interest, any part of which is to be guaranteed, not to exceed \$4,170,000,000.

In addition, fees authorized to be collected pursuant to sections 5029 and 5030 of the Water Infrastructure Finance and Innovation Act of 2014 shall be deposited in this account, to remain available until expended, for the purposes provided in such sections.

In addition, for administrative expenses to carry out the direct and guaranteed loan programs, notwithstanding section 5033 of the Water Infrastructure Finance and Innovation Act of 2014, \$5,000,000, to remain available until September 30, 2021.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115-245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

This appropriation supports all activities necessary for the implementation of the Water Infrastructure Finance and Innovation program established by the Water Resources Reform and Development Act of 2014, Title V, Subtitle C. The program will provide low-interest Federal loans or loan guarantees to eligible entities for a wide range of nationally and regionally significant water and wastewater projects. Eligible assistance recipients include corporations, partnerships, government entities, and State Revolving Fund (SRF) programs, among others. Eligible projects include, among others: Clean and Drinking Water State Revolving Fund eligible projects;

WATER INFRASTRUCTURE FINANCE AND INNOVATION PROGRAM ACCOUNT—Continued projects for enhanced energy efficiency at drinking water and wastewater facilities; brackish or seawater desalination, aquifer recharge, water recycling; acquisition of property if it is integral to the project or will mitigate the environmental impact of a project; bundled SRF projects under one application; and a combination of projects secured by a common security pledge. Of the total \$25 million request to implement the Water Infrastructure Finance and Innovation Act (WIFIA) program, \$5 million is for the Environmental Protection Agency's (EPA) management and operation of the program, including contract support and associated payroll. The WIFIA program will be administered by EPA's Office of Water.

TSCA Services Fees are authorized by section 26 of the Toxic Substances Control Act, as amended by Public Law 114-182, the Frank R. Lautenberg Chemical Safety for the 21st Century Act. Fees deposited in this account are paid by chemical manufacturers (including importers) and, in limited circumstances, processors who are required to: submit test data (TSCA section 4); submit notification of or information related to intent to manufacture a new chemical or significant new use of a chemical (TSCA section 5); manufacture a chemical substance that is subject to a risk evaluation (TSCA section 6); or request that the Environmental Protection Agency (EPA) conduct a risk evaluation on an existing chemical (TSCA section 6), subject to the agency's approval of the request. TSCA Service Fees are estimated to offset 25 percent of the costs to administer sections 4, 5, and 6 of the law as well as collecting, processing, reviewing, and protecting information about chemical substances from disclosure as appropriate under TSCA section 14. The statute requires that fees for manufacturer-requested

risk evaluations offset 50 or 100 percent of the costs of those evaluations. EPA finalized a rule for the collection of TSCA fees on September 27, 2018. The final rule became effective in October 2018.

Fees deposited in this account are paid by industry to partially offset the costs associated with reviewing all applications for which registration service fees have been paid, including for associated establishment of tolerances for pesticides to be used in or on food and animal feed; and to partially fund the enhancement of scientific and regulatory activities relating to worker protection, to partially fund partnership grants, and to partially fund the pesticide safety education program. These Pesticide Registration Service fees are authorized by section 33 of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by Public Law 112-177, the Pesticide Registration Improvement Extension Act of 2012.

Pesticide Maintenance fees are paid by industry to partially offset the costs of pesticide reregistration and expedited processing of certain registration applications; to partially offset the costs of registration review; to review and evaluate inert ingredients, and to enhance the information systems capabilities to improve the tracking of pesticide registration decisions. This fee is authorized in section 4(i) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by Public Law 112-177, the Pesticide Registration Improvement Extension Act of 2012.

*Fee Spending Restrictions.* Current statutory language in the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) restricts the activities that Environmental Protection Agency can fund from collections deposited in the Reregistration and Expedited Processing Revolving Fund. The Budget proposes language to clarify the Agency's authority to utilize resources in the Fund to review existing pesticide registrations for their compliance with current FIFRA standards, ensuring market access for pesticide registrants. Specifically, fees collected would be available for the following activities as they relate to pesticide licensing: processing and review of data submitted in association with a registration, information submitted pursuant to section 6(a)(2) of FIFRA, supplemental distributor labels, transfers of registrations and data compensation rights, additional uses registered by States under section 24(c) of FIFRA, data compensation petitions, and minor amendments and notifications; laboratory support and audits; administrative support; development of policy and guidance; rule-making support; information collection activities; and the portions of salaries related to work in these areas.

In accordance with section 3024 of the Solid Waste Disposal Act (42 U.S.C. 6939g(c)), the Administrator of the Environmental Protection Agency is authorized to collect and obligate e-Manifest user fees. In 2020, EPA will continue to operate the e-Manifest system established by the Hazardous Waste Electronic Manifest Establishment Act (Public Law 112-195). Based upon authority to collect and spend e-Manifest fees provided by the Congress in annual appropriations bills, the Agency anticipates collecting and depositing approximately \$24 million in e-Manifest user fees into the Hazardous Waste Electronic Manifest System Fund. Fees deposited in this account will fully support the e-Manifest program, including operation of the system, necessary program expenses, and future development costs.

The Environmental Protection Agency (EPA) received authority to establish a Working Capital Fund (WCF) and was designated a pilot franchise fund under Public Law 103-356, the Government Management and Reform Act of 1994. EPA received permanent authority for the WCF in Public Law 105-65, as part of an effort to increase competition for governmental administrative services. EPA's WCF became operational in 1997 and funds the following main activities: information technology and telecommunications operations and data services, agency postage costs, Cincinnati voice services and background investigations, managed by the Office of Mission Support; financial and administrative systems, employee relocations, and budget formulation system managed by the Office of the Chief Financial Officer; the Agency's continuity of operations site, managed by the Office of Land and Emergency Management; and regional information technology service and support managed by Region 8. The 2020 amount reflects only base resources and may change during the year in accordance with programmatic needs.

This appropriation provides funds for the implementation of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (CERCLA). This appropriation supports core Environmental Protection Agency (EPA) programs.

To preserve and restore land and to protect human health and the environment, EPA reduces the risks posed by releases of hazardous substances, pollutants, and contaminants, and protects against unacceptable exposure by cleaning up contaminated sites and restoring ground water to beneficial use. EPA applies the most effective and scientifically sound methods to address the risks associated with the presence of hazardous substances,

pollutants, and contaminants, improve response capabilities, and maximize the effectiveness of response and cleanup actions. Cleanup and response activity at contaminated sites addresses environmental concerns, such as the removal of contaminated soil and treatment of contaminated groundwater, to reduce human exposures to hazardous substances, pollutants, and contaminants, and to provide long-term human health protection. EPA works to ensure that all releases of hazardous substances, pollutants, and contaminants into the environment are appropriately addressed by responding to incidents and providing technical support. To prepare for and respond to incidents of national significance, EPA includes among its efforts improving decontamination readiness. EPA conducts research to improve methods and models and to accelerate scientifically defensible and cost-effective decisions for cleanup at complex contaminated sites in accordance with CERCLA. EPA also works to maximize responsible parties' participation in site cleanups and pursue greater recovery of EPA's cleanup costs.

EPA protects communities and helps return contaminated properties to productive use by ensuring that responsible parties pay for and/or conduct cleanups. The enforcement program recovers Federal cleanup funds from responsible parties to save taxpayer dollars. The goal is to maximize the participation of liable and viable parties in performing and paying for cleanups in both the remedial and removal programs. EPA investigates and refers for prosecution criminal and civil violations of CERCLA.

EPA's internal operations programs provide centralized management services to ensure that EPA is fulfilling its mission. The offices and the functions they perform within the Superfund appropriation are: the Office of Mission Support (facilities infrastructure and operations; acquisition management; human resources management services; grant and interagency agreement management; suspension and debarment; exchange network; information security; and information technology/data management); the Chief Financial Officer (strategic planning, annual planning and budgeting, financial services, and financial management, analysis, and accountability); and General Counsel (legal advice). Because these centralized services provide support across EPA, the internal operations programs are funded across EPA's appropriations.

The Leaking Underground Storage Tank (LUST) Trust Fund, authorized by the Superfund Amendments and Reauthorization Act of 1986, as amended by the Omnibus Budget Reconciliation Act of 1990, the Taxpayer Relief Act of 1997, the Energy Policy Act (EPAct) of 2005, the Moving Ahead for Progress in the 21st Century Act (MAP-21), and the Fixing

America's Surface Transportation Act (FAST Act), provides funds for preventing and responding to releases from underground storage tanks. The Trust Fund is financed by a 0.1 cent per gallon tax on motor fuels through September 30, 2022.

LUST funds are allocated to States through cooperative agreements to clean up sites posing the greatest threat to human health and the environment as authorized under section 9003(h) of the Solid Waste Disposal Act of 1965, as amended, and also to implement the activities authorized by Title XV, Subtitle B of EPAct. Funds also are used for grants to non-state entities under section 8001 of the Resource Conservation and Recovery Act of 1976, as amended. Federally recognized Tribes receive grant funding under Public Law 105–276. The Environmental Protection Agency (EPA) supports oversight, clean-up, and enforcement programs which are implemented by the States. LUST Trust Fund dollars can be used for state-led clean-ups and for State oversight of responsible party clean-ups. The LUST program promotes effective responses to releases from federally regulated underground storage tanks containing petroleum by enhancing State, local, and tribal enforcement and response capability. This appropriation supports core agency programs.

To protect the Nation's groundwater and drinking water from petroleum releases from Underground Storage Tanks (UST), EPA provides compliance assistance tools, technical assistance and training to promote and enforce UST systems compliance and clean-ups. EPA also focuses its LUST research efforts on assessing sites and evaluating the implications of alternative remediation technologies, policies, and management actions to assess and cleanup leaks at fueling stations.

EPA's internal operations programs provide centralized management services to ensure that EPA is fulfilling its mission. The offices and the functions they perform are: Office of Mission Support (facilities infrastructure and operations, and acquisition management); and the Chief Financial Officer (strategic planning; annual planning and budgeting; financial services; and financial management, analysis, and accountability).

This appropriation provides for the Environmental Protection Agency's (EPA) responsibilities for prevention, preparedness, response, and enforcement activities authorized under the Federal Water Pollution Control Act, as amended by the Oil Pollution Act of 1990 (OPA). This appropriation supports core Agency programs.

EPA's Oil Spill program protects U.S. waters by preventing, preparing for, responding to, and monitoring oil discharges. Under the regulatory framework established by the Spill Prevention, Control, and Countermeasure (SPCC) and Federal Response Plan (FRP) regulations, EPA conducts oil spill prevention, preparedness, inspection, and enforcement activities associated with more than 600,000 non-transportation-related oil storage facilities. The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) identifies EPA's jurisdiction over inland oil spills and sets forth the framework for response. EPA accesses the Oil Spill Liability Trust Fund, administered by the U.S. Coast Guard, to obtain reimbursement for site-specific spill response activities. More than 30,000 oil and hazardous substance discharges occur in the United States every year, with a significant portion of these discharges occurring in the inland zone over which EPA has jurisdiction.

EPA develops and manages the regulations and protocols under Subpart J of the NCP which require manufacturers of various oil spill response products to test their products prior to listing on a Product Schedule. The Product Schedule identifies those oil spill remediation agents, such as dispersants and surface washing agents, which could be authorized for use by an On-Scene Coordinator (OSC) on an oil discharge. Product testing ensures their effectiveness and provides toxicity information used by OSCs and Regional Response Teams in making informed decisions regarding the use of certain products in response to specific spills. EPA focuses its oil spill research efforts on human health impacts, ecological effects, and shoreline and coastal impacts from oil discharges and use of dispersants and other chemical agents, as well as spill remediation alternatives and innovative technology development and evaluation, including green technologies. Spill response is a priority for the Agency, and EPA has been instrumental in providing guidance for various response technologies. A key factor in providing guidance on spill response technologies is developing a firm understanding of the science behind spill behavior in the environment.

Appropriated funds for the Inland Oil Spill Programs support work designed to prevent oil spills using civil enforcement and compliance assistance approaches, as well as to prepare for and respond to any oil discharges affecting the inland waters of the United States. Pursuant to Clean Water Act section 311 (Oil Spill and Hazardous Substances Liability) requirements, EPA's Civil Enforcement program develops policies; issues administrative clean-up and removal orders and orders protecting public health; pursues administrative remedies and/or refers civil judicial actions to the

Department of Justice; assesses civil penalties for discharges into the environment or violations of administrative orders or oil pollution prevention regulations; assists regulated entities in understanding their legal requirements under the Clean Water Act; and assists in the recovery of clean-up costs expended by the Government. The Budget proposes to institute a voluntary fee whereby owners and/or operators of oil facilities can choose to pay EPA for on-site compliance assistance with SPCC and FRP regulations. The collected fees will be deposited in the Inland Oil Spill Programs Account and used by EPA to pay for the service.

EPA's internal operations programs provide centralized management services to ensure that EPA is fulfilling its mission. The office and function is Office of Mission Support (facilities infrastructure and operations).

ADMINISTRATIVE PROVISIONS—ENVIRONMENTAL PROTECTION AGENCY

(INCLUDING TRANSFERS AND CANCELLATIONS OF FUNDS)

*For fiscal year 2020, notwithstanding 31 U.S.C. 6303(1) and 6305(1), the Administrator of the Environmental Protection Agency, in carrying out the Agency's function to implement directly Federal environmental programs required or authorized by law in the absence of an acceptable tribal program, may award cooperative agreements to federally recognized Indian tribes or Intertribal consortia, if authorized by their member tribes, to assist the Administrator in implementing Federal environmental programs for Indian tribes required or authorized by law, except that no such cooperative agreements may be awarded from funds designated for State financial assistance agreements.*

*The Administrator of the Environmental Protection Agency is authorized to collect and obligate pesticide registration service fees in accordance with section 33 of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by Public Law 112-177, the Pesticide Registration Improvement Extension Act of 2012.*

*Notwithstanding section 33(d)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136w-8(d)(2)), the Administrator of the Environmental Protection Agency may assess fees under section 33 of FIFRA (7 U.S.C. 136w-8) for fiscal year 2020.*

*Notwithstanding any other provision of law, in addition to the activities specified in section 33 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136w-8), fees collected in this and prior fiscal years under such section shall be available for the following activities as they relate to pesticide licensing: processing and review of data submitted in association with a registration, information submitted pursuant to section 6(a)(2) of FIFRA, supplemental distributor labels, transfers of registrations and data compensation rights, additional uses registered by States under section 24(c) of FIFRA, data compensation petitions, review of minor amendments, and notifications; laboratory support and audits; administrative support; development of policy and guidance; rulemaking support; information collection activities; and the portions of salaries related to work in these areas.*

The Administrator of the Environmental Protection Agency is authorized to collect and obligate fees in accordance with section 26(b) of the Toxic Substances Control Act (15 U.S.C. 2625(b)) for fiscal year 2020.

The Administrator of the Environmental Protection Agency is authorized to collect and obligate fees in accordance with section 3024 of the Solid Waste Disposal Act (42 U.S.C. 6939g) for fiscal year 2020.

The Administrator of the Environmental Protection Agency may collect fees to provide compliance assistance services for owners and operators of a non-transportation related onshore or offshore facility located landward of the coastline required to prepare and submit Spill Prevention Control and Countermeasure Plans or Facility Response Plans under section 311(j) of the Federal Water Pollution Control Act (33 U.S.C. 1321(j)): Provided, That fees collected for compliance assistance services pursuant to the authority provided in this paragraph by the Administrator in fiscal year 2020 shall be deposited in the Inland Oil Spill Programs account and shall remain available until expended for the expenses of providing compliance assistance services: Provided further, That the amount of such fees shall be based on the amount of compliance assistance services provided by the agency: Provided further, That the owner or operator of a non-transportation related onshore or offshore facility located landward of the coastline required to prepare and submit a Spill Prevention Control and Countermeasure Plan or a Facility Response Plan under section 311(j) of the Federal Water Pollution Control Act (33 U.S.C. 1321(j)) may request that the Administrator conduct an on-site walk-through of the facility to assist the owner or operator in complying with such section: Provided further, That the walk-through shall be conducted within one year of an accepted request: Provided further, That the Administrator may establish procedures for making and accepting such a request: Provided further, That observations, findings, conclusions, and recommendations made by the Administrator when conducting an on-site walk-through, including any report arising from the on-site walk-through, shall not in any private action or suit for damages or bodily injury, or in any action under section 505 of the Federal Water Pollution Control Act (33 U.S.C. 1365), be used or admitted as evidence: Provided further, That the Administrator may, by guidance, establish policies for the use of such evidence in actions under the Act.

The Administrator of the Environmental Protection Agency may collect fees to provide compliance assistance services for owners or operators of a stationary source required to prepare and submit a Risk Management Plan under section 112(r)(7) of the Clean Air Act (42 U.S.C. 7412(r)(7)): Provided, That fees collected for compliance assistance services pursuant to the authority provided in this paragraph by the Administrator in fiscal year 2020 shall be deposited in the Environmental Programs and Management account and shall remain available until September 30, 2021 for the expenses of providing compliance assistance services: Provided further, That the amount of such fees shall be based on the amount of compliance assistance services provided by the agency: Provided further, That the owner or operator of a stationary source required to prepare and submit, or that has prepared and submitted, a Risk Management Plan under section 112(r)(7) of the Clean Air Act (42 U.S.C. 7412(r)(7)) may request that the Administrator conduct an on-site walk-through of the stationary source to assist the owner or operator in complying with such section: Provided further, That the walk-through shall be conducted within one year of an accepted request: Provided further, That the Administrator may establish procedures for making and accepting such a request: Provided further, That the observations, findings, conclusions, and recommendations made by the Administrator when conducting an on-site walk-through, including any report arising from the on-site walk-through, shall not in any private action or suit for damages or bodily injury, or in any action under section 304 of the Clean Air Act (42 U.S.C. 7604), be used or admitted as evidence: Provided further, That the Administrator may, by guidance, establish policies for the use of such evidence in actions under the Act.

Section 324A of The Energy Policy and Conservation Act (42 U.S.C. 6294a) is amended by inserting after subsection (d):

"(e) User Fees  
(1) In General

In accordance with paragraph (a), the Administrator may prescribe by regulation, for application in fiscal year 2020 and in subsequent fiscal years, reas-

sonable fees as the Administrator determines to be necessary to defray costs incurred for entities that participate in the Energy Star program. The regulation will ensure that the fee imposed on each entity is sufficient and not more than reasonably necessary to cover a proportional share of Energy Star program costs incurred in operating and maintaining the Energy Star program, including collecting and processing fees. The Administrator shall amend this regulation periodically so as to ensure that the schedule of fees covers the costs.

(2) Collection of Fees

The Administrator shall prescribe procedures to collect the fees.

(3) Availability of Fees

Such fees shall be collected and available for Energy Star program administration functions performed by the Agency in an amount and to the extent provided in advance in appropriation Acts."

For fiscal years 2020 through 2025, the Administrator may, after consultation with the Office of Personnel Management, employ up to fifty persons at any one time in the Office of Research and Development under the authority provided in 42 U.S.C. 209.

The Science and Technology, Environmental Programs and Management, Office of Inspector General, Hazardous Substance Superfund, and Leaking Underground Storage Tank Trust Fund Program accounts are available for the construction, alteration, repair, rehabilitation, and renovation of facilities, provided that the cost does not exceed \$150,000 per project.

Of the unobligated balances available for the "State and Tribal Assistance Grants" account, \$142,000,000 are hereby permanently cancelled: Provided, That no amounts may be cancelled from amounts that were designated by the Congress as an emergency requirement pursuant to the Concurrent Resolution on the Budget or the Balanced Budget and Emergency Deficit Control Act of 1985.

Of the unobligated balances available for the "Environmental Programs and Management" account, \$46,000,000 are hereby permanently cancelled: Provided, That no amounts may be cancelled from amounts that were designated by the Congress as an emergency requirement pursuant to the Concurrent Resolution on the Budget or the Balanced Budget and Emergency Deficit Control Act of 1985.

Of the unobligated balances available for the "Hazardous Substance Superfund" account, \$16,000,000 are hereby permanently cancelled: Provided, That no amounts may be cancelled from amounts that were designated by the Congress as an emergency requirement pursuant to the Concurrent Resolution on the Budget or the Balanced Budget and Emergency Deficit Control Act of 1985.

Of the unobligated balances available for the "Science and Technology" account, \$23,000,000 are hereby permanently cancelled: Provided, That no amounts may be cancelled from amounts that were designated by the Congress as an emergency requirement pursuant to the Concurrent Resolution on the Budget or the Balanced Budget and Emergency Deficit Control Act of 1985.

The Office of Management and Budget (OMB) assists the President in the discharge of budgetary, management, and other executive responsibilities.

*National Security Programs; General Government Programs; Natural Resource Programs; Health Programs; and Education, Income Maintenance, and Labor Programs.*—These offices examine Federal agency programs, budget requests, and management activities, analyze legislation, apportion appropriations, study proposed changes in agency functions, and conduct special studies aimed at establishing goals and objectives that would result in long- and short-range improvements in the agencies' financial, administrative, and operational management.

*Financial Management.*—The OMB Office of Federal Financial Management develops and provides direction on the implementation of financial management policies and systems. This office also supports the effective and transparent use of Federal financial resources by improving the quality, utility, and transparency of financial information, and protecting against waste, fraud and abuse in the Federal government.

*Information and Regulatory Affairs.*—The OMB Office of Information and Regulatory Affairs reviews and coordinates agency proposals to implement or revise Federal regulations and information collection requirements. In addition, it analyzes, develops, coordinates, and maintains information resources management and statistical policies and practices.

*Procurement Policy.*—The OMB Office of Federal Procurement Policy provides overall direction of Government-wide procurement policies, regulations, and procedures for executive agencies.

*OMB-wide Offices.*—These offices provide executive direction and coordination for all Office of Management and Budget activities. This includes the Director's Office; the Deputy Director, the Deputy Director for Management, the Executive Associate Director, and the Intellectual Property Enforcement Coordinator; Communications; General Counsel; Legislative Affairs; Economic Policy; Management and Operations Division; the Le-

legislative Reference Division; the Budget Review Division; and the Performance and Personnel Management Division; and the Office of E-Government and Information Technology. In addition, these offices provide overall leadership for OMB's activities; develop instructions and procedures on a wide range of management, legislative, legal, economic, budgetary, administrative, and IT-related issues; coordinate OMB review of agency activities; and prepare the President's Budget documents.

(Legislative proposal, not subject to PAYGO)

*Contingent upon enactment of authorizing legislation to reorganize the Office of Personnel Management and transfer certain of its functions to the Office of Management and Budget, an additional \$400,000 for necessary expenses of the Office of Management and Budget related to Government-wide personnel policy.*

The Budget proposes creating a new OMB office that would provide Government-wide strategic direction on federal human capital policy, and coordinate personnel policies, regulations and procedures for Executive agencies, in conjunction with the Office of Personnel Management vested within the General Services Administration. The Office would ensure alignment of Federal workforce planning and policies with other Government-wide management activities. This new office will be modeled after other statutory offices in OMB. For instance, OMB's Office of Federal Procurement Policy provides leadership on Federal procurement issues and works closely with the General Services Administration on Government-wide implementation.

The Office of National Drug Control Policy (ONDCP), pursuant to the Office of National Drug Control Policy Reauthorization Act of 1998, as amended through Public Law 115-271, is charged with developing policies, objectives, and priorities for the National Drug Control Program. This account provides funding for personnel compensation, travel, rent, and other basic operations of the Office.

For 2020, the Budget proposes to transfer the High Intensity Drug Trafficking Areas (HIDTA) program and the Drug-Free Communities Support (DFC) program from ONDCP to the Department of Justice and the Department of Health and Human Services, respectively. This proposal will enable ONDCP to focus resources on its core mission: to reduce drug use and its consequences by leading and coordinating the development, implementation, and assessment of U.S. drug policy.

Funded from fiscal year 2010 through 2013, the Partnership Fund invested over \$29 million in 11 pilot projects. As evaluations are completed and results finalized, OMB will work with Federal agencies, State and local governments, and other stakeholders to disseminate lessons learned and apply the tested tools and methods across programs and levels of government as appropriate.

**INFORMATION TECHNOLOGY OVERSIGHT AND REFORM**

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses for the furtherance of integrated, efficient, secure, and effective uses of information technology in the Federal Government, \$15,000,000, to remain available until expended: Provided, That the Director of the Office of Management and Budget may transfer these funds to one or more other agencies to carry out projects to meet these purposes.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115-245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

Information Technology Oversight and Reform (ITOR) funding provides the Government with a resource base controlled by the Director of the Office of Management and Budget (OMB) to support activities and tools that enhance the efficiency, effectiveness, and security of Federal investments in information technology (IT). ITOR goals are to: (1) reduce waste and duplication, and ensure that IT investments stay within their budgets and deliver on time; (2) help agencies deliver IT investments that maximize the Federal Government's productivity and customer satisfaction; (3) expand the use of data and analytics to support agency IT portfolio management; and (4) further cross-agency cybersecurity initiatives and priorities.

*Information Technology Oversight and Analysis.*—Under the direction of the Federal Chief Information Officer (CIO), the Office of the Federal CIO (OFCIO) will continue engaging with agency CIOs to refine the guidance and tools supporting effective management of the large investment by Federal agencies in information technology, discussed in Chapter 19 of the Analytical Perspectives volume of the Budget. OFCIO will engage with agencies, identifying underperforming and duplicative investments and taking corrective actions. Additionally, ITOR funds will support policy analysis and development efforts to support innovative approaches to IT management, leveraging modern solutions to IT problems faced by all organizations, through reliance on cloud-based and shared solutions where appropriate. OMB will continue to ensure effective implementation by agencies of the Federal Information Technology Acquisition Reform Act (FITARA), as directed in OMB Memorandum M-15-14, "Management and Oversight of Federal Information Technology."

*United States Digital Service (USDS).*—USDS uses design and technology to deliver better services to the American people. USDS recruits some of the country's top technical talent who apply private sector best practices across government. USDS partners directly with federal agencies to address improvements and new site launches of digital services for the Federal Government's most critical public-facing programs. USDS also provides rapid response to agencies that experience system outages or security breaches. USDS projects not only provide the public with better digital services, but also help streamline agency processes and save taxpayer dollars. USDS has established a strong track record in helping agencies to roll out IT services supporting the Government's most critical public-facing programs.

*Cybersecurity.*—ITOR funding for cybersecurity will continue to allow OMB to expand its data-driven, risk-based oversight of agency and government-wide cybersecurity programs, issuing and implementing Federal policies consistent with emerging technologies and evolving cyber threats. OMB will expand its work with agencies to ensure that information risk is managed through the Continuous Diagnostics and Mitigation (CDM) Program, and will continue to make sure that key identity management initiatives progress. OFCIO will continue to develop new strategies to protect Federal information assets, acting in cooperation with National Security Council staff, the Department of Homeland Security, the National Institute for Standards and Technology, the Congress, and Federal agency Chief Information Officers and Chief Information Security Officers.

The Spectrum Relocation Fund (SRF), created by the Commercial Spectrum Enhancement Act of 2004, as amended by the Middle Class Tax Relief and Job Creation Act of 2012, reimburses Federal agencies that must relocate or share wireless communications systems in Federal spectrum that has been or will be reallocated to commercial use. Auction receipts associated with the reallocated spectrum are deposited into the SRF to pay eligible pre- and post-auction costs that help efficiently and effectively transition Federal agencies off of the reallocated spectrum or facilitate the sharing of Federal systems with non-Federal systems. The Office of Management and Budget (OMB) administers the SRF in consultation with the National Telecommunications and Information Administration (NTIA) of the Department of Commerce. In 2015, a portion of receipts associated with the Advanced Wireless Services 3 (AWS-3) auction, which reallocates Federal and other spectrum for flexible commercial use, were deposited into the SRF. Funds from the AWS-3 auction are being transferred to agencies with approved transition plans to reimburse them for the costs associated with clearing or sharing the auctioned bands. Transfers were made in 2015, 2016, 2017, and 2018 and will continue in future years. Most funds in the SRF must be returned to the Treasury eight years after they are deposited.

The Spectrum Pipeline Act of 2015, part of the Bipartisan Budget Act of 2015, authorized the transfer to agencies of up to \$500 million of SRF balances, and a portion of future deposits into the SRF, to fund advance planning and research projects that are expected to facilitate future spectrum auctions. OMB, NTIA, and the Federal Communications Commission have approved projects totaling \$310 million through the end of 2018.

#### FEDERAL BUILDINGS FUND

#### LIMITATIONS ON AVAILABILITY OF REVENUE

#### (INCLUDING TRANSFERS OF FUNDS)

Amounts in the Fund, including revenues and collections deposited into the Fund, shall be available for necessary expenses of real property management and related activities not otherwise provided for, including operation, maintenance, and protection of federally owned and leased buildings; rental of buildings in the District of Columbia; restoration of leased premises; moving governmental agencies (including space adjustments and telecommunications relocation expenses) in connection with the assignment, allocation, and transfer of space; contractual services incident to cleaning or servicing buildings, and moving; repair and alteration of federally owned buildings, including grounds, approaches, and appurtenances; care and safeguarding of sites; maintenance, preservation, demolition, and equipment; acquisition of buildings and sites by purchase, condemnation, or as otherwise authorized by law; acquisition of options to purchase buildings and sites; conversion and extension of federally owned buildings; preliminary planning and design of projects by contract or otherwise; construction of new buildings (including equipment for such buildings); and payment of principal, interest, and any other obligations for public buildings acquired by installment purchase and purchase contract; in the aggregate amount of \$10,203,596,000, of which—

(1) \$649,290,000 shall remain available until expended for construction and acquisition (including funds for sites and expenses, and associated design and construction services):

Provided, That amounts identified in the spend plan for construction and acquisition required by section 515 of this division may be exceeded to the extent that savings are effected in other such projects, but not to exceed 10 percent of the amounts included in a transmitted prospectus, if required, unless advance notice is transmitted to the Committees on Appropriations of a greater amount;

(2) \$1,662,410,000 shall remain available until expended for repairs and alterations, including associated design and construction services, of which—

(A) \$1,130,353,000 is for Major Repairs and Alterations;

(B) \$382,057,000 is for Basic Repairs and Alterations; and

(C) \$150,000,000 is for Special Emphasis Programs:

Provided, That amounts identified in the spend plan for major repair and alterations required by section 515 of this division may be exceeded to the extent that savings are effected in other such projects, but not to exceed 10 percent of the amounts included in a transmitted prospectus, if required, unless advance notice is transmitted to the Committees on Appropriations of a greater amount: Provided further, That additional projects for which prospectuses have been transmitted may be funded under this category only if advance notice is transmitted to the Committees on Appropriations:

Provided further, That the amounts provided in this or any prior Act for "Repairs and Alterations" may be used to fund costs associated with implementing security improvements to buildings necessary to meet the minimum standards for security in accordance with current law and in compliance with the reprogramming guidelines of the appropriate Committees of the House and Senate: Provided further, That the difference between the funds appropriated and expended on any projects in this or any prior Act, under the heading "Repairs and Alterations", may be transferred to Basic Repairs and Alterations or used to fund authorized increases in prospectus projects: Provided further, That the amount provided in this or any prior Act for Basic Repairs and Alterations may be used to pay claims against the Government arising from any projects under the heading "Repairs and Alterations" or used to fund authorized increases in prospectus projects;

(3) \$5,508,390,000 for rental of space to remain available until expended; and

(4) \$2,383,506,000 for building operations to remain available until expended:

Provided, That the total amount of funds made available from this Fund to the General Services Administration shall not be available for expenses of any construction, repair, alteration and acquisition project for which a prospectus, if required to be submitted pursuant to 40 U.S.C. 3307, has not been transmitted to the Committees referenced therein, except that necessary funds may be expended for each project for required expenses for the development of a proposed prospectus: Provided further, That funds available in the Federal Buildings Fund may be expended for emergency repairs when advance notice is transmitted to the Committees on Appropriations: Provided further, That amounts necessary to provide

reimbursable special services to other agencies under 40 U.S.C. 592(b)(2) and amounts to provide such reimbursable fencing, lighting, guard booths, and other facilities on private or other property not in Government ownership or control as may be appropriate to enable the United States Secret Service to perform its protective functions pursuant to 18 U.S.C. 3056, shall be available from such revenues and collections: Provided further, That revenues and collections and any other sums accruing to this Fund during fiscal year, excluding reimbursements under 40 U.S.C. 592(b)(2), in excess of the aggregate new obligational authority authorized for Real Property Activities of the Federal Buildings Fund in this Act shall remain in the Fund and shall not be available for expenditure except as authorized in appropriations Acts.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115–245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

This revolving fund provides for real property management and related activities, including operation, maintenance, and repair of federally owned buildings, and the construction of Federal buildings, courthouses, and land ports of entry. Expenses of the Federal Buildings Fund (FBF) are financed from rental charges assessed to occupants of General Services Administration (GSA)-controlled space. Rent assessments, by law, approximate commercial rates for comparable space and services. Rental income is augmented by appropriations to the Fund when new construction needs exceed the resources available for investment within the Fund.

The Budget requests \$10,204 million in new obligational authority for the FBF. The Administration's proposal ensures that GSA spends at least at the level of anticipated rent that it collects from Federal departments and agencies in order to provide services to those customers.

Historically, the FBF has been permitted to spend at least what it collects from agencies to support leasing from the private sector, as well as maintenance, repairs, major renovations, and new construction to accommodate agency needs in buildings that GSA owns and operates. However, in several recent years, the FBF appropriations were significantly below the anticipated level of rent collections from agencies, denying GSA the ability to pursue an appropriately-sized capital program relative to the size of its portfolio. By restoring the principle that the FBF should be allowed to spend what it collects and pursuing a robust capital program, the Administration hopes to accomplish a number of policy goals: avoiding larger, longer-term capital costs associated with deferring maintenance of Federal facilities, improving efficiency at GSA-owned facilities, and realizing a smaller Federal footprint through improved building utilization.

The FBF consists of the following activities:

**Construction and Acquisition of Facilities.**—This activity provides for the construction or purchase of prospectus-level facilities, prospectus-level additions to existing buildings, and remediation. All costs directly attributable to site acquisition, construction, and the full range of design and construction services, and management and inspection of construction projects are funded under this activity (estimated project cost in thousands).

**Rental of Space.**—This activity provides for the leasing of privately-owned buildings, including space occupied by Federal agencies in U.S. Postal Service facilities. GSA provided 182 million square feet of rental space in 2018. GSA expects to provide 180 million square feet of rental space in 2019 and 180 million in 2020.

**Building Operations.**—Building Services: This activity provides services for Government-owned and leased facilities, including cleaning, utilities and fuel, maintenance, and miscellaneous services (such as moving, evaluation of new materials and equipment, and field supervision). Salaries and Expenses: This activity provides general management and administration of all real property related programs, including salaries and benefits paid from the FBF, administrative costs funded directly by the FBF, and contributions to the GSA Working Capital Fund. This account provides \$10 billion to support a new Federal Capital Revolving Fund (FCRF) to finance federally-owned civilian real property projects. A robust discussion of the FCRF can be found in the Budget Process chapter of the *Analytical Perspectives* volume.

In summary, the FCRF will create a mechanism that is similar to a capital budget but operates within the traditional rules used for the Federal budget. Upon approval in an Appropriations Act, the revolving fund will transfer money to agencies to finance large-dollar real property purchases. Executing

FEDERAL CAPITAL REVOLVING FUND—Continued

agencies will then be required to repay the fund in 15 equal annual amounts using discretionary appropriations.

As a result, purchases/construction/renovation of real property assets will no longer compete with annual operating and programmatic expenses for the limited funding available under tight discretionary caps. Instead, agencies will pay for real property over time as it is utilized. Repayments will be made from future appropriations, which will incentivize project selection based on highest mission need and return on investment, including future cost avoidance. The repayments will also replenish the revolving fund so that real property can continually be replaced as needed.

ASSET PROCEEDS AND SPACE MANAGEMENT FUND

For carrying out the purposes of the Federal Assets Sale and Transfer Act of 2016 (Public Law 114–287), \$31,000,000, to remain available until expended, to the Asset Proceeds and Space Management Fund.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115–245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

This appropriation provides for the purposes of carrying out actions pursuant to the Public Buildings Reform Board recommendations for civilian real property. In addition, amounts received from the sale of any civilian real property pursuant to a recommendation of the Board are available, as provided in appropriations Acts. Activities authorized include consolidation, co-location, exchange, redevelopment, reconfiguration of space, disposal, covering costs associated with sales transactions, acquiring land, construction, constructing replacement facilities, and conducting advance planning and design as may be required to transfer functions from a Federal asset or property to another Federal civilian property.

This appropriation covers relocation costs involved in moving agencies from valuable underutilized property, targeted for public sale, to facilities determined to be more economically suitable to their needs. Relocation and disposal is considered when the benefit/cost ratio is at least 2:1. The sale of these valuable underutilized properties would provide significant revenue to the Treasury and would far outweigh the relocation costs involved.

No appropriation is requested for this program in 2020. The General Services Administration will solicit relocation proposals from agencies.

This mandatory appropriation provides for the efficient disposal of real property assets that no longer meet the needs of landholding Federal agencies. Fees of auctioneers, brokers, appraisers, and environmental consultants; surveying costs; costs of advertising; costs of environmental and historical preservation services; highest and best use of property studies; property utilization studies; deed compliance inspections; and other disposal costs are paid out of receipts from disposals in each year. GSA leverages the expertise of auctioneers and brokers familiar with local markets to accelerate the disposal of surplus real property.

This permanent, indefinite appropriation provides for the detection and recovery of overpayments to carriers for Government moves under rate and service agreements established by GSA or by other Federal agency transportation managers. Program expenses are financed from overcharges collected from transportation service providers (TSPs) as a result of post payment audits that examine the validity, propriety, and conformity of charges with the proper rate authority. Funds recovered in excess of expenses are returned to the U.S Treasury.

The Acquisition Services Fund (ASF) is a full cost recovery revolving fund financing nearly all operations of the Federal Acquisition Service (FAS). FAS also includes organizations that are funded out of the Operating Expense appropriation, the Transportation Audits warrant, and the Federal Citizen Services Fund (FCSF). The ASF provides for the acquisition of information technology (IT) solutions, telecommunications, motor vehicles, supplies, and a wide range of goods and services for Federal agencies. This

fund recovers costs through fees charged to Federal agencies for services rendered and commodities provided.

The ASF is authorized by section 321 of title 40, United States Code, which requires the Administrator to establish rates to be charged to agencies receiving services that: 1) recover costs; and 2) provide for the cost and capital requirements of the ASF. The ASF is authorized to retain earnings to cover the cost of replacing fleet vehicles (Replacement Cost Pricing), maintain supply inventories adequate for customer needs, and fund anticipated operating needs specified by the Cost and Capital Plan.

The ASF now consists of seven business portfolios:

**Assisted Acquisition Services (AAS).**—Assists agencies in making informed procurement decisions and serves as a center of acquisition excellence for the Federal community. AAS provides acquisition, technical, and project management services related to information technology and professional services at the best value.

**General Supplies and Services (GS&S).**—Provides partner agencies with general products such as furniture, office supplies, and hardware products. GS&S centralizes acquisitions on behalf of the Government to strategically procure goods and services at reduced costs, while ensuring regulatory compliance for partner agency procurements. This portfolio also provides personal property disposal services to partner agencies, which are partially funded by the Operating Expenses appropriation.

**Information Technology Category (ITC).**—Makes available IT and telecommunications products and services to Federal, state and local agencies. ITC provides access to IT services, hardware, software, telecommunications, and IT security services.

**Office of Systems Management (OSM).**—Standardizes, integrates, and streamlines the federal contract award process through electronic systems, while increasing transparency and ensuring compliance with all applicable Federal acquisition regulations. OSM works across the Federal Government with four governance committees and other external stakeholders in a multi-year effort to modernize 10 award systems essential for doing business with the Federal Government, moving these systems into a single website. OSM also partners with FAS business portfolios and GSA IT to coordinate FAS systems development efforts.

**Professional Services & Human Capital Categories (PSHC).**—Provides Federal agencies with professional and human capital services contract solutions, including payment solutions through the GSA SmartPay program.

**Technology Transformation Services (TTS).**—Aims to transform the way Government agencies build, buy, and share technology. They use modern methodologies and technologies to help Federal agencies improve the public's experience with the Government. TTS helps agencies make their services more accessible, efficient, and effective by building, providing, and sharing technology applications, platforms, processes, personnel, and software solutions to Federal agencies.

**Travel, Transportation, and Logistics Categories (TTL).**—Provides partner agencies with a broad scope of services which includes travel, transportation, and relocation services; motor vehicle acquisition; and motor vehicle fleet leasing services.

The Technology Modernization Fund (TMF) is a full cost recovery fund that finances the transition of Federal agencies from antiquated legacy IT systems to more effective, secure, and modern IT platforms. The National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91), Subtitle G—Modernizing Government Technology (MGT), Section 1078 established the TMF and Technology Modernization Board (Board). The TMF is administered by GSA in accordance with recommendations made by the inter-agency TMF Board established by the MGT Act. The Board is chaired by the Administrator of the Office of Electronic Government and comprises six additional members, delineated in the Act, possessing expertise in information technology development, financial management, cybersecurity and privacy, and acquisition.

In accordance with OMB guidance, the Board rigorously reviews agency modernization proposals and recommends select projects for funding, including identifying opportunities to migrate multiple legacy systems to common platforms; ensuring prioritization of projects with the greatest Government-wide impact and probability of success; and improvements to the security of critical IT infrastructure. As funding is allocated to priority agency projects across the Federal Government, it is subsequently replenished by agency repayments to the Fund for amounts transferred. This includes the cost of any services or work performed related to the administration of the Fund, ensuring that the TMF is self-sustaining and can continue to support modernization projects well beyond the initial infusions of capital. The GSA Administrator, in consultation with the Board and Director of OMB, is responsible for continuous oversight of funded projects to ensure success, and that technical experts are paired with specific projects on a reimbursable basis to help execute quickly and successfully. All funding will be provided in increments based on agile development practices and subject to the achievement of planned project milestones.

Ultimately, retiring or modernizing vulnerable and inefficient legacy IT systems will not only make agencies more secure, it will also save money. Absent immediate action, the cost to operate and maintain legacy systems will continue to grow, while security vulnerabilities and other risks will remain unresolved. As a means of addressing these pressing challenges, the TMF is an important step in changing the way the Federal Government manages its IT portfolio.

In its first year of operation, the Board has reviewed more than 30 Initial Project Proposals from Federal agencies totaling over \$400 million in requested funds and has approved seven modernization projects totaling \$89 million in project awards.

This appropriation provides agency-wide audit, investigative, and inspection functions to identify and correct management and administrative deficiencies within the General Services Administration (GSA), including conditions for existing or potential instances of fraud, waste, and mismanagement. This audit function provides internal audit and contract audit services. Contract audits provide professional advice to GSA contracting officials on accounting and financial matters relative to the negotiation, award, administration, repricing, and settlement of contracts. Internal audits review and evaluate all facets of GSA operations and programs, test internal control systems, and develop information to improve operating efficiencies and enhance customer services. The investigative function provides for the detection and investigation of improper and illegal activities involving GSA programs, personnel, and operations. The inspection function supplements traditional audits and investigations by providing systematic and independent assessments of the design, implementation, and/or results of GSA's operations, programs, or policies.

The President's Budget proposes the transfer of the U.S. Office of Personnel Management (OPM) Office of Inspector General (OIG) to the General Services Administration Office of Inspector General. The proposal, contingent upon enactment of authorizing legislation, envisions a consolidated Office of Inspector General with a total budgetary authority of \$98 million.

This appropriation funds the OPM OIG's efforts to protect the integrity of OPM's programs and operations. The OPM OIG's audits, investigations, evaluations, and administrative sanctions program serve to prevent and detect fraud, waste, abuse, and mismanagement. The OPM OIG's 2020 Budget request reflects the proposed merger of OPM and the General Services Administration (GSA), consistent with OMB's *Delivering Government Solutions in the 21st Century: Reform Plan and Reorganization Recommendations*.

The OPM OIG's Office of Audits conducts audits of OPM programs and operations. The Office of Audits issued 48 audit reports in 2018, with questioned costs totaling over \$109 million. The majority of the Office of Audits' work involves the Federal Employees Health Benefits Program (FEHBP), auditing the health insurance carriers and the pharmacy benefit managers that contract with OPM. In addition, the Office of Audits focuses on other key OPM benefits programs, including the Federal retirement program, the Federal Employees' Group Life Insurance Program, the Federal Employee Dental and Vision Insurance Program, the Federal Long Term Care Insurance Program, and the Federal Flexible Spending Accounts. The OPM OIG also conducts information systems audits that cover general and application controls and security within OPM information systems and programs as well as OPM contractor systems, such as those of FEHBP insurance carriers. One key project is to provide ongoing oversight of OPM's information technology (IT) modernization efforts, including a data center consolidation and potential mainframe migrations. The OPM OIG's long-standing expertise in these areas has been recognized and endorsed by the Congress. The OPM OIG's continued oversight of this project is essential to the IT security posture of OPM, its systems, and the highly sensitive data contained in these systems. The Office of Audits also conducts audits of OPM revolving fund programs and operations, and the Office of Audits is responsible for the oversight of the OPM financial statement audit, which is conducted by an independent public accounting firm.

The OPM OIG's Office of Investigations detects and investigates improper and illegal activities involving OPM programs, personnel, and operations. The Office of Investigations is a statutory law enforcement organization, with the authority to carry firearms, issue subpoenas, and to seek and execute both search and arrest warrants. In 2018, the OPM OIG's activities led to 65 arrests, 88 indictments/informations, and 54 criminal convictions, resulting in over \$25 million in recoveries. In addition, the Office of Investigations partnered with the U.S. Department of Justice (DOJ) and other Federal, state, and local law enforcement agencies to investigate and collect fines, penalties, and forfeitures to the Federal Government totaling over \$888 million. Based on the evidence gathered during OPM OIG investigations, the Office of Investigations pursues appropriate remedies, including referrals to the DOJ for criminal prosecutions or civil action, and/or referral to OPM or to the FEHBP Administrative Sanctions program. The Office of Investigations also investigates allegations of fraud against OPM programs, such as the FEHBP, the Civil Service and Federal Employees Retirement Systems, and the National Background Investigative Bureau (NBIB). When appropriate, the Office of Investigations also conducts investigations of OPM internal operations and employee and contractor misconduct. The OPM OIG's Office of Evaluations conducts nationwide

studies of OPM programs from a broad, issue-based perspective, as well as evaluations of specific areas of operation and matters of urgent concern. The Office of Evaluations conducts special reviews in response to Congressional requests for studies or information that may require immediate attention and OPM management requests for independent assessments. Evaluators in this office use a variety of methods and techniques to evaluate and assess an OPM operation or concern to develop recommendations for OPM management, the Congress, and the public.

Finally, the OPM OIG FEHBP Administrative Sanctions program debars and suspends health care providers whose loss of licensure or conduct may pose a health and safety risk to FEHBP enrollees and their families or a financial threat to the FEHBP. In 2018, the OPM OIG was responsible for 914 suspensions and debarments within the FEHBP.

In January 2014, the Congress passed the OPM IG Act (P.L. 113–80). This legislation has provided the necessary funding for the OPM OIG to audit, investigate, and provide other oversight of the activities of the OPM revolving fund programs and operations. Although NBIB will transfer to the Department of Defense, the OPM OIG will require continued funding from OPM's Revolving Fund to ensure the continuity of law enforcement investigations of NBIB activities that began prior to the NBIB transition. These investigations could include yet unreported criminal allegations involving OPM.

The Acquisition Workforce Training Fund (AWTF) is a permanent, indefinite appropriation providing a stable source of funds to train the Federal civilian acquisition workforce. The AWTF is financed through a credit of five percent of the fees collected from non-Department of Defense activities by the General Services Administration (GSA) and other civilian agencies that manage Government-wide Acquisition Contracts (GWACs), Multiple Award Schedules (MAS) contracts, and other multi-agency contracts. Receipts are available for expenditure in the fiscal year collected, in addition to the two following fiscal years. The AWTF is managed by the Federal Acquisition Institute (FAI) at GSA, in consultation with the White House Office of Federal Procurement Policy, and the FAI Board of Directors.

This appropriation supports the authorized activities of the Environmental Review Improvement Fund and the Federal Permitting Improvement Steering Council (Permitting Council) established under Title XLI of the Fixing America's Surface Transportation (FAST) Act of 2015 (Public Law 114-94). The Permitting Council leads ongoing Government-wide efforts to modernize the Federal environmental review and permitting process for major infrastructure projects and works with Federal agency partners to implement and oversee adherence to the statutory requirements set forth in Title 41 of the Fixing America's Surface Transportation (FAST-41). FAST-41 is a voluntary program for large, complex infrastructure projects that provides oversight, strengthens cooperation and communication among permitting agencies, enhances transparency for the project sponsor and other stakeholders, and emphasizes concurrent permit processing for covered infrastructure projects. Projects receive these benefits without modifying or undermining any underlying federal statutes or regulations, or the status of any mandatory reviews.

The Federal Citizen Services Fund (FCSF) enables public access and engagement with Government through an array of public and agency facing products and programs. The FCSF initiatives helps individuals, businesses, other governments, and the media to easily interact with Federal information, services, benefits, and business opportunities. The Fund supports agency facing programs that drive Government-wide transformation efforts to secure digital Government through shared services, platforms and solutions. The fund also provides technical expertise to agencies to improve their operations and ultimately, the public's experience with Government in support of the President's Management Agenda and CAP Goals. FCSF supports extensive communities of practice that drive adoption and improvement of digital services, and help agencies develop and share best practices and training to address tactical needs. GSA will continue to use the FCSF to support Electronic Government initiatives that drive innovation in Government operations and improve the transparency, efficiency, and effectiveness of Federal operations and quality of Government services.

The FCSF funds many of the activities of the Office of Products and Programs, a division of the Technology Transformation Services (TTS) within GSA's Federal Acquisition Service. The FCSF appropriation provides for the salaries and expenses of staff and programs authorized by 40 U.S.C. 323 and 44 U.S.C. 3604. Other TTS programs not funded by FCSF are funded on a reimbursable basis by the Acquisition Services Fund (ASF). The ASF-funded portion of TTS includes the Office of 18F, the Office of Acquisitions, the Centers of Excellence, and the Presidential Innovation Fellows Program.

The Working Capital Fund (WCF) is a revolving fund that finances GSA's administrative services. These include, but are not limited to: information technology management, budget and financial management, legal services, human resources, equal employment opportunity services, procurement and contracting oversight, emergency planning and response, and facilities management of GSA-occupied space. This account also funds liaison activities with the U.S. Small Business Administration to ensure that small and disadvantaged businesses receive a fair share of the Agency's business. WCF offices also provide external administrative services such as human resource management for other Federal agencies including a number of small boards and commissions on a reimbursable basis.

**OFFICE OF PERSONNEL MANAGEMENT**

The President's Budget for Fiscal Year 2020 reflects a full reorganization of the Office of Personnel Management. Some policy and workforce strategy functions will be elevated to the Executive Office of the President, and the conduct of background investigations will transfer to the Department of Defense. All remaining functions will transfer to the General Services Administration, as illustrated below. For additional information on the reorganization proposal, please consult the Reorganization Chapter of the *Analytical Perspectives* volume.

tration while continuing to support Federal agencies in a manner that furthers merit-based system principles and administers employee benefit programs for Federal employees.

The functions and objectives of OPM's major organizations are:

**Employee Services.**—Develops human resource (HR) policies for Executive Branch agencies and provides policy direction and leadership in designing, developing, and promulgating Government-wide HR systems and programs for recruitment, staffing, classification, pay, leave, training, performance management and recognition, employee development, management of executive resources, work/life/wellness programs, and labor and employee relations.

**Merit System Accountability and Compliance.**—Ensures Federal agency HR programs are effective, efficient, and meet merit system principles and related civil service requirements by working directly with other Federal agency Chief Human Capital Officers, Accountability Program Managers, HR managers and specialists. It improves agency programs that are not in compliance with Federal HR policies and regulation; and improves the effectiveness and efficiency of the agency programs to meet agency mission and objectives.

**Retirement Services Program.**—Administers the Civil Service Retirement System and the Federal Employees Retirement System, serving Federal retirees and survivors who receive monthly annuity payments. Retirement Services Program will continue to focus on making initial eligibility determinations, adjudicating new retirements, initiating survivor benefit payments, and calculating post retirement changes due to disability and death.

**Healthcare & Insurance.**—Administers the Federal Employees Health Benefits Program, the Federal Employees' Group Life Insurance Program, the Federal Flexible Spending Account Program, the Federal Long Term Care Insurance Program, and the Federal Employee Dental and Vision Insurance Program. These programs provide a complete suite of insurance benefits for more than eight million Federal employees, retirees, and their families. Healthcare and Insurance is also responsible for implementing and overseeing the Patient Protection and Affordable Care Act's Multi-State Plan Options.

GOVERNMENT PAYMENT FOR ANNUITANTS, EMPLOYEES HEALTH BENEFITS  
(Legislative proposal, subject to PAYGO)

The President's 2020 Budget includes a package of proposals that will improve program efficiency, introduce more accountability and increase competition and choice: 1) Medical Liability Reform would potentially reduce the costs of medical liability and lower insurance premiums of the Federal Employee Health Benefit (FEHB) Program; and 2) modifying the Federal Government contribution rate for premiums to base it on a plan's score from the FEHB Plan Performance Assessment would improve healthcare quality and affordability within the program. The enactment of the proposals in 2020 will not begin to impact program financials until 2022.

The Payment to the Civil Service Retirement and Disability Fund consists of an appropriation and a permanent indefinite authorization to pay the Government's share of retirement costs. The payment is made directly from the general fund of the U.S. Treasury into the Civil Service Retirement and Disability Fund and is in addition to appropriated funds that will be contributed from agency budgets.

**Current Appropriation Payment of Government share of retirement costs.**—The Civil Service Retirement Amendments of 1969 provides for an annual appropriation to amortize, over a 30-year period, all increases in Civil Service Retirement System costs resulting from acts of the Congress granting new or liberalized benefits, extensions of coverage, or pay raises, exclusive of the effects of cost-of-living adjustments. The Office of Personnel Management notifies the Secretary of the Treasury each year of such sums as may be necessary to carry out these provisions.

**Permanent Indefinite Authorization.**—Transfers for interest on static unfunded liability and payment of military service annuities. The Civil Service Retirement Amendments of 1969 also provides permanent, indefinite authorization for the Secretary of the Treasury to transfer, on an annual basis, an amount equal to five percent interest on the Civil Service Retirement and Disability Fund's current statutory unfunded liability, calculated based on static economic assumptions, and annuity disbursements attributable to credit for military service.

**Payments for Spouse Equity.**—The permanent, indefinite authorization also includes a payment which provides for the Secretary of the Treasury to transfer an amount equal to the annuities granted to eligible former spouses of annuitants who died between September 1978 and May 1985 who did not elect survivor coverage.

**Financing.**—The unfunded liability of new and increased annuity benefits becoming effective on or after October 20, 1969, and annuities under special Acts to be credited to the Civil Service Retirement and Disability Fund, may be paid out of the Civil Service Retirement and Disability Fund.

This account contains reserve resources required under the Office of Personnel Management's (OPM) contract with the administrator of the Flexible Benefits program. This account is funded by payments from Federal agencies based on the participation of their employees in the program and from net forfeitures, as authorized by the National Defense Authorization Act for Fiscal Year 2004 (P.L. 108-136). Account assets are available to indemnify the administrator when benefit payments exceed contributions, for program enhancements, and for OPM's administration of the program. The reserve account balance currently exceeds that deemed necessary to defray reasonable risk, so account balances are also being used to mitigate Federal agencies' contractual costs for the program. Cost mitigation is projected to continue at least through 2020.

The Postal Accountability and Enhancement Act (P.L. 109-435) created the Postal Service Retiree Health Benefits Fund to help fully fund the United States Postal Service's (USPS) retiree (annuitant) health benefits liabilities.

This account receives from USPS: 1) the pension savings provided to USPS by the Postal Civil Service Retirement System Funding Reform Act of 2003 (P.L. 108-18) that were held in escrow during 2006; 2) payments defined within Public Law 109-435, and modified by Public Law 111-68, to begin the liquidation of USPS's unfunded liability for post-retirement health benefits; and 3) beginning in 2017, payments for the actuarial cost of USPS contributions for the post-retirement health benefits for its current employees. This account also receives any surplus resources of the Civil Service Retirement and Disability Fund that are not needed to finance future retirement benefits under the Civil Service Retirement System to current or former employees of USPS that are attributable to civilian employment with USPS.

As a result of this health benefits financing system, beginning in 2017, USPS ceased to pay annual premium costs for its post-1971 current annuitants directly to the Employees and Retired Employees Health Benefits Fund. Instead, these premium payments are paid from balances of this account. Payments for a proportion of the premium costs of USPS annuitants' pre-1971 service continues to be paid by the general fund of the Treasury through the Government Payment for Annuitants, Employees Health Benefits account.

Under the Postal Accountability and Enhancement Act, USPS was required to make a stream of payments set in statute through 2016 toward paying down retiree health benefit unfunded liabilities, as well as pay annual Federal Employees Health Benefits Program premiums for current retirees. Also under current law, starting in 2017, USPS must pay the per capita accruing costs (or normal cost) to fund future retiree health benefits of current employees and a 40-year amortization of the remaining unfunded liability for current retirees. The Budget reflects that USPS defaulted on the statutorily required payments since 2012. These defaults are not factored into the 40-year amortization schedule starting in 2017, but remain on

USPS's financial statements in each year as outstanding liabilities. The 2020 Budget assumes USPS will continue to default on the statutorily required amortization payments in 2019 and beyond, as well as not financing the per capita accruing cost.

POSTAL SERVICE RETIREE HEALTH BENEFITS FUND

(Legislative proposal, subject to PAYGO)

Outlays from the Postal Service Retiree Health Benefits Fund would decrease under proposals in the 2020 Budget that impact the cost and cost sharing structure of health insurance in the Federal Employees Health Benefits Program (FEHBP). If these proposals are enacted in 2020, they will begin to financially impact the FEHBP, and thus the Postal Service Retiree Health Benefits Fund in 2022.

*Budget Program.*—The Office of Personnel Management (OPM) is authorized to use revolving funds without fiscal year limitations to conduct investigations, training, and other functions that OPM is authorized or required to perform on a reimbursable basis. OPM operates several programs, which are funded by fees or reimbursement payments collected from other agencies and other payments. These currently include the National Back-

## REVOLVING FUND—Continued

ground Investigations Bureau (NBIB), which operates OPM's background investigations program, and the Human Resources Solutions (HRS), under which OPM provides services, either directly or through private sector partners, on various human resources issues. The following programs are currently authorized to use revolving funds: National Background Investigations Bureau (NBIB), Suitability Executive Agent (SuitEA), Human Resources Solutions (HRS)—including USAJOBS, Enterprise Human Resources Data Warehouse (EHRD), Human Resources Line of Business (HRLoB), and Human Resources Tools and Technology (HRTT).

*National Background Investigations Bureau.*—NBIB provides personnel background investigative services on a fee-for-service basis to assist its Federal agency customers in determining individuals' suitability and fitness for Federal civilian, military, and contract employment, eligibility for logical and physical access to agency systems and facilities, and eligibility for access to classified national security information or to hold a national security sensitive position. Effective in 2020, NBIB will move from OPM to the Department of Defense (DOD). The National Defense Authorization Act (NDAA) for Fiscal Year 2018 (P.L. 115–91), section 925, stated that the Secretary of Defense has the authority to conduct all types of background investigations for DOD personnel and mandated that, not later than October 1, 2020, the Secretary of Defense shall commence carrying out its background investigations implementation plan developed pursuant to 951(a)(1) of the 2017 NDAA (P.L. 114–328). In June 2018, the Administration released *Delivering Government Solutions in the 21st Century: Reform Plan and Reorganization Recommendations*, which identified its intent to keep the NBIB background investigation mission together, subsequently realigning the entire program from OPM to DOD. OPM, DOD, and NBIB, among other stakeholders, are working collaboratively to ensure continued efficient and effective delivery of high quality background investigation products and services to the Federal Government during the move from OPM to DOD. In 2020, financial activity of NBIB in this account represents work performed to complete investigation requests received prior to October 1, 2019.

*Suitability Executive Agent.*—SuitEA was established as a distinct program office within OPM in December 2016 to strengthen the effectiveness of suitability vetting across the Government by providing a focal point within OPM for leadership, process improvement, and modernization while continuing to perform adjudicative operations benefiting Federal agencies. SuitEA carries out its responsibilities through a policy office responsible for business transformation and modernization of the Government-wide suitability program, supported by an adjudicative operations staff that takes Government-wide action to promote the efficiency and protect the integrity of Federal agencies' operations, and an oversight team that conducts assessments of Federal agencies' performance and makes recommendations for improvement. SuitEA will continue to work with the Performance Accountability Council and the Office of the Director of National Intelligence as the Security Executive Agent to enhance standards for suitability, fitness, and credentialing (SSC) vetting. SuitEA also develops and offers reimbursable, suitability training programs that are compliant with the National Training Standards for Suitability Adjudicators. SuitEA operates a suitability hotline and email box to provide customer support on technical and interpretative matters related to suitability. As the background investigation systems are rebuilt or built new by the Department of Defense, and OPM enhances or builds out Human Resource systems, SuitEA will provide requirements to meet the needs of SSC programs, promote accessibility to shared service offerings and improve information flow to meet the needs of Federal agencies. SuitEA does not anticipate that any of the aforementioned activities will cease due to the move of NBIB-related work to the Department of Defense. These activities and functions will continue to be necessary in 2020 to carry out the responsibilities of the Suitability Executive Agent.

*Human Resources Solutions.*—HRS is a reimbursable services organization offering a complete range of tailored and standardized human resources

products and services designed to meet the unique and dynamic needs of the Federal Government. HRS directly supports OPM's charge of ensuring the Federal Government has an effective civilian workforce via "by Government, for Government" human capital solutions. HRS will continue to provide customer agencies with innovative and competitive, high quality Government-to-Government solutions designed to assist them in attracting and building a high quality public sector workforce, developing effectual leaders and achieving sustainable results. USAJOBS is now located within HRS. The technology and program operation USAJOBS offers Federal agencies and job seekers is a modern platform to support online recruitment, marketing, and a job application solution. HRS plans to complete the USA Staffing upgrade transition. With 99 percent of all job announcements being posted to the new system, only a handful of unique hiring processes operate under the legacy system, and plans are under way to migrate those processes to the new system. HRS is comprised of five program areas operating under two major reimbursable offerings (Government provided and third-party contractor). These program areas are as follows: the Center for Leadership Development, the Federal Staffing Center, HR Strategy and Evaluation Solutions, Human Capital Industry Solutions, and the Center for Management Services (HRS Support Programs).

The Human Resources Tools and Technology Program Management Office (HRS IT PMO or PMO) provides technology support in the form of information technology (IT) systems development and hosting, supplying both internal and external customers a wide variety of information technology services in the human resources arena. The PMO is comprised of lines of business (LOBs) including OPM's Human Resources Solutions, Employee Self Service Systems, and other HRIT and Hosting Support. All of its lines of business contain IT systems that span the HR life cycle and allow the program to sustain itself financially.

HRLOB provides an essential leadership role in the consolidation of agency personnel action processing, benefits management, and payroll systems into HRLOB Shared Service Centers.

The EHRD is comprised of two programs, the electronic Official Personnel Folder (eOPF) and the Enterprise Human Resources Integration Data Warehouse (EHRIDW). These two programs support the E-Government initiative designed to leverage the benefits of information technology. The goal of these two programs is to streamline and automate the collection, aggregation, and sharing of Federal employee HR, payroll, and training information Government-wide. The investment broadly supports the OPM mission by enabling the agency to provide the Federal HR community with access to employee data to improve workforce planning for hiring, skills development, retention strategies and Government-wide policy.

*Inspector General Activities.*—The OPM IG Act (the Act) (P.L. 113–80) extends permitted uses of the Revolving Fund to include financing the cost of audits, investigations, and oversight activities of OPM's Office of the Inspector General. The Act limits the amount of revolving fund resources available to the Office of the Inspector General each year to 0.33 percent of the total budgetary authority estimated for the fund in the year.

*Financing.*—OPM's Revolving Fund account gains spending authority from agreements with other Federal agencies who are seeking the following services: HRS provides a multitude of HR services to other Federal agencies, which include consulting services, training, staffing programs, vendor management, and administrative law judge services. Individual pricing and fee structures for HRS offerings differ because the business models for each of its products and services vary. NBIB offers its Federal customers investigations based on five tiers with an Expandable Focused Investigation model at each tier. The newly established tiered approach increases transparency and clarity into the type of investigation being completed. The price of each type of investigation varies based on the estimated fieldwork and time it will take to complete. Prices are determined and justified using a cost allocation model. The significant cost drivers that impact pricing considerations include Federal and contracted investigative fieldwork, third-party search fees, the accuracy of workload projections, policy changes, and major infrastructure upgrades. SuitEA and CredEA funding

is factored into NBIB pricing and budgeted by the background investigation customers. EHRD provides two primary service offerings on a fee-for-service basis: the eOPF, including deployment and hosting services, and a suite of analytical tools enabling agencies to perform workforce analysis and forecasting. EHRD provides customized eOPF systems to other agencies at additional cost, in which the customer pays for ongoing eOPF maintenance. The pricing structure for eOPF maintenance is a fixed price per license (i.e., electronic folder) and is based on the number of active users at the customer agency. The HRLOB has established public and private Shared Service Centers to provide technology solutions to support multiple agencies with HR IT and HR services and is financed in part by agency contributions from partner agencies.

**Operating Results.**—In 2018, OPM's Revolving Fund businesses revenue total was \$1.862 billion and the expenses total was \$1.595 billion which provided a net gain on operations of \$268 million. The cumulative net position of the fund is a positive \$440 million.

CIVIL SERVICE RETIREMENT AND DISABILITY FUND—Continued

The Civil Service Retirement and Disability Fund (CSRDF) is the oldest and largest of the four trust funds administered by the Office of Personnel Management. The fund is financed and structured very differently from the other three trust funds. It is characterized by permanent indefinite budget authority. Budget authority is the authority to incur obligations and pay expenses which become available to an agency during any fiscal year. Once approved, permanent budget authority is permanently available for all future years. Indefinite budget authority is used when the precise amount of budget authority required cannot be forecast in advance and must thus be determined at some future point in time (e.g., when actual receipts and expenses become known).

The CSRDF covers two Federal civilian retirement systems: the Civil Service Retirement System (CSRS) established on May 22, 1920, and the Federal Employees Retirement System (FERS) established on June 6, 1986. The Retirement Fund is a single plan even though there are two different benefit tiers and funding methods. CSRS is largely a defined benefit plan, covering Federal employees hired prior to 1984. CSRS participants do not participate in the Social Security system. FERS is a three-tiered pension program that uses Social Security as a base, provides an additional basic benefit, and includes the Thrift Savings Plan (TSP). FERS covers employees hired after 1983 and formerly CSRS-covered employees who elected to join FERS.

The Budget proposes that the United States Patent and Trademark Office (PTO) continue to fund the full retirement benefits cost for PTO's employees covered under CSRS.

**Financing.**— CSRS has been financed under a statutory funding method passed by the Congress in 1969. This funding method is based on the static economic assumptions of no future inflation, no future General Schedule salary increases, and a 5.0 percent interest rate. Under CSRS, regular employees contribute 7.0 percent of pay. Law enforcement officers, firefighters, and congressional employees contribute an extra 0.5 percent of pay, and members of the Congress an extra 1.0 percent of pay. Non-United States Postal Service (USPS) agencies match the employee contributions. Also under the static funding method for CSRS, the Treasury pays interest on any static unfunded liabilities that are not being financed by USPS. The Treasury also makes payments to amortize, over a 30-year period, any increases in the static unfunded liability due to salary increases for non-USPS (non-Postal) employees that occurred during the year, and pays for the cost of any benefits attributable to military service for both Postal and non-Postal employees that were paid out during the year.

FERS is funded under a dynamic entry age normal funding method. Employees and agencies together contribute the full amount of the dynamic normal cost rate. The normal cost rate is for the defined benefit plan only, and does not include the cost of Social Security or the TSP. FERS regular employees contribute a percentage of salary that is equal to the contribution rate for CSRS employees—7.0 percent, as set forth above, less the 6.2 percent tax rate under the Old-Age, Survivors and Disability Insurance portion of Social Security. Under FERS, the dynamic normal cost rates are as follows: for regular employees hired before 2013, the rate is 14.5 percent of pay (employee's share of 0.8 percent and employer's share of 13.7 percent); for regular employees hired during 2013 (known as FERS RAE/Revised Annuity Employee), the rate is 15.0 percent of pay (employee's share of 3.1 percent and employer's share of 11.9 percent); the Bipartisan Budget Act of 2013 included a provision to increase the normal cost rate of employee's contribution to FERS for individuals hired after 2013 and to maintain the employer's contribution rate at its current normal cost rate. Any contributions in excess of the amount necessary to satisfy FERS normal cost percentage will be credited to the assets of the fund, thereby reducing the unfunded liability. For regular employees hired after 2013 (known as FERS FRAE/Further Revised Annuity Employee), the rate is 15.1 percent of pay (employee's share of 4.4 percent and employer's share of 11.9 percent).

Effective in 2020, there will be a change in the normal cost rates for Postal FERS Employee/Employer Contributions and non-Postal FERS Employer Contributions. The Board of Actuaries met on June 1, 2017, and recommended subsequent changes to the actuarial economic assumptions for non-Postal agencies, and due to revised regulation, established a separate demographic, economic assumptions for USPS. For regular FERS non-Postal employees (other than RAE and FRAE), the normal cost rate will be 16.8 percent of pay (employee's share, 0.8 percent, and employer's share, 16.0 percent). Regular FERS Postal employees will be 15.5 percent of pay (employee's share, 0.8 percent, and employer's share, 14.7 percent). For FERS RAE non-Postal employees, the normal cost rate will be 17.3 percent of pay (employee's share, 3.1 percent, and employer's share, 14.2 percent). FERS RAE Postal employees will be 15.9 percent of pay (employee's share, 3.1 percent, and employer's share, 12.8 percent). For FERS FRAE non-Postal employees, the normal cost rate will be 17.5 percent of pay (employee's share, 4.4 percent, employer's share, 14.2 percent, and excess of 1.1 percent). FERS FRAE Postal employees will be 16.1 percent of pay (employee's share, 4.4 percent, and employer's share, 11.7 percent).

Under the Postal Accountability and Enhancement Act (P.L. 109-435), USPS must make annual amortization payments beginning in 2017 to reduce any unfunded liability (UFL) for its obligations under CSRS. These payments, along with similar amortization payments for UFL in FERS are paid to CSRDF.

The 2020 Budget proposes four legislative changes to the Civil Service Retirement and Disability Fund (CSRDF) generating Government-wide savings: 1) utilize a high-5 average salary instead of a high-3 in the computation of new Federal Employees Retirement System (FERS) annuities; 2) eliminate the special annuity supplement for new FERS retirees who do not meet the Social Security minimum retirement age; 3) eliminate the Cost of Living Adjustment (COLA) for FERS retirees and reduce the COLA for Civil Service Retirement System retirees by 0.5 percent; and 4) equalize the employee and employer share of contributions to FERS, changing contribution rates by one percent per year until contributions from the

employer and employee shares combined reach the normal cost level. If enacted, these changes would reduce the amount of outlays from the CSRDF for annuity payments, and transfer more of the cost of financing these benefits to employees. In addition, the Budget proposes to provide new Federal term employees with a more generous TSP defined contribution plan, in lieu of participation in the FERS defined benefit plan.

This display combines the Federal Employees Health Benefit (FEHB) fund and the Retired Employees Health Benefits (REHB) fund. The FEHB fund provides for the cost of health benefits for: 1) active employees; 2) employees who retired after June 1960, or their survivors; 3) annuitants transferred from the REHB fund as authorized by Public Law 93-246; and 4) tribal organizations. The REHB fund, created by the Retired Federal Employees Health Benefits Act of 1960, provides for: 1) the cost of health benefits for retired employees and survivors who were enrolled in a Government-sponsored uniform health benefits plan; 2) the contribution to retired employees and survivors who retain or purchase private health insurance; and 3) expenses of the Office of Personnel Management (OPM) in administering the program.

**Budget program.**—The balance of the FEHB fund is available for payments without fiscal year limitation. Numbers of participants at the end of each fiscal year are as follows:

	2018 actual	2019 est.	2020 est.
Active employees .....	2,119,335	2,103,000	2,103,000
USPS active employees (non-add) .....	428,042	420,000	420,000

In determining a biweekly subscription rate to cover program costs, one percent is added for administrative expenses and three percent is added for a contingency reserve held by OPM for each carrier. OPM is authorized to transfer unused administrative reserve funds to the contingency reserve. The REHB fund is available without fiscal year limitation. The amounts contributed by the Government are paid into the fund from annual appropriations. The number of participants at the end of each fiscal year are as follows:

	2018 actual	2019 est.	2020 est.
Uniform plan .....	46	38	31
Private plans .....	88	73	60
<b>Total .....</b>	<b>134</b>	<b>111</b>	<b>91</b>

**Financing.**—The funds are financed by: 1) withholdings from active employees and annuitants; 2) agency contributions for active employees;

3) Government contributions for annuitants appropriated to OPM; and 4) contributions made by the United States Postal Service in accordance with the provisions of Public Law 101-508. Funds made available to carriers but not used to pay claims in the current period are carried forward as special reserves for use in subsequent periods. OPM maintains a contingency reserve, funded by employee and Government contributions, which may be used to defray future cost increases or provide increased benefits. OPM makes payments to carriers from this reserve whenever carrier-held reserves fall below levels prescribed by OPM regulations or when carriers can demonstrate good cause such as unexpected claims experience or variations from expected community rates. The Budget proposes that the United States Patent and Trademark Office continue to fund the accruing costs associated with post-retirement health benefits for its employees.

EMPLOYEES AND RETIRED EMPLOYEES HEALTH BENEFITS FUND

(Legislative proposal, subject to PAYGO)

The 2020 Budget includes a package of proposals that will improve program efficiency, introduce more accountability and increase competition and choice: 1) Medical Liability Reform would potentially reduce the costs of medical liability and lower insurance premiums of the Federal Employee Health Benefit (FEHB) Program; and 2) modifying the Federal Government contribution rate for premiums to base it on a plan's score from the FEHB Plan Performance Assessment would improve healthcare quality and affordability within the program. The enactment of the proposals in 2020 will not begin to impact program financials until 2022.

ADMINISTRATIVE PROVISIONS—GENERAL SERVICES ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

**SEC. 510.** Funds available to the General Services Administration shall be available for the hire of passenger motor vehicles.

**SEC. 511.** Funds in the Federal Buildings Fund made available for fiscal year 2020 for Federal Buildings Fund activities may be transferred between such activities only to the extent necessary to meet program requirements: Provided, That notice of any proposed transfers shall be transmitted in advance to the Committees on Appropriations of the House of Representatives and the Senate.

**SEC. 512.** Except as otherwise provided in this title, any request for United States Courthouse construction transmitted using funds made available by this Act should: (1) meet the design guide standards for construction as established and approved by the General Services Administration, the Judicial Conference of the United States, and the Office of Management and Budget; (2) reflect the priorities of the Judicial Conference of the United States as set out in its approved 5-year construction plan; and (3) include a standardized courtroom utilization study of each facility to be constructed, replaced, or expanded.

**SEC. 513.** None of the funds provided in this Act may be used to increase the amount of occupiable square feet, provide cleaning services, security enhancements, or any other service usually provided through the Federal Buildings Fund, to any agency that does not pay the rate per square foot assessment for space and services as determined by the General Services Administration in consideration of the Public Buildings Amendments Act of 1972 (Public Law 92-313).

SEC. 514. From funds made available under the heading "Federal Buildings Fund, Limitations on Availability of Revenue", claims against the Government of less than \$250,000 arising from direct construction projects and acquisition of buildings may be liquidated from savings effected in other construction projects with prior notification to the Committees on Appropriations of the House of Representatives and the Senate.

SEC. 515. With respect to the Federal Buildings Fund construction and acquisition and major repair and alteration programs, and with respect to E-Government projects funded under the heading "Federal Citizen Services Fund", the Administrator of General Services shall submit a spending plan and explanation for each project to be undertaken to the Committees on Appropriations of the House of Representatives and the Senate not later than 60 days after the date of enactment of this Act.

SEC. 516. Section 3173(d)(1) of title 40, United States Code, is amended by inserting before the period the following: "or for agency-wide acquisition of equipment or systems or the acquisition of services in lieu thereof, as necessary to implement the Act in compliance with the requirements of paragraph (d)(2)(B)".

SEC. 517. Section 3173(b)(1) of title 40, United States Code, is amended by inserting ", including advance payments," after "Amounts received".

SEC. 518. Section 1078 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91) is amended at the end of subsection (b)(4)(A) by striking "\$250,000,000 for each of fiscal years 2018 and 2019" and inserting in its place "a total of \$500,000,000 for fiscal year 2018 and any subsequent fiscal years".

The Science appropriation provides for NASA's science mission, which is comprised of the agency's Earth and space science programs: Earth Science, Planetary Science, Heliophysics, the James Webb Space Telescope, and Astrophysics. These programs, which are managed by the Science Mission Directorate, focus on three interdisciplinary objectives: discovering the secrets of the Universe; searching for life in the Solar System and beyond; and safeguarding and improving life on Earth. These objectives include research concerning the global Earth system; other planets in the solar system and around other stars; the connections among the Sun, Earth, and heliosphere; and the origin and evolution of planetary systems, the

galaxy, and the universe, including the origin and distribution of life in the universe. Program objectives are pursued through robotic flight missions, ground-based scientific research and data analysis, and the development of new technologies for future missions. Additionally, the Budget funds within Science a lunar robotic exploration program that will support innovative approaches to achieving human and science exploration goals.

The Science appropriation provides for all of the research, development, operations, salaries and related expenses, and other general and administrative activities required to execute the programs within this account. Costs include labor, travel, procurement, and test and fabrication costs. Performance goals associated with these activities are addressed in NASA's detailed budget request.

This appropriation provides for the full costs associated with NASA's Aeronautics Research mission, which aims to expand the boundaries of aeronautical knowledge for the benefit of the nation and the broad aeronautics community. The mission is managed by NASA's Aeronautics Research Mission Directorate, and consists of the following integrated research programs: Airspace Operations and Safety, Advanced Air Vehicles, Integrated Aviation Systems, and Transformative Aeronautics Concepts. Full costs of these programs cover all of the research; development; operations; salaries and related expenses; and other general and administrative activities required to execute the programs. Costs include labor, travel, procurement, test, and fabrication costs. Performance goals associated with these activities are addressed in NASA's detailed budget request.

The FY 2020 President's Budget renames the Space Technology account as Exploration Technology to better reflect the new focus of this account on supporting the Exploration Campaign.

The Exploration Technology appropriation provides for the costs associated with the research and technology development needed for space ex-

ploration. The full costs provide for all of the research, development, operations, salaries and related expenses, and other general and administrative activities required to execute the programs within this account. Costs include labor, travel, procurement, and those associated with fabrication, tests and flight demonstrations.

The programs within Exploration Technology enable and reduce barriers to new exploration missions by drawing on talent from the NASA workforce, academia, small businesses and the broader space enterprise to deliver innovative solutions that dramatically improve technological capabilities for NASA and the Nation. The Exploration Technology appropriation funds several programs: Small Business Innovative Research (SBIR), Small Business Technology Transfer (STTR), Early Stage Innovation & Partnerships, Technology Maturation, and Technology Demonstrations. Performance goals associated with these activities are addressed in NASA's detailed budget request.

The FY 2020 President's Budget has renamed the Exploration account Deep Space Exploration Systems to better reflect the activities in the account.

This appropriation provides for costs associated with the development of systems and capabilities required for human exploration of space. The capabilities include launch and crew vehicles for missions beyond low Earth orbit; providing integrated systems to keep astronauts safe, healthy, and functional during deep space missions; and advancing the tools to increase exploration capabilities and reduce the launch mass and cost of deep space missions. The full costs provide for the research, development, operations, salaries and related expenses, and other general and administrative activities required to execute the programs within this account. Costs include labor, travel, procurement, test, and fabrication costs. Performance goals associated with these activities are addressed in NASA's detailed budget request.

NASA's human deep space exploration programs include the Space Launch System, Orion, Exploration Ground Systems under the Exploration Systems Development theme, as well as the Exploration Research and Development theme which consists of Advanced Exploration Systems, the Gateway, Advanced Cislunar and Space Capabilities, and the Human Research Program.

The Budget proposes to terminate funding for the Office of Science, Technology, Engineering, and Mathematics (STEM) Engagement's portfolio of programs and projects. Unobligated balances previously appropriated

under this heading or the heading "Education" may be used to support close-out costs. Moving forward, a small team at NASA headquarters funded out of Agency Management and Operations will be accountable for strategic direction and coordination of the agency's STEM engagement efforts.

Safety, Security, and Mission Services (SSMS) manages agency-wide mission support functions and some of NASA's unique research facilities.

This appropriation provides for the operations and maintenance, salaries and related expenses, and other general and administrative activities that support all NASA's missions.

Under SSMS, Center Management and Operations includes the basic costs to manage and operate each of the nine NASA field centers and to maintain the technical capabilities required to support the Agency's Mission. The SSMS budget is not directly allocated or aligned to specific program or project requirements, but is centralized for efficient and effective administration and operation of the NASA Centers.

Under SSMS, Agency Management and Operations provides for the management and oversight of corporate programs, the performance of agency-wide activities and functions, and the maintenance of unique research capabilities and facilities. Responsibilities include budget formulation and execution; establishment of management policies, procedures, and performance criteria; evaluation of progress; and coordination and integration of the Agency's activities.

This appropriation provides for the full costs associated with human-related Low Earth Orbit (LEO) and spaceflight operations activities of the agency. The full costs include all labor, travel, procurement, test, and fabrication costs to execute these programs, which provide for all of the research, development, operations, salaries and related expenses, and other general and administrative activities supporting the programs within this account. Major themes within the LEO and Spaceflight Operations account include the International Space Station, Space Transportation, Space and Flight Support, and Commercial LEO Development. Performance goals associated with these activities are addressed in NASA's detailed budget request.

The International Space Station (ISS) is a complex of research laboratories in LEO where America and its international partners, including Russia, Canada, Europe, and Japan, conduct unique scientific and technological investigations in a microgravity environment. The objective of the International Space Station is to support human space exploration and conduct science experiments and technology development unique to the on-orbit attributes of the facility.

Space Transportation's objective is to transport U.S. astronauts and cargo safely back and forth to the ISS and, in the future, to other orbital platforms and destinations. This theme includes the Commercial Crew Program and Crew and Cargo Program. Maintaining the ISS requires a fleet of vehicles and launch locations to transport astronauts, science experiments, critical supplies, maintenance hardware, and propellant to the ISS, and to dispose of waste generated on the ISS. The Commercial Crew Program partners with two U.S. companies, SpaceX and Boeing, to develop and operate safe,

reliable, and affordable crew transportation to LEO. The Crew and Cargo Program purchases cargo transportation to the ISS under commercial resupply services contracts with Northrop Grumman, SpaceX, and Sierra Nevada and purchases crew transportation from Boeing, and SpaceX. Payments to develop and test commercial crew vehicles, and for initial Post Certification Missions (PCMs) for each provider are funded by the Commercial Crew Program, whereas subsequent payments for operational commercial crew missions are funded by the Crew and Cargo Program.

Space and Flight Support is comprised of multiple programs that provide ongoing support for a wide range of services required for safe and successful space mission operations. These programs include Space Communications and Navigation, Communications Services Program, Human Space Flight Operations, Launch Services, and Rocket Propulsion Testing. Services are provided to a wide range of customers including NASA, other U.S. Federal agencies, foreign governments, and industry partners.

Commercial LEO Development will support efforts to expand commercial activities in LEO, with a focus on enabling, developing, and deploying commercial platforms that can be used by NASA and other customers.

This appropriation provides for the operations of the NASA Office of Inspector General. The mission of the Office of Inspector General is to conduct audits and investigations of agency activities to prevent and detect fraud, waste, abuse, and mismanagement. The Inspector General keeps the NASA Administrator and the Congress informed of problems and deficiencies in agency programs and operations.

The Working Capital Fund provides goods and services on a reimbursable basis. The Fund finances four program activities. The first is the Solutions for Enterprise-wide Procurement program, which finances, on an agency-wide basis, scientific and engineering workstation procurement. The second program is the Information Technology Infrastructure Integration Program which consolidates and centralizes management of NASA information technology services in the areas of Tier 1 service desk and ordering, web services and technologies, enterprise business and management applications, integrated network/communications services, end user services, and data center services. The third program, NASA's Shared Services Center, performs selected financial management, human resources, information technology, and procurement services for NASA Headquarters and Centers. The last program, the National Center for Critical Information Processing and Storage, provides federal customers collocation services at a Tier III level with complete redundancy in the electrical distribution system from the national grid to the rack level.

**ADMINISTRATIVE PROVISIONS**

(INCLUDING TRANSFERS OF FUNDS)

Funds for any announced prize otherwise authorized shall remain available, without fiscal year limitation, until the prize is claimed or the offer is withdrawn.

Not to exceed 10 percent of any appropriation made available for the current fiscal year for the National Aeronautics and Space Administration in this Act, or provided for the National Aeronautics and Space Administration under previous appropriations Acts that remain available for obligation or expenditure in fiscal year 2020, may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfers. Any such funds transferred to "Construction and Environmental Compliance and Restoration" for construction activities shall not increase that appropriation by more than 20 percent. Balances so transferred shall be merged with and available for the same purposes and the same time period as the appropriations to which transferred. Any transfer pursuant to this provision shall be treated as a reprogramming of funds under section 504 of this Act and shall not be available for obligation except in compliance with the procedures set forth in that section.

The spending plan required by this Act shall be provided by NASA at the theme and program level. The spending plan, as well as any subsequent change of an amount established in that spending plan that meets the notification requirements of section 504 of this Act, shall be treated as a reprogramming under section 504 of this Act and shall not be available for obligation or expenditure except in compliance with the procedures set forth in that section.

# NATIONAL SCIENCE FOUNDATION

## Federal Funds

### RESEARCH AND RELATED ACTIVITIES

For necessary expenses in carrying out the National Science Foundation Act of 1950 (42 U.S.C. 1861 et seq.), and Public Law 86-209 (42 U.S.C. 1880 et seq.); services as authorized by section 3109 of title 5, United States Code; maintenance and operation of aircraft and purchase of flight services for research support; acquisition of aircraft; and authorized travel; \$5,662,960,000, to remain available until September 30, 2021, of which not to exceed \$500,000,000 shall remain available until expended for polar research and operations support, and for reimbursement to other Federal agencies for operational and science support and logistical and other related activities for the United States Antarctic program: Provided, That receipts for scientific support services and materials furnished by the National Research Centers and other National Science Foundation supported research facilities may be credited to this appropriation.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115-245, as amended). The Research and Related Activities appropriation enables the United States to provide leadership and promote progress across the expanding frontiers of scientific and engineering research and education.

The major research program activities of NSF are:

**Biological Sciences.**—This activity supports understanding how complex living systems function and interact with each other and with non-living systems, which has direct impacts on issues related to the economy, food, human welfare, and the environment. Research in this activity crosses scales from molecules to cells through organisms to ecosystems. This activity's investment portfolio includes projects on understanding the fundamental characteristics of biological energy systems, the changing dynamics of the biosphere, and infrastructure and research resources such as databases, research centers, and observatories, and efforts to broaden participation and develop the next generation of biological researchers.

**Computer and Information Science and Engineering.**—This activity promotes the progress of computer and information science and engineering research and education, and advances the development and use of cyberinfrastructure across the science and engineering research enterprise; promotes understanding of the principles and uses of computing and information technology in society; and contributes to universal, transparent, and affordable participation in a knowledge-based society.

**Engineering.**—Research supported by this activity aims to increase U.S. engineering capability and strength, and focus that capability and strength on areas that are relevant to national problems and long-term needs. This activity also includes small business innovation research.

**Geosciences.**—This activity supports research and associated infrastructure to advance knowledge of the properties and dynamics of the planet on which we live. Research includes understanding the causes and implications of earth system dynamics, as well as disruptive processes such as earthquakes and storms.

**Mathematical and Physical Sciences.**—Research in this activity is directed at increasing understanding of natural laws and phenomena across the astronomical sciences, chemistry, materials sciences, mathematical sciences, and physics. Research support is available in multiple modalities ranging from multi-user facilities and mid-scale instrumentation to individual investigator awards, from sites for undergraduate research experiences to early career faculty development and collaborative and international efforts.

**Social, Behavioral, and Economic Sciences.**—This activity supports research, education, and infrastructure in the social, behavioral, cognitive, and economic sciences and funds the collection and dissemination of statistics on the science and engineering enterprise.

RESEARCH AND RELATED ACTIVITIES—Continued

*Office of International Science and Engineering.*—This activity serves as the focal point of international activities at NSF. In addition to strategic funding and co-funding that targets catalytic partnerships and workforce-building international research opportunities, OISE advances NSF's global science leadership through extensive interactions with U.S. and global counterpart agencies and organizations.

*Office of Polar Programs.*—This activity supports Arctic and Antarctic research and operational science support and other related activities for United States polar research programs, including the funding to reimburse Federal agencies for logistical and other related activities supported by the United States Antarctic Program.

*Integrative Activities.*—This activity supports emerging cross disciplinary research efforts, as well as major research instrumentation and Mid-scale research infrastructure. This activity also provides support for the Science and Technology Policy Institute. The Established Program to Stimulate Competitive Research broadens participation of States and regions in science and engineering by helping institutions expand their research capacity and competitiveness.

The *United States Arctic Research Commission (USARC)* is an independent agency, funded through NSF's appropriations. USARC promotes Arctic research and recommends national Arctic research policies to guide Federal agencies in developing and implementing their research programs in the Arctic region.

The Major Research Equipment and Facilities Construction activity supports the acquisition, construction, and commissioning of unique national research platforms and major research facilities and equipment. Performance of each construction project is measured against an established baseline at regular intervals and at major milestones.

AGENCY OPERATIONS AND AWARD MANAGEMENT

*For agency operations and award management necessary in carrying out the National Science Foundation Act of 1950 (42 U.S.C. 1861 et seq.); services authorized by section 3109 of title 5, United States Code; hire of passenger motor vehicles; uniforms or allowances therefor, as authorized by sections 5901 and 5902 of title 5, United States Code; rental of conference rooms in the District of Columbia; and reimbursement of the Department of Homeland Security for security guard services; \$336,890,000: Provided, That not to exceed \$8,280 is for official reception and representation expenses: Provided further, That contracts may be entered into under this heading in fiscal year 2020 for maintenance and operation of facilities and for other services to be provided during the next fiscal year.*

The Education and Human Resources (EHR) appropriation funds and manages a comprehensive set of programs that further NSF's goals of ensuring a diverse, globally competitive U.S. science, technology, engineering, and mathematics (STEM) workforce, as well as a scientifically literate population. To advance those goals, EHR collaborates with other NSF research units and Federal agencies, and promotes public-private partnerships. EHR supports research on STEM teaching and learning to provide the evidence base for improvements in education at all levels in the STEM disciplines. Supporting development and effective implementation of new learning technologies is also a priority. EHR's pre-K-12 education-research programs, for example, develop and test new instruction materials for students and teachers, which incorporate the latest advances in teaching, learning, and education technologies. STEM teacher-education opportunities occur throughout the full continuum, from pre-service and in-service, through life-long learning. Research programs at the undergraduate level improve curricula, strengthen laboratory courses, enhance faculty effectiveness, and lead education reforms in STEM disciplines. Advanced technological education programs strengthen student preparation for the high-technology workforce. Support of graduate-level STEM education primarily includes fellowships and traineeships to sustain U.S. leadership in global science and technology. All EHR programs aim to broaden participation of groups underrepresented in STEM fields by, for example, improving infrastructure and academic programs at minority-serving institutions. EHR activities also include programs supported by H-1B non-immigrant visa fees, which provide undergraduate and graduate scholarships in STEM disciplines, improve educational opportunities for students, and provide research opportunities for STEM teachers and students.

The Budget proposes authorizing legislation to double the American Competitiveness and Workforce Improvement Act (ACWIA) fee for the H-1B visa program in order to help train American workers and close the skills gap. The proposal would increase the ACWIA fee to \$3,000 per worker for large employers and \$1,500 per worker for small employers. The increased revenue would provide additional funding for DOL job training grants to support apprenticeship. Under the proposal, the allocations for DOL job training grants (50 percent); DOL foreign labor certifications (5 percent); National Science Foundation (NSF) Innovative Technology Experiences for Students and Teachers program (10 percent); and DHS processing costs (5 percent) would remain the same. The NSF allocation for STEM scholarships would decrease from 30 percent to 15 percent, which would maintain absolute funding levels under current estimates. The proposal would initiate a new 15 percent allocation for the Department of Education's Career and Technical Education formula grant.

This account consists of contributions from foreign governments, organizations, and individuals to fund various cooperative efforts in science, research, and education. These efforts include major international projects, such as operation of the Gemini telescopes, and the NSF ocean discovery program. Other smaller activities supported include cooperative research, joint seminars, exchange of senior scientists, short-term research develop-

ment visits, international conferences, and support for certain special functions of NSF and the National Science Board. These funds are not otherwise available.

ADMINISTRATIVE PROVISION

*Not to exceed 5 percent of any appropriation made available for the current fiscal year for the National Science Foundation in this Act may be transferred between such appropriations, but no such appropriation shall be increased by more than 10 percent by any such transfers. Any transfer pursuant to this section shall be treated as a reprogramming of funds under section 504 of this Act and shall not be available for obligation except in compliance with the procedures set forth in that section.*

This account funds the administrative expenses of SBA headquarters and field office operations. Appropriations for the administration of the disaster and business loan programs are transferred to and merged with this account. The 2020 Budget provides \$6.1 million in funding for the continued modernization of the loan management accounting systems, which will improve oversight of SBA's more than \$131 billion portfolio of loans and loan guarantees. Funding is also requested for core agency activities, including information technology investments and human capital development and enterprise-wide technology modernization initiatives including hardware, software and application standardization, mobile shared services implementation, security vulnerability reduction, and infrastructure upgrades. In 2020, the Budget includes \$6 million to upgrade SBA's existing headquarters space pursuant to the approved prospectus for the GSA replacement of the current lease. It also supports \$2.5 million for further systems development needed to implement the Women-Owned Small Business Certification Program, and \$2.5 million to conduct a comprehensive evaluation of the Small Business Investment Company (SBIC) program and develop a plan to ensure that SBICs provide innovative and modern financial services to American small businesses.

The 2020 Budget proposes \$9.1 million in new budget authority for the Office of Advocacy to carry out its statutory duties, including those under the Regulatory Flexibility Act. Pursuant to the funding authorization in Section 1602(c) of the Small Business Jobs Act, SBA is requesting that the funds remain available until expended. The Office of Advocacy's advice and small business research help the Federal Government take into account the concerns of small businesses when it develops policies and regulations. The Office's regional advocates support regulatory flexibility at the State level, work with the regional Regulatory Fairness Boards established by the Small Business Regulatory Enforcement Fairness Act, and promote the use of Advocacy research and data products in the curricula of universities and other schools in their respective regions.

This account supports SBA's core counseling, training and technical assistance programs, including Small Business Development Centers (SBDC), SCORE, Women's Business Centers, Veterans' Business Outreach Centers (VBOC), and Microloan technical assistance, as well as various entrepreneurial development programs and initiatives. These include Entrepreneurial Education, a program designed to train and develop small business owners who are poised for growth; the State Trade Expansion Program (STEP), which helps small businesses tap global markets and expand exports; and Veterans Outreach programs like the Boots to Business program, which provides entrepreneurship training to America's veterans transitioning to civilian life. The Budget also supports other initiatives, such as the HubZone Program and other outreach and contracting activities. In 2020, the Budget proposes the creation of a competitive set-aside within the SBDC program that would reward those centers that most efficiently utilize their resources and provide innovative methods to help entrepreneurs.

SBA is authorized to issue bond guarantees to surety companies for construction, service, and supply contracts or work orders, and to reimburse these sureties up to 90 percent of the losses sustained if the contractor defaults. SBA's guarantees provide an incentive for sureties to issue bonds to small contractors who could not otherwise secure them and compete in the contracting industry. It is estimated that there are sufficient funds in reserve to cover the cost of claim defaults in 2020. Therefore, no new appropriated funds are requested in the Budget.

BUSINESS LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

For the cost of direct loans, \$4,000,000, to remain available until expended: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That subject to section 502 of the Congressional Budget Act of 1974, during fiscal year 2020 commitments to guarantee loans under section 503 of the Small Business Investment Act of 1958 shall not exceed \$7,500,000,000: Provided further, That during fiscal year 2020 commitments for general business loans authorized under section 7(a) of the Small Business Act shall not exceed \$30,000,000,000 for a combination of amortizing term loans and the aggregated maximum line of credit provided by revolving loans: Provided further, That during fiscal year 2020 commitments for loans authorized under subparagraph (C) of section 502(7) of The Small Business Investment Act of 1958 (15 U.S.C. 696(7)) shall not exceed \$1,000,000,000: Provided further, That during fiscal year 2020 commitments to guarantee loans for debentures under section 303(b) of the Small Business Investment Act of 1958 shall not exceed \$4,000,000,000: Provided further, That during fiscal year 2020, guarantees of trust certificates authorized by section 5(g) of the Small Business Act shall not exceed a principal amount of \$12,000,000,000.

In addition, for administrative expenses to carry out the direct and guaranteed loan programs, \$155,150,000 which may be transferred to and merged with the appropriations for Salaries and Expenses.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115-245, as amended). The amounts included for 2019 reflect the annualized level provided by the continuing resolution.

As required by the Federal Credit Reform Act of 1990, as amended, this account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of the business loan

program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

For 2020, the Budget proposes \$159.2 million in new budget authority for the Business Loans Program account. This includes \$155.2 million in administrative expenses funding and \$4.0 million in credit subsidy for the direct Microloan Program to support a program level of \$40 million. The 2020 Budget requests no subsidy appropriation for SBA's business loan guarantee programs, the 7(a), 504 Certified Development Company (CDC), 504 Debt Refinancing, and Small Business Investment Company (SBIC) programs. The Budget supports a program level of \$30 billion in Section 7(a) loan guarantees that provide general business credit assistance, while waiving upfront fees on SBA Express loans to Veterans. The Budget also proposes a program level of \$7.5 billion for the guaranteed loan program authorized by Section 503 of the Small Business Investment Act of 1958 for long-term, fixed-rate financing and a program level of \$1.0 billion for purposes of refinancing existing commercial mortgage and equipment debt authorized by Section 502(7)(C) of the Small Business Investment Act of 1958. The 2020 Budget continues to support innovative financial instruments through the SBA's SBIC program by providing up to \$4 billion in long-term guaranteed loans to support venture capital investments in small businesses. In addition, the Budget supports a \$12 billion program level for the Secondary Market Guarantee (SMG) program, which allows SBA's fiscal agent to pool the guaranteed portion of 7(a) loans and sell the securities to investors, in turn providing liquidity to participating 7(a) program lenders.

The Budget proposes that SBA introduce counter-cyclical policies to its business loan guarantee programs in 2020 by enabling it to adjust fees to cover its anticipated lending and offset administrative costs. In the absence of this flexibility to adjust fees, the 7(a) program will not be able to operate at zero subsidy under current law in 2020. The Budget also proposes to increase the loan limit for SBA Express loans and loans to small manufacturers, and to introduce an annual fee on trust certificate holders to help cover the costs of improving and maintaining the SMG program.

As required by the Federal Credit Reform Act of 1990, as amended, for loans made pursuant to Section 7(b) of the Small Business Act, as amended, this account records the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of the disaster loan program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

Disaster loans made pursuant to Section 7(b) of the Small Business Act provide Federal assistance for non-farm, private sector disaster losses. Through the disaster assistance program, SBA helps homeowners, renters, businesses of all sizes, and non-profit organizations pay for the cost of replacing, rebuilding or repairing property damaged by disasters. The program is the only form of SBA financial assistance not limited to small businesses. The program provides subsidized loans for up to 30 years to borrowers who have incurred uninsured physical losses or economic injury as the result of a disaster.

In 2020, the Budget supports \$1.1 billion in loans, the ten-year normalized average for such loans. The Budget requests \$150.9 million in new budget authority for administrative expenses related to major disasters (pursuant to a determination under section 102(2) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act) and \$26.2 million for administrative expenses related to non-major disasters.

Not to exceed 3 percent of any appropriation made available in this Act for the Small Business Administration under the headings "Salaries and Expenses" and "Business Loans Program Account" may be transferred to the "Information Technology System Modernization and Working Capital Fund" (IT WCF), authorized by Section 1077(b)(1) of title X of division A of the National Defense Authorization Act for Fiscal Year 2018, for the purposes specified in section 1077(b)(3) of such Act, upon the advance approval of the Committees on Appropriations of the House of Representatives and the Senate: Provided, That amounts transferred to the IT WCF under this section shall remain available for obligation through September 30, 2023.

SEC. 522. BUSINESS LOAN PROGRAM FEE PROVISIONS.

(a) Section 7(a)(18) of the Small Business Act (15 U.S.C. 636(a)(18)) is amended by—

- (1) rewriting the parenthetical in paragraph (A) to read as follows: "(other than a loan that is repayable in 1 year or less, which shall have a guarantee fee not to exceed 0.50 percent of the deferred participation of the total loan)";
- (2) striking "\$700,000" and inserting instead "\$500,000" in paragraph (A)(ii);

(3) striking "\$700,000" and inserting instead "\$500,000, but not more than \$1,500,000" in paragraph (A)(iii);

(4) redesignating clause (iv) of paragraph (A) as clause (v); and

(5) adding a new clause (iv) to paragraph (A) that reads as follows: "(iv) A guarantee fee not to exceed 4 percent of the deferred participation share of a total loan amount that is more than \$1,500,00."

(b) Section 7(a)(23) of the Small Business Act (15 U.S.C. 636(a)(23)(A)) is amended by—

(1) rewriting paragraph (A) to read as follows: "(A) IN GENERAL.—With respect to each loan approved under this subsection, the Administration shall assess, collect, and retain a fee, not to exceed 0.55 percent per year of the outstanding balance of the deferred participation share of the loan for a total loan amount of \$1,500,000 or less, or 0.83 percent per year of the outstanding balance of the deferred participation share of the loan for a total loan amount greater than \$1,500,000. Such amount shall be established once annually by the Administration in the Administration's annual budget request to Congress, as necessary to reduce to zero (or, in the discretion of the Administration, less than zero) the cost to the Administration of making guarantees under this subsection. As used in this paragraph, the term "cost" has the meaning given that term in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a)."; and

(2) striking the phrase "to zero" in paragraph (C), and deleting clause (ii) of such paragraph.

(c) Section 7(a)(26) of the Small Business Act (15 U.S.C. 636(a)(26)) is amended by inserting ", at a minimum," before the word "offset".

SEC. 523. LENDING TO SMALL MANUFACTURERS. Section 502(2)(A)(iii) of the Small Business Investment Act of 1958 (15 U.S.C. 696(2)(A)(iii)) is amended by striking "\$5,500,000" and inserting "\$6,500,000".

SEC. 524. REPEAL OF CERTAIN DISASTER PROGRAM AUTHORITIES.

(a) Section 42 of the Small Business Act (15 U.S.C. 657n) is repealed.

(b) Section 7(c) of the Small Business Act (15 U.S.C. 636(c)) is repealed.

(c) Section 12085 of Public Law 111-246 is repealed.

(d) Section 7(a)(31)(H) of the Small Business Act (15 U.S.C. 636(a)(31)(H)) is repealed.

(e) Section 2102(b) of Public Law 114-88 is repealed.

SEC. 525. AMENDMENTS TO 7(m) MICROLOAN PROGRAM. Section 7(m) of the Small Business Act (15 U.S.C. 636(m)) is amended in paragraph (7) by striking subparagraph (B) in its entirety.

SEC. 526. SMALL BUSINESS DEVELOPMENT CENTER AND WOMEN'S BUSINESS CENTER PROGRAM EVALUATIONS.

(a) Section 21(a)(7)(A) of the Small Business Act (15 U.S.C. 648(a)(7)(A)) is amended by—

(1) striking the word "or" at the end of clause (i);

(2) striking the period at the end of clause (ii) and inserting "; or"; and

(3) adding the following new clause: "(iii) the Administrator considers such a disclosure to be necessary for the purpose of conducting a program evaluation."

(b) Section 29(n)(1) of the Small Business Act (15 U.S.C. 656(n)(1)) is amended by—

(1) striking the word "or" at the end of subparagraph (A);

(2) striking the period at the end of subparagraph (B) and inserting "; or"; and

(3) adding the following new subparagraph: "(C) the Administrator considers such a disclosure to be necessary for the purpose of conducting a program evaluation."

SEC. 527. INCREASED EXPRESS LOAN LIMIT.—Section 7(a)(31)(D) of the Small Business Act (15 U.S.C. 636(a)(31)(D)) is amended by striking "\$350,000" and inserting "\$1,000,000".

SEC. 528. CHANGES TO 7(a) SECONDARY MARKET FEE PROVISIONS.

(a) Section 5(g)(2) of the Small Business Act is amended by—

(1) renumbering the current paragraph as subparagraph (A); and

(2) adding a new subparagraph (B) to read as follows: "(B) With respect to the Administration's guarantee of the timely payment of the principal and interest on the trust certificates issued under this subsection, the Administration may assess, collect, and retain an annual fee, in an amount established once annually by the Administration in the Administration's budget request to Congress, not to exceed 0.05 percent per year of the outstanding balance of such trust certificates. The fee shall, at a minimum, offset the cost (as that term is defined in section 502 of the Federal Credit Reform Act of 1990) to the Administration of such guarantee, and any amounts received that exceed the cost of the timely payment guarantee shall be maintained in accordance with the Federal Credit Reform Act. The fee shall be payable solely by the holders of such trust certificates and shall not be charged to any borrower whose loan is represented in the secondary

*market. The Administration may contract with an agent to carry out, on behalf of the Administration, the assessment and collection of this fee. The fee shall be*

*deducted from the amounts otherwise payable to such holders of the trust certificates."*

Title XVI of the Social Security Act established a Supplemental Security Income (SSI) program to provide monthly cash benefits as a federally guaranteed minimum income for low-income individuals who are aged, blind, or disabled. A portion of these funds may be used to fund evaluation of research projects, such as the Promoting Readiness of Minors in SSI (PROMISE) pilot, which would improve the outcomes of children receiving SSI and their families.

Public Law 111-5 provided funding to process disability and retirement work, to replace the National Computer Center, and to administer \$250 economic recovery payments to eligible Social Security and Supplemental Security Income beneficiaries. The funds for administering the \$250 economic recovery payments were obligated by the end of the first quarter of 2011, as payments ended on December 31, 2010. All obligations since 2012 are for the replacement of the National Computer Center. SSA received a Presidential Waiver on December 28, 2012, allowing the agency to retain and continue to obligate funds appropriated for expenses of the replacement of the National Computer Center.

The Limitation on Administrative Expenses (LAE) account provides resources for Social Security to administer the Old-Age and Survivors Insurance (OASI) and Disability Insurance (DI) programs, the Supplemental Security Income (SSI) program, the Special Benefits for Certain World War II Veterans program, and certain health insurance functions for the aged and disabled. Public Law 114-10 prohibits displaying, coding, or embedding Social Security numbers on a beneficiary's Medicare card. In order to fund implementation costs to comply with this provision, SSA received \$98 million funded incrementally from FY 2015 to FY 2018.

The request in 2020 for program integrity activities builds on SSA's success in reducing program costs by ensuring that only individuals still eligible for benefits continue to receive them. The agency uses continuing disability reviews (CDR) to determine whether an individual continues to qualify for DI and/or the SSI program. SSA estimates that CDRs conducted in 2020 will yield a return on investment (ROI) of about \$8 on average in net Federal program savings over 10 years per \$1 budgeted for dedicated program integrity funding, including OASDI, SSI, Medicare and Medicaid program effects. Similarly, SSA estimates indicate that non-medical redeterminations conducted in 2020 will yield a ROI of about \$3 on average of net Federal program savings over 10 years per \$1 budgeted for dedicated program integrity funding, including SSI and Medicaid program effects.

The Balanced Budget and Emergency Deficit Control Act (BBEDCA) of 1985, as amended, authorizes adjustments to the discretionary spending limits through 2021 for administrative program integrity activities at the Social Security Administration. The Budget includes the authorized \$1,309 million cap adjustment for 2020. To ensure full funding of the cost increases, this cap adjustment is permissible only if the base level for CDRs and SSI redeterminations is funded at \$273 million. The cap adjustment may also fund cooperative disability investigation units, and Special Assistant U.S. Fraud Attorneys. To continue to support these important anti-fraud activities, appropriations language provides for SSA to transfer up to \$10 million to the SSA Office of the Inspector General to fund CDI unit team leaders. SSA will conduct 674,000 full medical CDRs and approximately 2.8 million SSI redeterminations of eligibility in 2020. With access to program integrity cap adjustments, SSA is on track to remain current with program integrity workloads throughout the budget window. See additional discussion in the Budget Process chapter in the Analytical Perspectives volume.

The Budget proposes offsetting collections from fees for replacement Social Security cards (estimated at \$270 million in FY 2020).

The Architectural and Transportation Barriers Compliance Board (Access Board) was established by section 502 of the Rehabilitation Act of 1973. The Access Board is responsible for developing guidelines under the Americans with Disabilities Act, the Architectural Barriers Act, and the Telecommunications Act. These guidelines ensure that buildings and facilities, transportation vehicles, and telecommunications equipment covered by these laws are readily accessible to and usable by people with disabilities. The Board is also responsible for developing standards under section 508 of the Rehabilitation Act for accessible electronic and information technology used by Federal agencies and standards under section 510 of the Rehabilitation Act for accessible medical diagnostic equipment. In addition, the Access Board enforces the Architectural Barriers Act, and provides training and technical assistance on the guidelines and standards it develops.

The Board also has additional responsibilities under the Help America Vote Act. The Board serves on the Board of Advisors and the Technical Guidelines Development Committee, which helps the Election Assistance Commission develop voluntary guidelines and guidance for voting systems, including accessibility for people with disabilities.

The Administrative Conference of the United States is an independent agency that assists the President, the Congress, the Judicial Conference, and Federal agencies in improving the regulatory and legal process through consensus-driven applied research. The Conference analyzes the administrative law process and, among its many activities, issues formal recommendations for improvements that reduce costs to government agencies, promote effective public participation in the rulemaking process, and reduce unnecessary litigation. The Conference is a public-private partnership comprised of senior government officials and private sector leaders in law, business, and academia.

The Appalachian Regional Commission (ARC) was established as a Federal-State partnership in 1965 to invest in sustainable economic development in the 420-county Appalachian Region. The Commission is comprised of 13 members representing the states in the region and a Federal Co-Chairman, who represents the Federal Government. ARC's mission is to help the Appalachian Region plan and coordinate regional investments and target resources to those communities with the greatest needs by innovating, partnering, and investing to build community capacity and strengthening economic growth.

ARC's activities include area development, technical assistance, capacity-building, research, and coordination of regional investments and initiatives. ARC also assists communities through support of 73 multi-county Local Development Districts (LDDs) that assist local governments in implementing economic and community development strategies. In addition, ARC administers a competitive grant program for communities adversely impacted by the declining use of coal to develop economic diversification activities in emerging opportunity sectors.

*Salaries and expenses.*—In this Federal-State partnership, the Federal Government supports the Federal staff and contributes half of the administrative expenses of a professional staff that works with the States to operate the program. The other half of these non-Federal employee expenses are provided by member States.

The Consumer Financial Protection Bureau (CFPB) was established under Title X of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111-203) as an independent bureau in the Federal Reserve System. The Act consolidated authorities previously shared by seven Federal agencies under Federal consumer financial laws into the CFPB and provided the Bureau with additional authorities to conduct rulemaking, supervision, and enforcement. Funding required to support the CFPB's operations is obtained primarily through transfers from the Board of Governors of the Federal Reserve System. Pursuant to the Act, the CFPB is also authorized to collect civil penalties in any judicial or administrative action under Federal consumer financial laws. These amounts are main-

tained and displayed in a separate account titled "Consumer Financial Civil Penalty Fund."

Independent actuarial projections show the CIARDS Fund with an unfunded liability of \$4.4 billion. To ensure that the Fund remains solvent and authorized payments to beneficiaries continue, the Budget proposes \$514 million in 2020. This amount reflects the amortized cost of recapitalizing the CIARDS Fund over twenty years.

**CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD**

*Federal Funds*

SALARIES AND EXPENSES

For necessary expenses in carrying out activities pursuant to section 112(r)(6) of the Clean Air Act, \$10,200,000: Provided, That these funds shall be available only for the purposes of the closure of the Chemical Safety and Hazard Investigation Board (Board): Provided further, That notwithstanding any other provision of law, no-year funds made available to the Board under title III of Public Law 108-199 and title III of Public Law 108-447 may be used only if unforeseen costs of closure arise.

Note.—A full-year 2019 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2019 (Division C of P.L. 115-245, as amended). The Chemical Safety and Hazard Investigation Board, as authorized by the Clean Air Act Amendments of 1990, became operational in 1998. It is an independent, non-regulatory agency that promotes chemical safety and accident prevention through investigating chemical accidents; making recommendations for accident prevention; conducting special studies; broadly disseminating its findings to industry and labor organizations; and informing stakeholder discussions on chemical safety and on actions taken by the Environmental Protection Agency, the Department of Labor, and other entities to implement Board recommendations. The President's Budget proposes to eliminate funding for several independent agencies, including the Chemical Safety and Hazard Investigation Board, as part of the Administration's plans to move the Nation towards fiscal responsibility and to redefine the proper role of the Federal Government. The amount requested will fund an orderly closeout of the agency beginning in 2020. As authorized by law, the Board will submit a concurrent request for 2020 to the Congress and OMB.
