Each department and agency funded in this Act shall follow the directions set forth in this Act and the accompanying explanatory statement, and shall not reallocate resources or reorganize activities except as provided herein. Reprogramming procedures shall apply to: funds provided in this Act; unobligated balances from previous appropriations Acts that are available for obligation or expenditure in fiscal year 2017; and non-appropriated resources such as fee collections that are used to meet program requirements in fiscal year 2017. These procedures are specified in section 505 of this Act.

Any reprogramming request shall include any out-year budgetary impacts and a separate accounting of program or mission impacts on estimated carryover funds. Any program, project or activity cited in this statement, or in the House report or the Senate report and not changed by this Act or statement, shall be construed as the position of the Congress and shall not be subject to reductions or reprogramming without prior approval of the Committees. Further, any department or agency funded in this Act that plans a reduction-in-force shall notify the Committees by letter no later than 30 days in advance of the date of any such planned personnel action.

When a department or agency submits a reprogramming or transfer request to the Committees and does not receive identical responses, it shall be the responsibility of the department or agency seeking the reprogramming to reconcile the differences between the two bodies before proceeding. If reconciliation is not possible, the items in disagreement in the

reprogramming or transfer request shall be considered unapproved. Departments and agencies shall not submit reprogramming notifications after July 1, 2017, except in extraordinary circumstances. Any such notification shall include a description of the extraordinary circumstances.

In compliance with section 533 of this Act, each department and agency funded in this Act shall submit spending plans, signed by the respective department or agency head, for the Committees' review not later than 45 days after enactment of this Act.

Earth Observing Nanosatellite-Microwave (EON-MW).—Within funds provided, NOAA may advance the EON-MW mission, provided that doing so does not negatively impact Polar Follow-On.

Constellation Observing System for Meteorology, Ionosphere and Climate-2 (COSMIC-2)/Global Navigation Satellite System – Radio Occultation (GNSS-RO)—The Act does not include funding for the second set of COSMIC-2 sensors as NOAA has not confirmed launch services for this proposed polar constellation. The Committees expect NOAA to fully evaluate competitively purchased commercial weather data as a method to acquire new radio occultation (RO) data. Within 90 days of enactment of this Act, NOAA shall submit an analysis of options for acquiring polar RO data that includes a cost analysis of all alternatives and demonstrates that NOAA has thoroughly reviewed potential commercial RO sources. If the plan proposes moving forward with additional COSMIC-2 satellites, the plan shall include the total cost to the U.S. government of developing, procuring, launching, and operating COSMIC-2 polar orbiting satellites, including how they would be launched and what Federal agency would incur that cost.

High Performance Computing.—Senate language regarding collaborative high performance computing is modified to provide that within funding for OAR Research Supercomputing, \$14,000,000 shall be used for such purposes.

As a modification to Senate report language, ATF is directed to expeditiously conduct the environmental contaminants and noise studies outlined in the fiscal year 2016 ATF National Center for Explosives Training and Research Report, and provide a timeline for completing these studies and reporting the findings to the Committees on Appropriations as part of the Department's spending plan.

This amount also includes \$73,000,000 scored as mandatory for Public Safety Officer Benefits.

The agreement includes a limitation on obligations from the Crime Victims Fund of \$2,573,000,000 as stipulated in section 510 of this Act, which is the three-year average of collections into the fund. As the limitation has been significantly increased from \$745,000,000 in fiscal year 2014, collections have slowed based on the most recent estimate by the Congressional Budget Office, resulting in balances in the fund declining. The agreement to base the limitation on average collections will help ensure solvency of the fund.

In lieu of providing base funding for Tribal Assistance, Tribal Youth, and Tribal Resources Grant Program, section 213 of the agreement includes a 7 percent set-aside, which will provide funding for these programs.

The Department is directed to submit a report, not later than 90 days after enactment of this Act, detailing the amount of DOJ grant funding for the past three fiscal years allocated for assistance in persistent poverty counties, as defined in section 539 of this Act.

TITLE III SCIENCE

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

This Act includes \$5,555,000 for the Office of Science and Technology Policy.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

This Act includes \$19,653,300,000 for the National Aeronautics and Space Administration (NASA). The agreement clarifies that NASA shall continue to provide information to the GAO for its assessment of selected large-scale projects, to include any technology demonstration activities or communications and tracking services and related infrastructure refreshment activities, which have life cycle costs that exceed \$250,000,000. The agreement does not include House direction regarding Federally Funded Research and Development Centers. Instead, NASA is encouraged to increase and strengthen partnerships between the NASA Centers and academia.

Continuity.—Over the past decade, Congress has consistently reaffirmed through both funding and policy its commitment to a balanced NASA portfolio that enhances aeronautics and aerospace, enables breakthrough scientific discoveries, promotes the development of commercial spaceflight, and expands human and robotic exploration through missions only NASA can undertake. NASA's diverse portfolio cannot be undertaken efficiently, effectively, and safely during times of budgetary and policy uncertainty. Maintaining an appropriate funding plan to achieve mission goals is crucial to avoid needless delays and unnecessary additional costs.

INSERT 25A

SCIENCE

This Act includes \$5,764,900,000 for Science.

Earth Science.—This Act includes \$1,921,000,000 for Earth Science. In lieu of House language regarding prioritization, the agreement includes \$90,000,000 for the Pre-Aerosol, Clouds, and Ocean Ecosystem mission and \$130,900,000 for LandSat-9.

Planetary Science.—This Act includes \$1,846,000,000 for Planetary Science. Of this amount, \$363,000,000 is for Outer Planets, of which \$275,000,000 is for the Europa mission as

outlined by the House. Senate language regarding an analysis of options regarding Europa is not included. The agreement also provides \$284,700,000 for Planetary Research, including \$60,000,000 for Near Earth Object Observations as directed by the Senate; \$224,800,000 is for Discovery; \$136,500,000 is for New Frontiers; and \$190,000,000 is for Technology. Also included is \$647,000,000 for Mars, including \$408,000,000 for the Mars 2020 mission as directed by the House. The agreement adopts House language regarding a Mars helicopter technology demonstration but directs that if this activity will delay the overall Mars 2020 mission, that it not be included as part of Mars 2020.

Astrophysics.—This Act includes \$750,000,000 for Astrophysics. Given the restrained funding in this agreement for Astrophysics, the agreement supports continued appropriate low level exoplanet technology development for a starshade. The recommendation also includes \$105,000,000 for the Wide-Field Infrared Survey Telescope (WFIRST) and retains Senate language regarding a cost cap for this mission and includes up to \$5,000,000 as directed by the Senate for segmented aperture telescope activities. The agreement also provides \$85,200,000 for the Stratospheric Observatory for Infrared Astronomy and \$98,300,000 for the Hubble Space Telescope.

James Webb Space Telescope (JWST).—This Act includes \$569,400,000 for JWST.

Heliophysics.—This Act includes \$678,500,000 for Heliophysics. In lieu of Senate language on the Diversify, Realize, Integrate, Venture, Educate initiative, the agreement supports continued implementation of this program.

Education and Public Outreach (EPO).—The recommendation includes \$37,000,000 for STEM education programs, to be derived equally from Planetary Science and Astrophysics. This activity shall continue to be administered by the Astrophysics Division.

AERONAUTICS

This Act includes \$660,000,000 for Aeronautics. Within these amounts, up to \$169,400,000 is provided for the Airspace Operations and Safety Program as described by the House.

SPACE TECHNOLOGY

This Act includes \$686,500,000 for Space Technology. Within this amount, \$35,000,000 is for nuclear propulsion; \$30,000,000 is for small launch capabilities; \$25,000,000 is for additive manufacturing; \$25,718,000 is for optical communications; and \$66,600,000 is for solar electric propulsion activities.

EXPLORATION

Exploration.—This Act includes \$4,324,000,000 for Exploration. The agreement directs NASA to continue advanced propulsion; asteroid deflection; and grappling technologies associated with the asteroid redirect mission but that these activities should not distract from the overarching goal of sending humans to Mars. The agreement provides up to \$75,000,000 for habitation augmentation activities to support human exploration beyond low Earth orbit.

SPACE OPERATIONS

Space Operations.—This Act provides \$4,950,700,000 for Space Operations. The agreement clarifies House language regarding the International Space Station and that efforts should focus on maintaining a U.S. presence in low Earth orbit in order to continue research in a microgravity environment. The recommendation includes up to \$20,000,000 for 21st Century Space Launch Complex program activities and provides that no less than half of 21st Century Space Launch Complex funding shall be for the Wallops Flight Facility as described in the Senate report.

Commercial Crew.—This Act provides up to \$1,184,800,000 for NASA's Commercial Crew program. The Committees are aware that Commercial Crew milestones have slipped and that concerns have been raised with respect to safety and appropriate NASA oversight. The Committees emphasize and underscore House and Senate language regarding human spaceflight safety and direct NASA to notify the Committees if safety concerns are not addressed as directed by NASA.

Commercial Cargo.—The agreement provides up to the requested amount of \$1,028,000,000 to fund domestic cargo resupply flights. Over the past year, both providers under their CRS-1 contracts have returned to flight after experiencing the loss of vehicles and NASA payloads. Despite the successful resumption of cargo flights, NASA has chosen to rely

on proven vehicles for delivery of valuable or unique cargo. As regular cargo flights are resumed, NASA is encouraged to continue flights from facilities where NASA has invested significant resources to enable commercial cargo flights.

Space shuttle closeout costs.—This Act does not include funds for space shuttle closeout costs. The Committees understand that NASA has reached an agreement on amounts necessary for closure of contracts related to the former space shuttle program and has determined that no additional costs will be charged to the government after September 30, 2016, and that no additional funds will be required in fiscal year 2017 and beyond.

EDUCATION

This Act includes \$100,000,000 for Education, including \$18,000,000 for the Experimental Program to Stimulate Competitive Research; \$40,000,000 for Space Grant; \$32,000,000 for the Minority University Research and Education Project; and \$10,000,000 for STEM Education and Accountability Projects.

SAFETY, SECURITY AND MISSION SERVICES

This Act includes \$2,768,600,000 for Safety, Security and Mission Services, including \$39,100,000 for Independent Verification and Validation services as directed by the Senate. Given infrastructure revitalization language included in Public Law 115-10, the *National Aeronautics and Space Administration Transition Authorization Act of 2017*, the agreement does not include House language regarding a facilities revitalization plan. The agreement adopts Senate language regarding cybersecurity, strong governance, and information security and provides no less than the fiscal year 2016 level for these activities. The agreement acknowledges that recoveries of prior year obligations are available in this account.

CONSTRUCTION AND ENVIRONMENTAL COMPLIANCE AND RESTORATION

This Act includes \$360,700,000 for Construction and Environmental Compliance and Restoration.

OFFICE OF INSPECTOR GENERAL

This Act includes \$37,900,000 for the Office of Inspector General.

ADMINISTRATIVE PROVISIONS
(INCLUDING TRANSFERS OF FUNDS)

This Act includes the following administrative provisions for NASA: a provision that makes funds for announced prizes available without fiscal year limitation until the prize is claimed or the offer is withdrawn; a provision that establishes terms and conditions for the transfer of funds, including a separate exception for transfers to the Construction and Environmental Compliance and Restoration account; and a provision that subjects the NASA spending plan and specified changes to that spending plan to reprogramming procedures under section 505 of this Act.

NATIONAL SCIENCE FOUNDATION

This Act includes \$7,472,215,000 for the National Science Foundation (NSF).

RESEARCH AND RELATED ACTIVITIES

This Act includes \$6,033,645,000 for Research and Related Activities. Within this amount, no less than \$160,000,000 is for the Experimental Program to Stimulate Competitive Research.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

This Act includes \$209,000,000 for Major Research Equipment and Facilities Construction. Within this amount, \$121,880,000 is provided to facilitate planning and construction of three Regional Class Research Vessels.

EDUCATION AND HUMAN RESOURCES

This Act includes \$880,000,000 for Education and Human Resources, including \$35,000,000 for the Historically Black Colleges and Universities Program; \$51,880,000 for STEM+C; \$46,000,000 for the Louis Stokes Alliance for Minority Participation; \$14,000,000 for the Tribal Colleges and Universities Program; \$62,500,000 for the Advanced Informal STEM Learning program; and \$55,000,000 for CyberCorps: Scholarships for Service, including no less

than \$7,500,000 for qualified community colleges as directed by the Senate. The agreement also directs NSF to establish a Hispanic Serving Institution (HSI) program at no less than \$15,000,000 as authorized in 42 U.S.C. 1862o-12. The agreement encourages NSF to use this program to build capacity at institutions of higher education that typically do not receive high levels of NSF grant funding. GENERAL PROVISIONS

(INCLUDING RESCISSIONS)

This Act includes the following general provisions:

Section 501 prohibits the use of funds for publicity or propaganda purposes unless expressly authorized by law.

Section 502 prohibits any appropriation contained in this Act from remaining available for obligation beyond the current fiscal year unless expressly provided.

Section 503 provides that the expenditure of any appropriation contained in this Act for any consulting service through procurement contracts shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law or existing Executive order issued pursuant to existing law.

Section 504 provides that if any provision of this Act or the application of such provision to any person or circumstance shall be held invalid, the remainder of this Act and the application of other provisions shall not be affected.

Section 505 prohibits a reprogramming of funds that: (1) creates or initiates a new program, project or activity; (2) eliminates a program, project, or activity; (3) increases funds or personnel by any means for any project or activity for which funds have been denied or restricted; (4) relocates an office or employee; (5) reorganizes or renames offices, programs or activities; (6) contracts out or privatizes any function or activity presently performed by Federal employees; (7) augments funds for existing programs, projects or activities in excess of \$500,000 or 10 percent, whichever is less, or reduces by 10 percent funding for any existing program,

project, or activity, or numbers of personnel by 10 percent; or (8) results from any general savings, including savings from a reduction in personnel, which would result in a change in existing programs, projects, or activities as approved by Congress; unless the House and Senate Committees on Appropriations are notified 15 days in advance of such reprogramming of funds.

Section 506 provides that if it is determined that any person intentionally affixes a “Made in America” label to any product that was not made in America that person shall not be eligible to receive any contract or subcontract with funds made available in this Act. The section further provides that to the extent practicable, with respect to purchases of promotional items, funds made available under this Act shall be used to purchase items manufactured, produced, or assembled in the United States or its territories or possessions.
